- ❖ **State Approval Received:** We have finally received state approval for an AS degree and three Certificates of Achievement in *Geographic Information Systems Technology*, that our curriculum committee approved June 2014. Congratulations to Allison Lenkeit Meezan and the Business and Social Science Division.
- ❖ **New Departments/Subject Areas:** In order to best assist the students by clarifying instructional "threads", there will be two new departments for 2016-17:
 - MTEC (Music Technology) separates the music history and "hands-on instrument" type courses from the tech production of music.
 - EMR (Emergency Medical Response) identifies the CTE thread for certification and entry into other emergency professions.
- ❖ **ADT Reciprocity Agreement:** The purpose of the ADT (Associate Degree for Transfer) legislation was to provide students a pathway from community colleges to CSUs with relative ease. We have discovered that there were no clear "pass-along" guidelines for us to handle courses taken at colleges other than our own. We have developed a policy by which we will clearly assist our students in incorporating course work from other colleges in relation to our ADTs, when appropriate, while maintaining our scholastic integrity. For further information, please contact your Curr Rep for the final document.

FAREWELL & ADIEU

Dear Friends & Colleagues,

Some of you may be unaware that I am retiring September 18th. Although I will be here through the summer, I wanted to take this opportunity to say good-bye and thank you to everyone. I have enjoyed my experiences here as the Curriculum Coordinator and the opportunity I've had to interact with most of you one-on-one.

Your new Curriculum Coordinator, Mary Vanatta, will start July 6th so please come by if you're here during the summer to meet her. I'm leaving you in very good hands.
