

**Agenda Item Details**

Meeting	Dec 13, 2021 - Organizational and Regular Meeting of the Board of Trustees and Public Hearing on the Transition to Trustee Areas
Category	BUSINESS SERVICES/FINANCE
Subject	22. Environmental Compliance Annual Update (INFORMATION)
Type	Information

**Background and Analysis:**

The District is dedicated to both satisfying the legal regulatory requirements of the Stipulated Judgment, which have been met, and continuing to develop strong environmental programs by going beyond the minimal compliance requirements. Every year certain milestones are accomplished. The specific ones include regulatory inspections with agencies (most notably, the Department of Environmental Health), the Fire department and internal self-inspections. Hazardous waste management remains as a large area of focus and continuously evolves.

The Environmental Health, and Safety department (EH&S) is actively involved with campus renovations and improvement projects and closures that occur in conjunction with renovations or departmental moves and the spending of General Obligation Bond funds. The EH&S department has improved each year by managing the permits, submittals and expenses of the department for the greatest value and least expense to the District.

Attached for your information is a report summarizing the activities of the EH&S department during 2020 and 2021.

Submitted by:	Karen Lauricella, Director, Environmental Health & Safety
Additional contact names:	Susan Cheu, Vice Chancellor, Business Services
Is backup provided?	Yes
