**Annual Student Services Program Review Template for 2013-2014**

**Basic Program Information**

**Department Name:** Puente Project

**Division Name:** Counseling, Student Services

**Program Mission(s):**

The Puente Project is an academic preparation program that improves the college-going rate of educationally disadvantaged students. Its mission is to increase the number of educationally disadvantaged students who:
- Enroll in four-year colleges and universities
- Earn college degrees
- Return to the community as mentors and leaders of future generations

Section 1: Data and Trend Analysis

Provide a short narrative analysis of the following indicators. Please attach supporting studies or data to the final program review submitted to your Dean/Director.

a. **Students served** (How was this tracked? What is the trend over the last 3 years?):

There were 130 unique Puente students enrolled in over the past three academic years. According to the office of Institutional Research, the enrollment figure during that time period was 257. The unduplicated enrollments for each year are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of students</th>
</tr>
</thead>
<tbody>
<tr>
<td>2011</td>
<td>85</td>
</tr>
<tr>
<td>2012</td>
<td>86</td>
</tr>
<tr>
<td>2013</td>
<td>86</td>
</tr>
</tbody>
</table>

Puente students were identified based on the Puente indicator and whether they enrolled in at least one class and received a final grade between 2010-11 and 2012-13.

This data was obtained via the following sources:

- [ ] CCC Apply
- [ ] Ask Foothill
- [ ] Credentials
- [ ] SARS
- [x] Other: Institutional Research

b. **Demographics analysis:** (example: Is the ethnic breakdown of students you serve proportional to the general college ethnic distribution?) If not, please include possible explanations for the disparity.

Students of color constitute a high percentage of students in the program as compared to the general college population. The program is open to all students; however the program is geared towards first generation college students and has historically drawn students from underrepresented communities.

c. Please describe services offered off campus and how the effectiveness of these services is assessed.

None offered off main campus

Data for this area is based on services offered at the following locations:

1. [ ] Middlefield
2. _____ CCOC  
3. _____ Other (List)  
d. **Staffing structure:** Does the staffing structure meet the program or department’s needs?  

No, the current staffing structure does not meet the program’s needs as specified in the Memo of Understanding with the University of California.  

**Section 2: Core Mission Support and Student Equity**  
The College’s Core Missions are reflected below. Please respond to each mission using the prompts below.  
a. **Basic Skills**  
How does your service area support the basic skills needs students or programs? Please discuss current outcomes or initiatives related to this core mission and how those initiatives contribute to student equity and success in this core mission area.  

Puente students are enrolled in English 1ST and co-requisite, basic skills courses English 242A and 242B, a pathway in the English degree program that works with students who test into English 209 and 110 basic skills courses. Although the second quarter of this pathway sequence, English 1T, is equivalent to English 1A, which is not a coded, basic skills course, Puente works with those students who are reading and writing at a basic skills level. In addition, students are co-enrolled in a Counseling 1, College Success class that focuses on study skills and strategies to help them develop their study habits and awareness about resources on campus that can help them succeed academically.  
b. **Transfer**  
How does your service area support the transfer needs of students or programs? Please discuss current outcomes or initiatives related to this core mission and how those initiatives contribute to student equity and success in this core mission area.  

There is still a tremendous need to improve transfer rates for underrepresented students. One way we have addressed this need was to change our approach to the Puente Program by molding it to fit within the new English pathway model described above. In doing so, we hope decrease the amount time students spend moving through the basic skills English sequence from three quarters to two, thereby increasing their retention and success rates. In addition, students participate in our yearly Transfer Motivational Conference where they attend workshops about transfer. In addition to this, students take at least one more trip to a university campus to start envisioning themselves as university students. To add provide students with more guidance for and motivation to transfer, students are also co-enrolled in CRLP 71, Career-Life Planning- and CNSL 85A- a Transfer Readiness course. Lastly, students in Phase III of the program, those who have already completed the Puente English and counseling class sequence, are in constant contact with the Puente counselor who continues to help them develop an educational plan and update them on application deadlines for admission and scholarships.
c. **Workforce**

How does your service area support the workforce needs of students or CTE programs? Please discuss current outcomes or initiatives related to this core mission and how those initiatives contribute to student equity and success in this core mission area.

Although the primary goal of the Puente Program is to help first-generation college students transfer to a four-year university, we do not prevent students who are in CTE programs from joining Puente. Students in CTE programs are required to take English 1A, or the English 1ST equivalent courses to complete their programs. Helping students succeed in this course is one of our program SLOs. In addition, students in CTE programs need the academic support and counseling guidance just as much as students who are on the transfer track and by being in this program, they receive both.

### Section 3: Learning Outcomes Assessment Summary

a. **Attach 2012-2013 Program Level SA- SLO** – Four Column Report for PL-SLO Assessment from TracDat, please contact the Office of Instruction to assist you with this step if needed.
Section 4: SLO Assessment and Reflection

Based on your assessment data and reflections, please respond to the following prompts.

a. How do the objectives and outcomes in your service area relate to the program-level student learning outcomes and to the college mission?

Our program objectives are specifically geared towards helping students succeed in college-level English (English 1A or English 1ST) and eventually transferring to a four-year university. These objectives align directly with all elements of the college mission: transfer, workforce, career preparation and basic skills.

b. If your service area has other outcomes assessments at the program level, comment on the findings.

N/A

c. How has your service area engaged in dialogue about student learning outcomes?
By design, our program is a learning community in that students are required by the Memorandum of Understanding with the University of California to take at least two counseling courses along with their English classes. The counselor and English instructor therefore work together on a weekly basis to create dovetail assignments and assess student progress throughout the academic year. We discuss student learning outcomes in the context of discussing curriculum, but we also discuss these outcomes in relation to the extra-curricular activities that are also required by the MOU- trips to university campus and cultural excursions as well.
### Section 5: Service/Program Goals and Rationale

Program goals address broad issues and concerns that incorporate some sort of measurable action and connect to Foothill’s core missions, **Educational & Strategic Master Plan (ESMP)**, the division plan, and SLOs. Goals are not resource requests.

### Section 8: Student Equity and Institutional Standards

As part of an accreditation requirement, the college has established institution-set standards across specific indicators that are annual targets to be met and exceeded. Please comment on how these indicators compare at your program level and at the college level. (For a complete description of the institutional standard, please see the instructional cover sheet)
a. **Institutional Standard for Course Completion Rate: 55%**

Please comment on your program’s course success data, including any differences in completion rates by student demographics as well as efforts to address these differences.

In terms of course completion rate for the English sequence that Puente Students must take, we have more than exceeded the minimum 55% institutional standard. According to data provided by the institutional researcher:

Prior to Fall 2012, the majority of Puente students enrolled in the ENGL 250A, ENGL 250B and ENGL 1A sequence (93%). This 2012-2013 academic year marked the introduction of the Integrated Reading and Writing program (IRW) and this curriculum (ENGL 1S/1T and 242 A/B) became a required course component of the Puente experience. Among Puente students who experienced the traditional ENGL sequence, about half (54%) successfully completed the sequence from 250A through ENGL 1A (receiving a passing grade) in one academic year (by Spring 2012). These students were tracked for another year, but the completion rate through ENGL 1A increased only by 4% (54% to 58%). Among the 2012-13 Puente cohort, 73% successfully completed the ENGL 1S/1T sequence in two quarters (Fall 2012 and Winter 2013).

Has the number of students completing certificates in your program held steady, or increased/declines in the last three years? Please comment on the data, analyze the trends, including any differences in completion rates by student demographics.

N/A

c. **Institutional Standard for Transfer to four-year colleges/universities: 775**

Based on the transfer data provided, what role does your program play in the overall transfer rates? Please comment on any notable trends or data elements related to your program’s role in transfer.

Many of our Phase III Puente students do transfer; however, data is still being gathered by both the institutional researcher and the Puente State Office to gather exact numbers. We will need to establish a formal process to gather data, with assistance from institutional research and the National Clearinghouse.

We have had approximately 8 students per year transfer to the university since the first year of this program on campus.

**Section 11: Service/Program Review Summary**

Address the concerns or recommendations that were made in prior program review cycles, including any feedback from Dean/VP, Program Review Committee, etc.

After reviewing the data, we are pleased to see that the success rate of students in the English sequence has improved significantly in the first year of implementing the Integrated Reading and Writing pathway (English 1ST). We are also excited about our future goals to create cross-disciplinary collaboration by building a learning community between Puente and BSS.

Our concern is that the integrity of the contract we share with the University of California as expressed in the MOU is in danger of being undermined. This academic year (2013-2014) was the first time in which the English instructor’s salary for reassigned time was charged to the program B Budget as opposed the general funds for salary. We currently operating this program with a $13,000.00 deficit, which jeopardizes our ability to meet the minimum program requirements and provide the necessary support and services to our students as outlined in the MOU. We are waiting for further discussion about how and when this decision was made.
Section 12: Feedback and Follow Up

This section is for the Dean of Counseling to provide feedback.

a. Strengths and successes of the program as evidenced by the data and analysis:

The strengths of the Puente program continue to be the success of the students that go through the program. This is reflected in their GPA data and their transfer numbers. Puente is really about incorporating a learning community and giving students a cohort in which to assist each other as students try to successfully complete college.

b. Areas of concern, if any

An area of concern is the budget. Instead of District funding paying for the release time of the English instructor component of the program, we now have to pay out of the B budget in Student Services and/or Counseling to make up for this.

In addition, it would be helpful for the program to have an assistant or coordinator as the program grows and to adhere to the Puente requirements of the program. The only difficulty with this is that the program only has work for a few hours a week. They may be better off with a student worker to assist them with tasks since there appears to be not enough consistent work to warrant a part-time position.

c. Recommendations for improvement:

Only to fix the budget portion of this grant and to finalize details as to what will happen to the program once the Counselor and Instructor both go on sabbatical. There is no one else trained by the State to do this (and the State required training would take time and commitment to go beyond the time that the Counselor is on sabbatical).

d. Recommended next steps:
   ___X___ Proceed as planned on program review schedule
   ___ Further review/Out of cycle in-depth review

This section is for the Vice President Student Services to provide feedback.

   a. Strengths and successes of the program as evidenced by the data and analysis

The Puente Program is a huge asset to the college as a strong support of underrepresented students.

   b. Areas of concern, if any:

I share the concern of having both faculty members on sabbatical at the same time with no one trained who can step in.

c. **Recommendations for improvement:**
   None

Recommended next steps:

☑ Proceed as planned on program review schedule
☐ Further review/Out of cycle in-depth review
