Pending:

- Accreditation follow-up: "Conclusion: While the college is clearly a mission-driven institution, the written mission statement does not reflect its actual practices and priorities, especially in the area of its intended population. The college could improve the mission statement by looking at its actual practices and making sure that the statement addresses the college's purposes, student learning, and intended student population. In addition, the college may wish to formalize a periodic mission review process." (p. 14)
- Review of proposed guidelines for learning communities (*waiting for feedback from Academic Senate before proceeding*)
- Student Equity Committee (Myers)
