Adopted	June 3, 1963
Last Revised	December 4, 2017
Last Reviewed	December 4, 2017

The programs and curricula of the District shall be of high quality, relevant to community and student needs, and evaluated regularly to ensure quality and currency. To that end, the Chancellor shall establish procedures for the development and review of all curricular offerings, including their establishment, modification, or discontinuance.

Furthermore, these procedures shall include:

- primary or joint reliance, as appropriate, of the faculty and Academic Senate in all processes;
- regular review and justification of programs and course descriptions;
- opportunities for training for persons involved in aspects of curriculum development; and
- consideration of job market and other related information for career and technical education programs.

All new programs and program discontinuances shall be approved by the Board of Trustees.

All new programs shall be submitted to the California Community Colleges Chancellor’s Office for approval as required.

Individual degree-applicable credit courses offered as part of a permitted educational program shall be approved by the Board. Non-degree-applicable credit and degree-applicable courses that are not part of an existing approved program must satisfy the conditions authorized by Title 5 regulations and shall be approved by the Board.

Credit Hour

Consistent with federal regulations applicable to federal financial aid eligibility, the District shall assess and designate each of its programs as either a “credit hour” program or a “clock hour” program.

The Chancellor will establish procedures which prescribe the definition of “credit hour” consistent with applicable Title 5 and federal regulations, as they apply to community college districts.

The Chancellor shall establish procedures to assure that curriculum at the District complies with the definition of “credit hour” or “clock hour,” where applicable. The Chancellor shall also establish procedure for using a clock-to-credit hour conversion formula to determine whether a credit hour program is eligible for federal financial aid. The conversion formula is used to determine whether such a credit-hour program has an appropriate minimum number of clock hours of instruction for each credit hour it claims.
