<u>C S -Ethical Hacking</u>	M. Murphy
<u>C S -Introduction to Computer Forensics</u>	M. Murphy
<u>C S -IT Essentials</u>	M. Murphy
<u>C S -Ruby & Functional Programming</u>	M. Loceff

REMINDERS:

- ❖ **Grade Options for Courses:** Faculty have three options for credit course grade types: Letter Grade Only, Letter Grade with a Pass/No Pass Option (student may select) and Pass/No Pass Only. Be aware that grade options may have negative affects for some students. Some 4-year institutions will not accept major courses with a "Pass" grade, others will take a "Pass" but give the student grade points as though it is a "C" grade. Please speak with a Counselor or the Articulation Officer if you're unclear about your course's transfer significance.

"WE NEED YOUR FEEDBACK!" ITEMS:

- ❖ **GE Pathways:** A GE pathway is a group of courses that would meet different General Education area requirements while focusing on a unifying theme. The idea behind this is to give students an option to look at one issue through the lens of different disciplines. What do you think? For feedback, please check in with your CCC Rep.
- ❖ **Cross-Listing Courses:** We are discussing formalizing some guidelines for determining the appropriate conditions under which cross-listing courses would be appropriate. Have any comments or suggestions? Please send any and all comments to your CCC Rep or Curriculum Team member.
