**Annual Student Services Program Review Template for 2013-2014**

**Basic Program Information**

**Department Name:** Student Success & Outreach  
Student Success & Outreach includes the Foothill College & Career Connections (FCCC), Map Your Future (MYF) and the Outreach Programs

**Division Name:** Student Services

**Program Mission(s):**
The mission of the Student Success & Outreach Department is to carry out Foothill College’s purpose of providing access to educational opportunity for all with innovation and distinction. Through working collaboratively with internal and external constituencies, the College and Career Connections, the Map Your Future and the Outreach staff are able to connect Foothill’s academic, career programs and support services to a greater number of current and prospective students and their families.

Please list all Program Review team members who participated in this Program Review:

**Total number of Full Time Faculty:** 0  
**Total number of Part Time Faculty:** 2

**Please list all existing Classified positions:**
1 School Relations Specialist: full time new/vacant (starting Jan-Feb 2014)  
1 Coordinator: full time since Nov 2013 new/grant funded  
1 Student Success Specialist: full time new/vacant (starting Jan-Feb 2014)  
*1 Director: 100% 2012-13 / 50% 2013-14
Section 1: Data and Trend Analysis

Provide a short narrative analysis of the following indicators. Please attach supporting studies or data to the final program review submitted to your Dean/Director.

a. **Students served** (How was this tracked? What is the trend over the last 3 years?):

Students and services provided have been tracked through our internal database management system (TrackVia). Each year throughout the past four years we have continued to increase the number of students served by expanding MYF Academies, providing more career development activities, attending more outreach events, and providing various services to Foothill College students including “Becoming a Foothill College Student” workshops and application and registration.

This data was obtained via the following sources:

- CCC Apply
- Ask Foothill
- Credentials
- SARS
- Other (List) TrackVia

b. **Demographics analysis:** (example: Is the ethnic breakdown of students you serve proportional to the general college ethnic distribution?) If not, please include possible explanations for the disparity.

No. Our department serves predominantly minority and at risk students. Demographic information for Foothill College can be found at [http://research.fhda.edu/factbook/factbook.htm](http://research.fhda.edu/factbook/factbook.htm)

c. **Please describe services offered off campus and how the effectiveness of these services is assessed.**

MYF’s off campus Accounting, Business, Child Development and Emergency Medical Technician Academies offer non-traditional students the opportunity to explore a career, complete a certificate and earn college credit; 90% of students that enter the program are successful. MYF and FCCC represent Foothill in college fairs, information tables and presentations throughout the academic year at High Schools and Middle Schools in the Santa Clara County and some San Mateo County High Schools. This year the number of potential students served increased by more than 50%. These students were provided with information and assistance to registering for Foothill College as well as guidance to utilize all support services available and were provided with complete information on academic and career programs.
Data for this area is based on services offered at the following locations:

1. X Middlefield
2. X CCOC (SVCTEC)
3. X Other (List)
   i. Various High Schools and Middle Schools in both the Santa Clara and San Mateo Counties

**d. Staffing structure**: Does the staffing structure meet the program or department’s needs?

Up to 2012-13 academic year, the program was doing the best to fulfill its needs with a full-time director, three part time MYF Advisors and five peer advisors (students). Current data shows that the Student Success & Outreach Department and the programs within are growing exponentially. We served over 50% more students this past year than the previous. In addition, since July 2013 our programs have been sharing the director with the EOPS/CARE department, therefore we are in the process of re-organizing our staffing structure. To help with the increase in students, the department commitments and the added responsibilities to our director, we hired one full time classified employee (grant-funded through 11/30/14) on November 18, 2013 to help coordinate MYF programs and events, we are in the process of hiring a second full time classified employee (grant-funded through 11/30/14) for the MYF program-Student Success Specialist to coordinate all career development activities and support the MYF part-time advisors. We are also in the process of hiring a School Relations Specialist to support the outreach program and continue developing and expanding K-12 partnerships. With the assistance of two full time MYF employees and one full time Outreach employee, the department will be better equipped to assist all students that participate in the various programs within the Student Success & Outreach Department and better fulfill the outreach and recruitment needs of the college.

**Section 2: Core Mission Support and Student Equity**

The College’s Core Missions are reflected below. Please respond to each mission using the prompts below.

a. **Basic Skills**

How does your service area support the basic skills needs students or programs? Please discuss current outcomes or initiatives related to this core mission and how those initiatives contribute to student equity and success in this core mission area.

In addition to the support provided to students registering in ESLL and Mathematics Basic Skills courses, MYF and FCCC support the NCEL classes by providing application/registration orientations; students are successful in registering for the class, out of a sample size of 150 students that registered for Fall 2013, 70% are registering for Winter 2014. MYF also provides extra assistance in obtaining materials (i.e. textbooks and instructional supplies) and career development workshops and one-on-one appointments with basic skills students.
b. Transfer
How does your service area support the transfer needs of students or programs? Please discuss current outcomes or initiatives related to this core mission and how those initiatives contribute to student equity and success in this core mission area.

The FCCC and MYF programs provide services to current and prospective students informing them of different transfer opportunities. The MYF Advisors work closely with the program counselors to better assist students with their transferring requirements. Students are also able to make appointments with a MYF Advisor to review CSU/UC applications and personal statements prior to submission. We also provide at-risk and non-traditional students with the opportunity to visit different university campuses; to encourage transferring and to get information from faculty, staff and students from the specific university we are visiting.

c. Workforce
How does your service area support the workforce needs of students or CTE programs? Please discuss current outcomes or initiatives related to this core mission and how those initiatives contribute to student equity and success in this core mission area.

MYF Academy students participate in Career Development workshops for resume writing, job searching and preparing for an interview. Child Development and EMT students gain field experience through the Academies and all students are also supported in earning a certified permit or a certificate within their Academies field. The FCCC/MYF Department provides Foothill students with one-on-one support and group presentations on resume writing, preparing for interviews and job/internship searching and application. FCCC/MYF provides current Foothill College students with informative and comprehensive work experience as they work as a My Action Plan (MAP) Peer Advisor. Also the MYF Advisor position is a great opportunity for grad students, many have used this position as an internship on their journey to achieving a higher education.

Section 3: Learning Outcomes Assessment Summary

a. Attach 2012-2013 Program Level SA- SLO – Four Column Report for PL-SLO Assessment from TracDat, please contact the Office of Instruction to assist you with this step if needed.

Please see attached document.

Section 4: SLO Assessment and Reflection

Based on your assessment data and reflections, please respond to the following prompts.
a. How do the objectives and outcomes in your service area relate to the program-level student learning outcomes and to the college mission?

The FCCC and MYF objectives and positive outcomes have had a crucial impact on the college outreach and recruitment needs. Foothill College recognizes the central role it plays in facilitating the transition of students from high school, adult education and regional occupational programs to postsecondary education, then to employment or four-year institutions. Therefore, we are committed to providing a dynamic outreach and recruitment program that supports interdepartmental communications to share resources and maximize the impact of all outreach activities.

b. If your service area has other outcomes assessments at the program level, comment on the findings.

Student Success & Outreach supports Foothill’s academic and career programs through innovative and accessible services. Students receive information regarding Foothill’s programs through their high schools at college presentations and information tables. Students are then able to receive assistance in applying and registering for classes and exploration opportunities available by registering for a MAP (my Action Plan) to College non-credit course, attending a Becoming a Foothill College Student workshop or the annual Day on the Hill conference. As they continue along their journey at Foothill, MYF/FCCC offers students the opportunity to explore different career options and gain career development knowledge through Academies and workshops.

c. How has your service area engaged in dialogue about student learning outcomes?

FCCC/MYF/Outreach staff and faculty participate in campus-wide discussions, workshops and conferences to understand how to provide services that will assist students with their success at Foothill and later with their educational and career goals.

d. Analyzing your most recent annual program review, discuss any emerging trends related to SLO reflections and any action taken.

An emerging trend related to this year’s SLO reflection is the increase in students served and reached out to. The Student Success & Outreach department is serving more students each year and continuing to grow, in order to compensate for this constant increase the department staff is also growing.

e. What summative findings can be gathered from the Program Level Assessments?
FCCC/MYF/Outreach provides several significant services to the students, which are instrumental in their academic/career goal completion and overall success. Including: MYF Academies, career development and exploration workshops, Becoming a Foothill College Student workshops, one-on-one assistance in transfer preparation, tutoring/wrap-up sessions, application and registration assistance and recruitment/retention for current and prospective students as well representing the college in all outreach events at local high schools, middle schools and adult Ed centers. For over two years, the FCCC and MYF programs have been providing outreach services for the entire campus and act as the main contact/liaison for high schools partners.

### Section 5: Service/Program Goals and Rationale

Program goals address broad issues and concerns that incorporate some sort of measurable action and connect to Foothill’s core missions, Educational & Strategic Master Plan (ESMP), the division plan, and SLOs. Goals are not resource requests.

#### a. List Previous Program Goals from last academic year:

- Check the appropriate status box & provide explanation in the comment box

<table>

### Section 8: Student Equity and Institutional Standards

As part of an accreditation requirement, the college has established institution-set standards across specific indicators that are annual targets to be met and exceeded. Please comment on how these indicators compare at your program level and at the college level. (For a complete description of the institutional standard, please see the instructional cover sheet)

a. Institutional Standard for Course Completion Rate: 55%
Please comment on your program’s course success data, including any differences in completion rates by student demographics as well as efforts to address these differences.

MYF Academies provide student with the ability to explore different career options and helps at-risk/non-traditional high school and adult students have a good first experience in college level courses with the intention that they will continue their education. A sample size of 127 non-traditional students that participated in the MYF 2013 Academies, 90% successfully completed one of the Academies earning college credit and/or national/state certifications depending on the Academy.

b. Institutional Standard for Certificate Completion Number (Transcriptable): 325
Has the number of students completing certificates in your program held steady, or increased/declines in the last three years? Please comment on the data, analyze the trends, including any differences in completion rates by student demographics.

As mentioned before the Student Success & Outreach Department has grown over the past four years including the Map Your Future Program and Academies. In the summer of 2011 Map Your Future provided it’s first Academy (Emergency Medical Technician) taking place at the Central County Occupational Center (CCOC). This past summer, 2013, Map Your Future provided five Academies, four at CCOC and one at Foothill’s Middlefield Campus with a total of 115 successful students. Map Your Future Child Development Academies have also been offered through out the school year.

c. Institutional Standard for Transfer to four-year colleges/universities: 775
Based on the transfer data provided, what role does your program play in the overall transfer rates? Please comment on any notable trends or data elements related to your program’s role in transfer.

The FCCC/MYF programs provide one-on-one and group assistance to current and prospective students regarding different transfer opportunities. Students receive guidance on filling out CSU/UC/Private applications and personal statements. FCCC/MYF also provides field trips to different universities for at-risk and non-traditional students in order for them to gain the opportunity to get information from faculty, staff and students from the specific university we are visiting.

Section 9: Learning Outcomes Assessment Summary

a. Attach 2012-2013 Program Level – Four Column Report for PL-SLO Assessment from TracDat, please contact the Office of Instruction to assist you with this step if needed.
b. Attach 2012-2013 Course-Level – Four Column Report for CL-SLO Assessment from TracDat, please contact the Office of Instruction to assist you with this step if needed.

Section 10: SLO Assessment and Reflection

Based on your assessment data and reflections, please respond to the following prompts.
a. What curricular, pedagogical or other changes have you made as a result of your CL-SLO assessments?

The department added a new non-credit curriculum- MAP (My Action Plan) to College to support the MYF and Outreach programs’ goals.  
**MAP to College** is a bridge to college class that introduces high school, re-entry and adult students to community college. This class focuses on major areas of study, career programs, how to become a college student and the value of a college degree or certificate as well as identification of education goals, development of an education plan, and attainment of college student success skills. Includes familiarization with college culture as well as college and community resources for students.  
In the past, the department has offered the **Bridge to College** course at adult education centers. The course is for non-native speakers of English that focuses on the development of English language skills within the context of: the culture of the college classroom, selecting and registering for classes, reading and understanding the syllabus, completing assignments and meeting deadlines, taking quizzes and tests, and classroom communication skills; the assessment of skills, exploration of life paths and the resources offered by the community college; the development of basic digital literacy skills to access information on the Internet. In addition, the MYF team works closely with the academic divisions to provide MYF Academy courses.

b. How do the objectives and outcomes in your courses relate to the program-level student learning outcomes and to the college mission?

Both non-credit courses mentioned above and the MYF Academies relate to the college mission by offering educational opportunities to diverse students seeking transfer, career preparation and enhancement, and basic skills mastery. These non-credit courses and the academies are innovative, accessible and based on assessment to ensure improvement.

c. How have you used the assessment results of program-level student learning outcomes to make certificate/degree program improvements?

This is the first year that the Map Your Future program participates in the college program review process. However, since the program was developed and has been funded by grants, it is subject to quarterly reporting and annual final reviews. These requirements have allowed the program to constantly assess student-learning outcomes and improve them.

d. If your program has other outcomes assessments at the program level, comment on the findings.

The FCCC/MYF programs serve a diverse population of current and prospective students, including: at-risk, non-traditional and non-native English speaking students. The FCCC/MYF programs provide students with the opportunity, knowledge, preparation and support needed to be successful in their educational and career goals.
e. How has your department engaged in dialogue about student learning outcomes?

The FCCC/MYF/Outreach staff participates in division-wide discussions, workgroups and college-wide committees, as well as off campus student success and college going initiatives and is conscious of how the department purposes, services and student follow ups impact course completion and student success. The department has created and sustains very successful partnerships with K-12 institutions to provide services that fulfill student needs and support retention.

### Section 11: Service/Program Review Summary

Address the concerns or recommendations that were made in prior program review cycles, including any feedback from Dean/VP, Program Review Committee, etc.

<table>
<thead>
<tr>
<th>Recommendation</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. N/A</td>
<td>First year the FCCC/MYF department participates in the program review process</td>
</tr>
</tbody>
</table>
a. After reviewing the data, what would you like to highlight about your program?

The Foothill College & Career Connections Department (FCCC) was created in an effort to enhance the college support services and to effectively provide programs that focus on career exploration and advising, mentorship, college knowledge coursework, academic support, and culturally inclusive community-building to name only a few. During academic year 2011-12, four Outreach positions were eliminated and since then the FCCC/MYF department has been delivering the majority of Foothill College outreach needs and commitments. To accomplish this, the FCCC implements a MYF Advising Program by placing MYF Advisors and current Foothill students in strategic on/off campus outreach/orientation events and providing office hours at the FCCC office.

FCCC & Outreach Services

- Application & Registration Process (one-on one assistance and workshops)
- Bridge to College Course offered at Adult Ed Centers
- MAP (My Action Plan) to College Course offered at high schools
- Career Exploration & Advising Activities
- College Knowledge Coursework
- Computer Lab/Technology one-on-one and group tutorials
- Comprehensive information about Career Technical Education and Transferring options
- Mentoring and Tutoring Activities
- Bilingual presentations
- Outreach Activities including campus tours, career and college fairs, group presentations, parent nights, orientations, new student information sessions, assessment days, testing at the high schools, financial aid workshops, Day on the Hill and much more
- Map Your Future Program and Academies
- Referrals to support services such as: Counseling, Assessment, Financial Aid, EOPS, Pass the Torch, Disability Resource Center, Transfer Center, Tutoring, Veteran’s Services and more
- Workshops including:
  - Becoming a Foothill College Student (more information below)
  - How to get Good Grades in College
  - Time Management
  - Personality and Career Exploration
  - Parent Information
  - Financial Aid/EOPS
  - Benefits of Participating in Campus Life/Student Activities

Section 12: Feedback and Follow Up

This section is for the Director to provide feedback.

a. Strengths and successes of the program as evidenced by the data and analysis:

Strong partnerships with high schools, ROCPs and community organizations to develop strategies for outreach activities, community events and focused opportunities targeting specific groups for exposure to career pathways with the ultimate goal of promoting a college going culture starting in middle school, continuing to high school and then college as evidenced by an increase in MYF academies, NCEL courses and CTE pathways and college classes offered at the high schools.
b. Areas of concern, if any

- Developing an articulation process and obtaining faculty approval.
- Student barriers such as transportation to Foothill main campus and cost of textbooks.

a. Recommendations for improvement:

Continuing to improve communication, sharing information and leveraging on/off campus programs to support student success.

d. Recommended next steps:

- X Proceed as planned on program review schedule
- ___ Further review/Out of cycle in-depth review

This section is for the Vice President Student Services to provide feedback.

a. Strengths and successes of the program as evidenced by the data and analysis:

The FCCC/MYF/Outreach programs have had an outstanding year adding programs and services, hiring new staff and creating more partnerships. Alex and her team have done an excellent job enhancing programs and activities, outreach and peer support for students.

b. Areas of concern, if any:

SB-70 grant funding ends in November 2014. It is critical that we identify and commit funds to continue the outstanding work done in the MYF academies, FCCC and other activities and services funded through the grant.

c. Recommendations for improvement:

None.

a. Recommended next steps:

- Proceed as planned on program review schedule
- Further review/Out of cycle in-depth review

Denise Swett, EdD
Vice President, Student Services
1/6/14
