Welcome to Foothill College – a college with a national reputation for academic excellence and innovation, and a family of talented faculty and staff who cares deeply about your success.

As we celebrate our 60th anniversary this year, Foothill College will officially launch its service leadership initiative and provide opportunities for students to serve communities locally and globally while developing their leadership skills.

“The best way to find yourself is to lose yourself in the service of others.”

– Mahatma Gandhi

One of the stated goals in the college’s Educational Master Plan is to encourage student participation in leadership and activities outside the classroom that engage students with the college and the community. Foothill has a commitment to an institutional learning outcome of “community/global consciousness and responsibility” – that is, Foothill believes in creating an environment whereby students learn social perceptiveness, including empathy, cultural awareness, citizenship, ethics, interpersonal skills, personal integrity, and community service.

Studies show a growing gap between the needs of employers and the skills needed in the workforce, leaving far too many quality jobs unfilled. Employer surveys also found that to be successful, students need to be proficient in leadership and non-technical skills, such as emotional intelligence, teamwork, critical thinking, and communications. Furthermore, students need to have a strong sense of community as they navigate work and life.

With the service leadership initiative, Foothill College is redefining its future role in Silicon Valley in ways that will deepen how we can better serve our students, employers, and communities locally and globally. Whether you are just beginning or continuing your studies, many opportunities for involvement in service leadership await you. We encourage you to take advantage of every aspect of Foothill to enrich both your educational and social life, while serving others around you.

As your college president, I am eager to meet you and help you achieve your aspirations. We are here for you! On behalf of the faculty and staff at Foothill, I wish you every success and enjoyment in the pursuit of your academic goals.

## Foothill-De Anza Community College District Mission

The mission of the Foothill-De Anza Community College District is student success. We accomplish this by providing access to a dynamic learning environment that fosters excellence, opportunity, equity and innovation in meeting the various educational and career goals of our diverse students and communities. The district provides high-quality undergraduate education at an affordable price for students and reasonable cost to the state and maintains the primary mission of advancing California through education, training, and workforce improvement.

Located in the heart of Silicon Valley, Foothill-De Anza serves the communities of Cupertino, Los Altos, Los Altos Hills, Mountain View, Palo Alto, Stanford, Sunnyvale and portions of San Jose.

## Foothill College Mission, Vision, Values & Purpose

### Our Mission

Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

*Approved by the Planning & Resource Council (PaRC) in April 2017; Approved by Board of Trustees in May 2017*

### Our Vision

Foothill College educates students from diverse backgrounds that represent the demographics of the Bay Area, with particular attention to underserved and underrepresented populations. Foothill students master content and skills which are critical for their future success. They develop and act upon a sense of responsibility to be stewards of the public good.

### Our Values

- Honesty
- Integrity
- Trust
- Openness
- Transparency

- Forgiveness
- Sustainability

### Our Purpose

The college's purpose is to provide access to educational opportunity for all with innovation and distinction.

### Our Institutional Learning Outcomes

An important aspect of upholding institutional integrity is maintaining focus on the Foothill College institution-level learning outcomes (ILOs), also known as the 4-Cs. These are:

- Communication;
- Computation;
- Creative, Critical and Analytical Thinking; and
- Community/Global Consciousness and Responsibility.

Every course at Foothill College addresses at least one of these ILOs. In addition to incorporating and reflecting the synthesis of the cognitive and affective domains of learning, the ILOs provide a framework for the development of breadth and depth in courses and programs, and are the basis of all learning experiences at Foothill College.

Since the Foothill College Academic Senate and Curriculum Committee adopted the ILOs as the general educational student learning outcomes, the college's general education pattern is designed to integrate the 4-Cs across the curriculum. The Foothill College general education (GE) pattern, inclusive of courses in the seven areas of humanities, English, natural sciences, social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and lifelong understanding, supports the college's ILOs.

Completion of the GE pattern provides students with the depth and breadth of knowledge, and the skills and abilities that will enable them to be productive lifelong learners, ethical human beings and effective citizens.

### **Foothill College Offers:**

- Associate in arts, associate in science, associate in arts-transfer and associate in science-transfer degrees, as well as preparation for transfer to another college, university or postsecondary institution

- Student support services to promote student success

## **Our History**

The Foothill-De Anza Community College District was formed January 15, 1957, following several months of study by citizens groups and the California Department of Education. The district covers an area of about 105 square miles and includes the Palo Alto Unified School, Mountain View-Los Altos Union High School and Fremont Union High School districts.

On September 15, 1958, the district opened a temporary campus on El Camino Real in Mountain View. The Los Altos Hills main campus of Foothill College was completed and opened to students in September 1961.

In 1967, the district opened its second campus, De Anza College, in Cupertino. The two colleges coordinate programs and services, thereby providing our students with the flexibility to enroll in courses at both campuses.

## **Foothill: An Outstanding Community College**

Founded with the hallmark of educational opportunity for all, Foothill College is recognized internationally as one of the nation's most outstanding community colleges. Students of all ages enroll at Foothill for a single class, one- or two-year degree programs, or to complete general education requirements for transfer to four-year universities. Our academic programs lead to associate in arts, associate in science, associate in arts-transfer and associate in science-transfer degrees. They also meet the freshman and sophomore requirements of University of California, California

State University and private education systems. In addition, we offer many professional and technical programs for students seeking re-training or career advancement.

Foothill serves northern Santa Clara County, educating more than 13,000 day and evening students at the main campus, Sunnyvale Center, online and at many community and industry sites each quarter.

## **Sunnyvale Center**

To further meet the educational needs of Silicon Valley residents and businesses, Foothill College operates a state-of-the-art 46,883 square foot campus in Sunnyvale. Conveniently located within the Moffett Business Park, the Sunnyvale Center is easily accessible via freeways 101 and 237 and near a VTA light rail stop. Students may choose from a wide variety of academic programs that focus on emerging and in-demand fields, including computer science, geospatial technology and emergency medical services. The center houses a full complement of services, including admissions, counseling, and a bookstore. For more information and a full listing of programs and courses, please visit [foothill.edu/sunnyvale](http://foothill.edu/sunnyvale).

We value the diversity of students on our campus and continually work to meet the needs of this entire population. Our faculty, staff and administrators believe that teaching a multicultural perspective is just as important as teaching reading, writing and technology in today's world.

### “The Most Beautiful Community College”

The Foothill College campus is located on 122 acres in the rolling foothills of Los Altos Hills. The campus adjoins El Monte Road and Interstate 280, the scenic Junipero Serra Freeway.

The American Institute of Architects has honored Foothill for its outstanding design, and a *San Francisco Chronicle* architecture critic called our campus “the most beautiful community college ever built.” The distinctive Pacific-style architecture harmonizes with the surrounding hillside community, creating a beautiful and informal atmosphere conducive to college study.

### Measure C Campus Improvements

Measures C and E are bond measures to fund renovations to existing college facilities, as well as construct new facilities at Foothill and De Anza Colleges. Voters approved the passage of Measure E in 1999 and the passage of Measure C in 2006. Funding for Measure C projects is generated from general obligation bonds. These funds are not subject to state budget cuts and can only be used for facilities projects. ## Student Services

### Student Success & Support Program

The Student Success & Support Program (3SP) is a state-mandated agreement between you and Foothill College to help you achieve your educational goals. Our responsibility is to provide:

- an admission process;
- orientation to college programs, services and procedures;
- pre-enrollment placement testing;
- counseling for educational planning and course selection;
- continuous follow up of your progress; and
- referrals to support services.

Your responsibility is to:

- choose an educational major at entrance;
- declare a specific educational objective within a reasonable period of enrollment;
- be diligent about class attendance and completing assigned coursework; and
- strive to complete courses and progress toward an educational goal according to Foothill and California standards.

### Orientation

Orientation allows all students to learn important information about Foothill College. It satisfies one of the five required components to be eligible for priority registration (orientation, assessment, declared major, declared qualifying educational goal and a completed educational plan). There are several ways to complete orientation: the on-campus Student Orientation Assessment and Registration (SOAR) event, GO2 Online Orientation in your MyPortal account, *CNSL 5: Introduction to College* or *SPED 8: Introduction to College & Accommodations*.

Students should enroll in *CNSL 5* as it is taught by a counselor who will help you develop a one-year educational plan to meet your educational goal of earning a certificate or associate degree, or transferring to a four-year university. The class provides valuable information about Foothill College services, programs and academic policies. *CNSL 5* is offered each quarter and during summer session. For more information, visit [foothill.edu/counseling](http://foothill.edu/counseling).

### Counseling Center

Foothill counselors can help you:

- set academic and career goals;
- prepare an education plan with course selections;
- resolve personal concerns that may interfere with your ability to succeed; and
- make appropriate referrals as needed.

Counseling appointment services are available to Foothill College students with current and active campuswide identification numbers (CWID). To schedule an appointment, see [foothill.edu/counseling](http://foothill.edu/counseling), visit Room 8302, or call 650.949.7423.

### Transfer Center

The Transfer Center offers services to help students navigate and understand the transfer process. Services include university-transfer resources, transfer workshops, counseling appointments, and visits with university admissions representatives.

Transfer resources include major-related books, publications, college catalogs, access to EUREKA (transfer-guidance software), and internet access for transfer-related research.

Transfer Center workshops include transfer admission guarantees (TAG), essay writing for college applications, applying to colleges/universities, understanding the associate degree for transfer (ADT) and preparing for transfer to a private/out-of-state university.

Throughout the year, the Transfer Center hosts admissions representatives from the University of California, California State University and numerous

private colleges and universities.

Each quarter, a calendar of workshops, events and university tours is posted on the transfer website. For more information, visit the Transfer Center in Room 8329 or visit [foothill.edu/transfer](http://foothill.edu/transfer). To schedule a transfer-counseling appointment, call 650.949.7821.

### Internships

Internships offer a unique opportunity to gain valuable experience under the mentorship of a professional at a Silicon Valley corporation, nonprofit or public agency. Internships enhance your university-transfer application as well as your professional resume.

Foothill College offers internships for students in majors such as psychology, business, engineering, computer science, graphic arts, physical and biological sciences, office administration, multimedia and many others. Internships can be arranged with Bay Area employers and educational institutions. Proof of U.S. citizenship is required at some internship sites. Internships may be paid or unpaid. Some can be arranged for college credit, depending upon department approval.

To get started, email [internships@foothill.edu](mailto:internships@foothill.edu), call 408.745.8062 or visit [foothill.edu/internships](http://foothill.edu/internships).

You may enroll in any NCEL course, NCBS 401A, MATH235, ENGL 209, or ESLL 226 and 227 without an assessment test. To make an appointment, review the retest policy or learn about assessment testing for out-of-area, transferring and online students, visit [foothill.edu/assessment](http://foothill.edu/assessment).

Be prepared! Free study guides and practice tests are available online at [foothill.edu/assessment/assessment/testprep.html](http://foothill.edu/assessment/assessment/testprep.html).

It is highly recommended that you submit your high school transcripts to Admissions & Records for placement consideration. If you would like to satisfy your placement testing requirements with AP scores, EAP results, or college level coursework taken at another institution, you may do so by completing the Admissions and Records' prerequisite clearance process or by meeting with a counselor. For more information, visit [foothill.edu/reg/prereqs](http://foothill.edu/reg/prereqs) or schedule a counseling appointment online at [foothill.edu/counseling](http://foothill.edu/counseling).

Foothill College also offers ability-to-benefit placement testing for the student who lacks a high school diploma and is requesting federal financial aid.

### Foothill Online Learning

Foothill Online Learning features online courses, including lectures, discussion, assignments and tests delivered via the Internet with regular opportunities for electronic interaction with instructors and other

students. To enroll in online classes, you must have access to a computer, the Internet and an e-mail account.

Foothill College may be required to receive state authorization to enroll students who do not reside in California. Many states have either given the college this authorization or do not require authorization. However, some states require significant fees to receive state authorization. Due to the significant and/or recurring fees for state authorization, Foothill College no longer permits a student to enroll if he/she resides in one of the following states: Alabama, Arkansas, Georgia, Maryland, Michigan, Minnesota or Wisconsin.

For more information, visit [foothill.edu/onlinelearning](http://foothill.edu/onlinelearning).

### International Programs

Establishing an international presence is a Foothill College priority. The college has a long history of educating international students since its opening in 1957, and its graduates hail from many diverse corners of the world, from Tonga and Ivory Coast to Kyrgyzstan, Nepal and Latvia.

The International Programs Office caters specifically to international students on F-1 visas. We provide counseling and assistance to more than 1,200 F-1 students from more than 90 different countries. Admission to Foothill is flexible, convenient and

personalized. Applications are accepted three times a year for Fall, Winter and Spring quarters. For admissions requirements and application procedures, access the admissions section at [foothill.edu/international](http://foothill.edu/international). Foothill also hosts international students on other visa types, such as J-1, H-1B, H-4, L-2 or F-2. The college has approximately 1,500 international students on all visa types, earning Foothill a #11 spot in the U.S. on the Institute of International Education's *Open Doors Report* ranking associate degree institutions with the largest and most diverse international student populations. Important: Applicants who do not hold or intend to apply for F-1 status are considered domestic students for application purposes and should apply as non-residents by completing the *Domestic Student Application Form* at [foothill.edu/reg](http://foothill.edu/reg).

The International Programs Office features a team of caring multilingual professionals who ensure that students have an outstanding educational experience at Foothill and in the U.S. Our services include a new student orientation program with comprehensive academic, immigration and cultural counseling; regular immigration advising and seminars by a dedicated advisor regarding regulations that affect F-1 student status from passports, visas, employment, travel and academic issues; Glacier tax-filing assistance program; and medical insurance program.

### **Honors Institute**

For more than 50 years, Foothill College has provided an honors program that offers an enriched academic, cultural and social experience to intellectually inquisitive and motivated students. The Honors Institute offers students an academic environment that promotes critical thinking, analytical writing, and research skills with an innovative and challenging curriculum. Opportunities for participation at cultural events,

conferences and unique honors seminars provide students an intellectual community that encourages and supports them in achieving their goals. The Honors Institute offers stimulating academic opportunities to a previously underserved population, prepares talented and ambitious students for the challenges of higher education, and supports successful transfer to either baccalaureate-granting colleges and universities or expanded career opportunities.

A fundamental goal of the program is to promote self-confidence and increase self-esteem in students who need the encouragement to excel, as well as the courage to continue their education and fulfill their goals. Rather than presenting itself as a selective entity, the Honors Institute welcomes all students and especially encourages students remediating through basic skills courses to strive toward participation in the honors program.

The Honors Institute is flexible, allowing honors students to simply take a few honors courses or choose to complete the honors scholar program. To become an honors scholar, students must complete a minimum of 23 honors units (5 honors courses and 2 honors seminars) and maintain a minimum 3.3 cumulative college GPA. Upon completion, students are awarded with the permanent transcript notation of "honors scholar" which increases their chances of transfer admission, provides scholarship opportunities and gives them eligibility to participate in the UCLA Transfer Alliance Program, UC Irvine Honors to Honors Program and other transfer partnerships.

Foothill College is one of a handful of community colleges in Northern California that is approved for the UCLA Transfer Alliance Program (TAP), which offers students preferred admission to the UCLA College of Letters & Science (typically 60-80% admission rate). UC Irvine also offers guaranteed admission for students who complete the honors scholar program and maintain a minimum 3.7 GPA.

Regardless of their transfer plans, all honors students are encouraged to complete the honors scholar program.

Foothill College honors students typically present at the annual Bay Area Community College Honors Research Symposium (held at Stanford University and UC Berkeley). Foothill honors faculty work closely with honors students to mentor students in their research. Here, honors students present their research to hundreds of other honors students and faculty. Other honors program benefits include specialized honors counseling, specialized workshops, free tickets to local lectures with internationally renowned writers, scientists, artists and politicians, transfer admission guarantees (TAGs), and more.

Students who intend to participate in the Honors Institute simply meet the following requirements:

Writing proficiency:

- Complete *ENGL 1A* or the *ENGL 1S* and *1T* series with a grade of a **B** or better; OR
- Be eligible for *ENGL 1AH* Honors English Composition via the Foothill English Assessment Test.

Academic (GPA) requirement:

- Maintain a cumulative college GPA of 3.3 in at least 10 transferable units; or
- Demonstrate a cumulative high school GPA of 3.5.

Students who are not yet eligible for the program based upon the GPA requirements may participate in the Try an Honors Course Program, which offers students who have completed *ENGL 1A* or *ESLL 26* or *ENGL 1S* and *1T* with a grade of **B** or better, an opportunity to enroll in an honors course (pending space availability).

**Note:** Students who are placed in Foothill's *MATH 1A: Calculus* course via Foothill College placement tests are eligible to enroll in *MATH 1AH: Honors Calculus* before fulfilling the writing proficiency requirements. For more information, see [foothill.edu/honors](http://foothill.edu/honors) or call 650.949.7638 or visit Room 1960.

### **Middle College: The High School Alternative**

Foothill Middle College Program coordinators understand that not all students fit the mold of the traditional high school student. This alternative program works with at-risk students to rekindle the enthusiasm for learning.

The program offers a serious learning environment in which students must take control of their own learning, explore individual interests through more diversified course offerings, and complete high school graduation requirements. Middle College is based at the Main Campus in Room 2152. For an application or more information, visit [foothill.edu/middle](http://foothill.edu/middle).

### **Occupational Training Institute**

The Foothill-De Anza Occupational Training Institute (OTI) offers career training for students who are eligible through assistance programs, including CalWORKs (TANF/Welfare to Work), Workforce Innovation & Opportunity Act (WIOA), Trade Adjustment Assistance (TAA) and Computer Technical Support (CompTechS). OTI supports Foothill College's career training programs such as medical, technical, business, horticulture, communications and administrative occupations.

CalWORKs: OTI supports CalWORKs students by assisting with enrollment into career technical education programs, on-campus paid work study and transfer to universities. Students who participate in CalWORKs are eligible for reimbursement of college fees, academic, career and personal counseling/advising, development of an individualized education plan, child care, textbook assistance, and priority registration. OTI also provides referrals to various community services and a free computer.

WIOA/TAA: Depending on the contracting agency's policies and approved funding, students may or may not be approved for payment of college fees, textbooks, supplies, parking fees, or other unanticipated costs. All WIOA/TAA students are eligible for a free computer. If a student is referred to OTI by a contracting agency (e.g., Workforce Board), the agency is responsible for paying OTI's administrative fee of \$693.23 per quarter, subject to change by state and/or district action. If the student is not referred by a contracting agency, he/she is responsible for paying OTI's administrative fees.

CompTechS: An on-campus internship program for students who are interested in careers in information technology, OTI's CompTechS Program features donated and refurbished computers that are then made available to Foothill students. Internships may be available in Silicon Valley companies for qualified applicants.

For more information, visit the OTI Office (Room 5004), call 650.949.7465 or visit [deanza.edu/oti](http://deanza.edu/oti).

### **Workforce Development**

Foothill College realizes that its commitment to serve the workforce must extend beyond the classroom curriculum, and degree and certificate programs. The reality of global competition and increasing job complexity means that organizations have a continuing need for their employees to learn new skills and fill in knowledge gaps to ensure high-quality job performance.

Employers find timely and cost-effective solutions outside traditional college credit offerings in working with the Foothill College Workforce Development Office. The office offers employers a variety of customized training solutions—on-site instructor-led classes, web-based training, coaching, on-the-job training, skills acquisition, consultations, needs assessments and other services. Programs range from soft skills workshops to advanced technical training. ### **Community Education**

The Foothill College Community Education Program offers fee-based courses each quarter for children and adults, as well as working professionals who are interested in career development and personal enrichment. Community members may submit proposals for future community education classes. Community education offerings are ideal for participants who are interested in taking classes without the formality of college units and those who have maxed out repeatability of select classes. Community

education classes do not have repeatability restrictions. In accordance with the Civic Center Act, the college is only designated as a place for community groups when there is no interference with the regular educational program.

*\*Based on institutional average; fees are subject to change by state legislative action.*

### Examples of Additional Costs

For students enrolled in allied health programs (paramedic, dental hygiene, etc.), special fees, lab fees, tooling, and other related costs may be added to the normal cost of attendance. Expenses for dependent care, disability-related costs and campus abroad costs may also be considered with documentation.

### Refunds

The college maintains a refund policy for tuition and fees at the Admissions & Records Office and book purchases at the Bookstore. A community college district shall not refund any enrollment fee paid by a student for program changes made after the first two weeks of instruction for a primary term-length course, or after the 10-percent point of length of the course for a short-term course, unless the program changes are a result of action by the district to cancel or reschedule a course or to drop a student pursuant to Section 58106(g) where the student fails to meet a prerequisite. A student can request a refund for quarter-length class(es) that are dropped by the deadline. In most cases, the deadline is the second Friday of the quarter or the first Friday of Summer Session. However, this date varies by course and term. Exact drop deadline dates for each course are posted in [MyPortal.fhda.edu](http://MyPortal.fhda.edu). The student is responsible for reviewing exact drop dates. The Admissions & Records Office and Bookstore can provide the most current policies for obtaining a refund.

### Repayment

The student who withdraws from the college on or before 60 percent of the quarter is completed, may be required to repay Title IV funds. The funds are repaid to the Cashier's Office and the student will be notified of any debt within 30 days after the college's determination that the student has withdrawn.

## Financial Aid

### Are You Eligible?

Financial aid eligibility is based on need—the difference between what you and your family can provide and the cost of attendance.

Your financial need is determined by the information you and your family provide through the *Free Application for Federal Student Aid* (FAFSA) or the *California Dream Application* and any Foothill College additional paperwork. Regardless as to whether the application shows unmet need or not, we may be able to help. The total amount offered cannot exceed your documented financial need, and the monies must be used solely to meet cost of attendance at Foothill (refer to chart on page 26).

If you are in default on a loan, or owe an overpayment on a grant or loan, you will not be eligible for financial aid until the situation is satisfactorily resolved. Eligibility requirements are generally established once you've shown, through a completed application, that you:

- have applied for admission
- have enrolled in a financial aid-eligible academic program that requires 24 units or more to complete
- show academic major/goals and units of enrollment that can be applied to an educational plan
- maintain satisfactory academic progress
- demonstrate verifiable financial need. Some exceptions may apply. Consult the Financial Aid Office for details
- have a high school diploma, GED or the equivalent. If you do not have one of these, see the Financial Aid Office
- are a U.S. citizen, permanent resident or other eligible non-citizen (for federal aid)
- have a valid Social Security Number (for federal aid)
- register with Selective Service if required

### **Federal Pell Grant**

Federal Pell Grants are awarded to undergraduates based on financial need. This is free grant aid that ranges up to \$5,920. Maximum and minimum amounts are subject to change by federal legislative action.

### **Federal Supplemental Educational Opportunity Grant (FSEOG)**

This federal program may be an option if you have exceptional financial need and apply early. You must also be eligible for a Pell Grant. The FSEOG Award is up to \$600 per academic year at Foothill College.

### **Federal Work Study (FWS)**

If you have financial need and want to earn a part of your educational expenses through employment, Federal Work Study (FWS) may be an option. You can work up to 19 hours per week. However, you must be enrolled in a minimum of six units to be eligible for FWS. If you receive an FWS award offer, it is your responsibility to schedule an interview with the Financial Aid Office for FWS placement assistance.

### **Federal Direct Subsidized & Unsubsidized Student Loan**

Federal Direct Loans are made by the U.S. Department of Education. As a first-year undergraduate, you may be able to borrow up to \$3,500 subsidized per year. As a second year undergraduate, you may be able to borrow up to \$4,500 subsidized per year. For the dental hygiene bachelor's degree program, you may be able to borrow up to \$5,500 subsidized per year. Additional Unsubsidized Direct Loans may also be available annually. For details, visit the Financial Aid Office (Room 8103).

Federal Direct Loan totals may not exceed \$31,000 for dependent undergraduates and \$57,500 for independent undergraduates (no more than \$23,000 can be subsidized). You begin repayment six months after you graduate or drop below half-time enrollment. During the repayment period, and upon receipt of funds for unsubsidized loans, you will be charged a fixed interest rate that will not exceed 8.5 percent on the unpaid balance and adjusted for new loans each July 1. For the 2016–2017 academic year, the interest rate was 3.76 percent.

## **State Aid**

### **Cal Grants**

To be eligible, in addition to federal aid requirements, a student must:

- be a California resident or classified as AB540, and
- not have a bachelor's or professional degree (except extended Cal Grant A or B awards for a teaching

program or other five-year program), and

- file a completed FAFSA or *California Dream Application* and *Cal Grant GPA Verification Form* by the annual March 2 deadline.

**Cal Grant A:** Covers fees at the UCs, CSUs, and private institutions in California. This award may not be used to pay for community college fees, except in the case of the dental hygiene bachelor's degree program differential fees. Funding for students who are enrolled at community colleges may be held in reserve for up to three years.

**Cal Grant B:** Is for high-potential students from disadvantaged or low-income families who otherwise would not be able to pursue a higher education. California community college awards are up to \$1,670 per year.

**Entitlement Award:** Every graduating high school senior who has a grade-point average of at least 2.0, meets the Cal Grant financial and eligibility requirements and applies by March 2 within one year of graduation is guaranteed this award.

**Competitive Award:** The student who will enroll at a California community college and file a FAFSA, although strongly encouraged to apply by March 2, has a second annual deadline of September 2. Other students who meet the basic Cal Grant eligibility requirements and who have at least a 2.0 grade-point average may compete for this award.

**Cal Grant C:** Helps vocationally oriented students acquire marketable job skills within a short time. At least half-time enrollment for training must be for a minimum of two months and lead to a recognized occupational goal—diploma, associate degree, license qualification or certificate. Funding is available for up to two years, depending on the length of the program, as long as academic progress is acceptable. Awards for California community college students are limited up to \$576 in training-related costs.

### **Full-Time Student Success Grant**

This state award is a supplement for those students awarded a Cal Grant B or C and who are enrolled in full-time units. With each full-time payment of Cal Grant B or C a student is eligible to receive a supplemental payment of \$200 from the Full-Time Student Success Grant. If a student's Cal Grant payment is less than full-time they are not eligible for the award in that term.

### **California Chafee Grant**

This federal program, administered by the California Student Aid Commission, offers college and vocational

school financial aid to youth aging out of a foster care program. For up to \$5,000, the student must demonstrate financial need, meet basic eligibility requirements, complete the FAFSA and the *Chafee Grant Application* available at [csac.ca.gov](http://csac.ca.gov).

### Board of Governors Fee Waiver (BOGW)

While state law requires that students attending California community colleges pay an enrollment fee, the California Community Colleges offer the BOGW. This grant program waives enrollment fees for the academic year.

If you are a California resident or are classified as AB540, you qualify for a BOGW if any one of the following statements applies to your current status:

- You have qualified for financial aid and your calculated unmet need exceeds \$1,103;
- You meet annual CA income standards;
- You or your family are receiving TANF/CalWORKS, Supplemental Security Income (SSI) or General Assistance/General Relief;
- You have received certification from the California Department of Veterans Affairs or the California National Guard Adjutant General that you are eligible for a dependent's fee waiver;
- You meet year-specific income standards;
- You have documentation that you are a recipient or the child of a recipient of the Congressional Medal of Honor;
- You have documentation that you are a surviving dependent of any individual killed in the Sept. 11, 2001 terrorist attack; or
- You have documentation that you are a dependent of a deceased law enforcement/fire suppression personnel killed in the line of duty.

### Applying for BOGW

- You are required to apply for a BOGW each academic year.
- The majority of BOGW recipients obtain eligibility by completing the FAFSA ([.ed.gov](http://.ed.gov)) or *California Dream Application* ([caldreamact.org](http://caldreamact.org)) each academic year.
- Alternatively, some recipients obtain eligibility by completing an online application through Open CCC Apply ([cccapply.org](http://cccapply.org)).
- Only one application is required per year (July 1–June 30).

- You do not have to be enrolled in a specific number of units to be eligible for the BOGW.
- You do have to maintain a good campus academic and progress standing to continue to be eligible for the BOGW.

### Extended Opportunity Program & Services (EOPS)

After applying for federal and state aid, you should visit the EOPS Department in Room 8202.

If you are a BOGW recipient, you may qualify for EOPS services. This state-funded program has been established to encourage the enrollment, retention and graduation/university transfer of students affected by language, social, economic and educational disadvantages who otherwise might not attend college. Full-time enrollment is required. Foothill's EOPS Department offers textbook assistance, counseling, tutoring, campus tours of four-year universities, computer lab, and transfer assistance to facilitate the successful completion of academic, career and/or personal goals. EOPS faculty and staff assist participant-students as they work to achieve their goals.

### Cooperative Agencies Resources for Education (CARE)

An EOPS supplemental program, Cooperative Agencies Resources for Education (CARE) assists EOPS participants who are single, heads of household, and Temporary Aid to Needy Family (TANF) recipients with young children. In addition to EOPS-provided services, CARE students receive additional support and services.

For program entry requirements or more information, call 650.949.7207 or visit [foothill.edu/eops](http://foothill.edu/eops).

## Other Aid

### Emergency Loans

If you face an unexpected educational emergency, Foothill offers short-term loans up to \$400. To qualify, you must be enrolled three-quarters time (9 units), purchase a Foothill College OwlCard and meet satisfactory academic progress requirements. These 30-day loans are interest-free. An overdue loan may be subject to additional late fees, registration holds, and assignment to collection services. Emergency loans are administered through the Financial Aid Office. For information, call 650.949.7245.

### Employment

If you're interested in working to help defray the cost of attending college, consider a part-time, on-campus position. Most of these jobs pay from \$10.50 to \$16.75/hour. Jobs that are not based on financial need are called "district" employment, and you must be

enrolled in a minimum of 12 units to be eligible for these jobs. For information, call 650.949.7245.

### Scholarships

Nearly \$300,000 in campus and local scholarships are awarded annually to Foothill students. Scholarships, which vary in amount, are considered academic gifts and need not be repaid. They're generally based on academic standing, financial need, potential progress in major fields of study, and college or community activities. Scholarships are computed as resources for students receiving financial assistance. A listing of current scholarships is available at [foothill.edu/aid](http://foothill.edu/aid).

### Textbook Assistance

To alleviate the cost of textbooks, students eligible for Extended Opportunity Program & Services (EOPS) will receive a textbook voucher. Amount will be based on state funding. For more information, call the EOPS Office at 650.949.7207.

## General Education

Completion of general education coursework is required for students to earn a Foothill College associate degree. For information on the Foothill College General Education pattern, refer to pages 80–81. For information on the Intersegmental General Education Transfer Curriculum (IGETC) pattern, refer to page 82. For information on the CSU General Education Breadth pattern, refer to page 83.

Students are strongly advised to meet early and often with a Foothill counselor to determine which pattern will best meet their goals.

### Select a Major

Selecting a college major is an important step—one that establishes your career goals and determines where you should direct your academic efforts.

Majors within career and transfer programs are described within the following pages. The chart on pages 38–40 summarizes degrees and certificates available as of Summer Session 2017. Consult curriculum sheets located on the website for the most current degree and certificate information. You can also consult with a Foothill counselor to develop a strategy for selecting your college major. To schedule an appointment, call 650.949.7423 or visit [foothill.edu/counseling](http://foothill.edu/counseling).

### Certificate Programs

Foothill offers the following types of certificate programs:

- Certificate of Achievement
- Certificate of Completion (non-credit)
- Other Division Certificates
  - Career Certificate (non-transcriptable)
  - Certificate of Proficiency (non-transcriptable)
  - Certificate of Specialization (non-transcriptable)
  - Skills Certificate (non-transcriptable)

For information about certificates, contact the division office for unit requirements, course sequences and major requirements. Foothill awards these certificates when you satisfactorily complete certain specialized programs requiring fewer than two years of full-time study. Certificate programs comprise (1) a complete curriculum pattern or (2) major and related courses selected from an associate in arts or associate in science degree curriculum at the recommendation of an advisory committee.

Certificate of achievement programs require:

- a minimum GPA of 2.0; and
- fifty percent of the program units must be completed in residence for most certificates.\*†

\*Fifty percent requirement does not apply to the following certificates: Transfer Studies—CSU GE; Transfer Studies—IGETC.

†Students cannot be required to retake a C-ID course in order to meet the fifty percent requirement. For more information, schedule an appointment with a counselor.

In addition, when noted on the curriculum sheet, some certificates may require a minimum English and/or math proficiency. For more information, schedule an appointment with a counselor.

Some Foothill College divisions also offer certificates of completion, proficiency, specialization, career and skills. These certificates will not appear on the student's transcript. General requirements include the prescribed coursework and a GPA of at least 2.0 in these courses. Non-transcriptable certificates are maintained and awarded by individual academic departments, and are not recorded on student transcripts. To apply for the certificate, contact the department chairperson within one academic year after completing the last course for the certificate.

## Types of Degrees Offered at Foothill College

While many students complete an associate degree in preparation for immediate entry into the job market, earning an associate degree may also serve as excellent preparation for transfer to a four-year college or university. By earning an associate degree, you indicate to potential employers, transfer institutions and society that you not only have specialized knowledge in a particular area of study. Rather, degree completion also signals that you have gained critical and analytical thinking ability, written and oral communication skills, and are able to consider issues with ethical and global perspective.

You are strongly advised to meet with a Foothill counselor early to decide which degree best suits your academic needs and for assistance in planning your course of study. Requirements for all Foothill College associate degrees include completion of (1) a minimum of 90 quarter units in a defined set of courses; (2) a minimum of 18 units successfully completed at Foothill College; (3) a grade of C or better in all core and support courses used for the degree; (4) a minimum GPA of 2.0 across all college courses including Foothill courses; (5) a major or area of emphasis of at least 27 units in a curriculum approved by the Foothill College Curriculum Committee; and (6) general education coursework. There are significant differences in the general education requirements depending upon the degree you are pursuing; consequently, you are again urged to meet with a Foothill counselor to determine which general education pattern is most appropriate. The four types of associate degrees offered are:

### Associate in Science Degree (A.S. Degree)

The A.S. degree is awarded to students who complete all of the requirements in a major or area of emphasis in the areas of science, technology, engineering or mathematics. This degree also requires completion of the Foothill College General Education requirements or Intersegmental General Education Transfer Curriculum (IGETC) or CSU GE Breadth. Students who plan to complete this degree and who also intend to transfer to a four-year college or university are advised to meet early and often with a Foothill counselor for assistance in developing an educational plan that satisfies both sets of requirements.

### Associate in Arts Degree (A.A. Degree)

The A.A. degree is awarded to students who complete all of the requirements in a major or area of emphasis in the liberal arts, social sciences and fields other than science, technology, engineering or mathematics. This degree also requires completion of the Foothill

College General Education requirements or IGETC or CSU GE Breadth. Students who plan to complete this degree and who also intend to transfer to a four-year college or university are advised to meet early and often with a Foothill counselor for assistance in developing an educational plan that satisfies both sets of requirements.

## Transfer Associate Degrees

The *Student Transfer Achievement Reform Act* (Senate Bill 1440, now codified in *California Education Code sections 66746–66749*) guarantees admission to a California State University (CSU) campus for any community college student who completes an associate degree for transfer, a newly established variation of the associate degrees traditionally awarded by the California community colleges.

The Associate in Arts for Transfer (A.A.–T) or the Associate in Science for Transfer (A.S.–T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (A.A.–T or A.S.–T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn an A.A.–T or A.S.–T degree, students must complete a minimum of 90 required quarter units or 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. While a minimum GPA of 2.0 is required for admission, some majors may require a higher GPA.

Students transferring to a CSU campus that does accept the A.A.-T or A.S.-T will be required to complete no more than 90 required quarter units or 60 required semester units after transfer to earn a bachelor's degree (unless the major is a designated high-unit major). This degree may not be the best option for the student who intends to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. The student should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

### **Associate in Science for Transfer Degree (A.S.-T Degree)**

Similar to the A.S. degree, the A.S.-T degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in the areas of science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the *CSU General Education Breadth Requirements* or the *Intersegmental General Education Transfer Curriculum* (IGETC). Students who plan to complete this degree and who intend to transfer to a non-local CSU, UC or other college or university are advised to meet early and often with a Foothill counselor for assistance in developing their educational plan.

For 2017–2018, Foothill offers the following A.S.-T degrees: biology for transfer, business administration for transfer, computer science for transfer, early childhood education for transfer, mathematics for transfer, physics for transfer, and public health science for transfer.

### **Associate in Arts for Transfer Degree (A.A.-T Degree)**

Similar to the A.A. degree, the A.A.-T degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in academic areas such as the liberal arts, social sciences and related fields other than science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the *CSU General Education Breadth Requirements* or the *Intersegmental General Education Transfer Curriculum* (IGETC). Students who plan to complete this degree and who intend to transfer to a non-local CSU, UC or other college or university are advised to meet early and often with a Foothill counselor for assistance in developing their educational plan.

For 2017–2018, Foothill offers the following A.A.-T degrees: anthropology for transfer, art history for transfer, communication studies for transfer, economics for transfer, English for transfer, geography for transfer, global studies for transfer, history for transfer,

kinesiology for transfer, philosophy for transfer, political science for transfer, psychology for transfer, sociology for transfer, Spanish for transfer, studio arts for transfer and theatre arts for transfer.

### **Bachelor in Science Degree (B.S. Degree)**

The Dental Hygiene Program is a Bachelor in Science degree program, under the pilot program (SB 850), authorized by the State Chancellor's Office. The program is highly academic, with an emphasis on evidence based practice and clinical skills to prepare students to assess the medical/dental status of patients, develop a dental hygiene care plan, implement appropriate dental hygiene care, and evaluate outcomes. The Commission on Dental Accreditation accredits the Foothill College Dental Hygiene Program. Graduates are eligible to take the National Dental Hygiene Board Examination and qualify for the State or Regional Registered Dental Hygiene licensure examination.

### **Program Advisory Boards**

At Foothill, we strive to ensure that our career education curriculum meets the needs of business, industry and government. This is why we invite a number of occupational leaders to advise us on:

- new courses and course content;
- facilities and equipment;
- nature and extent of employment needs;
- how to evaluate the appropriateness of contents of existing courses; and

- how to evaluate student performance.

We continually implement the recommendations of more than 30 occupational advisory committees. A campus advisory committee for vocational education also meets periodically to review and make recommendations for career education. For information on specific courses, consult your counselor or review the program's curriculum sheet online at [foothill.edu](http://foothill.edu).

## Revision of College Policies

Any policy adopted by the college administration shall supersede any ruling on the same subject that appears in this catalog or in other official publications once the revised regulation is posted on a campus bulletin board or included in the online class schedule.

### Academic Freedom

Academic freedom encompasses the freedom to study, teach and express ideas and viewpoints, including unpopular and controversial ones, without censorship, political restraint or retribution. Academic freedom allows for the free exchange of ideas in the conscientious pursuit of truth. This freedom exists in all service areas, including but not limited to teaching, librarianship, counseling, coordinating and all faculty-student interactions. Academic freedom is the bedrock principle of all institutions of learning and must be extended to all faculty regardless of their status as full time, part time or probationary.

Faculty members have the principal right and responsibility to determine the content, pedagogy, methods of instruction, selection, planning and presentation of course materials, and the fair and equitable methods of assessment in their assignment in accordance with the approved curriculum and course outline and the educational mission of the Foothill-De Anza Community College District, and in accordance with state laws and regulations. These rights and responsibilities include, but are not limited to, the faculty member's choice of textbooks and other course materials, assignments and assessment methods, teaching practices, grading and evaluation of student work, and teaching methods and practices.

Source: Foothill-De Anza Community College District Board Policy 4190 (fhda.edu). Approved April 20, 1960; amended Nov. 18, 1996; approved by Foothill College Academic Senate June 1, 2009; approved by De Anza College Academic Senate June 8, 2009; approved by Foothill-De Anza Community College District Board of Trustees Jan. 5, 2010.

## Admission & Enrollment Policies

### Academic Prerequisites, Credit & Placement

Many courses require that you complete prerequisites in order to enroll. These prerequisites are listed under each course description in this catalog and the online class schedule.

All courses listed with a prerequisite have a registration block. To clear a prerequisite, download the *Prerequisite Clearance Form* at [foothill.edu/reg/forms.html](http://foothill.edu/reg/forms.html). Submit the completed form and required documentation either by fax, mail, email or in person to the Admissions Office. Allow approximately three to five business days for processing.

If you submit written or performance evidence showing you have sufficient competence in the area of study due to previous training or experience, you may be able to enroll in a course without completing the listed prerequisites. You can only do this, however, if the division dean provides authorization.

The college has the authority to drop you from any course if you have not met the necessary prerequisites. For refund policies, visit the Admissions & Records Office in Room 8101.

### Admission Guidelines

An admissions application is required for students new to Foothill College as well as students who are not in a continuing status due to skipping fall, winter or spring quarter. Foothill has an open-door admission policy for all high school graduates and non-graduates who are 18 years of age or older. Students currently enrolled in high school (freshman, sophomore, junior or senior) may enroll in up to 10 units per fall, winter and spring quarters, as well as a maximum of six units during summer session with high school transcripts, and written parental and school permission. Permission forms are available in the & Records Office (Room 8101) and at [foothill.edu](http://foothill.edu).

Special admission procedures such as additional testing, application forms and counseling sessions are required for admission to a number of career programs. Some of these programs begin only in the fall quarter. You must complete all special admission requirements by the preceding spring quarter. Programs in this category include dental assisting, dental hygiene, primary care associate, diagnostic medical sonography (ultrasound), radiologic technology, respiratory therapy and veterinary technology.

### Prerequisites, Corequisites & Advisories

Prerequisites, corequisites and advisories are intended to guide the student into courses in which he/she will have the greatest chance for academic success.

- Prerequisite means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.
- Corequisite means a condition of enrollment

consisting of a course that a student is required to simultaneously take in order to enroll in a course or educational program.

- Advisory of recommended preparation means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

### Clearing Prerequisites

The student may clear a prerequisite or corequisite by providing any of the following:

- Proof of coursework taken at another regionally accredited U.S. college or institution,
- AP test score of 3 or higher,
- Proof of coursework taken at a college outside the U.S. (send to division dean) must provide foreign transcript evaluation service report and detailed course information, or
- Other/Challenge: if you do not meet any of the above, a prerequisite clearance requires dean or director approval.

To challenge a prerequisite or corequisite, complete the *Prerequisite Clearance Form*, available online at [foothill.edu/reg/prereqs.html](http://foothill.edu/reg/prereqs.html). Complete the form and attach the required documentation as stated on the form. Fax, mail, e-mail or drop off the complete form and documentation to the Admissions & Records Office prior to the first day of the quarter. Allow three to five business days for the form to be processed before attempting to register. You will only be notified by email if the petition is denied.

### Open Course Policy

It is the policy of the Foothill-De Anza Community College District that, unless specifically exempted by statute or regulation, every course, course section or class reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets such prerequisites as may be established pursuant to regulations contained in California Code of Regulations Title 5 commencing with Section 55000.

### Exceptions to Admissions & Registration Policies

To request an exception to a published policy, you must file an exception petition. Forms are available in the

Admissions & Records Office in Room 8101 and online at [foothill.edu](http://foothill.edu).

## General Program Requirements

All beginning freshmen are strongly encouraged to enroll in the *CNSL 5: Introduction to College* course, or demonstrate proof that they have completed an equivalent course. If you are eligible for *ENGL 1A*, you should complete this course by the end of the third quarter of enrollment; you may take a communication course first. If you are eligible for *ENGL 110* or *209*, you should complete these courses during the first or second quarter. You may receive up to 10 quarter units of credit for each score of 5, 4 or 3 on College Entrance Board Advanced Placement Tests. Your Foothill transcript will show units but will not indicate grades. The Evaluation Office, located in the Admissions & Records Office, Room 8101, provides information that explains how advanced placement scores are marked on transcripts and the equivalencies for the University of California and California State University systems.

Foothill College will accept a score of 60 or better on the college algebra CLEP examination as equivalent to *MATH 105*. The college is currently reviewing additional CLEP examinations to determine if they, too, may be used for course credit for other Foothill College courses.

If you want to transfer credit from an armed services school or other special institution, you may apply through a counselor. It's possible these credits will be accepted toward the associate in arts or associate in science degree once you have successfully completed a minimum of 15 units at Foothill.

### General Registration Information

If you are a new or former student, you must submit the *Application for Admission* by the quarterly deadline posted at [foothill.edu](http://foothill.edu). We encourage you to complete the application, complete the placement testing process and submit necessary transcripts as early as possible.

Students planning to transfer to Foothill are advised to submit transcripts from high schools and colleges previously attended.

If you plan to receive veterans benefits, apply for financial aid or earn a degree or certificate, you must submit official transcripts. Request previous institutions to send your transcripts directly to the Foothill College Admissions & Records Office, 12345 El Monte Road, Los Altos Hills, CA, 94022-4599.

International students on F-1 visas must follow specific

admissions requirements. For more information, review [foothill.edu/international](http://foothill.edu/international).

To register for Foothill College classes, follow the online registration instructions published in the online class schedule and on the college website at [foothill.edu](http://foothill.edu). The class schedule for the current academic term is posted online. Online information is subject to change. We encourage you to review the website frequently. For more information, call the Admissions & Records Office at 650.949.7325.

### Residency Requirements

Foothill College generally serves the communities of Palo Alto, Mountain View, Los Altos and Los Altos Hills, and our sister school, De Anza College, generally serves the cities of Cupertino and Sunnyvale. Both colleges, however, accept students from outside these cities.

If you are an out-of-state student, you may be considered a non-resident for tuition purposes until you have satisfied current California tuition residency requirements. This rule also applies to visa-holding, non-citizens eligible to establish residency. Not all visa types are eligible to be considered a resident for tuition purposes, please check with Admissions & Records for detailed information. Non-resident tuition fees are required of all students in this category.

### Unit Limitation

An average class load is 15 units per quarter. The maximum number of allowable units per quarter without a counselor's approval is 21.5 units. If you intend to enroll in more than 21.5 units, you must obtain a counselor's approval and submit a petition to the Academic Council (no exceptions). The maximum number of allowable units for Summer Session is 15 units. To complete the petition process, schedule a consultation with a Foothill counselor by calling 650.949.7423.

## Probation & Dismissal

In accordance with California Code of Regulations, Title 5, the following probation and dismissal policy has been established. The purpose of this policy is to support students in identifying barriers to academic success, employing strategies for improvement, and helping them make progress toward their educational objectives. There are five levels of probation: basic, moderate, severe, pre-dismissal, and dismissal. The college shall make a reasonable effort to notify students who have been placed on academic and/or progress probation with clear instructions on how to clear their probation status. Students on dismissal status are notified via e-mail and certified mail of their status. For

more information, call or visit the Counseling Center at 650.949.7423, Room 8302 or [foothill.edu/counseling](http://foothill.edu/counseling).

### Placement on Probation

- **Academic Probation:** A student who has attempted at least 18 quarter units as shown by the official academic record shall be placed on academic probation if the student has earned a grade-point average below 2.0 in all units which were taken at the college.
- **Progress Probation:** A student who has enrolled in a total of at least 18 quarter units as shown by the official academic record shall be placed on progress probation when the percentage of all units in which a student has enrolled and for which entries of **W**, **I**, **NP** and **NC** are recorded reaches or exceeds 50 percent.

### Removal from Probation

- A student on academic probation for a grade-point deficiency shall be removed from probation when the student's cumulative grade point average is 2.0 or higher.
- A student on progress probation because of an excess of units for which entries of **W**, **I**, **NP** and **NC** recorded shall be removed from probation when the percentage of units in this category drops below 50 percent.

### Probation at Foothill & De Anza Colleges

The Foothill College probation/dismissal reporting system might not accurately reflect the correct academic probation status for students who have enrolled at both Foothill and De Anza colleges. Students who are enrolled within the current quarter at both colleges or have an academic history with both colleges should contact the Counseling Center at Foothill College for assistance regarding their probation/dismissal status at Foothill.

If at any time students attend both Foothill College and De Anza College in the Foothill-De Anza Community College District, it is the students' responsibility to keep track of their grades to ensure that they remain in good standing at each college. Although students may be in good standing at De Anza College, if at Foothill College they fall below the minimum required level of academic performance, the above probation and dismissal procedure will apply to them at Foothill College.

### Standards for Dismissal

- A student who is on academic probation shall be subject to dismissal if the student earned a cumulative grade-point average of less than 2.0 in all units attempted in each of the five consecutive quarters which were graded on the basis of the grading system.

- A student who has been placed on progress probation shall be subject to dismissal if the percentage of units in which the student has been enrolled for which entries of **W**, **I**, **NP** and **NC** are recorded in at least five consecutive quarters, excluding summers, reaches or exceeds 50 percent.

Scholastic dismissal will be noted permanently on a student's transcript. Students dismissed from the college may not enroll in any courses for one regular quarter (excluding summer). The maximum number of times a student may be dismissed from Foothill College is three. A third dismissal will result in permanent expulsion from the college.

### Re-Admission After Disqualification

A student who has been dismissed due to failure to make academic achievement and/or progress may be considered for re-admission on a conditional basis. The student must file an *Admission After Disqualification Petition* with a counselor. After the Academic Council reviews the petition, the student will be notified via e-mail of the decision, and their next steps.

### Registration and Attendance

If you have academic complaints, including treatment in a course or program, you should seek to resolve the problem by speaking with these people, in this order:

- Course instructor;
- Division dean (make an appointment through the division administrative assistant);
- Vice president, Student Services; Room 8104; 650.949.7524 or vice president, Instruction; Room 1915, 650.949.7200.

### Academic Regulations

The Academic Council is responsible for academic regulation evaluation, enforcement, interpretation and exceptions. You can obtain petitions in the Admissions Office (Room 8101), Counseling Center (Room 8302) or visit [foothill.edu/reg/forms.html](http://foothill.edu/reg/forms.html).

### Academic Renewal

The Academic Renewal process permits students the opportunity to petition to have substandard academic work completed at Foothill College disregarded from their cumulative grade point average when such work does not reflect their current demonstrated ability (section 55046 of the California Code of Regulations). Upon approval of the petition the Academic Council may disregard up to three consecutive quarters, plus a summer session, for a maximum of 45 quarter units, of work completed at Foothill College.

- Once a degree has been awarded at either Foothill or De Anza College, courses taken prior to the awarding

of the degree cannot be excluded via Academic Renewal.

- Academic Renewal actions are irreversible once granted.
- Academic Renewal at Foothill College does not guarantee that other colleges will accept this action.

Approval of Academic Renewal requests is subject to the following conditions:

1. Two years must have elapsed since the last quarter to be disregarded was completed.
2. Since the last quarter, the student must have completed at least:
  - 15 units with a 3.0 GPA, or
  - 30 units with a 2.5 GPA, or
  - 45 units with a 2.0 GPA

Work completed at other accredited institutions may be considered by the Academic Council, official transcripts must be on file in Admissions and Records.

3. The college will disregard courses selected by the student per the Academic Renewal request, with respect to unit requirements and GPA provided they fall under the guidelines governing Academic Renewal.
4. A student may petition only once for academic renewal.
5. The student transcript shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

Students must consult with a counselor before petitioning for Academic Renewal. After obtaining the counselor's signature, the completed Petition for Academic Renewal form is submitted to the Admissions and Records Office. See Board Policy 4240 Academic Renewal.

### Add/Drop Dates

The deadline to add and drop classes may vary per course. Generally, the deadline to add or drop a course without a **W**-mark is prior to 20 percent of class meetings or prior to the end of the second week of instruction for a 12-week course. To determine the exact drop date for your course, consult [MyPortal.fhda.edu](http://MyPortal.fhda.edu). You are responsible for initiating the official add/drop process and for notifying both the instructor and Admissions & Records Office (Room 8101). Do not rely on an instructor to add you to a course or to drop you if you stop attending. To ensure that you are properly

registered or dropped from a class and do not receive a substandard grade, you are responsible for dropping the class by the appropriate deadline. Verify your current enrollment status by accessing your MyPortal.fhda.edu account.

The maximum number of withdrawals (W-marks) from the same course is three, which are counted toward the overall enrollment limit of three. If you have questions or concerns about W-marks, schedule a meeting with a Foothill counselor at 650.949.7423 or foothill.edu/counseling. You cannot drop after the eighth week for a 12-week course. You may receive no more than two W-marks in any one course. For summer session class drop dates, consult the current class schedule or online college calendar at foothill.edu.

## Courses & Grades

### Academic Integrity at Foothill College

Academic integrity means honesty and responsibility in scholarship. Unless collaboration is explicitly authorized, all academic work should result from an individual's own efforts. Intellectual contributions from others must be consistently and responsibly acknowledged. Students accused of violating Foothill's academic integrity policy will face judicial action, up to the possibility of suspension from the college. For more information about Foothill's academic integrity policy, visit foothill.edu/handbook or stop by the Dean of Students office in Room 2002.

### Attendance

Regular and punctual attendance is an integral part of the learning process. As a Foothill student, you are expected to attend all scheduled classes in which you are enrolled. An instructor has the authority to drop a student who violates written attendance policies. Instructors are not obligated to hold seats for students who are enrolled but do not attend the first class meeting.

### Audit Request Procedures

A number of Foothill classes are available for audit. To be eligible, you must have already taken and completed the class at Foothill the number of times permitted, and received a grade of C or better. Audit requests must have the signature of the instructor before you submit the request to the Admissions & Records Office. Auditors are admitted on a space-available basis.

### Cancellation of Classes

Classes may be canceled when enrollments are lower than planned. Foothill College has the authority to change or cancel courses and programs as circumstances require.

### Class Preparation/Progress

After prior notification, an instructor may drop a student who demonstrates insufficient preparation/prerequisites.

### Class Size & Frequency

Minimum class-size guidelines apply to all lecture, lecture/lab and laboratory classes at Foothill. While a minimum class size is generally required, special circumstances may necessitate continuing a class that does not meet these guidelines.

Exceptions are based on program needs such as second-quarter, third-quarter or second-year sequential courses; courses required for an identified major or career; combined courses meeting at the same hour with the same instructor; and one-of-a-kind offerings needed for graduation or transfer. Exceptions may also be based on the following:

- Limited classroom or laboratory facilities; or
- Statutory and state regulations mandating class size, independent study, and special projects.
- Other circumstances that warrant exception are made by the Finance & Administrative Services Office.

### Transfer Credit from Another Institution

Foothill College accepts credit for lower-division coursework previously completed at a college accredited by one of the six regional accrediting associations in the U.S. Students must have official transcripts sent to the Foothill College Admissions & Records Office. To be official, transcripts must be sent from college to college or hand-delivered in a sealed, unopened college envelope.

- Foreign Colleges: Students who want to use coursework completed at foreign institution must have their transcripts evaluated by a foreign evaluation service. Students should meet with their counselors to petition to use any of this coursework toward an associate degree. Coursework from a foreign institution cannot be used for certification to a four-year institution. Students should contact the school to which they want to transfer to determine if any credit will be awarded from the foreign institution.
- Non-Regionally Accredited Colleges: Students may petition for individual courses taken at a non-regionally accredited college to be accepted for major requirements. The credit is non-transferable toward a bachelor's degree and is only applicable towards Foothill College programs. Students must have official transcripts sent to the Foothill College Admissions & Records Office. To be official,

transcripts must be sent from college to college or hand-delivered in a sealed, unopened college envelope.

### Final Examinations

Foothill gives final examinations in all courses. Final examinations will not normally be given in advance of the scheduled time. At Foothill, we strive to minimize student activities during the week before final exams. However, classes and instruction continue as usual. During this period, instructors may assign coursework or have students complete part of the final examination.

### Grading Scale

Grade definitions are as follows:

Evaluative Symbols	Grade Points
A+*	Excellent 4.0; see note below
A	Excellent 4.0
A-	Excellent 3.7
B+	Good 3.3
B	Good 3.0
B-	Good 2.7
C+	Satisfactory 2.3
C	Satisfactory 2.0
C-**	See note below
D+	Passing, less than satisfactory 1.3
D	Passing, less than satisfactory 1.0
D-	Passing, less than satisfactory 0.7
F	Failing 0.0
P	Pass (at least satisfactory; units awarded not counted in GPA).
NP	No Pass (less than satisfactory, or failing; units not counted in GPA). Not attaining course objectives.

\*In the plus/minus grading system, the A+ grade is calculated the same as the A grade.

\*\*In the plus/minus grading system, the C- grade is not permitted under Title 5 law.

P and NP are assigned to those courses in which student achievement is evaluated on a pass/no pass basis rather than a letter grade (A, B, C, etc.). Pass/No Pass courses are so designated in the announcement of courses section of the catalog.

### Course Grading Categories

Foothill offers course grades in these five categories:

- Courses in which all students are graded on a 4.0 scale of A, B, C, D, F.
- Courses in which all students are graded on a **Pass/No Pass (P/NP)** basis.
- If you enroll in a class with a **Pass/No Pass** option

instead of a letter grade must submit a **Pass/No Pass Card** signed by the student within the first four weeks of the quarter. The form must be submitted to the Admissions Office. You may choose to apply to the associate degree no more than 16 units of P-graded courses from this category. Students transferring to a four-year school should consult with a counselor. Courses in your major must be taken for a letter grade.

- No grades are recorded for non-credit courses with course numbers ranging from 400–499.
- In calculating the student's degree-applicable grade-point average, grades earned in non-degree-applicable courses shall not be included. Courses that are non-degree-applicable are noted in the class schedule and Course Catalog.

### Incomplete

For a justifiable, approved reason (serious illness, emergency, etc.), you may ask your instructor for more time to complete coursework. After the end of the eighth week and before the end of the quarter, you must request that the instructor assign a grade of Incomplete (I). The instructor files an Incomplete Contract that explains the reason and precisely outlines the work due, procedure required, and due date for you to complete the work. You should sign and keep a copy of the contract.

The college does not assign an **incomplete** because a student is slow or negligent in submitting required work. If you meet the course requirements within one calendar year, the I grade may be changed; otherwise it may be listed as **F**.

### Withdraw from College

To withdraw from college after the eighth week, you must consult with a counselor and petition the dean of Enrollment Services to obtain an approved dismissal. This is for your protection, since you may receive an **F** in all classes after the eighth week if you do not follow these guidelines. The petition must have the instructor's approval signature for each class.

### Transcripts

The Admissions & Records Office forwards transcripts at your request. Transcripts to educational institutions will be sent directly to those institutions. Transcripts given directly to you may be classified as unofficial. Transcript costs and procedures for requesting transcripts are published at foothill.edu.

Foothill reserves the right to withhold official transcripts from students under certain circumstances, such as defaulting on a loan, outstanding balance due on an account or until all obligations to the college are cleared.

## Transcript/Grade Changes

Section 76224 of the *California State Education Code* states, “The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith or incompetency.” By law, instructors are the only people who can change grades.

If you believe corrections should be made within the above restriction, you should first talk to your instructor. Corrections must be initiated within two years after the grade was earned. If an error has been made, and a correction is necessary prior to the two-year period, you may request a review of the records at the Admissions & Records Office.

Grades received prior to 1983 may not be changed. Exceptions to this policy include a bona fide error in grading, and a course in which an unsatisfactory grade was given is repeated for a satisfactory grade.

## Petition to Replace Substandard Grade for Foothill College GPA Calculation

When a substandard grade (D+, D, D-, F, NC or NP) was recorded at Foothill, an equivalent course may subsequently be completed at another accredited college or university. The student’s academic transcript shall then be annotated to reflect exclusion of the previously recorded coursework with the substandard grade for purposes of grade-point calculation and for all considerations associated with the awarding of certificates and degrees. Replacement with a grade of **Pass/No Pass** is not permitted, as it does not improve the student’s grade-point average (GPA). It is important to note that all grades remain on the academic transcript, and that some transfer institutions may require recalculation of the GPA to include both the substandard grade and the subsequent grade.

When submitting this petition, the student must attach:

- a copy of his/her transcript, and
- either the course outline of record or the course catalog description to confirm course equivalency. (It is strongly recommended that the student consult with the appropriate Foothill division dean to confirm equivalency with discipline faculty before repeating the course.)
- Be aware that official (sealed) transcripts from other regionally accredited institution must be submitted to Foothill College Records Office before submitting this petition.

The complete petition form must include student’s identification number (SID), name, date, Foothill College course identifier, the date that the Foothill course was completed and initial grade, equivalent course identifier,

date repeated and grade earned upon repetition, as well as the valid signatures of the student, discipline faculty member and division dean.

## High School Credits at Foothill

All credit courses taken at Foothill count as college credit, whether or not they count toward high school requirements. Although Foothill College cannot grant a high school diploma, many local high schools recommend that students who are age 19 or older complete high school requirements by taking college courses. If you choose to earn a high school diploma this way, you should obtain a statement from your high school principal or counselor indicating:

- The subjects necessary to complete graduation requirements, and the number of quarter credits in each;
- Suggestions for Foothill courses to satisfy these requirements;
- The total number of quarter credits required, including electives; and
- Acceptance of credit for courses taken at Foothill.

When you complete the college courses, request that Foothill College send a college transcript to your high school. The diploma will be issued in accordance with your school’s procedures.

## Off-Campus Trips & Activities

Some programs require off-campus field trips and activities. Transportation is usually the responsibility of the individual student or a travel agency. The district is not liable for occurrences when participants are not under a faculty or staff member’s direct, scheduled supervision.

## Open-Entry/Open-Exit Classes

Foothill offers several open-entry/open-exit courses, allowing you to work at your own pace. You may generally enroll in these courses at any time, through the end of the seventh week of the quarter. Many of these courses are offered in off-campus centers, fine arts and language arts laboratories and STEM Center. Lists of courses with unusual start times are available in these facilities and in the class schedule.

Independent/flexible study classes are not open-entry/open-exit classes. You must enroll in these classes by the end of the second week of instruction.

## Scholastic Honors

Foothill commends students who earn the associate degree, complete a minimum of 24 Foothill units and meet the following criteria by awarding:

- Highest Honors: 4.0 GPA in all Foothill College coursework.
- High Honors: at least 3.5 GPA in all Foothill College coursework.
- Honors: at least 3.3 GPA in all Foothill College coursework.

Additional scholastic honors are awarded to eligible students on the following basis:

- Dean's List: Awarded on a quarterly basis to full-time students completing 12 or more Foothill units in one quarter with at least a 3.5 GPA; and part-time students completing a minimum of 12 cumulative units at Foothill College with an overall and quarter Foothill GPA of at least 3.5.
- President's Medal: Awarded at the annual commencement ceremony to first-time degree recipients with a 4.0 GPA in all college coursework, including 60 resident units at Foothill College. To qualify for this award students must petition for graduation by June 1.

### Course Repetition

Unless exceptions are specifically indicated in course descriptions in this catalog, you cannot repeat a course that you completed with a grade of **C** or better. State law allows you to repeat a class no more than twice to remove a substandard grade (**D**, **F**, **NP** or **W**). There is no limit on the number of times you may enroll in courses designed to meet a legally mandated training requirement as a condition of continued paid or volunteer employment.

If you successfully repeat and pass a course at Foothill College in which a substandard grade had previously been recorded, the substandard grade(s) will be excluded for the purposes of calculating GPA and for all considerations associated with the awarding of certificates and degrees. It is important to note that all grade notations (including withdrawals) remain on your academic transcript, and that some transfer institutions may require recalculation of the GPA to include both the substandard grade and the subsequent grade. You may petition to replace a substandard grade earned at Foothill College with a passing grade subsequently earned at another accredited college or university. See "Petition to Replace Substandard Grade for Foothill College GPA Calculation" on page 45.

### Active Participation Course Limitation (Course Families)

Pursuant to the California Community College Board of Governors, a student may not have more than six enrollments in any active participatory courses that

are related in content. This limitation also applies to the student who receives a substandard grade (**D**, **F**, **NP** or **NC**) or withdrew from a course with a **W**-mark for one or more of the enrollments (CCR § 55000).

Active participatory courses included in this restriction are courses in physical education, visual arts and performing arts offered within the Foothill-De Anza Community College District. Foothill College and De Anza College have created course families within the district to address this limitation. These families include courses from Foothill and De Anza that contain related or similar content, and therefore, can only be taken in any combination for no more than six enrollments.

Prior to Fall 2013, the student was able to repeat active participatory courses. However, as of Fall 2013, all active participatory courses are non-repeatable and can only be taken one time subject to the limitation set forth in Title 5 [CCR §55040(c)].

This limitation does not contain a grandfather clause. Therefore, if the student has reached the maximum times of enrollment within a family, then he/she cannot enroll in any course within the family again within the Foothill-De Anza Community College District.

Additionally, if the student enrolls in a Foothill course that is equivalent to a De Anza course, within a course family, he/she may not take the De Anza course at any time and vice versa. For example: *ART 4B* at Foothill is equivalent to *ARTS 4B* at De Anza. If you have completed or plan to enroll in *ART 4B* at Foothill, then you cannot have completed or plan to enroll in *ARTS 4B* at De Anza.

### Credit by Examination (Challenge)

As an enrolled Foothill student, you may be able to obtain credit by examination in subject matters or fields for which you are especially qualified through training or experience, but for which you have not already received college course credit or advanced placement credit.

The *Petition for Credit by Examination Form* is available online at [foothill.edu/reg/forms.php](http://foothill.edu/reg/forms.php). You may also obtain petitions from the division office of the course that you want to challenge during the first week of the quarter. The chart on pages 48–51 identifies those courses for which credit by examination is currently available. You may not challenge other courses. Prior to submitting a *Petition for Credit by Examination*, you are required to obtain approval from either the appropriate academic division dean or course instructor to verify your eligibility.

Examinations will normally be completed by the end of the second week. Units earned through credit by

examination will be identified on your transcript. No course may be challenged during a term after which the class has met for two weeks. Credit by examination is not available during the summer term. If you have previously failed a course, you are not eligible to petition for credit by examination in that course. Units of credit received through this procedure may not apply toward the minimum of 18 resident units required at Foothill College for the associate degree. A maximum of 30 units may be earned via credit by examination in the Foothill-De Anza Community College District. Units earned through credit by exam are not considered for financial aid, scholarship or veteran services eligibility and payments.

There are special limitations for challenging foreign language courses, courses that depend on laboratory or activity experiences, or sequential courses. You may not challenge a course at a lower level than one you have successfully completed in the same department. The examination may include written, oral or skill tests, or a combination of all three. This examination will determine whether you have demonstrated essentially the same knowledge and skills as students who successfully complete the traditional course. To obtain credit by examination, you are required to be enrolled in the course. The instructor will inform you about the requirements for successful completion. The examination grade will be entered as the course grade on your permanent record.

Although the University of California and California State University systems accept, within certain limitations, appropriate credits obtained by examination, Foothill College cannot guarantee that other institutions will do so. If you are pursuing credit by examination, you are encouraged to discuss the transfer and graduation implications with a counselor. The following courses are available for credit by examination: *GEOG 12, 58, 101A, 101B, 101C and 101D.*

### **Student Access to Education Records**

The *Family Education Rights & Privacy Act*, also called FERPA (*Section 438, Public Law 93380*), requires educational institutions to provide student access to official education records directly related to the student. The act also says you have the right to challenge such records on the grounds that they are inaccurate, misleading or otherwise inappropriate.

Your written consent is required before the college will release personal information from your records to other than a specified list of persons and agencies. These rights extend to present and former Foothill students.

- Education records generally include documents related to admissions, enrollment in classes, grades

and related academic information. These records are filed in the Admissions & Records Office.

- The dean of Student Services is the college's designated records officer.
- Personal education records will be made available for inspection and review during normal business hours to currently and formerly enrolled students, within 45 days following completion and filing of a written request with the records officer.
- The college may release certain types of directory information unless you notify the records officer that certain or all information cannot be released without personal consent. Directory information may include (1) student name and city of residence, (2) date and place of birth, (3) participation in recognized activities and sports, (4) dates of attendance, (5) degrees and awards received, and (6) the most recent previous educational agency or institution attended, and (7) height and weight of members of athletic teams, which may be released only by the appropriate athletic staff member or athletic director. Objection to the release of this information must be made in writing to the Admissions & Records Office prior to the first day of instruction of any quarter or Summer Session.

## Awarding College Credit for Advanced Placement (AP) Tests\*

Unless otherwise noted, students may earn credit for AP Tests with a score of 3, 4, or 5. AP credit can toward satisfaction of IGETC, CSU GE and A.A./A.S. general education (GE) and/or major requirements as outlined below. **Students planning to transfer should check with the receiving institution regarding AP credit policies.**

Students must submit official College Board AP exam results to the Evaluations Office in order for credit to be awarded or certified.

Note: Course credit and units granted at Foothill College may differ from course credit and units granted by a transfer institution. Student who plan to transfer to four-year college or university should see a counselor for specific details regarding how AP credit will be applied to their major.

**AA:** Students may not receive credit for both an AP exam and the equivalent course. A student who receives AP credit and then takes the equivalent Foothill course will have the unit credit for such duplication deducted prior to being awarded the A.A./A.S. degree. Credit by Advanced Placement exam is noted and listed first on a student's transcript, with units assigned and no grade given.

**CSU GE:** The Advanced Placement examinations may be incorporated into the certification of CSU General Education-Breadth requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breadth area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of General Education-Breadth requirements.

**IGETC:** AP exams must be used in area indicated regardless of where the certifying CCC's discipline is located.

### International Baccalaureate Exam Policy

A student may earn credit for successful completion of International Baccalaureate (IB) higher-level subject exams with scores of 5, 6 or 7. IB credit can be used to meet IGETC, CSU GE and Foothill College A.A. or A.S. general education (GE) and/or major requirements as specified in the tables below. The student is responsible for formally requesting that the international baccalaureate organization send exam results to the Foothill College Evaluations Office (12345 El Monte Road, Los Altos Hills, CA 94022-4599 USA). Course units and credits granted at Foothill College may differ from course credit and units granted by a transfer institution.

*In addition, a score of 5, 6 or 7 on a higher-level IB exam will result in credit for the following Foothill courses:*

Chemistry HL	CHEM 25 or CHEM 30A	4

## College & District Policies

### Academic Honor Code

As a student at Foothill College, you join a community of scholars who are committed to excellence in the teaching and learning process.

We expect that students will pursue their studies with integrity and honesty and all students should know that incidents of academic dishonesty are taken very seriously.

### What Is Academic Dishonesty?

The two most common kinds of academic dishonesty are cheating and plagiarism.

- Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of dishonest, deceptive or fraudulent means.
- Plagiarism is representing the work of someone else as your own and submitting it for any purpose.

It is your responsibility to know what constitutes academic dishonesty. Interpretations of academic dishonesty may differ among individuals and groups. However, as a student at Foothill, you are expected to refrain from the behavior outlined herein. If you are unclear about a specific situation, speak to your instructor.

The following list exemplifies some of the activities defined as academic dishonesty:

### Cheating

- Copying, in part or in whole, from someone else's test;
- Submitting work presented previously in another course, if contrary to the rules of either course;

- Altering or interfering with grading;
- Using or consulting, during an examination, any sources, consulting others, use of electronic equipment, including cell phones and PDAs, or use of materials not authorized by the instructor; or
- Committing other acts that defraud or misrepresent.

### Plagiarism

- Incorporating the ideas, words, sentences, paragraphs or parts of another person's writings, without giving appropriate credit, and representing the product as your own;
- Representing another's artistic or scholarly works such as musical compositions, computer programs, photographs, paintings, drawings or sculptures as your own;
- Submitting a paper purchased from a research or term paper service, including the internet; or
- Undocumented web source usage.

### Other Specific Examples of Academic Dishonesty

- Purposely allowing another student to copy from your paper during a test;
- Giving your homework, term paper or other academic work to another student to plagiarize;
- Having another person submit any work in your name;
- Lying to an instructor or college official to improve your grade;
- Altering a graded work after it has been returned, then submitting the work for re-grading;
- Stealing tests;
- Forging signatures on drop/add cards or other college documents; or
- Collaboration without permission of instructor.

### Consequences of Academic Dishonesty

Academic and/or administrative sanctions may be applied when students are found responsible for violating our academic integrity process.

#### Academic consequences may include:

- Receive a failing grade on the test, paper or exam;
- Have your course grade lowered;
- Receive a grade of F in the course;

#### Administrative consequences may include:

- Written warning;
- Disciplinary probation;
- Suspension; or
- Expulsion

The Student Affairs & Activities Office maintains a record of students who have engaged in academic dishonesty. This information is used to identify and discipline students reported for academic dishonesty more than once. A copy of the *Foothill College Student Conduct, Discipline & Due Process Procedure* is printed in the handbook for each of these groups, and copies are available in the Student Affairs & Activities Office in Room 2002.

#### Americans With Disabilities Act (ADA)

The Foothill-De Anza Community College District Board of Trustees upholds that, for persons with disabilities, improving the access to educational and employment opportunities must be a priority. The board directs the Foothill College administration to take the necessary actions to implement the requirements of the *Americans with Disabilities Act (ADA)* and *Section 504 of the Rehabilitation Act*.

The Foothill-De Anza Community College District shall not discriminate against a qualified individual with a disability because of the disability with regard to employment or with regard to the provision of district programs, services and activities.

A person who is otherwise qualified may request accommodation related to his/her disability, provided that accommodation does not impose an undue hardship on the district.

To receive a copy of Foothill College disability access information and procedures for requesting accommodations, call Foothill College Disability Resource Center (DRC) at 650.949.7017 or email [drc@fhda.edu](mailto:drc@fhda.edu). Disability access information is also available in the DRC (Room 5400).

To appeal a DRC accommodation decision, schedule a meeting with the Dean of Student Affairs & Activities, who is the institution's designated ADA/504 coordinator, by visiting Room 2002 or by calling 650.949.7241. If you experience any difficulties with accommodations or receiving accommodations, email [drc@fhda.edu](mailto:drc@fhda.edu) or call 650.949.7241. ### **Limited English Skills Policy**

Prospective students are advised that a lack of English language skills will not be a barrier to admission to, or participation in vocational education programs at Foothill College as long as other, if any, program admission standards are met.

This notice is a requirement of the *Guidelines for Eliminating Discrimination & Denial of Services on the Basis of Race, Color, National Origin, Sex & Handicap (Federal Register; Vol. 44, No 56)*.

### **Reglamento sobre Limitaciones en el Idioma Inglés**

Se les aconseja a posibles estudiantes que la carencia del idioma Inglés no será una barrera para la admisión, o participación en programas de educación vocacional en Foothill College, siempre y cuando todos los otros, si existieran, criterios de admisión del programa sean completados.

Esta nota es un requisito de la *Guía para la Eliminación de la Discriminación y Rechazo de Servicios en Base a la Raza, Color, Nacionalidad de Origen, Sexo e Impedimento (Registro Federal; Vol. 44, No. 56)*.

### **Reglamento de la No-Descripción**

Foothill College no discrimina en contra de ninguna persona en la prohibición de algún programa o servicio basado en la raza, color, nacionalidad u origen étnico, edad, sexo, religión, orientación sexual, estado civil, o impedimento físico o mental.

### **Sexual Harassment Protection Policy**

Members of a college community—students, faculty, staff and visitors—must be able to study and work in an atmosphere of mutual respect and trust. It is the policy of the Foothill-De Anza Community College District to provide an educational, employment and business environment free of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communications constituting sexual harassment, as defined and otherwise prohibited by federal and state law.

Sexual harassment may include, but is not limited to:

- Conduct of a sexual nature that is explicitly or implicitly made a term or condition of an individual's employment or education;
- A decision based on the submission to or rejection of a sexual advance; or
- Verbal or physical conduct of a sexual nature that interferes with an individual's performance or creates an intimidating work or educational environment.

Immediate action shall be taken against individuals determined to be in violation of this policy. Any individual who believes that he or she has been a victim of sexual harassment may file a complaint within one year of the date on which the complainant knew or should have known of the facts of the sexual harassment incident.

Complaints of sexual harassment filed by a student against another student, or student against the criteria of a program, shall be referred and handled pursuant to the district's Procedures to Resolve Student Complaints of Sexual Harassment & Discrimination. Such complaints should be directed to the Dean of Student Affairs & Activities in Room 2002, 650.949.7241, or contact the Title IX coordinator, Lauren Balducci, vice president of Student Services, at 650.949.7823.

Complaints of sexual harassment filed by a student against another student, or student against the criteria of a program, shall be referred and handled pursuant to the district's *Procedures to Resolve Student Complaints of Sexual Harassment & Discrimination*. Such complaints should be directed to Student Affairs & Activities Dean

in Room 2002 or call 650.949.7241 or contact the Title IX coordinator at 650.949.7823.

### **Title IX Procedural Requirements**

Title IX is a comprehensive federal law that prohibits discrimination on the basis of sex in any federally funded education program or activity. In addition to traditional educational institutions, Title IX also applies to any education or training program operated by a recipient of federal financial assistance. Many of these education programs became subject to Title IX regulations in 2000. Foothill College has responsibilities to ensure that students and employees comply with the nondiscrimination mandate of Title IX and its procedural requirements. Foothill College has established a method for receiving and resolving sex-based discrimination complaints. At Foothill College, Lauren Balducci, the associate vice president of Student Services is the institution's designated Title IX coordinator. For information, call 650.949.7823 or visit Room 8104.

### **Mutual Respect Policy**

Foothill College takes all steps necessary to provide a positive educational and employment environment that encourages equal educational opportunities. The college actively seeks to educate staff and students on the deleterious effects of expressions of hatred or contempt based on age, ancestry, color, gender, gender identity, marital status, medical condition, mental disability, national origin, physical disability, race, religious creed, sexual orientation or veteran status; and promotes equality and mutual respect among all groups and individuals. Standards of conduct for students and the applicable sanctions for violating the standards of student conduct are contained in the *Academic Policies* section in the *Course Catalog* and online at [foothill.edu](http://foothill.edu).

Decisions regarding discipline of employees will be made in accordance with applicable legal and contractual provisions and procedures, and may range from reprimand to dismissal.

### **Drug-Free Campus Policy**

The unlawful manufacturing, distribution, dispensing, possession or use of any illicit drug or alcohol by students on district property or at district activities or events is prohibited.

The use of drugs and alcohol may pose significant health risks. The Psychological Services and Health Services offices at Foothill College offer additional information on the risks associated with the use of drugs and alcohol. You can also receive referral information for drug or alcohol counseling, treatment and rehabilitation programs. For more information, call 650.949.7910.

Employees and students may be suspended or expelled for the unlawful possession, use or distribution of illicit

drugs or alcohol. Appropriate disciplinary action may also include requiring the completion of a rehabilitation program. The standards of conduct for students and the applicable sanctions for violating the standards are published in *Administrative Procedures* 5510 and 5520.

### **No-Smoking Areas & Enforcement**

In order to provide a safe learning and working environment for students and employees, smoking is prohibited in all indoor and outdoor campus locations, with the exception of designated smoking areas as defined by each campus. Smoking is prohibited in district vehicles. "No Smoking" placards are conspicuously posted on campus. In addition, designated smoking areas are clearly marked. No tobacco-related advertising or marketing shall be permitted at FHDA or in publications produced by FHDA. The sale of tobacco products on campus is prohibited. This policy relies on the consideration and cooperation of smokers and nonsmokers. It is the responsibility of all employees, students and visitors to observe and follow the guidelines. This policy shall be communicated and published in the colleges' catalogs, handbooks, websites and other appropriate locations. Smoking violations shall be subject to issuance of citations by the District Police Department as provided for by state law. ## Student Conduct & Due Process

### I. Overview

In developing responsible student conduct, disciplinary proceedings play a role substantially secondary to example, counseling, guidance and admonition. At the same time, educational institutions have a duty and the corollary disciplinary powers to protect their educational purpose through the settings of standards of scholarship and conduct for the students who attend them and through the regulation of the use of institutional facilities. The purpose of these procedures is to provide a prompt and equitable means to address violations of the *Student Code of Conduct*, as set forth in *FHDA Administrative Procedures (AP) 5510 and 5520*, which guarantees the student or students involved the due process rights entitled to them by state and federal constitutional protections. These procedures will be used in a fair and equitable manner, and not for purposes of retaliation. They are not intended to substitute for criminal or civil proceeds that may be initiated by other agencies.

Foothill and De Anza colleges consider the following principles essential to their educational missions and community life:

- Mutual respect between students, faculty and staff;
- Pursuit of studies with honesty and integrity;
- Respect for college and personal property; and
- Compliance with all rules and regulations.
- These standards are intended to promote responsible student conduct and fair play.

  23. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

#### IV. Types of Disciplinary Action

The following are the usual types of discipline the college imposes for violations of its rule or California laws. The following topics are listed in alphabetical order.

- Admonition: An administrative, verbal warning to the student to cease and desist from conduct determined to violate the *Student Code of Conduct*.
- Day: Day(s) during which the district is in session and regular classes are held, excluding Saturdays and Sundays.
- Disciplinary Probation: Exclusion from participation in privileges or extracurricular activities set forth in the notice of disciplinary probation for a specified period of time.
- Expulsion: Exclusion of the student by action of the

FHDA Community College District Board of Trustees from all colleges in the district for one or more terms, or permanently.

- Removal from Class: Exclusion of the student by an instructor for the day of the removal and the next class meeting.
- Restitution: Financial liability for damage to or misappropriation of property. Restitution may take the form of appropriate service to repair or otherwise compensate for damages.
- Summary Suspension: Any student who has willfully disrupted the orderly operation of the campus may be promptly suspended pending a hearing, where such immediate suspension is required in order to protect lives or property and to ensure the maintenance of order, provided, however, that a reasonable opportunity must be afforded the suspended person for hearing within 10 days. In all other cases, where disciplinary action is to be taken in response to willful disruption of the orderly operation of the campus, discipline shall be imposed only after a prompt hearing by a campus body resulting in a finding that the student willfully disrupted the orderly operation of the campus.
- Suspension: Exclusion of the student for good cause from one or more classes for a period of up to 10 days of instruction, or the remainder of the school term, or from all classes and activities for one or more terms. The suspended student is prohibited from being enrolled in any other college in the district for the period of suspension.
- Withdrawal of Consent to Remain on Campus: Withdrawal of consent by the student discipline officer for any person to remain on campus in accordance with *California Penal Code Section 626.4* where the student discipline officer has reasonable cause to believe that such person has willfully disrupted the orderly operation of the campus.
- Written Warning: Written notice to the student that continuation or repetition of specific conduct found wrongful within a period of time stated in the warning, may be cause for more severe disciplinary action. Written reprimands may become part of a student's permanent record at the college.

## V. Discipline & Due Process Procedures at Foothill College

Except in cases where immediate discipline pending a hearing is authorized, the following procedures will apply before disciplinary action is taken to suspend or expel a student. The student discipline officer will determine if there are sufficient grounds to warrant discipline. If the student discipline officer determines

sufficient grounds exist to warrant discipline, the student will be provided with written notice of that determination. The written notice will include the following:

- The specific section of the *Student Code of Conduct* that the student is charged with violating;
- A short statement of the facts supporting the accusation; and
- The nature of the discipline that is being considered.

The following topics are listed in chronological order.

- Time Limits: The notice must be provided to the student within 10 days of the date on which the conduct took place; in the case of continuous, repeated or ongoing conduct, the notice must be provided within 10 days of the date on which conduct occurred which led to the decision to take disciplinary action.
- Pre-Hearing Meeting: If the student chooses to meet with the student discipline officer, the meeting must occur no sooner than 10 days after the notice is provided. At the meeting, the student must again be told the facts leading to the accusation, and must be given an opportunity to respond verbally or in writing to the accusation.
- Schedule of Hearing: The formal hearing shall be scheduled within 10 days after the pre-hearing meeting with the student discipline officer.
- Campus Disciplinary Hearing Board: This board shall be comprised of members of the faculty and administration. The student discipline officer and the president of the Academic Senate shall each, at the beginning of the academic year, establish a list of persons who will serve on student disciplinary hearing panels. The student discipline officer shall appoint the hearing panel from the names on these lists. The administrator on the hearing panel shall serve as chair. However, no administrator or faculty member who has any personal involvement in the matter to be decided, who is a necessary witness, or who could not otherwise act in a neutral manner shall serve on a hearing panel.
- Conduct of the Hearing: The members of the hearing panel shall be provided with a copy of the accusation against the student and any written response provided by the student before the hearing begins. The student discipline officer shall present the facts supporting the accusation. The student discipline officer and the student may call witnesses and introduce oral and written testimony relevant to the issues of the matter. Formal rules of

evidence shall not apply. Any relevant evidence shall be admitted. Unless the hearing panel determines to proceed otherwise, the student discipline officer and the student shall each be permitted to make an opening statement. Thereafter, the student discipline officer shall make the first presentation, followed by the student. The student discipline officer may present rebuttal evidence after the student completes his or her evidence. The burden shall be on the student discipline officer to prove by substantial evidence that the facts alleged are true. The student may represent him or herself, and may also have the right to be represented by a person of his or her choice. An attorney shall not represent the student unless, in the judgment of the hearing panel, complex legal issues are involved. If the student wishes to be represented by an attorney, a request must be presented not less than five days prior to the date of the hearing. If the student is permitted to be represented by an attorney, the student discipline officer may request legal assistance. The hearing panel may also request legal assistance; any legal advisor provided to the panel may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it. Hearings shall be closed and confidential unless the student requests that it be open to the public. Any such request must be made no less than five days prior to the date of the hearing. In a closed hearing, witnesses shall not be present when not testifying, unless all parties and the panel agree to the contrary. The district shall record the hearing either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the hearing panel chair shall, at the beginning of the hearing, ask people present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. Tape recordings shall remain in the custody of the district at all times, unless released to a professional transcribing service. The student may request a copy of the tape recording. All testimony shall be taken under oath; the hearing panel chair shall administer the oath. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape-recorded is considered unavailable. Within 10 days following the close of the hearing, the hearing panel shall prepare and forward to the student discipline officer a written recommendation. The recommendation shall include specific factual findings regarding the accusation, and shall include specific conclusions regarding whether any specific section of the standards of student conduct were violated. The decision shall also include a specific recommendation regarding the disciplinary action to be imposed, if any. The

decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original accusation, the written response, if any, of the student, and the oral and written evidence produced at the hearing. The student discipline officer will forward the recommendation to the president.

- **Immediate Summary Suspension:** The president may order immediate interim suspension pending a hearing of a student where he/she concludes that immediate suspension is required to protect lives or property and to ensure the maintenance of order, provided that a reasonable opportunity is afforded the suspended person for a hearing within 10 days. This procedure complies with *Education Code Section 66017*.
- **Removal from Class:** Any instructor may order a student removed from his/her class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the student discipline officer. The student discipline officer shall arrange for a conference between the student and the instructor regarding the removal. If the instructor or the student requests, the student discipline officer shall attend the conference. The student shall not be returned to the class during the period of the removal without the concurrence of the instructor. Nothing herein will prevent the student discipline officer from recommending further disciplinary procedures in accordance with these procedures based on the facts that led to the removal. This procedure complies with *Education Code Section 76032*.
- **Withdrawal of Consent to Remain on Campus:** Also review *Penal Code Section 626.4*. The student discipline officer may notify any person for whom there is a reasonable belief that the person has willfully disrupted the orderly operation of the campus and that consent to remain on campus has been withdrawn. If the person is on campus at the time, he/she must promptly leave or be escorted off campus. If the student discipline officer withdraws consent, a written report must be promptly made to the college president and the district police. The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the period of the withdrawal. The request shall be granted not later than 10 days from the date of receipt of the request. The hearing will be conducted in accordance with the provisions of this procedure relating to interim suspensions. In no case shall consent be withdrawn for longer than 10 days from the date upon which consent was initially withdrawn. Any person as to whom consent to remain on campus has been withdrawn who

knowingly re-enters the campus during the period in which consent has been withdrawn, except to come for a meeting or hearing, is subject to arrest.

- **President's Decision for Suspension:** Within 10 days following receipt of the hearing panel's recommended decision, the college president shall render a written decision. The college president may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the president modifies or rejects the hearing panel's decision, the college president shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. Written notice of the college president's decision shall be provided to the student. The notice will include the right of the student to request an appeal of the decision within 30 days of receipt of the decision. The college president will review the appeal and any additional information provided by the student, and render a decision on the appeal. The decision of the college president shall be final. The college president shall notify the district chancellor of the decision to suspend a student.
- **President's Decision for Expulsion:** Within 10 days following receipt of the hearing panel's recommended decision, the college president shall render a written recommended decision to the FHDA board of trustees. The college president may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the college president modifies or rejects the hearing panel's decision, the college president shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. The college president's recommendation shall be forwarded to the FHDA board of trustees.
- **Board of Trustees' Decision:** Once received, the college president's recommendation will be placed on the agenda of the next regularly scheduled district board meeting. The district board of trustees shall determine whether to expel a student for cause following hearing before the board. The board shall consider an expulsion recommendation in closed session, unless the student has requested that the matter be considered in a public meeting in accordance with these procedures (*Education Code Section 72122*). The student shall be notified in writing, by registered or certified mail or by personal service, at least three days prior to the meeting, of the date, time and place of the board's meeting. The student may, within 48 hours after receipt of the notice, request that the hearing be held as a public meeting. Even if a student has requested that the

board consider an expulsion recommendation in a public meeting, the board will hold any discussion that might be in conflict with the right to privacy of any student other than the student requesting the public meeting in closed session. The board may accept, modify or reject the findings, decisions and recommendations of the college president and/or the hearing panel. If the board modifies or rejects the decision, the board shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. The decision of the board shall be final. The final action of the board on the expulsion shall be taken at a public meeting, and the result of the action shall be a public record of the district.

### Purpose

The purpose of this procedure is to provide a prompt and equitable means of resolving student grievances. This procedure is for student grievances only. Faculty and staff with complaints regarding students should refer to *Administrative Procedure 5510: Student Code of Conduct* and *Administrative Procedure 5520: Student Due Process & Discipline*. The student grievance procedures shall be available to any student who reasonably believes a college decision or action has adversely affected his or her status, rights or privileges as a student. The procedures shall include grievances regarding:

- Course grades, to the extent permitted by *Education Code Section 76224(a)*, which provides: “When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final.”
- Act or threat of intimidation or harassment. These procedures do not apply to sexual harassment or illegal discrimination. Sexual harassment or complaints on the basis of race, color, national or ethnic origin, age, gender, sexual orientation, marital status, or physical or mental disability should be directed to the dean of Student Affairs & Activities at Foothill College, the dean of Student Development & EOPS at De Anza College or the Foothill-De Anza

Community College District Human Resources Office.

- Act or threat of physical aggression.
- Arbitrary action or imposition of sanctions without proper regard to academic due process specified in the college procedures, unrelated to disciplinary actions.
- The exercise of rights of free expression protected by state and federal constitutions and *Education Code Section 76120*.

This procedure does not apply to:

- Student disciplinary actions, which are covered under separate board policies and administrative procedures. (See *Administrative Procedure 5520: Student Due Process & Discipline*.)
- Police citations (i.e. “tickets”). Complaints about citations must be directed to the Santa Clara County Superior Court Parking Violations Office in the same way as any traffic violation.
- Sexual harassment. Complaints of sexual harassment should be directed to the dean of Student Affairs & Activities at Foothill College or the dean of Student Development & EOPS at De Anza College.

- Dismissal from college for academic reasons. Student should consult a Foothill counselor. If there are extenuating circumstances, the student may appeal the dismissal to the Academic Council after consulting a Foothill counselor.

### Definitions

- **Grievant:** A student alleging that a college decision or action has adversely affected his or her status, rights or privileges as a student, or alleges that another student has violated the student’s rights.
- **Party:** The student, or any persons claimed to have been responsible for the student’s alleged grievance, together with their representatives. “Party” shall not include the grievance hearing committee or the

college grievance officer.

- **President:** The college president or a designated representative of the college president.
- **Student:** A currently enrolled student, a person who has filed an *Application for Admission* to the college, or a former student. A grievance by an applicant shall be limited to a complaint regarding denial of admission.
- **Respondent:** Any person claimed by a grievant to be responsible for the alleged grievance.
- **Work Day:** A work day shall mean days during which the district is in session and regular classes are held, excluding Saturdays and Sundays. All time deadlines shall be measured by work day, unless otherwise specified as calendar days.

### **Informal Resolution of Grievances**

Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person's immediate supervisor, or the vice president who oversees that division.

1. The college president has appointed an employee who shall assist students in seeking resolution by informal means. This person shall be called the grievance officer.
2. Informal meetings and discussion between persons directly involved in a grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought before persons directly involved in the case have stated official or public positions that might tend to polarize the dispute and render a solution more difficult. At no time shall any of the persons directly or indirectly involved in the case use the fact of such informal discussion, the fact that a grievance has been filed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute or for any purpose other than the settlement of the grievance.
3. Any student who believes he or she has a grievance shall file a *Statement of Grievance Form* with the grievance officer within 30 calendar days of the incident on which the grievance is based, or 30 calendar days after the student could have reasonably discovered the basis for the grievance, whichever is later. The *Statement of Grievance Form* must be filed within the above time frame whether or not the student has already initiated efforts

at informal resolution, if the student wishes the grievance to become official. Within two work days following receipt of the *Statement of Grievance Form*, the grievance officer shall advise the student of his or her rights and responsibilities under these procedures, and assist the student, if necessary, in the final preparation of the *Statement of Grievance Form*.

- If at the end of 10 work days following the student's first meeting with the grievance officer, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a grievance hearing.

### **Steps in the Informal Process Involving College Employees**

- The student shall confer with the faculty member, administrator or classified staff person directly involved in the facts giving rise to the grievance.
- If unresolved after Step 1, the student shall confer with the faculty member's division dean, or the supervisor of the administrator or classified staff person.
- If unresolved after Step 2, the student shall confer with the vice president of that dean's or supervisor's division.
- Within the 30-calendar-day time limit as previously outlined, if the student does not feel that the matter can be resolved after completing Steps 1, 2 and 3, an official *Statement of Grievance Form* may be filed with the grievance officer. The grievance officer will advise the student of his/her rights and assist the student, if necessary, in the final preparation of the *Statement of Grievance Form*.
- If after 10 work days from the first meeting with the grievance officer there is no informal resolution, the student may request a grievance hearing.
- If the complaint involves a grievance against another student, grievant shall confer directly with the grievance officer, who will advise the grievant of his/her rights and assist the grievant in preparing the *Statement of Grievance Form*.

## **Formal Grievance Process**

### **Grievance Hearing Committee**

- The college president or his/her designee shall at the beginning of each quarter, including any summer session, establish a standing panel of members of the

college community, including faculty members and administrators, from which one or more grievance hearing committees may be appointed. The panel will be established with the advice and assistance of the Academic Senate, who shall submit names to the president or his/her designee for inclusion on the panel. A grievance hearing committee shall include three members from the panel described above. The administrator on the hearing panel shall serve as chair.

- No person shall serve as a member of a grievance hearing committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner.
- The grievance officer shall sit with the grievance hearing committee but shall not serve as a member nor vote. The grievance officer shall coordinate all scheduling of hearings, shall serve to assist all parties and the hearing committee to facilitate a full, fair and efficient resolution of the grievance, and shall avoid an adversary role.

### Request for Grievance Hearing

Any request for a grievance hearing shall be filed on a *Request for a Grievance Hearing Form* in writing within 30 calendar days after discovery of the grievable action and after completing steps 1–3 of the informal process previously outlined.

- Within 10 work days following receipt of the *Request for Grievance Hearing Form*, the grievance officer shall convene a grievance hearing committee as described above, and the grievance hearing committee shall meet in private and without the parties present to determine on the basis of the *Statement of Grievance* whether it presents sufficient grounds for a hearing.
- The determination that the *Statement of Grievance* presents sufficient grounds for a hearing shall be made if the following are found to be true:
  - The statement contains facts, which, if true, would constitute a grievance under these procedures;
  - The grievant is a student as defined in these procedures, which include applicants and former students;
  - The grievant is personally and directly affected by the alleged grievance;
  - The grievance was filed in a timely manner; and
  - The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.

- If the grievance does not meet each of the requirements, the hearing committee chair shall notify the student in writing of the rejection of the *Request for a Grievance Hearing*, together with the specific reasons for the rejection and the procedures for appeal. This notice will be provided within seven work days of the date the decision is made by the grievance hearing committee.
- If the *Request for Grievance Hearing* satisfies each of the requirements, the college grievance officer shall schedule a grievance hearing. The hearing will begin within 30 calendar days following the decision to grant a grievance hearing. All parties to the grievance shall be given not less than 10 work days notice of the date, time and place of the hearing.

### Hearing Procedure

The grievance hearing committee chair is responsible for ensuring that administrative procedures are followed and for maintaining decorum at the hearing.

- The members of the grievance hearing committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins.
- Each party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.
- Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.
- Unless the grievance hearing committee determines to proceed otherwise, each party to the grievance shall be permitted to make an opening statement. Thereafter, the grievant or grievants shall make the first presentation, followed by the respondent or respondents. The grievant(s) may present rebuttal evidence after the respondent(s)' evidence. The burden shall be on the grievant or grievants to prove by substantial evidence that the facts alleged are true and that a grievance has been established as specified above.
- Each party to the grievance may represent himself or herself, and may also have the right to be represented by a person of his or her choice; except that a party shall not be represented by an attorney unless, in the judgment of the grievance hearing committee, complex legal issues are involved. If a party wishes to be represented by an attorney, a request must be presented not less than 10 work days prior to the date of the hearing. If one party is permitted to be represented by an attorney, any other party shall have the right to be represented by an attorney. The hearing committee may also request

legal assistance; any legal advisor provided to the hearing committee may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.

- Hearings shall be closed and confidential unless all parties request that it be open to the public. Any such request must be made no less than five work days prior to the date of the hearing. In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the committee agree to the contrary.
- The hearing shall be recorded by the grievance officer either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the grievance hearing committee chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. The tape recording shall remain in the custody of the district, either at the college or the district office, at all times, unless released to a professional transcribing service. Any party may request a copy of the tape recording.
- All testimony shall be taken under oath; the oath shall be administered by the grievance hearing committee chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape-recorded shall be considered to be unavailable.
- The grievance hearing committee shall prepare and send a decision to the grievance officer. The decision will be forwarded by the grievance officer to the grievant within 14 work days. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined. The decision shall also include a specific recommendation regarding the relief to be afforded the grievant, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing.

### **Appeal & President's Decision**

A student prejudiced by a decision of the grievance hearing committee shall be entitled to appeal that decision to the college president. The appeal shall be made in writing to the college president within 30 calendar days of receipt of the grievance hearing committee's decision. The college president shall review

the appeal and the grievance hearing committee's findings and conclusions, and will render a decision. Within seven work days following the receipt of the request for appeal, the college president shall prepare and send a decision to the grievant. The decision of the college president shall be final.

### **Time Limits**

Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

### **Illegal Distribution of Copyrighted Materials**

Foothill College students are prohibited from using the Foothill-De Anza (FHDA) Community College District information network to illegally download or share music, video and all other copyrighted intellectual property. Foothill College supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the FHDA information network who have violated the law.

Be aware that illegal forms of downloading and file sharing, as well as the unauthorized distribution of copyrighted materials are violations of the law and may subject you to academic sanctions from the college as well as criminal and civil penalties, including a lawsuit against you by the Recording Industry Association of America (RIAA). Learn more at [riaa.com/resources-learning-for-students-education](http://riaa.com/resources-learning-for-students-education).

In addition to being illegal, file sharing drains the FHDA network's bandwidth, which slows computer connections for students and employees who are using the network for legitimate academic purposes and ultimately costs the college money.

The college has developed policies and consequences to ensure that students respect music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies at [foothill.edu/services/studentright.php#misuse](http://foothill.edu/services/studentright.php#misuse).

There are numerous ways to download music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners that offer a range of legal downloading options, including download and subscription services, legitimate peer-to-peer services, video-on-demand and podcasts. For a list of sources that offer legal downloading sites, visit [whymusicmatters.com](http://whymusicmatters.com).

### **Summary of Civil & Criminal Penalties for Violation of Federal Copyright Laws**

Copyright infringement is the act of exercising, without

permission or legal authority, one or more of the exclusive rights granted to the copyright owner under the Copyright Act. These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading and/or uploading substantial parts of a copyrighted work without authority constitutes an infringement. For details, review U.S. Code Title 17; Section 106.

Civil and criminal penalties are applicable for copyright infringement. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For willful infringement, a court may award up to \$150,000 per work infringed. A court can also assess related costs and attorneys' fees. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For details, review U.S. Code Title 17; Sections 504–505.

For more information, review the U.S. Copyright Office website at [copyright.gov](http://copyright.gov), especially the FAQ at [copyright.gov/help/faq](http://copyright.gov/help/faq).

### Exceptions

Activities by technical staff, as authorized by appropriate district or college officials, to take action for security, enforcement, technical support, troubleshooting or performance testing purposes will not be considered abuse of the network.

Although personal use is not an intended use, the district recognizes that the network will be used for incidental personal activities and will take no disciplinary action provided that such use is within reason and provided that such usage is ordinarily on an employee's own time; is occasional; and does not interfere with or burden the district's operation. Likewise, the district will not purposefully monitor or punish reasonable use of the network for union business-related communication between employees and their unions. ## Associate in Arts & Associate in Science Degree Graduation Requirements

Requirements for the associate in arts (A.A.) and associate in science (A.S.) degrees include completion of all the following:

- A minimum of 90 units in a defined set of courses;
- A minimum of 18 units successfully completed at Foothill College;
- A grade of C or better in all core and support courses used for the degree;
- A minimum GPA of 2.0 across all college courses including Foothill courses;
- A major or area of emphasis of at least 27 units in a curriculum approved by the Foothill College Curriculum Committee;
- The general education requirements are listed on pages 80–81. If you plan to transfer to a four-year college or university, you should also review the specific requirements of those institutions;
- English Proficiency: ENGL 1A or 1AH or 1S and 1T or ESLL 26;
- Math Proficiency: MATH 17 or 105 or 108; and
- The student may apply only one English or ESLL course below transferable freshman composition toward the associate degree.

Note that completion of the IGETC or CSU GE Breadth pattern may also be used to satisfy the general education requirements for the Foothill A.A./A.S. degree. Because there are significant differences between the three patterns, you are strongly advised to meet early and often with a counselor to determine which pattern will best meet your goals.

### General Education Reciprocity

The Foothill-De Anza Community College District has entered into a mutual General Education (GE) Reciprocity Agreement with other community colleges to accept the general education courses of these colleges “as completed.” In addition to Foothill, participating institutions include Chabot, De Anza, Evergreen Valley, Gavilan, Las Positas, Mission, Ohlone, San Jose City and West Valley colleges.

The reciprocity agreement allows students who obtain a certification of completion of associate degree GE requirements at one of the participating colleges to transfer both the GE coursework and graduation proficiencies to any of the other participating colleges. Additional GE coursework will not be required if the

official certification is presented. Students will still be required to complete all courses or prerequisites needed for a major. The agreement also means that the other participating colleges will accept the Foothill GE pattern when presented with official certification.

In addition to the General Education Reciprocity Agreement, Foothill College will exempt students who have already earned an associate degree from another California community college or who submit general education certification from another California community college (other than the nine colleges previously identified) from having to complete any additional general education or additional English/mathematics proficiency coursework to earn the Foothill A.A./A.S. Local general education requirements may also be met by completion of the IGETC or CSU General Education Breadth Requirements. For more information, schedule an appointment with a counselor.

Students seeking an official general education certification for use by a reciprocity institution are encouraged to review their records with a counselor prior to submitting the General Education Certification Request. Students who have completed courses at other colleges and universities must have official transcripts on file prior to submitting the request. Requests for A.A./A.S. general education certification may be submitted to the Evaluations Office in Room 8101.

### Petition for Graduation

Upon completion of required coursework, you may request to receive an associate degree (A.A./A.A.-T/ A.S./A.S.-T) from Foothill College. You must complete a 30-minute appointment with a Foothill counselor in order to verify applicable requirements and complete the graduation petition. Please note that any applicable coursework from other schools, in the form of official transcripts, must be on file at Foothill College at the time of completing the graduation petition. The petition must be filed the quarter during which the degree will be completed, by the applicable deadline for that quarter. For deadline information, visit [foothill.edu/counseling/petition](http://foothill.edu/counseling/petition). Foothill confers degrees every quarter, and the annual commencement ceremony is presented in June. For more information, schedule a consultation with a counselor by visiting [foothill.edu/counseling](http://foothill.edu/counseling).

### Catalog Rights/Requirements for Graduation

The Course Catalog serves as an agreement between the student and the college to identify courses that the student must complete in order to qualify for a degree or certificate. The student has the right to select the course requirements for a degree or certificate from any catalog as long as continuous enrollment has been maintained.

Allied health programs reserve the right to change catalog rights by modifying program requirements based upon state and federal accreditation standards.

### Continuous Enrollment

Continuous enrollment is important in deciding which catalog a student may select to determine degree or certificate requirements. A continuously enrolled student is defined as one who attended Foothill or De Anza colleges at least two quarters each academic year, excluding summer session. A single **W**-mark in a term qualifies as an attended term.

### Currency of Major/Certificate Requirements

In certain Foothill College programs, currency of course content is essential. The Foothill College Curriculum Committee reserves the right to determine an acceptable level of currency of any course in any major or certificate. This means that a course may only be used toward fulfilling a certificate or degree for a prescribed number of years. Students should check certificate and major requirements for courses that are noted as having currency levels.

### Online Degrees

The Foothill Online Learning Program offers online educational opportunities and services comparable to those available to on-site students. The program offers students a variety of online learning courses that meet the same high academic standards as traditional classes.

The program also offers several associate degree programs entirely online, including accounting, anthropology, art history, economics, general studies/ social science, graphic and interactive design, history, humanities, music general, music technology, psychology, sociology and women's studies, as well as general education requirements. These degrees are fully transferable. A few courses, such as communication, English and math, may require occasional meetings or proctored exams.

Foothill College may be required to receive state authorization to enroll students who do not reside in California. Many states have either given the college this authorization or do not require authorization. However, some states require significant fees to receive state authorization. Due to the significant and/or recurring fees for state authorization, Foothill College no longer permits a student to enroll if he/she resides in any of the following states: Alabama, Arkansas, Georgia, Maryland, Michigan, Minnesota or Wisconsin. For more information, visit [foothill.edu/onlinelearning](http://foothill.edu/onlinelearning).

### Discontinued Degrees

A discontinued degree is one that was once offered by Foothill College but which is no longer offered. To be considered for an associate degree in a discontinued

program, the student who has maintained continuous enrollment may file to graduate from Foothill College within seven years of the time that a program is discontinued.

### Non-Transcriptable Certificates

Per Title 5 regulations, certificates of achievement are noted on the student's transcript. However, certificates of career, completion, proficiency, specialization, and skills are not reflected on the student's transcript.

### Course Numbering System

Most Foothill courses are baccalaureate in level and can be transferred to four-year institutions. For complete course numbering guidelines, refer to page 128.

### Certification of General Education for Transfer

Foothill College will certify completion of up to 58 units of the 72-unit general education requirement for graduation from the CSU (page 83). IGETC Certification for CSU or UC requires full certification of Areas 1 through 5 (page 82). You may request certification by completing the official certification form or transcript request form available from the Admissions & Records Office in Room 8101 or Evaluations Office in Room 8301.

We encourage all students to consult with a counselor each quarter for new course requirements, and for help in selecting courses.

## Four-Year Institution Requirements

### Articulation Agreements

Articulation is the process of negotiating and approving Foothill courses with other institutions. Foothill has course-to-course and major-preparation articulation agreements with every UC and most CSU campuses, as well as many four-year colleges and universities. This information is available to you through your counselor or via the internet. To review online information, visit these websites:

- [foothill.edu](http://foothill.edu)
- [assist.org](http://assist.org)
- Website of the specific college of interest

### Assist Web Page

As the official statewide repository for articulation information, Assist ([assist.org](http://assist.org)) is the primary site for students to find specific Foothill College courses that fulfill general education and/or major preparation requirements at UC and CSU campuses. Listings of course equivalencies assist students in selecting appropriate courses to prepare for transfer. Information about exploring majors, selection criteria

for impacted and selective programs/majors, transfer credit limitations and important links to UC and CSU websites are also available at assist.org. Although Assist is an excellent tool, it is recommended that students apply Assist information to their education plan in conjunction with a Foothill counselor.

### **Transfer Admission Guarantees**

If you complete a Transfer Admission Guarantee (TAG), you'll receive first consideration for admission to selected colleges and universities. You must complete agreed-upon general education courses, as well as major courses, with a specified minimum grade-point average. Consult with a counselor to develop a TAG. The TAG must be prepared before transfer. The TAG ensures acceptance and smooth transfer to the chosen college or university. The Transfer Center, Room 8329, has additional information regarding deadlines for TAGs. The following institutions offer Transfer Admission Guarantees for Foothill students:

- American University, Paris
- Arizona State University
- California State University System\*
- Cogswell College
- Cornell University\*\*
- Golden Gate University
- Menlo College
- Notre Dame de Namur University
- Palo Alto University
- UC Davis
- UC Irvine
- UC Merced
- UC Riverside
- UC Santa Barbara
- UC Santa Cruz
- University of the Pacific

*\*Applies to associate degrees for transfer.*

*\*\*Applies to School of Civil & Environmental Engineering.*

Verify current TAG availability in the Transfer Center. Additional transfer agreements are available through the Foothill Honors Institute, including the Transfer Alliance Program with the UCLA. To verify current honors agreements, visit the Honors Institute (Room 1961).

### **Course Identification Numbering System**

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. C-ID approval signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of

their unique titles or local course number. Students should always review assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for the student who is attending more than one community college and is applied to many of the transferable courses the student will need as preparation for transfer. Because these course requirements may change or be modified and qualified for or deleted from the C-ID database, the student should always check with a counselor to determine how C-ID-designated courses fit into his/her educational plans for transfer.

The student may consult the Assist database at assist.org for specific information on C-ID course designations. For assistance interpreting or explaining this information, schedule an appointment with a counselor.

### **University of California (UC) Breadth General Education Requirements**

The UC has campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara and Santa Cruz.

UC campuses have uniform basic eligibility requirements. Each campus is distinct, however, and not all majors are offered at every campus. Each school and college at a specific UC campus has outlined major requirements that prepare you for the academic discipline.

Foothill's counselors and Transfer Center staff can advise you regarding the courses acceptable for credit at UC campuses, as well as those that meet the breadth requirements for specific UC colleges and schools. You can also review this information at assist.org. The Foothill College website at foothill.edu includes the Transfer Course Agreement Listing for all Foothill courses that are transferable to all UC campuses. You should explore all undergraduate colleges, schools and majors to determine which campuses will best satisfy your educational needs. We encourage you to discuss the advantages of each major and campus with a counselor.

### **Preparation for Transfer to Four-Year Colleges & Universities**

Each year, hundreds of Foothill College students transfer to four-year colleges or universities after completing lower-division major preparatory and general education requirements. The secret of our students' success is that they understand which courses are required for the following three transfer elements:

- Minimum admission eligibility/requirements;
- Requirements in preparation for the identified major; and
- Completion of general education/breadth requirements.
- Depending upon the transfer institution, the requirements may differ.

Counselors are an excellent resource for transfer information. Understanding the minimum requirements ensures that students can transfer in a timely manner to earn their bachelor's degree without delay.

These requirements are subject to change annually; therefore, the student should meet with a counselor every year. Many of the courses offered at Foothill College are similar to courses offered in the lower division, or first two years, at four-year colleges and universities. Because there is a wide variation between requirements at different universities, it is recommended that you decide on your major and transfer institution as soon as possible. In addition to offering counselors to help you with this decision, Foothill College offers counseling (CNSL) and Career Life Planning (CRLP) courses to help you explore and evaluate options.

#### **Transfer to the California State University (CSU)**

For students interested in transfer to one of the 23 campuses of the CSU, admission eligibility is based on transferable units completed. You are considered a transfer student if you complete college units after the summer following graduation from high school. Admission offices at the 23 CSU campuses use a common set of factors to make admission decisions for both classes of transfer students. All campuses have higher standards for out-of-state students and international students. Some campuses have higher standards for particular majors. Finally, some campuses have higher standards for all applicants. Some campuses give preference in admission to students who reside or have completed an identified number of units at institutions in their local area. For detailed information, visit [calstate.edu/sas/publications](http://calstate.edu/sas/publications).

#### **Associate Degrees for Transfer to the CSU System**

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an associate degree for transfer, which is a newly established variation of the associate degree traditionally awarded by the California Community Colleges. The associate in arts for transfer (A.A.-T.) and associate in science for

transfer (A.S.-T.) degrees are intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing the A.A.-T. or A.S.-T. degree program are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn an A.A.-T. or A.S.-T. degree, students must complete a minimum of 90 required quarter units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus in a major that accepts the A.A.-T. or A.S.-T. degree will be required to complete no more than 60 semester/90 quarter units after transfer to earn the bachelor's degree (unless the major is a designated to be a high-unit major). Note: The A.A.-T. or A.S.-T. degree may not be the best option for students who intend to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students who plan to complete the A.A.-T. or A.S.-T. degree are strongly encouraged to meet early and often with a counselor for more information on university admission and transfer requirements. Consult a counselor for more information.

#### **Lower-Division Transfer Admission**

Many CSU campuses do not accept lower-division transfers. Be sure to check with the campus if you are considering transfer as a lower-division student. Students who have completed fewer than 60 transferable semester units (90 quarter units) are considered lower-division transfer students. You are eligible for admissions consideration as a lower-division transfer if you:

- Have a college grade-point average of 2.0 or better in all transferable college units completed;
- Are in good standing at the last college or university attended; i.e., you are eligible to re-enroll;
- Meet the admission requirements for a first-time freshman or have successfully completed the necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects; and
- Meet the eligibility index required of a freshman.

#### **Upper-Division Transfer Admission**

Students who have completed 60 or more transferable semester units (90 quarter units) are considered upper-division transfer students. You are eligible for admission if you:

- Have an overall college grade-point average of 2.0 or better (2.4 for California nonresidents) in all transferable college units attempted;
- Are in good standing at the last college or university

attended; i.e., you are eligible to re-enroll; and

- Prior to transfer, you complete at least 30 semester units (45 quarter units) of general education coursework with a grade of **C** or better. The 30 (45) units must include all of the general education requirements in English composition, oral communication, critical thinking and at least one course of 3 semester units (4 quarter units) in college-level mathematics.

### Major Requirements

Students are encouraged to complete as many lower-division major preparatory requirements as possible prior to transfer. Many majors, especially in highly selective programs, have supplemental requirements that must be met prior to transfer. Consult with a counselor for additional information. These requirements may also be viewed at [assist.org](http://assist.org). Some oversubscribed programs may require supplemental courses or information for admission.

### Transfer to the University of California (UC)

The UC campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara and Santa Cruz all share the same minimum admission requirements; however, each campus is unique. The academic programs offered, the size of the student body and the location are just a few of the factors that contribute to the individual character of each campus. Entrance requirements may vary as well. Although some campuses are able to admit all eligible transfer applicants, others can accommodate only a limited number of transfer students. Academic preparation and grade-point average (GPA) are used by the competitive campuses and programs in the selection process. Criteria vary from year to year and from campus to campus according to the number and qualifications of applicants to each campus and program. For more information about campuses, consult the university general catalogs available online or in the Foothill College Transfer Center (Room 8329). Complete information on the UC may be found at [universityofcalifornia.edu/admissions](http://universityofcalifornia.edu/admissions).

The UC will award graduation credit for up to 105 lower-division quarter units of transferable coursework from a community college. Courses in excess of 105 quarter units will receive subject credit and may be used to satisfy university subject requirements. There is no limit, however, on the number of units used to determine a student's GPA, so all UC-transferable units will apply.

### Minimum Admission Requirements for Transfer Applicants Who Are California Residents

The UC considers you a transfer applicant if you enrolled in a regular session at a college or university after high school, not including summer session. (You can't disregard your college record and apply as a freshman.) There are three ways to meet the university's minimum admission requirements for transfer students. The path you use depends on the degree to which you satisfied UC's minimum eligibility requirements for freshmen at the time you graduated from high school.

- If you were eligible for admission to the university when you graduated from high school—meaning you satisfied the subject, scholarship and examination requirements, or were identified by the university during your senior year in high school as eligible in the local context—you are eligible to transfer if you have a 2.0 GPA in your transferable college coursework.
- If you met the scholarship requirements in high school but did not satisfy the 15-course subject requirement, you must take transferable college courses in the missing subjects, earn a grade of **C** or better in each required course, and maintain a 2.0 GPA in all transferable coursework to be eligible for transfer.
- If you were not eligible for admission to the university when you graduated from high school because you did not meet the scholarship requirement, you must:
  1. Complete 90 quarter units/60 semester units of transferable college credit with at least a 2.4 GPA (2.8 for nonresidents). No more than 21 quarter/14 semester units may be taken as Pass/No Pass, and
  2. Complete the following seven transferable college courses, earning a grade of **C** or better in each course:
    - Two courses in English composition;
    - One course in mathematical concepts and quantitative reasoning;
    - Four courses chosen from at least two of these subject areas: arts and humanities, social and behavioral sciences, and physical and biological sciences; and
    - Each course must be worth at least 4–5 quarter/3 semester units.

For a list of UC-transferable courses and those that specifically meet the seven-course pattern described above, visit [assist.org](http://assist.org).

Eligibility for transfer does not guarantee admission. To present a competitive application, students are encouraged to exceed minimum requirements.

### **Nonresidents**

The minimum admission requirements for nonresidents are very similar to those for residents. If you are not a California resident, consult with the admissions office at the university campus(es) that you're interested in for specific admission requirements. In all cases, however, nonresidents must have a grade-point average of 2.8 or higher in all transferable college coursework.

Be aware that many campuses use criteria that exceed these minimum requirements to select students for admission. For nonresident admission information, you are advised to consult frequently with a counselor and/or read university catalog and university websites or contact the admissions office at the appropriate university.

### **Priority Application Filing Period**

Students are encouraged to apply during the following application periods:

Application Accepted for	CSU	UC
Fall	10/1 – 11/30	11/1 – 11/30
Winter	6/1 – 6/30	7/1 – 7/31
Spring	8/1 – 8/31	10/1 – 10/31
Summer	2/1 – 2/28	N/A

While all campuses accept students for fall admission, many do not accept for spring or winter. Consult a counselor for details about a specific campus.

# 2017–2018 Foothill College General Education & Graduation Requirements

The Foothill College general education (GE) pattern is designed to ensure that the student meets the four institutional/general education student learning outcomes:

- 1. Communication:** Demonstrate analytical reading and writing skills, including evaluation, synthesis and research; deliver focused and coherent presentations; and demonstrate active, discerning listening and speaking skills in lectures and discussions.
- 2. Computation:** Demonstrate complex problem-solving skills, technology skills, computer proficiency and decision analysis through synthesis and evaluation; apply mathematical concepts and reasoning; and analyze and use numerical data.
- 3. Creative, Critical & Analytical Thinking:** Demonstrate judgment, decision-making skills and intellectual curiosity; demonstrate problem-solving skills through analysis, synthesis and evaluation; develop creativity and aesthetic awareness; conduct research methodology; and identify and respond to a variety of learning styles and strategies.
- 4. Community/Global Consciousness & Responsibility:** Demonstrate social perceptiveness, including citizenship, community service, cultural awareness, empathy, ethics, interpersonal skills, personal integrity, respect, self-esteem and sensitivity; and exhibit interest in and pursuit of lifelong learning.

Completion of the Foothill College general education pattern requires that students successfully earn a minimum of 30 units from the courses listed on pages 80-81 with at least one course in humanities, English, natural sciences (with laboratory), social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and two courses in lifelong learning from two different academic departments. Courses may only be used in one area.

It is imperative to note that the Foothill College general education pattern is only appropriate for students pursuing the Foothill College associate in arts or associate in science degree. However, it is not appropriate for students pursuing an A.A.-T or A.S.-T degree. Students planning to earn an A.A.-T or A.S.-T must complete either the IGETC or CSU GE Breadth general education pattern. Note that completion of the IGETC or CSU GE Breadth pattern may also be used to satisfy the general education requirements for the Foothill A.A./A.S. degree. **Because there are significant differences between the three patterns, the student is strongly advised to meet with a counselor to determine which pattern will best meet the student's goals.**

Effective Summer Session 2017

This information was correct when the catalog was published; however, it is expected that additional courses were added to the list in June 2017. Please see a counselor or check [assist.org](http://assist.org) for the latest list of approved courses.

## 2017–2018 Intersegmental General Education Transfer Curriculum (IGETC)

IGETC is a pattern of Foothill College courses that fulfills lower-division general education requirements for transfer to California State University (CSU) and University of California (UC). IGETC is an alternative to the CSU and local UC General Education Breadth Requirements. Many private universities also recognize IGETC for fulfillment of general education requirements. IGETC is a good option for the student who intends to transfer but is undecided about a major and/or unsure about attending CSU or UC. Some majors require extensive lower-division preparation, therefore, IGETC may not be the best choice for general education. Some universities do not accept IGETC. Always consult a counselor when developing an educational plan.

Course requirements for all areas of IGETC must be completed with a grade of C or better and certified by Foothill College for university credit. Submit a request for IGETC certification at the Counseling Center or Admissions Office. For updated information, consult your counselor or visit [assist.org](http://assist.org). Completion of IGETC requirements also qualifies students for a Foothill College Certificate of Achievement in Transfer Studies.

## Course Numbering System

The following course numbering system provides a detailed explanation regarding course number designations. When in doubt about the transferability of a course, always consult a counselor. Students are responsible for reviewing prerequisites and repeatability as noted in course descriptions. Where there is a conflict between the catalog statements and published curriculum sheets, the latter will take precedence. New courses and programs may be added throughout the year. For more information, access the online catalog at [foothill.edu](http://foothill.edu).

A degree-applicable credit course is a course that has been designated as appropriate to Foothill College degrees, which has been recommended by the College Curriculum Committee and approved by the district governing board as a collegiate course meeting the needs of students.

- Courses numbered 1–49 are typically approved for transfer to the University of California (UC).\*
- Courses numbered 1–99 are typically transferable to the California State University (CSU).\*
- Courses numbered 100 and above are typically not transferable.\*
- Courses numbered 200–299 are non-degree-applicable and include prerequisites for required courses that lead to the associate degree.
- Courses numbered 300–399 are upper division courses for the Foothill baccalaureate degree program.\*\*
- Courses numbered 400–499 are non-credit, adaptive learning, or other areas that do not apply to the associate degree.
- Community services courses are fee-based, and are scheduled and publicized separately from the state-supported courses identified in this catalog.

\* There are some exceptions to this rule; therefore, students should consult with a counselor and/or access [ASSIST.org](http://ASSIST.org) to verify course transferability.

\*\*Prior to the 2016-17 academic year, courses numbered 300-399 were workshop, review and other courses offered to meet special collegiate needs of a community nature.

Topics covered include the nature of light, atoms, and telescopes; the birth, evolution, and death of stars (including an introduction to black holes); the Milky Way Galaxy and its development over time; normal galaxies, active galaxies, and cannibal galaxies; and the Big Bang model (of the origin and ultimate fate of the cosmos). The honors section offers a challenging intellectual environment which covers the same outline as the general class but in more depth. The students will also apply the classroom knowledge and research in developing a deeper appreciation for the stellar astronomy.

## Parking Regulations

The Foothill-De Anza District Police Department supervises on-campus parking and traffic. The following rules and regulations apply to all students, staff and public. You can find a complete list of college parking and traffic regulations in the Admissions & Records Office (Room 8101) and District Police Department, (Room 2013).

- The speed limit in campus parking lots and access ways is 5 miles per hour. The speed limit of 20 miles per hour is posted on all roadways and is strictly enforced.
- Except in areas with 30-minute parking meters, all vehicles must display a valid parking permit to park on campus. Failure to display a permit will result in a citation.
- A parking permit is required from 7 a.m. to 10 p.m. seven days a week at the Foothill College Main Campus. This requirement is enforced.
- Overnight parking is prohibited.
- Day-use parking permits are \$3 and are valid for the date of purchase only. Purchase from permit dispensers in all student parking lots. Purchase quarterly or annual permits from the Admissions & Records Office.
- All vehicles must properly display a valid parking permit. Students are authorized to park in marked stalls in student lots only. Students may not park in stalls marked for disabled, staff, vendors, official vehicles or park in roadways, dirt areas or along parking lot curbing. People with disabilities are required to display state-issued identification on their vehicles or, in the event of temporary disabilities, obtain permits from the Disability Resource Center, Room 5401; or call 650.949.7017.
- Staff parking permits are required for all staff spaces. Staff permits are issued by the District Police Department.
- Special permits will be issued only by the District Police Department. The permit must be displayed on the dashboard or hang on the interior mirror so it can be read from the outside. Special permits are valid only when used within the areas and dates designated on the permit.

- Motor vehicles, bicycles and skateboards are not permitted on the interior portion of campus.
- All vehicles remaining for more than 20 minutes in areas posted for 20-minute maximum will be cited.
