College Curriculum Committee Meeting Agenda Tuesday, February 20, 2018 2:00 p.m. – 3:30 p.m. President's Conference Room

| Item | Action | Attachment(s) | Presenter |
|---|-------------|----------------|-----------|
| 1. Minutes: February 6, 2018 | Action | #2/20/18-1 | Campbell |
| 2. Report Out from Division Reps | Discussion | | All |
| 3. Announcements | Information | | Campbell |
| a. New Course Proposals | | #2/20/18-2—13 | |
| b. Courses not Taught in Four Years | | #2/20/18-14 | |
| c. Bridge to College ESL Pathway | | | |
| Noncredit Certificate Approval | | | |
| d. Update on New Curriculum System | | | |
| 4-17. Stand Alone Approval Requests: APAV | 2nd Read/ | #2/20/18-15—28 | Campbell |
| 50A, 50B, 50C, 51, 53A, 53B, 54A, 54B, 55, | Action | | |
| 56, 60, 75A, 75B, 81 | | | |
| 18—23. Stand Alone Approval Requests: | 2nd Read/ | #2/20/18-29—34 | Campbell |
| APCA 100, 101, 102, 104, 105, 106 | Action | | |
| 24. Draft Update to Foothill GE Application | 2nd Read/ | #2/20/18-35 | Campbell |
| | Action | | |
| 25. Stand Alone Approval Request: JRNL 53A | 1st Read | #2/20/18-36 | Campbell |
| 26. Stand Alone Approval Request: JRNL 53B | 1st Read | #2/20/18-37 | Campbell |
| 27. Stand Alone Approval Request: KINS 55 | 1st Read | #2/20/18-38 | Campbell |
| 28. Stand Alone Approval Request: KINS 82 | 1st Read | #2/20/18-39 | Campbell |
| 29. Stand Alone Approval Request: KINS 83 | 1st Read | #2/20/18-40 | Campbell |
| 30. Stand Alone Approval Request: KINS 84 | 1st Read | #2/20/18-41 | Campbell |
| 31. Stand Alone Approval Request: KINS 85 | 1st Read | #2/20/18-42 | Campbell |

2017-2018 Curriculum Committee Meetings:

| Fall 2017 Quarter | Winter 2018 Quarter | Spring 2018 Quarter |
|---------------------|---------------------|---------------------|
| 10/3/17 | 1/23/18 | 4/24/18 |
| 10/24/17 | 2/6/18 | 5/8/18 |
| 11/14/17 | 2/20/18 | 5/22/18 |
| 11/21/17 | 3/6/18 | 6/5/18 |
| 12/5/17 | 3/20/18 | 6/19/18 |

Standing reminder: Items for inclusion on the CCC agenda are due no later than one week before the meeting.

2017-2018 Curriculum Deadlines:

| 12/1/17 | Deadline to submit courses to CSU for CSU GE approval (Articulation Office). |
|--------------------|---|
| 12/1/17 | Deadline to submit courses to UC/CSU for IGETC approval (Articulation Office). |
| 2/1/18 | Curriculum Sheet updates for 2018-19 catalog (Faculty/Divisions). |
| 2/15/18 | Deadline to submit local GE applications for 2017-18 catalog (Faculty/Divisions). |
| 6/1/18 | Deadline to submit new/revised courses to UCOP for UC transferability |
| | (Articulation Office). |
| 6/22/18 | COR/Title 5 updates for 2019-20 catalog (Faculty/Divisions). |
| Ongoing | Submission of courses for C-ID approval and course-to-course articulation with |
| | individual colleges and universities (Articulation Office). |

Distribution:

Mark Anderson (FA), Ben Armerding (LA), Rachelle Campbell (Faculty Co-Chair), Zachary Cembellin (PSME), Sara Cooper (BH), Bernie Day (Articulation Officer), LeeAnn Emanuel (DRC), Isaac Escoto (AS President), Hilda Fernandez (LA), Marnie Francisco (PSME), Evan Gilstrap (CNSL), Brenda Hanning (BH), Kurt Hueg (Dean, BSS), Eric Kuehnl (FA), Andrew LaManque (AVP Instruction, Administrator Co-Chair), Kristy Lisle (VP Instruction), Kent McGee (Evaluations), Bruce McLeod (Apprenticeship), Ronnie Miller (ASFC), Tiffany Rideaux (BSS), Katy Ripp (KA), Ben Schwartzman (DRC), Lety Serna (CNSL), Barbara Shewfelt (KA), Nanette Solvason (Dean, BH), Paul Starer (Dean, LA), Mary Thomas (LIBR), Mary Vanatta (Curriculum Coordinator), Anand Venkataraman (PSME), Bill Ziegenhorn (BSS)

College Curriculum Committee Meeting Minutes Tuesday, February 6, 2018 2:00 p.m. – 3:30 p.m. President's Conference Room

Item Discussion

| 4. 14. 1 | |
|--|--|
| 1. Minutes: January 23, 2018 | Approved by consensus. |
| Report Out from Division Reps | Speaker: All |
| | Campbell noted creation of Canvas websites for curriculum rep |
| | use, mentioned in agenda email. Please reach out to her for |
| | creation of customized site for your division. |
| | ordanom or successized one for your division. |
| | Language Arts: ENGL dept. changing some prerequisites to meet C-ID requirements. |
| | C-ID requirements. |
| | Library: Division CC recently discussed change in how academic librarians think about information literacy; Association of College & Research Libraries recently updated its standards to what they now call a "framework." Librarians considering how framework might be implemented at Foothill. |
| | Bio Health: New HORT proposals coming through. HLTH and HORT submitting changes for Feb. 20th deadline. |
| | Kinesiology: Working on ideas for new curriculum. |
| | PSME: Starting to work on Title 5 updates for 2019-20. MATH dept. starting to work on updates related to AB 705—changes could be significant. Faculty attending conference on Friday; some colleges have already implemented changes. LaManque noted state task force will be meeting to provide guidance. |
| | Fine Arts: No update. |
| | Counseling: Discussed CLEP at in-service—division is in favor of local CLEP policy. Agreed that each division should determine its own CLEP policy; such policies would be helpful for counselors. |
| | BSS: Recent focus mainly on curriculum sheets. Still working on figuring out best way to attract faculty to division CC meetings. |
| 3. Announcements | Speaker: Rachelle Campbell |
| a. New Course Proposal | The following proposal was presented: NCEL 405. No comments. |
| b. Notification of Proposed Requisites | New requisites for APAV 54B, 56, 81 (all effective 2018-19); also listed are ongoing requisites, for which a Content Review form was not on file. |
| a ESLL 26 Departmention | Language Arte rep presented mame from division, which auditors |
| c. ESLL 26 Deactivation | Language Arts rep presented memo from division, which outlines |
| | rationale for deactivating ESLL 26. Noted data showing 83% of |
| | students who complete ESLL 125 & 249 go on to pass ENGL 1A. |
| | Beginning summer 2018, students who would have previously |
| | placed into ESLL 26 will instead place into ESLL 125 & 249 (and |
| | be eligible for ENGL 1A after successful completion of ESLL 125 |
| | & 249). Vanatta will remove ESLL 26 from curriculum sheets and |
| | any CORs where it is listed as a requisite or Advisory. Campbell |
| | noted concern that ESLL 26 is listed on applications for some |
| | |

| | Allied Health programs and asked how its deactivation will affect students who previously completed course—catalog rights will remain in place for students who previously completed. |
|--|--|
| d. Update on Curriculum Process Redesign | LaManque provided update. Recent third-party vendor demonstration of curriculum and catalog software; at first glance more advanced than what was available when we last looked at third-party offerings, a few years ago. Drafting Request for Proposal (RFP) for vendors to present their products. Note that De Anza also looking for a new system but not quite ready to begin reviewing options. Idea is for district to adopt a new system to be used by both colleges. PSME rep asked if vendors provide guest login for test-driving the system—plan to request such from vendors who respond to RFP. Campbell noted that, from the faculty perspective, system recently demoed is much more transparent than C3MS. Any new system will be a huge shift; will require plan for the roll-out, and reaching out to users for training. |
| 4 No. 20 Hint Oak ARAV | Campbell shared Canvas site she created for Bio Health division curriculum use. Site lists detailed steps and instructions for certain tasks (e.g., new course proposal form, COR creation); includes links to CCC website to download forms and will be updated to include examples of completed forms. Site can be customized for each division. Possibility of hosting a general version on Academic Senate website. Campbell brainstormed digital content ideas (e.g., videos) with Judy Baker, Dean of Online Learning. |
| 4. New Subject Code: APAV | Speaker: Rachelle Campbell Apprenticeship has approved the creation of a new subject code of APAV (Apprenticeship Veterinary Assisting). This code will go into effect for the 2018-19 catalog. Campbell noted that these courses are not the same as the existing V T courses; APAV courses fall in-between existing Veterinary Assisting and Veterinary Technology programs. |
| 5. Stand Alone Approval Request: ALCB 400A | Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for ALCB 400A. No comments. Motion to approve M/S (Kuehnl, Armerding). Approved. |
| 6. Stand Alone Approval Request: ALCB 400C | Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for ALCB 400C. No comments. |
| 7. Stand Alone Approval Request: ALCB 400E | Motion to approve M/S (Armerding, Venkataraman). Approved. Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for ALCB 400E. No comments. Metion to approve M/S (Sorne Armerding) Approved. |
| 8. Stand Alone Approval Request: JRNL 22A | Motion to approve M/S (Serna, Armerding). Approved. Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for JRNL 22A. No comments. Metion to approve M/S (Venketeramen, Thomas). Approved. |
| 9. Stand Alone Approval Request: JRNL 22B | Motion to approve M/S (Venkataraman, Thomas). Approved. Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for JRNL 22B. No comments. |
| | Motion to approve M/S (Armerding, Kuehnl). Approved. |

| Draft Minutes, February 6, 2018 | |
|---|---|
| 10. Stand Alone Approval Request: JRNL 60 | Speaker: Rachelle Campbell |
| | Second read of Stand Alone Approval Request for JRNL 60. No comments. |
| | Mation to approve M/C (Corne Kushal) Approved |
| 11 Stand Alone Approval Poguest: IPNII 61 | Motion to approve M/S (Serna, Kuehnl). Approved. Speaker: Rachelle Campbell |
| 11. Stand Alone Approval Request: JRNL 61 | Second read of Stand Alone Approval Request for JRNL 61. No comments. |
| | Motion to approve M/S (Serna, Kuehnl). Approved. |
| 12. Stand Alone Approval Request: JRNL 62 | Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for JRNL 62. No comments. |
| | Motion to approve M/S (Serna, Armerding). Approved. |
| 13. Stand Alone Approval Request: JRNL 64 | Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for JRNL 64. No comments. |
| | Motion to approve M/S (Kuehnl, Thomas). Approved. |
| 14. Stand Alone Approval Request: JRNL 70R | Speaker: Rachelle Campbell |
| series | Second read of Stand Alone Approval Request for JRNL 70R independent study series (also includes 71R, 72R, 73R). No comments. |
| | Motion to approve M/S (Armerding, Kuehnl). Approved. |
| 15. Stand Alone Approval Request: LINC 77 | Speaker: Rachelle Campbell |
| | Second read of Stand Alone Approval Request for LINC 77. No comments. |
| | Motion to approve M/S (Serna, Kuehnl). Approved. |
| 16. Stand Alone Approval Request: LINC 84A | Speaker: Rachelle Campbell Second read of Stand Alone Approval Request for LINC 84A. No |
| | comments. |
| | Motion to approve M/S (Armerding, Hanning). Approved. |
| 17. Stand Alone Approval Request: LINC 84B | Speaker: Rachelle Campbell |
| | Second read of Stand Alone Approval Request for LINC 84B. No comments. |
| | Motion to approve M/S (Serna, Ziegenhorn). Approved. |
| 18. Proposed Exception Process for Starting | Speaker: Rachelle Campbell |
| Courses Prior to Catalog Publication | Second read of proposed process. Document has been updated since first read, based on suggestions, to expand process |
| | instructions. Campbell asked the group for feedback. |
| | Apprenticeship rep noted faculty is very much in favor. No additional feedback shared. |
| | Motion to approve M/S (Serna, Cembellin). Approved. |
| 19-32. Stand Alone Approval Requests: APAV | Speaker: Rachelle Campbell |
| 50A, 50B, 50C, 51, 53A, 53B, 54A, 54B, 55, | First read of Stand Alone Approval Requests for APAV courses |
| 56, 60, 75A, 75B, 81 | (discussion pertains to group of courses, as they all make up one program). Will be temporarily Stand Alone and included in a |
| | forthcoming Apprenticeship Veterinary Assisting program. |
| | Campbell spoke with faculty Lisa Eshman to confirm these courses are at a higher level than their existing counterparts in V |
| | T. Students who complete APAV versions will have option to join |
| | Veterinary Technology AS degree program in second year. Noted |

| Draft Minutes, February 6, 2018 | |
|---|--|
| | APAV math course will be taught in second year of apprenticeship program and will provide built-in support for students. Counseling rep requested clarification regarding prerequisites for existing Veterinary Technology program, for APAV students who wish to transition over—plan is for additional prerequisites to be attached to a course that such students would take during their second year. Campbell noted APAV apprenticeship located in San Francisco, so might not be much student interest in transitioning into AS degree program here at Foothill. Apprenticeship rep noted transition plan is still under discussion. PSME rep noted distance between Foothill and San Francisco and asked if regional consortium still exists to discuss such topics—LaManque noted group does exist but apprenticeship not always discussed there. Noted that apprenticeship body is regional and includes such far away locations as Monterey. Language Arts rep noted recent discussion with student who has Veterinary Technology degree from 10 years ago and can no longer afford to live in the area; wondered if APAV apprenticeship addresses need for higher paying jobs. Campbell noted apprenticeship essentially creating a new level of jobs in veterinary offices; LaManque noted apprenticeship students are paid. |
| 33—38. Stand Alone Approval Requests: APCA 100, 101, 102, 104, 105, 106 | Second read and possible action will occur at next meeting. Speaker: Rachelle Campbell First read of Stand Alone Approval Requests for APCA courses (discussion pertains to group of courses, as they all make up one program). Will be temporarily Stand Alone and included in a forthcoming Apprenticeship Culinary Arts program. Apprenticeship rep noted location in San Jose, through Job Corps Center. Noted curriculum creation has slowed since courses first proposed, due to faculty changes at center. |
| | Second read and possible action will occur at next meeting. |
| 39. Draft Update to Foothill GE Application | Speaker: Rachelle Campbell First read of updates to current Foothill General Education Application form (draft example is form for Area I - Humanities, but approved updates will apply to forms used for all GE areas). Based on comments at previous meeting, section of form used by GE subcommittee has been edited to add selections for recommended/not recommended, as well as instructions for the comments box. Campbell noted that old versions of forms might still be linked in C3MS; Vanatta will check in with system administrator to address. |
| 40. Credit by Exam Process | Second read and possible action will occur at next meeting. Speakers: Bernie Day & Nazy Galoyan Day noted that current process created by CCC in 2011. Title 5 states colleges are allowed to charge a fee up to the cost of enrollment for a course, but the student should not actually register for the course. Title 5 states transcript must clearly note when a student has received credit by exam. Language for catalog drafted by CCC was never incorporated into catalog; current catalog language is outdated. Also at issue is SPAN dept. advertising credit by exam but their courses not on the list published in catalog. ASCCC drafted paper on best practices for awarding credit by exam—Campbell will email link to group. Day noted requirement that a student must have completed 15 units at Foothill to be eligible for credit by exam, and that units received via credit by exam cannot be used to determine residency—both |

Draft Minutes, February 6, 2018

stated in district board policy.

Galoyan noted our current process violates Title 5—students should not be registering for the actual courses and we should not be receiving apportionment. Need to determine list of courses approved for credit by exam, language to list on student's transcript, fee to charge. Fine Arts rep asked what happens if student has already passed course—not eligible for credit by exam.

LaManque asked about benefits to credit by exam. Day noted cases (e.g., in C S) in which the student is more advanced than entry courses used as prerequisites for advanced levels. However, cautioned regarding transferability of credit by exam. Noted that students are looking for ways to save time. Galovan noted students in Spanish program, who enter at intermediate/advanced level but still need the units for program completion. Noted we cannot grant credit by exam for a course not offered by Foothill; exam used for credit by exam cannot mimic exams used during the course itself and must address all objectives listed on the COR. PSME rep asked what happens if a student receives credit by exam and then cannot transfer units, may they take regular version of course at Foothill—Galoyan needs to do more research but believes that this may be a local decision. Reiterated that the opposite is not allowed. Day noted students may petition Academic Council. Galoyan noted we would not claim apportionment for credit by exam, so not an issue in that sense. BSS rep asked if there is a difference between credit by exam and AP credit—Day stated that AP credit is in many cases aligned with specific course within a major, and a more universal process.

Campbell noted need to rewrite current credit by exam policy/process, determine list of courses, determine potential fee, ensure faculty know they will not receive compensation for credit by exam. CCC Team will draft update to policy and bring to a future meeting. Apprenticeship rep asked if each department will be allowed to determine its own list of courses—Day noted current policy states the faculty member and the dean. PSME rep asked what happens if dean cannot find faculty to administer exam when requested—will need to be included in discussion. Campbell noted that a department's decision to include a course is a commitment by the department to administer the exam. LaManque noted will bring topic to VP of Instruction Kristy Lisle and the deans for discussion, as this is a commitment to the student that credit by exam—Day looked but could not find anything.

Campbell asked the group to bring topic to their faculty for discussion and feedback to bring to future meeting.

41. Good of the Order

42. Adjournment

3:18 PM

Attendees: Ben Armerding (LA), Rachelle Campbell (Faculty Co-Chair), Zachary Cembellin (PSME), Bernie Day (Articulation Officer), Marnie Francisco (PSME), Nazy Galyoan (guest—Dean of Enrollment Services), Evan Gilstrap (CNSL), Brenda Hanning (BH), Joy Holland (guest—F A), Eric Kuehnl (FA), Andrew LaManque (AVP Instruction, Administrator Co-Chair), Don MacNeil (guest—K A), Bruce McLeod (Apprenticeship), Tiffany Rideaux (BSS), Katy Ripp (KA), Ben Schwartzman (SRC), Lety Serna (CNSL), Mary Thomas (LIBR), Mary Vanatta (Curriculum Coordinator), Anand Venkataraman (PSME), Bill Ziegenhorn (BSS)

Minutes Recorded by: M. Vanatta

Foothill College College Curriculum Committee New Course Proposal

This form should be completed by the faculty author as preparation to writing a new course. Your division CC rep can assist you in completing it appropriately, and will forward it to the Office of Instruction for inclusion as an announcement at the next available CCC meeting. The purpose of this form is **interdisciplinary communication**. The responsibility to rigorously review and approve new courses remains with the divisional curriculum committees.

Faculty Author: Alexander Korniakov

Proposed Number: ACTG 53B **Proposed Units:** 5

Proposed Hours: 5 hours lecture **Proposed Transferability:** CSU

Proposed Title: Financial Statement Analysis II

Proposed Catalog Description & Requisites:

Comprehensive study of various methods and techniques aimed at deeper understanding of the financial statement analysis. Topics covered in this course include intercorporate entity transactions, estimating the cost of capital, fundamentals of equity valuation, practical applications of the discounted cash flow techniques in business and financial valuation, and market-based valuation.

Prerequisite: ACTG 53 Financial Statement Analysis

| Proposed Discipline: Accounting | |
|--|-------------------------|
| (For guidance, refer to the Minimum Quals handbook, available o | on the CCC webpage.) |
| Note: If any proposed discipline falls within the purview of another | division, please verify |
| approval from that division. Division Rep: | Date: |
| | |

To which Degree(s) or Certificate(s) would this course potentially be added?
Associate of Arts Degree in Accounting
Certificate of Achievement in Accounting
Certificate of Achievement in CPA Examination Preparation

Are there any other departments that may be impacted from the addition of this course? Please identify those departments and the effect:

No

Faculty Author: Alexander Korniakov

Proposed Number: ACTG 58B **Proposed Units:** 5

Proposed Hours: 5 hours lecture **Proposed Transferability:** CSU **Proposed Title:** Auditing II

Proposed Catalog Description & Requisites:

This advanced auditing course builds on the knowledge base from an introductory auditing course to provide students with an in-depth understanding of professional standards, the audit process, advanced auditing techniques, and the auditor's role in ensuring that financial statements are fairly presented. Students will apply auditing procedures to financial statement transaction cycles, and conduct audit sampling and testing techniques.

Prerequisite: ACTG 58 Auditing

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

| Committee to begin the approval process. |
|--|
| Course #: _ APAV 50A |
| Course Title: Current Topics in Veterinary Technology I |
| Constitution of the Consti |
| Credit Status: |
| X Credit course Noncredit course |
| Noncredit course |
| Catalog Description: |
| This course is the first in a series of three courses that orient the advanced veterinary assisting apprentice to the workplace. Different aspects of the veterinary health care team will be discussed, as well as the various roles available in the organization. Different departments will present their interests, core values, and structure for integrating veterinary assistants into the team. Students will develop an appreciation of the broad scope of careers within the field. An acculturation process of the student to the facility begins in this course. |

Program Title:

Program TOPs Code: Program Unique Code: Content Review Date:

Former ID:

This course is the first in a series of three courses that orient the advanced veterinary assisting apprentice to the culture of the workplace. The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. The veterinary assisting apprentice, upon completion of the program, may choose to follow a career path to veterinary technology and licensure as a Registered Veterinary Technician.

1. Description -

This course is the first in a series of three courses that orient the advanced veterinary assisting apprentice to the workplace. Different aspects of the veterinary health care team will be discussed, as well as the various roles available in the organization. Different departments will present their interests, core values, and structure for integrating veterinary assistants into the team. Students will develop an appreciation of the broad scope of careers within the field. An acculturation process of the student to the facility begins in this course.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Investigate a variety of pertinent topics that directly relate to successful socialization to the workplace.
- B. Explain the role of each member of the veterinary health care team.
- C. Evaluate how the information presented may help them broaden their scope of practice as a veterinary nurse.
- D. Describe the role of humane education in promoting animal welfare.
- E. Predict how the philosophy of volunteering can be used to create and support effective volunteer services in a large humane organization.
- F. Examine how dogs and cats learn and apply learning theory to behavior and training.
- G. Describe the rationale for and effectiveness of animal assisted therapy.
- H. Explain the role of veterinary professionals in community outreach for targeted populations and homeless animals.

3. Special Facilities and/or Equipment -

Classroom equipped with multimedia presentation and projection capabilities. Computers with Internet access.

4. Course Content (Body of knowledge) -

- A. Various departments present their role within the workplace
 - 1. Department presentations
 - 2. Volunteer Services
- B. Veterinary health care team
 - 1. Receptionist
 - 2. Animal care attendant
 - 3. Veterinary assistants, levels
 - 4. Veterinary technicians (RVT)
 - 5. Veterinarian (DVM, VMD)
- C. Practice of veterinary nursing
 - 1. Self care for the veterinary nurse
- D. The role of humane education in promoting animal welfare
 - 1. Humane education
 - 2. Animal welfare
 - 3. Advocacy
 - 4. Adoptions philosophy
- E. Volunteer services
 - 1. Philosophy of volunteering
 - 2. Working with volunteers
- F. Learning theory
 - 1. Behavior and training
 - 2. Different approaches to behavior and training
 - 3. Training demo: enrichment and/or body language
- G. Animal assisted therapy
 - 1. Definitions and examples
 - 2. History of animal assisted therapy supporting research

- 3. Current programs in animal assisted therapy
- H. Community outreach
 - 1. Role of neutering in managing overpopulation of dogs and cats
 - 2. Vaccine clinics
 - 3. Feral Cat Program
 - 4. Other opportunities
- **5. Repeatability Moved to header area.**

6. Methods of Evaluation -

Evaluation methods may include but are not limited to:

- A. Reflection essays
- B. Participation in planned activities
- C. Writing a journal
- D. Group discussions
- E. Surveys or tests

7. Representative Text(s) -

No required textbook. Instructor and presenter materials.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

During periods of instruction the student will be:

- A. Participating in interactive lectures and presentations
- B. Attending small group discussions and activities
- C. Performing hands-on experiences as appropriate for individual topics

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Handout material and online resources will be provided by the instructor and/or guest presenters, as needed
- B. Reflection papers
- C. Written assignments

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum

| Committee to begin the approval process. |
|---|
| Course #: APAV 50B |
| Course Title: Current Topics in Veterinary Technology II |
| Credit Status: X Credit course Noncredit course Catalog Description: |
| Provides enrichment of the core curriculum to the veterinary assisting apprentice student. Presenters will include veterinarians, veterinary technicians, and animal care and management professionals involved in behavior and training of dogs and cats. Course will focus on learning theory, animal welfare, making the veterinary hospital experience less stressful and more pleasurable, decrease learned procedure aversion and fear of veterinary offices, and decrease of injuries to professionals. |
| Are you requesting Stand Alone approval for the course on a temporary or permanent basis? The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern X The course will be Stand Alone temporarily, and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: Apprenticeship in Veterinary Assisting Certificate of Achievement What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your |
| anticipated submission date?) February 2018 |

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Please indicate how your course supports the Foothill College Mission (select all that apply):

| | Transfer |
|---|---------------|
| X | Workforce/CTE |
| | Basic Skills |

Criteria B. Need

A course may only be granted Stand Alone Approval if there is <u>demonstrable need</u> for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided.

Evidence may be attached to this form or provided in the box below.

This course and associated Apprenticeships are intended to provide qualified, trained assistants in veterinary clinics. Students completing the course may be eligible for increased responsibilities and salaries depending on their employer. The Apprenticeship creates an additional pathway to a career as a Registered Veterinary Technician.

The Bureau of Labor Statistics data states that demand for veterinary technicians and technologists is expected to grow "much faster than average for all occupations." (Bureau of Labor Statistics cited on https://www.bls.gov/OOH/healthcare/veterinary-technologists-and-technicians.htm) Thirty percent growth in this field is expected in California. Despite the need for RVTs and advanced veterinary assistants in San Francisco, there is no such program in the county. This particular apprenticeship targets under-employed populations who have limited college experience but a strong interest in animals and who are dedicated to the mission of the SF SPCA.

Program Title:

Program TOPs Code:
Program Unique Code:
Content Review Date:

Former ID:

One of the three reasons animals enter shelters is due to behavior problems. By focusing on proper behavior practices in dogs and cats, the student will demonstrate successful animal handling resulting in a better response to care; this in turn supports human-animal bond. The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. The veterinary assisting apprentice, upon completion of the program, may choose to follow a career path to veterinary technology and licensure as a Registered Veterinary Technician.

1. Description -

Provides enrichment of the core curriculum to the veterinary assisting apprentice student. Presenters will include veterinarians, veterinary technicians, and animal care and management professionals involved in behavior and training of dogs and cats. Course will focus on learning theory, animal welfare, making the veterinary hospital experience less stressful and more pleasurable, decrease learned procedure aversion and fear of veterinary offices, and decrease of injuries to professionals.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Recognize body language in dogs and cats
- B. Describe the role of environment in creating fear, anxiety and stress in patients and clients
- C. Describe learning theory in dogs and cats
- D. Recognize aggressive behavior and describe how to de-escalate that behavior in dogs and cats
- E. Demonstrate competence in talking about dog and cat learning and behavior with clients
- F. Describe desensitization and counterconditioning as techniques to help manage problems in pets

3. Special Facilities and/or Equipment -

Classroom equipped with multimedia presentation and projection capabilities. Computers with Internet access.

4. Course Content (Body of knowledge) -

- A. Body language
 - 1. Canine development and communication
 - 2. Canine body language
 - 3. Preventing problems
 - 4. Feline development and communication
 - 5. Feline body language
 - 6. Preventing problems
- B. The veterinary and shelter environment
 - 1. Feline and canine sensory perception
 - 2. Stress in pets
 - 3. Veterinary nurse's role in environmental control
 - 4. Talking to clients
- C. Learning theory in dogs and in cats
 - 1. Associative learning
 - 2. Application of learning theory
 - 3. Reinforcement
 - 4. Punishment
 - 5. Habituation
- D. Aggressive behavior in dogs and cats
 - 1. Body language of aggression
 - 2. Contributing factors
 - 3. Role of fear
 - 4. De-escalation techniques in dogs
 - 5. De-escalation techniques in cats
- E. Client education in dog and cat behavior
 - 1. Pet socialization
 - 2. Positive training techniques
 - a. Lure, reward
 - 3. Taking a behavior history

- 4. Role of the technician
- F. Desensitization and counter-conditioning
 - 1. Indications
 - 2. Terminology
 - 3. Case examples
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

Various methods of evaluation may be used:

- A. Reflection papers for each topic presented
- B. Active participation in planned activities
- C. Team or individual projects
- D. Tests or other assessments

7. Representative Text(s) -

<u>Canine and Feline Behavior for Veterinary Technicians and Nurses.</u> edited by Shaw and Martin. Wiley, 2015. Yin. Low Stress Handling, Restraint and Behavior Modification of Dogs and Cats. 1st ed. Cattledog Publishing, 2009.

Content consists of relevant topics related to the workplace and concurrent coursework in the program curriculum, with an emphasis on clinical pharmacology and client education topics.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Collect information and experience a variety of pertinent topics not covered elsewhere in the Advanced Veterinary Assisting Apprenticeship that directly relate to the fundamentals in the program.
- B. Interpret presentations on various topics and write reflections based on application of topics to fundamentals from courses (continuing education model).
- C. Recognize, appraise, and evaluate the various career opportunities available to them in the veterinary field.
- D. Practice communication skills in talking with clients about their pets, during triage, intake, and release.
- E. Implement the "five rights" in interpreting, filling, and explaining prescriptions to clients.

3. Special Facilities and/or Equipment -

Classroom equipped with multimedia presentation and projection capabilities. Computers with Internet access.

- A. Fundamentals of veterinary technology (topics relevant to some of the following)
 - 1. Anatomy and physiology
 - 2. Behavior
 - 3. Nursing techniques
 - 4. Diagnostic skills
 - 5. Pharmacology
 - 6. Interprofessional communication
- B. Continuing education in veterinary technology (topics relevant to some of the following)
 - 1. Medical nursing
 - 2. Surgical nursing
 - 3. Topics in infectious disease
 - 4. Shelter medicine
 - 5. Client communication and triage
- C. Various career opportunities in the veterinary field
 - 1. Veterinary technician specialties
 - 2. Management
- D. Client communication
 - 1. History
 - 2. Medical discharge
 - 3. Surgical discharge
- E. Pharmacology
 - 1. Five rights of pharmacology
 - 2. Interpreting drug labels
 - 3. Filling drug labels
 - 4. Client education and pet medications
 - a. Following directions
 - b. Side effects
 - c. Tips for success
 - d. Owner compliance

 - 3. Supplemental reading from handouts provided by speaker
- B. Writing assignments may include:
 - 1. Weekly reflection paper
 - 2. Analysis

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Former ID:

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. Introduction to veterinary technology presents the various aspects of veterinary medicine and orients the student to the career.

1. Description -

Introduction to the profession of veterinary technology. Orientation to the program requirements and curriculum. Overview of program structure and student services. Review and practice of library skills. Survey of the role of the veterinary assistant and registered veterinary technician in the workplace. Survey of employment opportunities and areas of specialization. Ethics and professionalism pertaining to veterinary medicine. Laws and regulations governing veterinary technicians. Introduction to basic animal care skills and clinical procedures.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Explain the program structure and policy guidelines.
- B. Discuss the scope of veterinary medical practice.
- C. Define program accreditation, licensure and regulations.
- D. Describe the roles of the various members of the veterinary team.
- E. Describe the basic elements of patient care in a veterinary clinic.
- F. Explain the appropriate methods of restraint and handling of companion animals.
- G. Explain the basic concepts of preventive medicine for companion animals.
- H. Apply introductory concepts in medical terminology.
- I. Read and evaluate examples of the professional periodical literature.
- J. Discuss professional behavior and ethics as it relates to the role of the veterinary technician.
- K. List the basic principles of safety in the veterinary workplace.

3. Special Facilities and/or Equipment -

Housing and handling facilities for live animals. Classroom with projection, internet and audiovisual capabilities.

- A. Orientation to the Foothill Veterinary Technology Program
 - 1. Prerequisites
 - 2. Application process
 - 3. Course requirements
 - 4. Expectations for student performance
 - a. Qualities of a good student
 - b. Effective study habits
- B. Overview of the scope of veterinary medical practice
 - 1. Types of practice and career ladder
 - 2. Variety of employment opportunities and fields of study
 - 3. Opportunities for professional development and career advancement
- C. Laws and regulations
 - 1. Veterinary Medical Board
 - 2. CA RVT Examining Committee
 - 3. The California Veterinary Practice Act and specific regulations governing veterinary technicians
 - 4. VTNE: veterinary technician national examination
 - 5. Program accreditation and essential skills
 - a. Responsibility of student
- D. The Veterinary Medical Team
 - 1. Role and responsibilities of the Veterinary Assistant
 - 2. Role and responsibilities of the Veterinary Technician
 - 3. Role and responsibilities of the Veterinarian
 - 4. Interrelationships and delegation of tasks
- E. The animal patient and client
 - 1. The responsibilities of the Veterinary Medical Team
 - 2. Needs and expectations of the client and the practice
 - 3. Clinical history taking

- a. Purpose and format
- b. Medical record keeping
- 4. Physical examination
 - a. Basic technique
 - b. Medical record keeping
- F. Restraint and handling
 - 1. Dog
 - 2. Cat
- G. Preventive medicine
 - 1. Basic immunology and principles of immunization
 - a. Vaccination principles
 - b. Vaccination types and schedules
 - 2. Parasite control
 - 3. Regular examination
- H. Basic medical terminology
 - 1. Word roots
 - 2. Combining forms
 - 3. Terms of position and direction
- I. Orientation to the professional periodical literature
 - 1. Tour of library (when course is offered on campus)
 - 2. Use of reference materials and databases
 - 3. Introduction to computer search techniques
- J. Professional ethics
 - 1. Professional appearance
 - 2. Professional conduct
 - 3. Professional communication
 - 4. Professional ethics, laws and regulations
- K. Hospital safety
 - 1. OSHA
 - 2. Workplace hazards
 - 3. Hazardous chemicals
 - 4. Medical and animal related hazards
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

Evaluation methods may include but are not limited to:

- A. Field work assignment.
- B. Class participation; for example, group presentations.
- C. Written midterm and written final exam.
- D. Written periodical review assignment.
- E. Research paper or project.

7. Representative Text(s) -

Bassert, Joanna M. Clinical Textbook For Veterinary Technicians. 9th ed. W. B. Saunders Co., 2017.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

- A. Lecture presentations and classroom discussion
- B. Reflection activities
- C. Role playing
- D. Group presentations of major topic areas
- E. Review games

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

project.

- A. Weekly reading assignments from text, class handouts, and outside sources of 30 to 60 pages per week.
- B. Written multiple choice, short answer and essay questions.

C. One or both of the following assignments may be required: written periodical review paper, written research

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process. Course #: APAV 53A Course Title: Medical Terminology **Credit Status:** Credit course Noncredit course Catalog Description: Focus on basic word parts and rules of word construction to learn the language of medicine. Translation of common medical terms pertaining to the different body systems, with emphasis on those terms particular to veterinary medicine. Application of language to clinical situations. Are you requesting Stand Alone approval for the course on a temporary or permanent basis? The course will be **permanently** Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone temporarily, and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: Apprenticeship in Veterinary Assisting Certificate of Achievement What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) February 2018

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to k to ided ity.

| achieve the | ir goals as members of | f the workforce, as f | uture student | s, and as global citizens. We wor |
|--------------|--------------------------|-----------------------|-----------------|------------------------------------|
| obtain equi | ty in achievement of st | tudent outcomes for | all California | student populations, and are gu |
| by our core | values of honesty, into | egrity, trust, openne | ss, transpare | ncy, forgiveness, and sustainabili |
| Foothill Col | llege offers associate d | egrees and certifica | tes in multiple | e disciplines, and a baccalaureate |
| degree in d | ental hygiene. | | | |

| <u>X</u> | Workforce/CTE | | | |
| | | | | |
| | | | | Approved 4/30/13; Form Revision |
| | | | | |

12/5/17

Criteria B. Need

A course may only be granted Stand Alone Approval if there is <u>demonstrable need</u> for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided.

Evidence may be attached to this form or provided in the box below.

This course and associated Apprenticeships are intended to provide qualified, trained assistants in veterinary clinics. Students completing the course may be eligible for increased responsibilities and salaries depending on their employer. The Apprenticeship creates an additional pathway to a career as a Registered Veterinary Technician.

The Bureau of Labor Statistics data states that demand for veterinary technicians and technologists is expected to grow "much faster than average for all occupations." (Bureau of Labor Statistics cited on https://www.bls.gov/OOH/healthcare/veterinary-technologists-and-technicians.htm) Thirty percent growth in this field is expected in California. Despite the need for RVTs and advanced veterinary assistants in San Francisco, there is no such program in the county. This particular apprenticeship targets under-employed populations who have limited college experience but a strong interest in animals and who are dedicated to the mission of the SF SPCA.

| Criteria C. Curriculum Standards (please initial as appropriate) The outline of record for this course has been approved the Division Curricul meets the requirements of Title 5 | um Committee and |

Program Title: VETERINARY TECHNOLOGY

Program TOPs Code: 010210
Program Unique Code: 6009

Content Review Date:

Former ID:

Introduction to veterinary technology presents the various aspects of veterinary medicine and orients the student to the career. Medical terminology is the language of medicine. The veterinary nurse must communicate with others on the veterinary team to provide excellent care to patients, perform research, and explain and discuss patient conditions.

1. Description -

Focus on basic word parts and rules of word construction to learn the language of medicine. Translation of common medical terms pertaining to the different body systems, with emphasis on those terms particular to veterinary medicine. Application of language to clinical situations.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: Not open to students with credit in V T 53A.

2. Course Objectives -

The student will be able to:

- A. Identify and recognize the types of word parts that make up a word term.
- B. Define commonly used prefixes, roots, combining forms, and suffixes.
- C. Recognize and apply proper medical terminology to clinical scenarios presented during class and on written quizzes.
- D. Interpret the meaning of unfamiliar medical terms.
- E. Utilize proper medical terminology in classroom discussions of selected areas of veterinary practice.
- F. Discuss the role of medical terminology in record keeping and in communication with other veterinary health professionals.

3. Special Facilities and/or Equipment -

Multimedia equipped classroom, internet access.

- A. Word parts in terminology
 - 1. Word anatomy
 - 2. Prefixes
 - 3. Roots
 - 4. Combining vowels
 - 5. Combining forms
 - 6. Suffixes
- B. Common prefixes, roots, combining forms, and suffixes
 - 1. Positional terms
 - 2. Musculoskeletal system
 - 3. Comparative species' terms
 - 4. Gastrointestinal system
 - 5. Urinary system
 - 6. Cardiovascular system
 - 7. Respiratory system
 - 8. Integumentary system
 - 9. Endocrine system
 - 10. Reproductive system
 - 11. Nervous system
- C. Clinical application of terminology
 - 1. Hematologic system and immunology
 - 2. Physical examination terminology
 - 3. Application to various species and common conditions
- D. Interpret the meaning of unfamiliar medical terms
 - 1. Analysis of new words
- E. Application of terminology to various areas of veterinary practice
- F. Medical records and terminology
 - 1. Problem oriented veterinary medical record system
 - 2. Clinical applications
- 5. Repeatability Moved to header area.
- 6. Methods of Evaluation -

The student will demonstrate proficiency through some or all of the following:

- A. Weekly written guizzes
- B. Midterm and final
- C. Quizlets
- D. Definitions and decoding of words from peer reviewed journal articles

7. Representative Text(s) -

Romich, Janet A. <u>An Illustrated Guide to Veterinary Medical Terminology.</u> 4th ed. Delmar Cengage Learning, 2015. Blood, Douglas C., Virginia P. Studdert, and Clive C. Gay. <u>Comprehensive Veterinary Dictionary.</u> 4th ed. Saunders Ltd., 2012.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

- A. Lecture presentation
- B. Discussion
- C. Review activities
- D. Case discussion

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

Assignments may include some or all of the following:

- A. Reading assignments
 - 1. Weekly reading assignments from text and class handouts ranging from 30 to 60 pages per week.
 - 2. Online or other sources as required by instructor.
- B. Writing assignments
 - 1. Completion of textbook self-study workbook exercises

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Applied mathematics as a fundamental communication and technical skill. Review of calculations involving fractions, decimals, ratios and proportions, unit conversions, and algebraic equations. Clinical medical calculations utilized in preparation and administration of drugs, dosage determinations, intravenous fluid infusion, and prescription dispensing.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: MATH 230 or high school pre-algebra at a minimum to increase student success; this course is not open to students with credit in V T 53B.

2. Course Objectives -

The student will be able to:

- A. Perform calculations involving ratios, proportions, and ratio fractions.
- B. Perform conversions between decimals, fractions, ratios, and percentages.
- C. Perform conversions between metric and household systems of measure.
- D. Interpret oral and parenteral medication labels involving capsule and tablet strength dosages, oral solution concentrations, international units, milliequivalents, and weight-to-volume percentage concentrations.
- E. Perform calculations relating percentage, ratio strength, and concentrations of solutions.
- F. Perform calculations of dosages of drugs, and dispensing of drug quantities from dosage calculations.
- G. Record drug administration information in medical records, such as patient records, controlled substances logs, anesthesia logs, and prescription labels.
- H. Perform calculations involving intravenous preparations, including consideration of isotonicity, milliequivalents, percentage solutions, flow (drip) rates, and constant infusions.

3. Special Facilities and/or Equipment -

Classroom with computer, internet, and visualizer. Software for auto-tutorial and interactive exercises in medical calculations. Various example drug products and dosage forms for demonstration. Fluid infusion equipment for demonstration purposes.

- A. Review of basic mathematics
 - 1. Mathematics of decimals and fractions
 - 2. Solving simple algebraic equations
 - 3. Ratios and proportions
- B. Mathematic conversions
 - 1. Decimals
 - 2. Fractions
 - 3. Ratios
 - 4. Percentages
- C. Systems of drug measure and unit conversions
 - 1. Metric international system
 - 2. Household system
 - 3. Apothecary system no longer used, but may mention
- D. Interpreting drug labels
 - 1. Reading oral and parenteral medication labels
 - a. Strength dosage
 - b. Solution concentration
 - 2. Hypodermic syringe measurement
 - 3. Reconstitution of powdered drugs
- E. Calculating solution dosages
 - 1. Ratio and proportion method
 - 2. Formula method
 - 3. Insulin and heparin dosing
 - 4. Solutions and dilutions
- F. Following medication administration orders (drug dispensing)

- 1. Calculating drug dosages
- 2. Dispensing drugs based on interpretation and calculation of orders
- G. Documentation
 - 1. Patient records
 - 2. Inventory
 - 3. Loas
 - a. Anesthesia
 - b. Controlled substance
 - 4. Prescription labels
- H. Intravenous fluid therapy and critical care calculations
 - 1. Intravenous fluid therapy principles and equipment
 - a. Tonicity
 - 2. Intravenous flow rate calculations
 - 3. Calculating constant rate infusions and infusion times
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

The student will demonstrate proficiency by:

- A. Written examinations
- B. Completion of self-study exercises
- C. Midterm and final examinations

7. Representative Text(s) -

Williams, Lindsey. Clinical Mathematics for Veterinary Technicians. San Bernardino, CA: 2017. ISBN 978-15454-10462.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

During periods of instruction, the student will be in:

- A. Lecture
- B. Discussion
- C. Cooperative learning exercises
- D. Demonstration

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Reading assignments
 - 1. Weekly reading assignments from text and class handouts ranging from 30 to 60 pages per week
- B. Writing assignments
 - 1. Textbook and instructor created exercises for medical math calculations
 - 2. Written short answer questions

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum

| Committee to begin the approval process. |
|---|
| Course #: _ APAV 54A |
| Course Title: Comparative Veterinary Anatomy & Physiology For The Veterinary Technician |
| Credit Status: |
| X Credit course Noncredit course |
| Catalog Description: |
| The first of two courses in comparative veterinary anatomy and physiology for veterinary technicians. Clinically relevant veterinary anatomy and physiology. Discussion of the similarities and differences among the major domestic species. The first course introduces basics of chemistry to help the student interpret the physical and chemical basis of life. Systems included in the first course are: integumentary, muscles, skeletal, and cardiovascular. Emphasis is placed on the normal structure and function of the major organ systems as the foundation for understanding normal physiology and the pathophysiology of disease. |
| Are you requesting Stand Alone approval for the course on a <u>temporary</u> or <u>permanent</u> basis? |
| The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone temporarily , and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: |
| Apprenticeship in Veterinary Assisting Certificate of Achievement |
| What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) |
| February 2018 |

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. (Bureau of Labor Statistics cited on https://www.bls.gov/OOH/healthcare/veterinary-technologists-and-technicians.htm) Thirty percent growth in this field is expected in California. Despite the need for RVTs and advanced veterinary assistants in San Francisco, there is no such program in the county. This particular apprenticeship targets under-employed populations who have limited college experience but a strong interest in animals and who are dedicated to the mission of the SF SPCA. Criteria C. Curriculum Standards (please initial as appropriate) The outline of record for this course has been approved the Division Curriculum Committee and meets the requirements of Title 5 Faculty Requestor: Lisa Eshman, DVM Date: 1/19/18 Date: 1/26/18 | Diago indicate how your course cupports the Footbill College Mission (coloct all that a | ankı). | |
|---|---|------------------------------|--|
| Basic Skills Criteria B. Need A course may only be granted Stand Alone Approval if there is demonstrable need for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is anavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided. Evidence may be attached to this form or provided in the box below. This course and associated Apprenticeships are intended to provide qualified, trained assistants in veterinary clinics. Students completing the course may be eligible for increased responsibilities and salaries depending on their employer. The Apprenticeship creates an additional pathway to a career as a Registered Veterinary Technician. The Bureau of Labor Statistics data states that demand for veterinary technicians and technologists is expected to grow "much faster than average for all occupations." Need/Justification -

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

The first of two courses in comparative veterinary anatomy and physiology for veterinary technicians. Clinically relevant veterinary anatomy and physiology. Discussion of the similarities and differences among the major domestic species. The first course introduces basics of chemistry to help the student interpret the physical and chemical basis of life. Systems included in the first course are: integumentary, muscles, skeletal, and cardiovascular. Emphasis is placed on the normal structure and function of the major organ systems as the foundation for understanding normal physiology and the pathophysiology of disease.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: Not open to students with credit in V T 54A.

2. Course Objectives -

The student will be able to:

- A. Recognize, compare, and contrast the chemical basis of life, and how these elements combine to form the biochemical molecules that make up the various cells and tissues that comprise organs and body systems.
- B. Apply the scientific method.
- C. Describe the functions of various cells and tissues.
- D. Describe the structure and function of the integumentary system in various species.
- E. Describe the structure and function of the skeletal system in various species.
- F. Describe the structure and function of the muscular system in various species.
- G. Describe the structure and function of the cardiovascular system in various species.

3. Special Facilities and/or Equipment -

Lecture and laboratory facility with high-quality overhead projector, instructor computer with internet access, microscope, visualizer, and DVD. Student computers, bench space, anatomy and physiology models, microscopes, prepared microscope slides, preserved specimens, images and video captured from Anatomage model on Foothill campus.

- A. Chemical basis of life
 - 1. Periodic table of the elements
 - 2. Atoms
 - a. Protons
 - b. Electrons
 - c. Neutrons
 - d. Isotopes
 - 3. Molecules
 - a. Nomenclature
 - b. Types of bonding
 - c. Biological molecules
 - d. Macromolecules
 - 1. Sugars
 - 2. Fats
 - 3. Proteins
 - a. Structural proteins
 - b. Enzymes
 - c. Nucleic acids
 - e. Salts
 - f. Acids and bases

1. Buffer systems

- g. Energy
- B. Scientific Method
 - 1. Ask a question
 - 2. Form hypothesis
 - 3. Create an experiment or follow a protocol
 - a. Variables
 - 4. Make observations
 - 5. Draw conclusions
 - 6. Write the research
- C. Cells and tissues
 - 1. Cell structure
 - 2. Life cycle of the cell
 - 3. Cell physiology
 - a. Control of cell division
 - b. Protein synthesis
 - 4. Cell differentiation
 - 5. Tissues
 - a. Epithelial
 - b. Connective
 - c. Muscle
 - d. Nervous
 - e. Tissue healing and repair
- D. Integumentary system
 - 1. Terminology and structure
 - 2. Functions
 - 3. Related structures
 - 4. Applications in clinical setting
 - a. Physical examination
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
- E. Skeletal system
 - 1. Terminology and structure
 - 2. Functions
 - a. Axial
 - b. Appendicular
 - c. Visceral
 - d. Joints
 - 3. Applications in clinical setting
 - a. Physical examination
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
 - e. Radiology
- F. Muscles
 - 1. Terminology and structure
 - 2. Functions
 - 3. Applications in clinical setting
 - a. Physical examination
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
- G. Cardiovascular system
 - 1. Terminology and structure
 - 2. Functions
 - a. Cardiac conduction system
 - b. Cardiac output
 - c. Blood vessels
 - d. Fetal circulation
 - 3. Applications in clinical setting
 - a. Physical examination
 - 1. Perfusion
 - 2. Arteries vs. veins
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
 - e. Radiology

6. Methods of Evaluation -

Methods may include but are not limited to the following:

- A. Two written midterm exams
- B. Written final exam
- C. Laboratory evaluations: quizzes and practical exams
- D. Additional in-class or in-laboratory evaluations

7. Representative Text(s) -

Colville, Thomas, and Joanna M. Bassert. <u>Clinical Anatomy and Physiology for Veterinary Technicians.</u> 3rd ed. MO: Mosby Elsevier Publishers, 2016.

Colville, Thomas, and Joanna M. Bassert. <u>Clinical Anatomy and Physiology Laboratory Manual for Veterinary</u> Technicians. MO: Mosby Elsevier Publishers, 2016.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

During periods of instruction the student will be in:

- 1. Lecture
- 2. Discussion
- 3. Laboratory demonstration using models, slides, Anatomage model or other lab materials
- 4. Cooperative learning laboratory exercises

10. Lab Content -

- A. Laboratory topics
 - 1. Anatomical terminology of systems covered
 - 2. Applied chemistry: homeostasis
 - 3. Cell and tissue identification
 - 4. Bone taxonomy; survey of axial bones, appendicular bones and markings
 - 5. Muscle taxonomy; survey of major muscles, origins, insertions and actions
 - 6. Arthrology; survey of joint classification and actions
 - 7. Cardiovascular system; flow of blood, perfusion, cardiac cycle, clinical applications
- B. Laboratory skills
 - 1. Identification of major cell and tissue types on prepared histology slides of systems covered
 - 2. Use of laboratory materials such as general laboratory equipment, models and microscopes
 - 3. Ability to follow a protocol, make experimental observations and draw conclusions for experiments involving topics such as homeostasis of cells
 - 4. Define and use all directional terms
 - 5. Identification of three different types of muscles and their characteristics
- 11. Honors Description No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

Assignments may include:

- A. Reading assignments
 - 1. Weekly reading assignments in the lecture text and other instructional materials, such as lecture notes, online readings, study guides of approximately 30-60 pages/week
 - 2. Weekly reading assignments in the lab manual and corresponding instructional materials
- B. Online content and writing assignments
 - 1. Viewing of DVDs or online movies with written summaries
 - 2. Self quizzes

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

| Committee to begin the approval process. |
|--|
| Course #: APAV 54B |
| Course Title: Comparative Veterinary Anatomy & Physiology For The Veterinary Technician |
| Credit Status: X Credit course Noncredit course |
| Catalog Description: |
| The second of two courses in comparative veterinary anatomy and physiology for veterinary technicians. Clinically relevant veterinary anatomy and physiology. Discussion of the similarities and differences among the major domestic species. Systems included in this course are: respiratory, gastrointestinal, neurologic, endocrine, reproductive, and urinary. The differences between avian and mammalian anatomy and physiology is discussed. Emphasis is placed on the normal structure and function of the major organ systems as the foundation for understanding normal physiology and the pathophysiology of disease. |
| Are you requesting Stand Alone approval for the course on a <u>temporary</u> or <u>permanent</u> basis? |
| The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone temporarily , and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: |
| Apprenticeship in Veterinary Assisting Certificate of Achievement |
| What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) |
| February 2018 |

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Need/Justification -

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

The second of two courses in comparative veterinary anatomy and physiology for veterinary technicians. Clinically relevant veterinary anatomy and physiology. Discussion of the similarities and differences among the major domestic species. Systems included in this course are: respiratory, gastrointestinal, neurologic, endocrine, reproductive, and urinary. The differences between avian and mammalian anatomy and physiology is discussed. Emphasis is placed on the normal structure and function of the major organ systems as the foundation for understanding normal physiology and the pathophysiology of disease.

Prerequisite: APAV 54A; per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: Not open to students with credit in V T 54B.

2. Course Objectives -

The student will be able to:

- A. Describe the structure and function of the respiratory system in various species
- B. Describe the structure and function of the digestive system in various species
- C. Describe the structure and function of the nervous system in various species
- D. Describe the structure and function of the endocrine system in various species
- E. Describe the structure and function of the urinary system in various species
- F. Describe the structure and function of the reproductive system in various species
- G. Describe the anatomical structure and physiology of avian species
- H. Compare and contrast some of the basic differences between birds and mammals in anatomy and physiology

3. Special Facilities and/or Equipment -

Classroom equipped with multimedia presentation and projection capabilities. Computers with Internet access. Student computers, bench space, anatomy and physiology models, microscopes, microscope slides (cytology and histology), preserved specimens, images from Anatomage model at Foothill.

- A. Respiratory system
 - 1. Terminology
 - 2. Structure
 - a. Upper respiratory tract
 - 1. Nose
 - 2. Pharynx
 - 3. Larynx
 - 4. Trachea
 - b. Lower respiratory tract
 - 1. Bronchial tree
 - 2. Alveoli
 - 3. Lungs
 - 3. Functions
 - a. Inspiration
 - b. Expiration
 - c. Respiratory volumes
 - d. Alveolar gas exchange
 - e. Control of breathing
 - 4. Clinical applications
 - a. Physical examination
 - b. Nursing care

- c. Clinical pathology
- d. Comparative anatomy and physiology
- e. Radiology
- B. Digestive system
 - 1. Terminology and structure
 - 2. Oral cavity
 - 3. Esophagus
 - 4. Stomach
 - a. Monogastric stomach
 - b. Ruminant stomachs
 - 1. Reticulum
 - 2. Rumen
 - 3. Omasum
 - 4. Abomasum
 - 5. Nursing ruminant
 - 5. Small intestine
 - 6. Large intestine
 - 7. Rectum, anus
 - 8. Associated organs
 - a. Liver
 - b. Pancreas
 - 9. Nutrition
 - a. Nutrients
 - 1. Water
 - 2. Carbohydrates
 - 3. Fats
 - 4. Proteins
 - 5. Vitamins
 - 6. Minerals
 - b. Metabolism
 - 1. Control of metabolism
 - 2. Metabolic pathways
 - 10. Applications in clinical setting
 - a. Physical examination of the gastrointestinal systems of various species
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
 - e. Case studies
- C. Nervous system
 - 1. Terminology and structure
 - 2. Neurons and supporting cells
 - 3. Organization
 - a. Central and peripheral nervous systems
 - b. Afferent and efferent nerves
 - c. Autonomic and somatic nerves
 - 4. Neuron function
 - 5. Neuron communication
 - a. Neurotransmitters
 - 6. Brain and spinal cord
 - a. Structures of the brain
 - b. Structures of the spinal cord
 - 7. Autonomic nervous system
 - a. Structure
 - b. Function
 - 8. Reflexes
 - 9. Sense organs
 - a. General senses
 - 1. Visceral
 - 2. Touch
 - a. Temperature
 - b. Pain
 - c. Proprioception
 - b. Special senses
 - 1. Taste
 - 2. Smell
 - 3. Hearing
 - 4. Equilibrium
 - 5. Vision
 - 10. Applications in clinical setting
 - a. Neurological examination

- b. Nursing care and considerations
- c. Comparative anatomy and physiology
- d. Case studies
- D. Endocrine system
 - 1. Terminology and structure
 - 2. Hormones
 - a. Characteristics
 - b. Control of secretion
 - 3. Major endocrine glands
 - a. Hypothalamus
 - b. Pituitary
 - c. Thyroid
 - d. Parathyroid
 - e. Adrenal
 - f. Pancreas
 - g. Gonads
 - h. Other endocrine organs
 - 1. Kidney
 - 2. Stomach
 - 3. Small intestine
 - 4. Placenta
 - 5. Thymus
 - 6. Pineal
 - 4. Applications in clinical setting
 - a. Physical examination
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
 - e. Case studies
- E. Urinary system
 - 1. Terminology and structure
 - 2. Kidney
 - a. Structure
 - b. Function
 - 3. Ureters
 - 4. Urinary bladder
 - a. Structure
 - b. Function
 - c. Micturition
 - 5. Urethra
 - 6. Applications in clinical setting
 - a. Physical examination
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
 - e. Case studies
- F. Reproductive system
 - 1. Terminology and structure
 - 2. Male reproductive organs
 - a. Testes
 - 1. Structure
 - 2. Function
 - b. Vas deferens
 - c. Accessory glands
 - 1. Seminal vesicles
 - 2. Prostate
 - 3. Bulbourethral
 - d. Penis
 - 1. Structure
 - 2. Function
 - 3. Female reproductive system
 - a. Ovaries
 - b. Oviducts
 - c. Uterus
 - d. Cervix
 - e. Vagina
 - f. Vulva
 - g. Estrous cycle
 - 4. Pregnancy, development, lactation
 - a. Copulation

- b. Fertilization
- c. Implantation
- d. Placenta
 - 1. Structure
 - 2. Attachment
- e. Pregnancy
- f. Parturition
- g. Mammary glands and lactation
 - 1. Species differences
 - 2. Lactation
 - 3. Colostrum
 - 4. Maintenance of lactation
- 5. Applications in clinical setting
 - a. Physical examination
 - b. Nursing care
 - c. Clinical pathology
 - d. Comparative anatomy and physiology
- G. Avian anatomy and physiology
 - 1. Terminology and comparative structures
 - 2. Integument
 - 3. Musculoskeletal
 - a. Flight adaptations
 - 4. Sense organs
 - 5. Endocrine system
 - 6. Digestive system
 - 7. Circulatory system
 - 8. Respiratory system
 - Urogenital system
 - 10. Bird classifications
- H. Comparison of mammalian and avian species
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

The student will demonstrate proficiency through some or all of the following:

- A. Two written midterm exams
- B. A written final exam
- C. Laboratory evaluations, quizzes, and practical exams

7. Representative Text(s) -

Colville, Thomas, and Joanna M. Bassert. <u>Clinical Anatomy and Physiology for Veterinary Technicians.</u> 3rd ed. MO: Mosby Elsevier Publishers, 2016.

Colville, Thomas, and Joanna M. Bassert. <u>Clinical Anatomy and Physiology Laboratory Manual for Veterinary Technicians.</u> MO: Mosby Elsevier Publishers, 2016.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

During periods of instruction the student will be in:

- A. Lecture
- B. Discussion
- C. Laboratory demonstration using models, slides, Anatomage model or other lab materials
- D. Cooperative and individual laboratory exercises

10. Lab Content -

- A. Anatomical terminology of systems covered
- B. Identification of major cell and tissue types on prepared histology slides of systems covered
- C. Terminology and identification of structures in the following systems
 - 1. Respiratory system

- 2. Digestive system
- 3. Nervous system
- 4. Sense organs
- 5. Endocrine system
- 6. Urinary system
- 7. Reproductive system
- 8. Avian anatomy
- 11. Honors Description No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

Assignments may include:

- A. Reading assignments
 - 1. Weekly reading assignments in the lecture text and other instructional materials, such as lecture notes, online readings, study guides of approximately 30-60 pages/week
 - 2. Weekly reading assignments in the lab manual, online, or corresponding instructional materials
- B. Writing assignments
 - 1. Viewing of DVDs or online movies with written summaries
 - 2. Self quizzes

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

| committee to begin the approval process. |
|---|
| Course #: APAV 55 |
| Course Title: Animal Management & Clinical Skills I |
| Credit Status: |
| X Credit course Noncredit course |
| Catalog Description: |
| Intended for the pre-clinical nursing training of advanced veterinary assisting apprenticeship students. The following topics are covered: occupational health and safety, dog and cat handling and restraint, administration of medication, assessing dehydration and basic fluid administration, principles of aseptic technique, sanitation, disinfection and sterilization, introduction to principles of surgical nursing and instrumentation. |
| Are you requesting Stand Alone approval for the course on a <u>temporary</u> or <u>permanent</u> basis? |
| The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern X The course will be Stand Alone temporarily , and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: |
| Apprenticeship in Veterinary Assisting Certificate of Achievement |
| What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) |
| February 2018 |

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Please indicate how your course supports the Foothill College Mission (select all that apply):

| | Transfer |
|---|---------------|
| X | Workforce/CTE |
| | Basic Skills |

Criteria B. Need

A course may only be granted Stand Alone Approval if there is <u>demonstrable need</u> for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided.

Evidence may be attached to this form or provided in the box below.

This course and associated Apprenticeships are intended to provide qualified, trained assistants in veterinary clinics. Students completing the course may be eligible for increased responsibilities and salaries depending on their employer. The Apprenticeship creates an additional pathway to a career as a Registered Veterinary Technician.

The Bureau of Labor Statistics data states that demand for veterinary technicians and technologists is expected to grow "much faster than average for all occupations." (Bureau of Labor Statistics cited on https://www.bls.gov/OOH/healthcare/veterinary-technologists-and-technicians.htm) Thirty percent growth in this field is expected in California. Despite the need for RVTs and advanced veterinary assistants in San Francisco, there is no such program in the county. This particular apprenticeship targets under-employed populations who have limited college experience but a strong interest in animals and who are dedicated to the mission of the SF SPCA.

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Intended for the pre-clinical nursing training of advanced veterinary assisting apprenticeship students. The following topics are covered: occupational health and safety, dog and cat handling and restraint, administration of medication, assessing dehydration and basic fluid administration, principles of aseptic technique, sanitation, disinfection and sterilization, introduction to principles of surgical nursing and instrumentation.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Discuss the state and federal laws that govern safety in the veterinary workplace and describe the requirements for Cal-OSHA compliance.
- B. Compare and contrast eukaryotic, bacterial and viral organisms in structure and function.
- C. Explain the roles of immunity and microorganisms in the disease process.
- D. Identify health and safety hazards in a veterinary clinic or biomedical institution and describe safe practices.
- E. Describe the classes of sterilants, disinfectants and antiseptics and explain their clinical application.
- F. List and employ the principles of aseptic technique and the universal precautions.
- G. Demonstrate safe, humane and proper methods of animal handling and restraint.
- H. Demonstrate competence in preparing and administering medication.
- I. Describe and assess dehydration in the veterinary patient.
- J. Identify, properly handle, and maintain common surgical instruments.
- K. Demonstrate or explain proper techniques for the preparation of surgical packs, operation of an autoclave and gas sterilizer.

3. Special Facilities and/or Equipment -

Classroom and laboratory with multimedia presentation and projection capabilities. Laboratory with suitable small animal holding kennels, work tables, supply cabinets and scrub sink. Demonstration equipment and supplies, including fluid administration equipment, medications and administration supplies, autoclave, surgical soft goods and instruments, gowns and gloves.

4. Course Content (Body of knowledge) -

- A. Laws governing health and safety in the workplace
 - 1. Federal laws
 - 2. State laws, Cal-OSHA
 - 3. Local laws
 - 4. Proper disposal of sharps and medical waste
 - 5. Documentation
 - a. Four written components required of most veterinary practices
 - b. How to implement a sanitation plan
 - c. Documentation and safety in the workplace
- B. Basic bacterial cell and viral structure and function
 - 1. Eukaryotic cells
 - 2. Prokaryotic cells
 - a. Enzyme structure and function
 - b. Anaerobic and aerobic respiration, fermentation
 - 3. Viral structure and replication
 - a. Bacteriophage vs. mammalian viruses
 - b. Retroviruses, medical significance
- C. Microorganisms and disease
 - 1. Types of microorganism
 - 2. Immune responses
 - a. Humoral and cellular immune responses
 - b. Active and passive immunity
 - c. Role of vaccination in preventing disease

- 3. Portals of entry
- 4. Pathogenicity and virulence
- D. Health and safety hazards in the veterinary workplace
 - 1. Chemicals
 - 2. Biohazardous materials
 - 3. Radiation safety
 - 4. Waste anesthetic gas and hazards of compressed gases
 - 5. Electrical equipment
 - 6. Animal bites
 - 7. Zoonotic diseases
 - 8. Ergonomics
 - 9. Health hazards and pregnancy
 - 10. Other safety hazards
- E. Sterilants, disinfectants and antiseptics
 - 1. Surface application
 - 2. Surgical instruments
 - 3. How and where to use different chemicals
 - 4. Safety Data Sheets
- F. Principles of aseptic technique and universal precautions
 - 1. Surgical preparation of personnel
 - a. Surgical hand scrub
 - b. Drying hands
 - c. Donning sterile gown
 - d. Gloving techniques
 - 2. Surgical preparation of the patient
 - a. Aseptic preparation of surgical sites
 - b. Draping techniques
 - c. Patient transport
 - d. Final prep in surgical suite
 - 3. Preparation of sterile surgical packs
 - a. Instrument
 - b. Gown
 - c. Towel
 - d. Special purpose
 - 4. Comportment in surgical suite
 - 5. Record keeping
 - 6. Universal precautions
 - a. PPE
 - b. Proper hand washing
- G. Animal handling and restraint
 - 1. Proper lifting technique
 - 2. Canine restraint
 - a. Canine body language
 - b. Restraint for medical procedures
 - 3. Feline restraint
 - a. Feline body language
 - b. Restraint for medical procedures
- H. Preparation and administration of medications
 - 1. Documentation
 - 2. Five rights
 - 3. Capsules, tablets and liquids
 - 4. Syringes and needles
 - 5. Enteral routes of administration
 - a. Per os
 - b. Per rectum
 - 6. Parenteral routes of administration
 - a. Subcutaneous
 - b. Intramuscular
 - c. Intravenous
 - 1. Identify parts of an intravenous administration set
 - d. Intradermal
 - e. Topical
- I. Clinical and laboratory assessment of dehydration in the veterinary patient
 - 1. Physical findings
 - 2. Historical information
 - 3. Laboratory assessment
 - 4. Nursing assessments
- J. Surgical instruments
 - 1. Identification of common surgical instruments
 - 2. Handling and use

- 3. Care and maintenance
- K. Surgical packs
 - 1. Selecting instruments
 - 2. Preparing packs
 - 3. Operation and maintenance of the autoclave
 - 4. Principles and method of gas sterilization
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

The student will demonstrate proficiency by some or all of the following:

- A. Written guizzes and examinations.
- B. Written homework assignments may be assigned.
- C. Term project.
- D. Two practical laboratory examinations. Proficiency will be individually assessed in skills appropriate to this course, as required by the AVMA. Students practice the required skills during lab classes, and know the criteria for demonstration of competency.

7. Representative Text(s) -

Bassert, Joanna M., and Dennis M. McCurnin. <u>Clinical Textbook For Veterinary Technicians.</u>, 9th ed. W. B. Saunders Co., 2014.

Taylor, Susan. Small Animal Clinical Techniques. 2nd ed. Elsevier, 2016.

Tear, Marianne. Small Animal Surgical Nursing: Skills and Concepts. 2nd ed. Mosby, 2012.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Cooperative learning exercises
- D. Laboratory: demonstration and practice of skills

10. Lab Content -

- A. General restraint (dogs and cats)
 - 1. Sternal recumbency restraint (dogs and cats)
 - 2. Lateral recumbency restraint (dogs and cats)
 - 3. Cephalic venipuncture restraint (dogs and cats)
 - 4. Saphenous venipuncture restraint (dogs and cats)
 - 5. Jugular venipuncture restraint (dogs and cats)
 - 6. Feline neck scruff
 - 7. Feline towel restraint
 - 8. Eye/ear medication restraint (dogs and cats)
 - 9. Canine nylon/leather muzzle application
 - 10. Apply Elizabethan collar
 - 11. "Rabies Pole" use (GROUP)
- B. Surgical instrument care, wrapping, and sterilization
 - 1. Clean surgical instruments
 - 2. Prepare a surgical pack for sterilization
 - 3. Sterilize an instrument pack in an Autoclave
- C. Small animal nursing skills
 - 1. Administer oral tablet or capsule to a dog or cat
 - 2. Administer oral liquid to a dog or cat
 - 3. Administer subcutaneous injection to a dog or cat
 - 4. Administer intramuscular injection to a dog or cat
 - 5. Administer subcutaneous fluids to a dog or cat

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

Students may be required to complete some or all of the following assignments:

- A Reading sesignments
 - A. Reading sssignments

 1. Weekly reading assignments from text, class handouts and online resources ranging from 50 to 100
 - pages per week

 B. Writing assignments
- Writing assignments
 Short answer essay questions
 Z. Term project

C. "Nerd Book" project

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Intended for the pre-clinical training of veterinary technology students. Survey of basic responsibilities and technical duties of veterinary technicians. Clinical nutrition and feeding of the dog and cat. Basic principles of wound healing. Basic electrocardiography. Venipuncture for catheter placement, blood collection, and intravenous administration of fluids and medications. Troubleshooting of intravenous catheter set-ups. Bandaging and splinting. Introduction to anesthesia: stages of anesthesia, components of anesthetic equipment. Introduction to basic operating room skills and procedures.

Prerequisite: APAV 55; per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Identify the various components of the ECG machine and record an artifact free diagnostic ECG tracing
- B. Explain the genesis of the electrocardiogram and recognize the components of the ECG
- C. Describe the phases of a typical anesthetic event
- D. Identify the parts, and explain the use of common anesthetic equipment and circuits
- E. Discuss the basic principles of fluid administration
- F. Perform venipuncture and place intravenous catheters
- G. Discuss intravenous catheter maintenance and troubleshooting
- H. Describe the phases of wound healing and exemplary wound care
- I. Identify common bandage material and explain fundamental principles of bandaging and splinting
- J. Demonstrate proper application of bandages
- K. Apply basic principles of nutrition and describe clinical feeding practices in the dog and cat

3. Special Facilities and/or Equipment -

Classroom and laboratory equipped with multimedia presentation and projection capabilities. Laboratory equipped with intravenous catheters, needles, syringes, injectable solutions, bandaging materials and splints, microscopes, clinical pathology supplies, vascular access models. Injection models. Expired medications used for teaching.

4. Course Content (Body of knowledge) -

- A. Electrocardiography
 - 1. Parts of the ECG machine
 - 2. Types of ECG machines
 - 3. Recording an ECG
 - a. Artifacts
 - b. Troubleshooting
 - c. Patient position and tips
- B. Electrocardiogram
 - 1. Genesis of the ECG
 - 2. Physiology of each wave
 - 3. Normal variations
 - 4. Artifacts
 - 5. Common abnormalities
- C. Phases of a typical anesthetic event
 - 1. Stages
 - 2. Planes
 - 3. Monitoring
 - 4. Common surgeries
 - a. Neuter
 - b. Spay
- D. Anesthetic equipment and circuits
 - 1. Gas anesthetic machine
 - 2. Breathing circuits
 - a. Rebreathing

- b. Non-rebreathing
- E. Fluid administration
 - 1. Fluid compartments in the animal body
 - 2. Oncotic pressure
 - 3. Assessment of dehydration
 - a. Clinical signs
 - b. Calculation
 - 4. Fluid selection
 - 5. Assessment of fluid needs
 - a. Maintenance
 - b. Ongoing losses
 - c. Dehydration
 - d. Rate
 - e. Fluid pumps, drip rates
- F. Venipuncture
 - 1. Selection of vein
 - 2. Selection of syringe and needle
 - 3. Aseptic technique
 - 4. Blood collection
 - 5. Intravenous injections
- G. Intravenous catheter placement, maintenance and troubleshooting
 - 1. Intravenous catheter placement
 - a. Selection of vein
 - b. Selection of catheter
 - c. Securing the catheter
 - 2. Aseptic technique
 - 3. Problems and how to solve them
- H. Wound healing
 - 1. Phases
 - 2. Triage
 - 3. Wound care techniques
- I. Bandages and splints
 - 1. Bandage materials
 - 2. Layers
 - 3. Bandage technique and construction
 - 4. Splints
- J. Bandage application (lab)
- K. Principles of nutrition
 - 1. Energy producing nutrients
 - 2. Non-energy producing nutrients
 - 3. Dog nutritional needs
 - 4. Cat nutritional needs
 - 5. Reading a pet food label
 - a. Laws
 - b. Marketing
 - c. Controversies
 - 6. Client education
 - a. Treatment through nutrition
 - b. Obesity
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

Students will demonstrate proficiency by some or all of the following:

- A. Written guizzes and examinations.
- B. Written homework assignments.
- C. Term project.
- D. Two practical laboratory examinations. Proficiency will be individually assessed in skills appropriate to this course, as required by the AVMA. Students practice the required skills during lab classes, and know the criteria for demonstration of competency.

7. Representative Text(s) -

Bassert, Joanna M., and Dennis M. McCurnin. Clinical Textbook For Veterinary Technicians. 8th ed. W. B. Saunders Co., 2014.

Taylor, Susan. Small Animal Clinical Techniques. Elsevier, 2010.

Tear, Marianne. Small Animal Surgical Nursing: Skills and Concepts. 2nd ed. Mosby, 2012.

Although one or more of these texts is older than the suggested "5 years or newer" standard, it remains a seminal text in this area of study.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Cooperative learning exercises
- D. Oral presentations
- E. Laboratory activities: demonstration and skills practice

10. Lab Content -

- A. Intravenous techniques
 - 1. Cephalic vein blood draw (dog and cat)
 - 2. Saphenous vein blood draw (dog and cat)
 - 3. Jugular venipuncture (dog and cat)
 - 4. Intravenous catheterization
 - 5. Intravenous fluid administration
- B. Wound care
 - 1. Clipping
 - 2. Cleaning wounds
- C. Bandages and splints
 - 1. Apply a Modified Robert Jones bandage
 - 2. Mason-Meta splint
 - 3. Robert Jones bandage
- D. Electrocardiography
 - 1. Produce a Diagnostic ECG Tracing
- E. Anesthesia machine parts and flow of oxygen molecule
- 11. Honors Description No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

The student may be required to complete some or all of the following assignments:

- A. Reading assignments: Weekly reading assignments from text, class handouts, and online sources ranging from 50-100 pages per week.
- B. Writing assignments, participation in online forum discussions, short answer essay questions.
- C. Research project on nutrition.

Ensure you're using the current version of this form by downloading a fresh copy from the CCC webpage!

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

| Course #: _ APAV 60 |
|---|
| Course Title: Veterinary Office Practice |
| Credit Status: X Credit course Noncredit course Catalog Description: |
| Principles and practice of veterinary office management for veterinary nursing students. Client relations, telephone techniques, interpersonal skills, and team dynamics. Generation and maintenance of correspondence, medical records, legal forms, and hospital logs. Professional ethics and legal boundaries of the veterinary health care team. Facility management utilizing traditional and electronic media and appropriate veterinary medical terminology and abbreviations. Resume writing and interviewing techniques. Principles of inventory control. Use of practice management software. State and federal laws as they apply to the veterinary practice. |
| Are you requesting Stand Alone approval for the course on a <u>temporary</u> or <u>permanent</u> basis? |
| The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone temporarily , and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: |
| Apprenticeship in Veterinary Assisting Certificate of Achievement |
| What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) |
| February 2018 |

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Principles and practice of veterinary office management for veterinary nursing students. Client relations, telephone techniques, interpersonal skills, and team dynamics. Generation and maintenance of correspondence, medical records, legal forms, and hospital logs. Professional ethics and legal boundaries of the veterinary health care team. Facility management utilizing traditional and electronic media and appropriate veterinary medical terminology and abbreviations. Resume writing and interviewing techniques. Principles of inventory control. Use of practice management software. State and federal laws as they apply to the veterinary practice.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: Not open to students with credit in V T 60.

2. Course Objectives -

The student will be able to:

- A. Discuss how to schedule appointments, admit, discharge and triage according to client, patient, and facility needs through phone and personal contact.
- B. Develop and provide client education in a clear and accurate manner at a level the client understands.
- C. Create a resume and practice job interviewing skills.
- D. List, describe and maintain all appropriate facility records and logs in compliance with regulatory guidelines.
- E. Practice proper interpersonal and telephone communication skills and demonstrate ability to maintain appropriate interpersonal and client relations.
- F. Demonstrate skill in using practice management software for medical record keeping and practice management.
- G. Describe methods involved in inventory management.
- H. Describe and demonstrate professionalism and identify ethical issues in relation to technician-veterinarian, technician-client, and technician-patient relationships.
- I. Describe the results of stress and the potential for substance abuse by veterinary medical personnel, discuss prevention strategies and identify indications for intervention.
- J. Define various forms of workplace bullying, including sexual harassment and describe the process of addressing this issue in the workplace.

3. Special Facilities and/or Equipment -

Classroom with multimedia projection. Veterinary practice software loaded onto computer(s) for student use.

4. Course Content (Body of knowledge) -

- A. Roles and responsibility as veterinary receptionist
 - 1. Appointment scheduling based on client, patient, and facility needs
 - 2. Interpersonal and telephone communication techniques
 - 3. Admitting patients
 - 4. Patient discharge procedures
 - 5. Principles of telephone triage
- B. Client education
 - 1. Communication styles
 - 2. Proper use of medical terminology
 - 3. Methods of client education
 - a. Written
 - b. Verbal
 - c. Other means of communication
- C. Job acquisition skills
 - 1. Resume writing
 - 2. Interviewing techniques
- D. Regulatory guideline compliance
 - 1. Legal restrictions and legal liability
 - 2. Common hospital logs
 - a. Radiography
 - b. Surgery

- c. Anesthesia
- d. Laboratory
- e. Controlled substance
- 3. Legal forms and certificates
- 4. Record keeping and filing
- E. Interpersonal communication skills
 - 1. Principles of personnel management, and skills and personal characteristics of good managers
 - 2. Procedures for hiring and firing employees: job descriptions, interviews, evaluations
 - 3. Motivating employees
 - 4. Employee rights and responsibilities
 - 5. Teamwork
- F. Medical record keeping
 - 1. Legal aspects
 - 2. Application of problem oriented veterinary medical record
 - 3. Veterinary practice management software
- G. Inventory control
 - 1. Techniques and theories of inventory control
 - 2. Managing inventory
- H. Professionalism and ethical issues in interpersonal relationships
 - 1. Technician-veterinarian
 - 2. Technician-client
 - 3. Technician-patient
 - 4. Technician-technician and/or veterinary assistant
- I. Stress in the veterinary office
 - 1. Role of stress
 - 2. Substance abuse
 - 3. Prevention strategies
 - 4. Self care
 - 5. Intervention
- J. Office problems
 - 1. Bullying
 - 2. Sexual harassment
 - 3. Injuries and worker's compensation
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

The student will demonstrate proficiency by some or all of the following:

- A. Written guizzes and a written final examination
- B. Written report of interview conducted with a veterinary hospital manager
- C. Client education project
- D. Project using practice management software

7. Representative Text(s) -

Bassert, Joanna M. Clinical Textbook For Veterinary Technicians. 9th ed. W. B. Saunders Co., 2017.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Oral presentations
- D. Collaborative exercises

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

Assignments may include some or all of the following:

A. Reading assignments: Weekly reading assignments from text, class handouts, and outside sources ranging from 30 to 60 pages per week.

B. Five-page written research paper and oral presentation on a client education topic.

C. Written short answer essay questions.

D. Reflection paper on personal strengths and weaknesses as it relates to job performance. E. Project demonstrating proficiency in using practice management software.

Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Practical application of animal care skills and principles of animal care and management. Opportunity to participate in the health care team involved in the husbandry and management of companion animals in a hospital and shelter environment. Emphasis will be on the basic principles and application of clinical facility management, care and behavior of hospitalized patients, routine maintenance duties, and euthanasia, grief and pet loss support.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: This course is not open to students with credit in V T 75A.

2. Course Objectives -

The student will be able to:

- A. Describe and perform proper husbandry of dogs and cats
- B. Describe and perform standard operating procedures for facilities care
- C. Exhibit professionalism and perform responsibly in providing for the needs of patients and in working collaboratively with coworkers
- D. Describe basic principles of dog and cat behavior
- E. Demonstrate low stress handling techniques for dogs and cats
- F. Perform basic steps in physical examination of dogs and cats
- G. Interpret findings discovered during physical examination of dogs and cats
- H. Discuss pet euthanasia: the role of the AVMA, veterinarian, technician, and the pet owner in all aspects of euthanasia and pet loss

3. Special Facilities and/or Equipment -

Dogs and cats. Housing and restraint facilities. Laboratory equipped with examination tables and diagnostic and therapeutic equipment and supplies.

4. Course Content (Body of knowledge) -

- A. Dog and cat husbandry protocols
 - 1. Orientation to facility(ies)
 - 2. Observation of normal patients in confinement
 - 3. Routine animal husbandry requirements
 - a. Dogs
 - b. Cats
- B. Standard operating procedures for facility maintenance
 - 1. Principles of disinfection
 - a. Routine cleaning and sanitation
 - 2. Inventory
 - 3. Record keeping
 - 4. Care and safe use of cleaning equipment
- C. Working as a professional
 - 1. Definition of a professional person
 - 2. Interpersonal communication
 - 3. Performance of animal care according to hospital protocols
 - 4. Medical record keeping
 - 5. Medical communication with peers and superiors
 - a. Doctor's orders
 - b. Rounds
 - 6. Teamwork
 - a. Assuming personal responsibility
 - b. Communications
- D. Dog and cat behavior
 - 1. Role of veterinary technician in animal behavior
 - 2. Canine behavior and development
 - a. Canine sensory perception
 - b. Canine communication

- 3. Canine social structure
- 4. Canine behavior at different stages of development
 - a. Sensitive periods of development
- 5. Problem prevention in the canine
- 6. Feline behavior and development
 - a. Feline sensory perception
 - b. Feline communication
- 7. Feline social structure
- 8. Feline behavior at different stages of development
 - a. Sensitive periods of development
- 9. Problem prevention in the feline
- E. Low stress handling techniques for dogs and cats
 - 1. Human animal bond
 - 2. Learning and behavior modification
 - 3. Handling techniques in the veterinary clinic
 - 4. Low stress veterinary clinic tips
- F. Introduction to physical examination of dogs and cats
 - 1. History
 - 2. TPR
 - 3. Systems approach
 - 4. Nose to tail approach
 - 5. Medical record keeping: using SOAP
- G. Interpretation of physical examination findings of dogs and cats
 - 1. Needs pyramid
 - 2. Nursing assessments
 - 3. Normal findings
- H. Pet euthanasia
 - 1. Decision process
 - 2. Role of each member of staff
 - 3. Process of euthanasia
 - 4. Disposal of remains
 - 5. Grief as a process

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum

| Committee to begin the approval process. |
|--|
| Course #: APAV 75B |
| Course Title: Animal Care Skills II |
| Credit Status: |
| X Credit course |
| Noncredit course |
| |
| Catalog Description: |
| Practical application of animal care skills and principles of animal care and management using techniques and knowledge learned in the veterinary technology classes. Students expand their animal care knowledge, skills, and abilities to include skills needed to be successful applying clinical diagnostics in the workplace. Students are expected to apply knowledge of medical terminology, anatomy and physiology to animal care duties. There is an emphasis on professional behavior, medical record keeping, and clinical procedures with dogs and cats. |
| Are you requesting Stand Alone approval for the course on a <u>temporary</u> or <u>permanent</u> basis? |
| The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern X The course will be Stand Alone temporarily , and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: |
| Apprenticeship in Veterinary Assisting Certificate of Achievement |
| What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) |
| February 2018 |
| NOTE: If you have not submitted your program application to the State by the end of the current academic |

year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

| Please indicate how your course supports the Foothill College Mission (select all that a Transfer Workforce/CTE Basic Skills | pply): |
|--|------------------------------------|
| Criteria B. Need A course may only be granted Stand Alone Approval if there is demonstrable need for t college service area. Please provide evidence of the need or demand for your course, su documentation for transfer courses or Labor Market Information for workforce/CTE counavailable, advisory board minutes or employer surveys may be submitted). For basic assessment-related data or information may be provided. | ich as ASSIST ourses (if LMI is |
| Evidence may be attached to this form or provided in the box below. This course and associated Apprenticeships are intended to provide qualified, trained assistants in veterinary clinics. Students completing the course may be eligible for increased responsibilities and salaries depending on their employer. The Apprenticeship creates an additional pathway to a career as a Registered Veterinary Technician. The Bureau of Labor Statistics data states that demand for veterinary technicians and technologists is expected to grow "much faster than average for all occupations." (Bureau of Labor Statistics cited on https://www.bls.gov/00H/healthcare/veterinary-technologists-and-technicians.htm) Thirty percent growth in this field is expected in California. Despite the need for RVTs and advanced veterinary assistants in San Francisco, there is no such program in the county. This particular apprenticeship targets under-employed populations who have limited college experience but a strong interest in animals and who are dedicated to the mission of the SF SPCA. | |
| Criteria C. Curriculum Standards (please initial as appropriate) The outline of record for this course has been approved the Division Curriculum Committee and meets the requirements of Title 5 | |
| Faculty Requestor: Lisa Eshman, DVM | Date: <u>1/19/18</u> |

Content Review Date:

Former ID:

The apprenticeship program grants certificates upon completion of a series of classes and demonstration of skills, progressing through several levels of veterinary assisting. Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Practical application of animal care skills and principles of animal care and management using techniques and knowledge learned in the veterinary technology classes. Students expand their animal care knowledge, skills, and abilities to include skills needed to be successful applying clinical diagnostics in the workplace. Students are expected to apply knowledge of medical terminology, anatomy and physiology to animal care duties. There is an emphasis on professional behavior, medical record keeping, and clinical procedures with dogs and cats.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None

Advisory: Not open to students with credit in V T 75B.

2. Course Objectives -

The student will be able to:

- A. Perform physical examination and patient assessment of dogs and cats
- B. Implement the problem oriented veterinary medical record keeping system
- C. Explain a preventive health plan for the dog and the cat
- D. Demonstrate technical competency in basic diagnostic skills
- E. Demonstrate technical competency in basic therapeutic skills

3. Special Facilities and/or Equipment -

Dogs and cats. Housing and restraint facilities. Laboratory equipped with examination tables and diagnostic and therapeutic equipment and supplies, such as: centrifuge, ophthalmic diagnostic supplies (Tonopen, Schirmer tear tests, Fluorescein ophthalmic dye, ultraviolet light), otoscopes and variety of ear cones, ophthalmoscopes, dog and cat grooming supplies, microscopes, slides, stains and mineral oil, and other veterinary clinic supplies.

4. Course Content (Body of knowledge) -

- A. Physical examination and patient assessment
 - 1. History taking
 - a. Dogs
 - b. Cats
 - 2. Physical examination
 - a. Dogs
 - b. Cats
 - 3. Nursing assessments
 - a. Differentiation between DVM and RVT assessment
 - b. Examples
 - c. Priority pyramid
- B. Problem oriented veterinary medical record keeping system
 - 1. Reading medical records
 - 2. Entering data into medical records
 - 3. SOAP system
 - 4. Common abbreviations
 - 5. Following directions
- C. Preventive health care plans for the dog and the cat
 - 1. Principles of vaccination
 - a. Core vaccines for dogs
 - b. Core vaccines for cats
 - 2. Deworming
 - a. Common nematodes
 - b. Tapeworms
 - 3. External parasite control
 - 4. Heartworm testing and prevention
 - 5. FeLV/FIV testing and prevention
 - 6. Medical communication
 - a. Doctor's orders
 - b. Explaining preventive care to clients

- D. Basic diagnostic skills
 - 1. Dermatologic skills
 - a. Skin scraping
 - b. Ectoparasite exam
 - c. Dermatophyte test
 - d. Skin cytology
 - e. Ear cytology
 - 2. Ophthalmic skills
 - a. Schirmer tear test
 - b. Fluorescein stain
 - c. Tonopen
- E. Basic therapeutic skills
 - 1. Ear exam and ear cleaning
 - 2. Nail trim: dog and cat
 - 3. Grooming dogs
 - 4. Grooming cats
 - 5. Anal sac expression
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

The student will demonstrate proficiency by some or all of the following:

- A. Written evaluations
 - 1. Tests: midterm and final examinations
 - 2. Reflection assignments
 - 3. Peer evaluations
 - 4. Short research paper
- B. Skills evaluations
 - 1. Technical competency of essential skills
 - 2. Conference with instructor
 - 3. Group projects

7. Representative Text(s) -

Bassert, Joanna M., and Dennis M. McCurnin. <u>Clinical Textbook For Veterinary Technicians.</u> 9th ed. W. B. Saunders Co., 2014.

Rockett, Lattanzio, Christensen. <u>The Veterinary Technician's Guide to Writing SOAPS.</u> Rockett House Publishing, 2013.

Although one or more texts is older than the suggested "5 years or newer" standard, it remains a seminal text in this area of study.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

During periods of instruction the student will be:

- A. Observing demonstrations and lectures
- B. Practicing on models and patients if indicated
- C. Participating in collaborative exercises and lab activities

10. Lab Content -

- A. Repetition of physical examination skills until proficient
- B. Practical application of animal care skills and preventive care as discussed in class
- C. Practice the following dermatologic and ophthalmic essential skills under trained instructors as required by the AVMA:
 - 1. Trim toenails in a dog or cat
 - 2. Express anal sacs canine
 - 3. Perform a skin scraping
 - 4. Dermatophyte testing
 - 5. Application of topical medication
 - 6. Ear swab collection and preparation (dog or cat)

- 7. Cleaning ears prior to medication (dog or cat)
- 8. Administer ear medication
- 9. Administer eye drops or ointment to a dog or cat
 - 10. Perform a Schirmer Tear Test
 - 11. Perform a Fluorescein Stain Test12. Tonometry

- 11. Honors Description No longer used. Integrated into main description section.
- 12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

A. Reading assignments: Weekly reading assignments from texts, class handouts, and online and/or outside sources.

Each certificate includes higher expectations by the employer and more responsibility. Students completing certificates may be eligible for additional employment opportunities or salary increases depending on their employer. This course will be a required core course for the forthcoming certificate of achievement in Advanced Veterinary Assisting.

1. Description -

Fundamental studies of laboratory techniques and procedures involved in evaluating veterinary clinical samples. Areas of study include hematology, urinalysis, coagulation assessment, blood biochemistry and immunological testing, serology, clinical parasitology, and cytology. The veterinary technician's role in sample collection, sample storage and handling, and performance of analytic procedures will be emphasized. Skills are developed in the use of laboratory equipment, laboratory safety and management, and quality control and quality assurance.

Prerequisite: APAV 55; per California Code of Regulations, this course is limited to students admitted to the Advanced Veterinary Assisting Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Recognize and discuss the responsibilities of the veterinary technician in a clinical laboratory setting as it relates to the veterinarian, other veterinary health care team members, and the patient.
- B. Discuss, evaluate and perform basic procedures in veterinary hematology, including preparation and staining of blood smears; blood cell identification and enumeration; and determination of blood parameters and indices.
- C. Discuss, evaluate and perform basic procedures in veterinary urinalysis, including sample preparation; determination of physical and biochemical properties; and microscopic sediment examination.
- D. Discuss, evaluate, and perform basic procedures in veterinary coagulation assessment, including sample handling and common coagulation tests.
- E. Discuss, evaluate, and perform basic procedures in veterinary serum biochemistry including organ function tests and health profiles utilizing automated blood analyzers.
- F. Discuss, evaluate, and perform basic procedures in veterinary serology, including comparing and contrasting the methodologies employed in serological and immunologic testing.
- G. Discuss, evaluate, and perform basic procedures in veterinary cytology, including sample collection and preparation, and cell identification.
- H. Discuss, evaluate, and perform basic procedures in veterinary clinical parasitology including identification of hemoparasites, and common internal and external parasites.

3. Special Facilities and/or Equipment -

Classroom equipped with multimedia presentation and projection capabilities. Computers with Internet access. Laboratory equipped with microscopes, centrifuges, slides, tubes. Clinical laboratory equipment: manual and automated cell counters, biochemistry analyzers, dry chemistry tests, stains and accessories. Access to clinical samples from dogs and cats.

4. Course Content (Body of knowledge) -

- A. Role of the veterinary technician in the clinical laboratory
 - 1. Definition of clinical pathology
 - 2. Roles of veterinary technician in the clinical pathology laboratory
 - Responsibility of the veterinary technician to the veterinarian, other members of the health care teams and patient
 - 4. Quality control and quality assurance
 - 5. Laboratory safety and management
 - 6. Introduction to manual and automated laboratory equipment
- B. Veterinary hematology
 - 1. Characteristics of blood and formation of blood elements
 - 2. Sample collection, storage, and preparation
 - 3. The complete blood count
 - a. Preparation and staining of the blood smear and buffy coat smear
 - b. Hematocrit: packed cell volume and total protein
 - c. The differential white blood cell count, including white blood cell morphology
 - d. Red blood cell morphology and indices
 - e. Reticulocyte count
 - f. Platelet morphology, estimate and count
 - 4. Classification of anemia

- 5. White blood cell responses in disease
- 6. Use of clinical laboratory equipment for analyzing blood
- 7. Quality control and quality assurance

C. Veterinary urinalysis

- 1. Review of renal function and formation of urine
- 2. Sample collection, storage, and preparation
- 3. Indications for and value of urinalysis in patient assessment
- 4. Examination of urine
 - a. Physical examination
 - b. Chemical examination
 - c. Microscopic examination of urine sediment: identification and enumeration of formed elements
- 5. Clinical significance of urinalysis findings
- 6. Safe and proper collection and handling of urine
- 7. Proper use of equipment used in performing urinalysis
- 8. Quality control and quality assurance
- D. Veterinary coagulation assessment
 - 1. Platelets and primary hemostasis; clotting factors and secondary hemostasis
 - 2. Sample collection, storage, and preparation
 - 3. Bleeding time test
 - 4. Whole blood clotting time test
 - 5. Coagulation screening, including assessment of the intrinsic and extrinsic clotting systems
 - 6. Common veterinary hemostatic disorders
 - 7. Quality control and quality assurance
- E. Veterinary biochemistry
 - 1. Applications of biochemistry profiles and individual organ function tests
 - 2. Sample collection, storage, and preparation
 - 3. Principles of enzyme assay and biochemical reaction testing
 - a. Discussion of dry chemistry methodologies
 - 4. Importance of quality control and reference ranges
 - 5. Specific biochemistry tests for evaluation of organ function
 - 6. Proper use and care of automated chemistry analyzers
 - 7. Quality assurance of automated chemistry analyzers

F. Veterinary serology

- 1. Review of basic immunologic responses
- 2. Applications of serology and immunodiagnostics to veterinary clinical diagnosis
- 3. Sample collection, storage, and preparation
- 4. Methodologies used in immunodiagnostic testing
- 5. ELISA technology: principles, reactants, kits
- 6. Fluorescent antibody testing
- 7. Basic interpretation of the results of immunodiagnostic tests
- 8. Quality control and quality assurance
- G. Veterinary cytology
 - 1. Common clinical samples and their diagnostic value
 - 2. Sample collection, storage, and preparation
 - a. Fine needle aspirates and impression smears
 - b. Swabs and scrapings
 - c. Fluid analysis
 - 3. Vaginal cytology
- H. Veterinary clinical parasitology
 - 1. Hemoparasites
 - 2. Common internal parasites
 - 3. Common external parasites
 - 4. Quality control and quality assurance
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

Some or all of the following methods of evaluation will be used:

- A. Written examinations.
- B. Practical examinations.
- C. Written case study.
- D. Demonstration of the required essential skills taught in this class using standard criteria for competency.

7. Representative Text(s) -

Hendrix, Charles M., and Margi Sirois. <u>Laboratory Procedures for Veterinary Technicians</u>. 6th ed. Elsevier, 2016. Reagan, et al. Veterinary Hematology: Atlas of Common Domestic Species. 2nd ed. Wiley-Blackwell, 2008.

Although one or more text is older than the suggested "5 years or newer" standard, it remains a seminal text in this area of study.

8. Disciplines -

Registered Veterinary Technician

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Laboratory
- D. Demonstration

10. Lab Content -

- A. Complete blood count (CBC)
 - 1. Blood film preparation
 - 2. Staining slides
 - 3. Packed cell volume
 - 4. Total protein
 - 5. Total WBC count
 - 6. Differential white blood cell count
 - 7. RBC count and morphology
- B. Blood chemistries and serology
 - 1. Prepare serum and plasma for analysis
 - 2. Serum chemistry panel
 - 3. Perform serologic test (ELISA)
- C. Diagnostic procedures for blood microfilaria
 - 1. Direct drop
 - 2. Modified Knott's Test
- D. Urine collection
 - 1. Voided sample (dog)
 - 2. Cystocentesis (GROUP)
 - 3. Place a urinary catheter in a male dog (GROUP)
- E. Urinalysis
 - 1. Specific gravity
 - 2. Chemical analysis
 - 3. Sediment analysis
- F. Diagnostic procedures for fecal parasites
 - 1. Direct fecal smear
 - 2. Fecal flotation
 - 3. Fecal centrifugation and read fecal slide
- G. Vaginal cytology
 - 1. Collect and prepare vaginal cytology canine (GROUP)
- H. Coagulation test
 - 1. BMBT and/or ACT (GROUP)
- **11. Honors Description -** No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Reading assignments: Weekly reading assignments from text, class handouts, and online sources ranging from 50 to 100 pages per week.
- B. Written short answer essay questions.
- C. Written case study.

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

| Course Title: CULINARY SAFETY & SANITATION Credit Status: X Credit course Noncredit course Noncredit course Students will study first aid, food safety management and other safety issues related to food service operations. They will learn how to assess the threat of contamination, prevention measures, and alternative responses to food safety and other concerns, such allergens. The course also presents other material critical to safety in the modern day professional kitchen, including Hazard Analysis Critical Control Point (HACCP) and active managerial control. A case study in the form of food safety inspection and audit of the cafeteria and culinary classroom kitchen will give students a chance to see the difficulties that face food service operators every day. Are you requesting Stand Alone approval for the course on a temporary or permanent basis? The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern X The course will be Stand Alone temporarily, and it will be incorporated into a new degree or certificate that is not yet State approved. Need/Justification -

This course is part of the culinary arts apprenticeship program and will help students gain and retain jobs within the culinary arts profession. Sanitation is required, and a certificate in food handling is now required by the State of California for any and all who work with food that is served to the public.

1. Description -

Students will study first aid, food safety management and other safety issues related to food service operations. They will learn how to assess the threat of contamination, prevention measures, and alternative responses to food safety and other concerns, such allergens. The course also presents other material critical to safety in the modern day professional kitchen, including Hazard Analysis Critical Control Point (HACCP) and active managerial control. A case study in the form of food safety inspection and audit of the cafeteria and culinary classroom kitchen will give students a chance to see the difficulties that face food service operators every day.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Culinary Arts Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Complete CPR and first aid training and obtain certification.
- B. Demonstrate temperature checks on refrigeration equipment.
- C. Complete ServSafe Food Handler Program and obtain certificate in food handling.
- D. Demonstrate sanitizer level checks on three-compartment sinks.
- E. Demonstrate safe work practices.
- F. Describe proper techniques to prevent injuries while using and cleaning foodservice equipment and tools.
- G. Describe basic cuts and burns and how to treat these wounds.
- H. Identify the different classes of fire extinguishers and describe how to use one.
- I. Demonstrate temperature checks on refrigeration equipment.
- J. Prepare for and pass the ServSafe Food Protection Manager Certification exam.

3. Special Facilities and/or Equipment -

- A. Laptop computer and projector or TV screen
- B. Whiteboard with erasable markers
- C. Access to commercial kitchen for demonstrations and practice

4. Course Content (Body of knowledge) -

- A. Providing Safe Food (Lec)
- B. The Microworld (Lec)
- C. Contamination and Food Allergens (Lec)
- D. Hygiene and Safe Food Handling (Lec and Lab)
- E. The Flow of Food (Lec and Lab)
- F. Purchasing, Receiving, and Storage (Lec and Lab)
- G. Preparation (Lec and Lab)
- H. Service (Lec and Lab)
- I. Food Safety Management Systems (Lec and Lab)
- J. Facilities and Equipment (Lec)
- K. Cleaning and Sanitizing (Lec and Lab)
- L. Integrated Pest Management (Lec)
- M. Food Safety Regulations and Standards (Lec)
- N. Employee Food Safety Training (Lec)
- O. First Aid (Lec and Lab)
- **5. Repeatability Moved to header area.**

6. Methods of Evaluation -

- A. Written examinations
- B. Routine checks for understanding
- C. Evaluation of notebook
- D. Student presentations
- E. Quizzes based on the units

7. Representative Text(s) -

ServSafe Manager Book. 7th ed. English, with exam answer sheet. National Restaurant Association, 2017.

8. Disciplines -

Culinary Arts/Food Technology

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Demonstration: Sodexo Cafeteria at San Jose Job Corps (HACCP) and San Jose Job Corps Center Culinary Patio Room (active managerial control). Students will compare and contrast the two food service safety systems and see the protocols in action

10. Lab Content -

The audit of the cafeteria run by Sodexo and the Patio Room run by the San Jose Job Corps Patio Room will be an intense look at food service operations and the sanitation challenges that they face leading to the assigned comparative study.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Required reading of the ServSafe Manager textbook; students will take quizzes after each chapter.
- B. Students will be certified food handlers and earn the certification of ServSafe Food Protection Manager.
- C. Students will write an 1800-word compare and contrast paper regarding their audit of the San Jose Job Corps Center Patio Room and the Sodexo Cafeteria at the San Jose Job Corps. Students will also make a team presentation of their findings to Sodexo and SJJC representatives using Powerpoint.

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

Need/Justification -

This course is part of the culinary arts apprenticeship program and will help students gain and retain jobs within the culinary arts industry.

1. Description -

Students will be exposed to food chemistry and the vocabulary necessary to succeed in an industrial food service

setting. Topics will range from baking to cold kitchen preparation to various understandings of dry and moist cooking techniques. In addition, students will learn product identification and protocols in food handling and preferred cooking methods for meats, poultry, fruits, vegetables, starches, legumes, fish and shellfish.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Culinary Apprenticeship Program.

Apprenticeship Frogram

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Know the qualities and properties of food items and ingredients used in food preparation, including meat, poultry, fruits, vegetables, starches, dairy products, and seafood
- B. Identify the cuts and structure of beef, pork, lamb, chicken, fish, and shellfish
- C. Demonstrate an extensive vocabulary in regards to the culinary profession
- D. Summarize the details of meat inspection, grading, handling, storage and desired cooking methods of various cuts of beef, pork, lamb, poultry, fish, and shellfish
- E. Distinguish between the different market forms of fish and shellfish, and the types of mollusks, crustaceans, and other seafood, like squid
- F. Distinguish between various market forms of fruits, vegetables, herbs, spices, and grains via product ID test
- G. Identify dry and moist cooking methods for fruits, vegetables, grains, and legumes
- H. Understand purchasing and storage concerns for fresh, canned, frozen, and dried vegetables
- I. Understand the concepts of coagulation, caramelization, fermentation, radiation, heat conduction, and emulsification in food chemistry
- J. Know the principle of mise en place, including the placement and order of use of ingredients, tools, and supplies
- K. Produce salads, sandwiches, cold soups, dressings, and forcemeats, including sausages
- L. Know the qualities and properties of food items and ingredients used for baked goods, pastries, and desserts

3. Special Facilities and/or Equipment -

- A. Classroom with a flat screen television and laptop or computer for presentations
- B. Whiteboard with markers
- C. Fully equipped commercial kitchen for demonstrations and practice

4. Course Content (Body of knowledge) -

- A. Theories and chemistry of stocks, soups, and sauces (Lec)
- B. Knives: proper use, sharpening, and maintenance of kitchen knives (Lec and Lab)
- C. Meat, poultry, and game identification and fabrication (Lec and Lab)
- D. Fish and shellfish identification and fabrication (Lec and Lab)
- E. Guidelines in regard to fruits, vegetables, herbs, spices (Lec and Lab)
- F. Starches, grains, and dry goods identification (Lec and Lab)
- G. Cooking methods: grilling, broiling, and roasting (Lec and Lab)
- H. Cooking methods: sauteing, pan frying, and deep frying (Lec and Lab)
- I. Cooking methods: steaming and poaching (Lec and Lab)
- J. Cooking methods: braising and stewing (Lec and Lab)
- K. Egg cookery and the science of eggs (Lec and Lab)
- L. Baking basics (Lec and Lab)
- M. Garde Manger: the science of the cold kitchen (Lec and Lab)

5. Repeatability - Moved to header area.

6. Methods of Evaluation -

- A. Written examinations (20%)
- B. Routine checks for understanding (5%)
- C. Evaluation of notebook (10%)
- D. Student presentations and papers (40%)
- E. Quizzes based on the units (15%)
- F. Participation, uniform dress code, and professionalism

7. Representative Text(s) -

Labensky, Sarah, et al. On Cooking: A Textbook for Culinary Fundamentals. New York: Prentice Hall, 2017.

8. Disciplines -

Culinary Arts/Food Technology

9. Method of Instruction -

- A. Lecture
- B. Discussion vocabulary
- C. Demonstration (e.g., showing students what some items look like, how an emulsification is made)

10. Lab Content -

Students will be handling different products and must identify them, check them for quality, and store them safely. Students will practice knife identification, sharpening and maintenance.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Student will have about 500 pages of reading; must look up vocabulary terms and write them down.
- B. Weekly presentations on certain topics, like rice or potatoes
- C. Five 1200-word papers on food topics. Even though these papers will be broad, they will hopefully inspire interest for the student to gain further knowledge.

Former ID:

Need/Justification -

This course is part of the culinary arts apprenticeship program and will help students gain and retain jobs within the culinary arts profession.

1. Description -

One of the most important courses in culinary arts, this course instills methods to measure ingredients (volume, weight, time and temperature), convert from U.S. to Metric systems of measurement, calculate portion cost and recipe cost. Also covers pricing strategies and instills an understanding of order guides and invoices. Students will work with ratios and fractions with key ratios applied to achieve an edible result without a recipe. Students will learn to detect flaws in a recipe if the ratio is not correct. Students will produce a portfolio of their own recipe calculations.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Culinary Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Identify whole numbers, decimals, fractions, and ratios used in food service calculations.
- B. Demonstrate basic whole number, fraction, and decimal calculations (add, subtract, multiply, and divide).
- C. Describe various methods used to measure ingredients (volume, weight, count, length, time, and temperature) and their units of measure.
- D. Identify common tools used to measure in a kitchen.
- E. Identify abbreviations for common units of measure.
- F. Demonstrate the conversion of common units of measure within the U.S. and Metric measurement systems.
- G. Demonstrate accurate measurements using the following methods: volume, weight, count, length, time, and temperature.
- H. Identify various expenses in operating a foodservice establishment (food, labor, etc.).
- I. Describe menu item food cost and how it is determined.
- J. Explain how a menu item's selling price is determined.
- K. Describe how portion control, proper measurement of recipe ingredients, and product waste and loss affects an operation.
- L. Demonstrate the ability to assist with the receiving of a food order and check the invoice for receipt of all items listed.
- M. Understand and calculate Cost Volume Profit analysis and break even points.
- N. Read a Profit and Loss (PNL) statement.
- O. Understand and apply concepts in budget making.

3. Special Facilities and/or Equipment -

- A. Commercial kitchen for observation, demonstration and practice
- B. Laptop computer and projector or TV screen
- C. Whiteboard with erasable markers

4. Course Content (Body of knowledge) -

- A. Math basics and basic word problems (Lec and Lab)
- B. Units of measure in weight, volume, and temperature, and their abbreviations in culinary arts (Lec and Lab)
- C. Metric system of measurements and conversions to equivalents in the U.S. Standard system (Lec and Lab)
- D. Units of measure and conversions using the bridge method (Lec)
- E. Conversion of mixed measurements (Lec)
- F. Advanced conversions between weight and volume (Lec and Lab)
- G. Yield percentages (Lec)
- H. As Purchased vs. Edible Portion, and applying yield percentages (Lec and Lab)
- I. Cost per unit and total cost formulas (Lec)
- J. Edible Portion cost (Lec and Lab)
- K. Recipe costing (Lec)
- L. Labor cost (Lec)
- M. Menu engineering and revenue management (Lec)
- N. The importance of beverage costing and cost control (Lec)
- O. Recipe size conversion (Lec)
- P. Ratios and their importance ((Lec and Lab)
- Q. The Profit and Loss (income) statement (Lec)
- **5. Repeatability** Moved to header area.

6. Methods of Evaluation -

A. Midterm and Final Exams

- B. Quizzes
- C. Homework
- D. Submission of Recipe Costing Portfolio Project
- E. Routine Checks for Understanding

7. Representative Text(s) -

Hill, Julia, and Linda Blocker. Culinary Math. 3rd ed. John Wiley & Sons, Inc., 2012. ISBN: 978-0-470-06821-2

Although this text may be older than the suggested "5 years or newer" standard, it remains a seminal text in this area of study.

8. Disciplines -

Culinary Arts/Food Technology

9. Method of Instruction -

- A. Lecture
- B. Demonstration: students will see yield percentages in action
- C. Integrated discussion on application
- D. Portfolio: students will cost out their own recipes as part of a project
- E. Case study: restaurant cost control, and profit and loss statement impact

10. Lab Content -

Students will observe and participate in exercises in an operating commercial kitchen to prepare and test recipes. For example: edible portion, where in order to make 10 pounds of chopped fresh pineapple, students will be taught that they need to order 18-20 lbs (two cases) of pineapple to get that yield. In addition, students will observe shrinkage in meat after cooking (fat melts) and be taught that loss needs to be accounted for when planning.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Students will research their own recipes and calculate the total recipe cost and cost per portion. This is critical in developing a pricing strategy for menus.
- B. Homework will focus on calculations and will be intense; will also include a real case study of a confidential company, a Profit and Loss statement, and cost control.

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is NOT part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process. Course #: APCA 104 **Course Title:** BASIC COOKING TECHNIQUES **Credit Status:** Credit course Noncredit course Catalog Description: Covers basic cooking. Students will make stocks, soups, sauces; prepare vegetables, starches, salads; fabricate and cook various cuts of meat and poultry. Highlights basic cooking techniques, such as sautéing, roasting, poaching, braising, and frying, while following industrial recipes. Are you requesting Stand Alone approval for the course on a temporary or permanent basis? The course will be **permanently** Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone temporarily, and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: Proposed Apprenticeship in Culinary Arts What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) February 2018

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to uided lity. e

| obtain equity in achievement of student outcomes for all Califord by our core values of honesty, integrity, trust, openness, transp | ornia student populations, and are guided parency, forgiveness, and sustainability. |

Basic Skills

This course is part of the proposed culinary apprenticeship program and will help students gain and retain jobs within the culinary arts profession. The course teaches job skills for employability and life skills. Food service jobs are expected to increase at an annual rate of 1.7% in the Santa Clara County through 2024 per EDD LMI short term projections

(http://www.labormarketinfo.edd.ca.gov/data/employment-projections.html#Short), approximately 2400 additional jobs a year. Students completing these courses and the Apprenticeship will be immediately employable in this growing market.

Need/Justification -

This course is part of the culinary arts apprenticeship program and will help students gain and retain jobs within the culinary arts industry.

1. Description -

Covers basic cooking. Students will make stocks, soups, sauces; prepare vegetables, starches, salads; fabricate and

cook various cuts of meat and poultry. Highlights basic cooking techniques, such as sauteing, roasting, poaching, braising, and frying, while following industrial recipes.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Culinary Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Use, maintain, and store the tools, utensils, equipment, and appliances appropriate for preparing a variety of food items.
- B. Make the five mother sauces: bechamel, espagnole, tomato, hollandaise, and veloute, and a sub sauce of each, and store them properly.
- C. Produce soups, stocks, and broths, and cool and store them properly.
- D. Demonstrate proper receiving and storage protocols of various items, including meats, dairy products, eggs, fish, shellfish, produce, dry goods, and other items utilized in food production.
- E. Differentiate between the types of mollusks, crustaceans, and other seafood, like squid.
- F. Identify dry and moist cooking methods for fruits, vegetables, grains, and legumes.
- G. Understand purchasing and storage concerns for fresh, canned, frozen, and dried vegetables.
- H. List quality characteristics and cooking or preparatory methods for legumes.
- I. Identify different kinds, classes, and market forms of poultry.
- J. Handle, store, and prepare poultry for safe cooking.
- K. Explain problems and concerns that occur when stuffing poultry.
- L. Cook poultry using dry and moist cooking methods safely and effectively.
- M. Make breakfast items, such as omelets, quiche, and fritattas, and understand the concept of mise en place for short order breakfast cooks.
- N. Summarize the details of meat inspection, grading, handling, storage, and desired cooking methods of various cuts of beef, pork, and lamb.
- O. Understand the principle of mise en place, including the placement and order of use of ingredients, tools, and supplies.
- P. Prepare food by using the correct techniques and procedures specified in recipes and formulas.
- Q. Produce salads, sandwiches, cold soups, dressings, and forcemeats, including sausages.
- R. Use plating techniques, including accurate portioning and aesthetic presentation skills.
- S. Plan and follow a food production schedule, including timing and prioritizing of tasks and activities.
- T. Understand the qualities and properties of food items and ingredients used for baked goods, pastries, and desserts.
- U. Produce baked goods, pastries, and desserts, by using correct techniques, procedures, and various finishing techniques.

3. Special Facilities and/or Equipment -

A fully equipped kitchen with NSF or Underwriter Lab certified refrigeration units, a freezer, ovens with 12 range burners, a grill, a salamander broiler, and flat top. A one-compartment dish machine, along with food safe sanitizer dispensary should also be available in the facility.

Television with ability to link directly to a laptop for instructional videos.

4. Course Content (Body of knowledge) -

- A. Knife Skills and Kitchen Equipment (Lec and Lab)
- B. Soups, Stocks and Sauces (Lab)
- C. Vegetables and Fruits (Lab)
- D. Legumes (Lab)
- E. Starches and Grains (Lab)
- F. Meat and Meat Fabrication (Lec and Lab)
- G. Poultry and Poultry Fabrication (Lec and Lab)
- H. Eggs and Breakfast Cookery (Lab)
- I. Fish and Shellfish (Lec and Lab)
- J. Basic Baking Skills (Lec and Lab)
- K. Garde Manger The Cold Kitchen (Lec and Lab)
- L. Dairy Products (Lec and Lab)
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

- A. Practical examination: students are assessed on professionalism, sanitation, recipe execution, flavor, and presentation (70%)
- B. Routine checks for understanding (5%)
- C. Evaluation of notebook and journals (15%)
- D. Quizzes based on the units covered (10%)

7. Representative Text(s) -

Labensky, Sarah, et al. On Cooking: A Text of Culinary Fundamentals 5th ed. New York: Prentice Hall Publishing, 2015.

8. Disciplines -

Culinary Arts/Food Technology

9. Method of Instruction -

- A. Demonstration
- B. Quizzes
- C. Cooperative learning (teamwork in performance)
- D. Summarizing and note-taking
- E. Identifying similarities and differences (e.g., if four groups are given the same recipe, why are there differences in the end product?)
- F. Homework and practice

10. Lab Content -

Lab content will consist of intense time in the kitchen, where students will produce dishes with the following components:

- A. Soups, Stocks and Sauces
- B. Vegetables and Fruits
- C. Legumes
- D. Starches and Grains
- E. Meat and Meat Fabrication
- F. Poultry and Poultry Fabrication
- G. Eggs and Breakfast Cookery
- H. Fish and Shellfish
- I. Basic Baking Skills
- J. Garde Manger The Cold Kitchen (several hours on this)
- K. Dairy Products
- 11. Honors Description No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Students will write journals analyzing the feedback of their execution of recipes.
- B. Students will read, take notes, and record recipes from the textbook.
- C. Students will produce a notebook, which they can later use as part of a portfolio.

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process. Course #: APCA 105 Course Title: CULINARY MENU DEVELOPMENT **Credit Status:** Credit course Noncredit course Catalog Description: Students develop their own menus for breakfast, lunch, and dinner; develop a beverage program; and cost out the menu items. Students design pricing strategies and submit as a portfolio. Are you requesting Stand Alone approval for the course on a temporary or permanent basis? The course will be **permanently** Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone **temporarily**, and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: Proposed Apprenticeship in Culinary Arts What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) February 2018 **NOTE:** If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to iided ity. e

| obtain equity in achievement of student outcomes for all California student populations, and are guid by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainabilit Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate | |

| degree in dental hygiene. | |
| Please indicate how your course supports the Foothill College Mission (select all that apply): Transfer X Workforce/CTE Basic Skills | |
| Approved 4/30/13; Form Revision | 12/5/17 |

Criteria B. Need

A course may only be granted Stand Alone Approval if there is <u>demonstrable need</u> for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is unavailable, advisory board minutes or employer surveys may be submitted). For basic skills courses, assessment-related data or information may be provided.

Evidence may be attached to this form or provided in the box below.

This course is part of the proposed culinary apprenticeship program and will help students gain and retain jobs within the culinary arts profession. The course teaches job skills for employability and life skills. Food service jobs are expected to increase at an annual rate of 1.7% in the Santa Clara County through 2024 per EDD LMI short term projections

(http://www.labormarketinfo.edd.ca.gov/data/employment-projections.html#Short), approximately 2400 additional jobs a year. Students completing these courses and the Apprenticeship will be immediately employable in this growing market.

Program Title:

Program TOPs Code: Program Unique Code: Content Review Date:

Former ID:

Need/Justification -

This course is part of the culinary arts apprenticeship program and will help students gain and retain jobs within the culinary arts industry. The course enables students to showcase a knowledge base to potential employers.

1. Description -

Students develop their own menus for breakfast, lunch, and dinner; develop a beverage program; and cost out the

menu items. Students design pricing strategies and submit as a portfolio.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Culinary Arts

Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Explain the difference between commercial and noncommercial food service operations and describe examples of each.
- B. Describe the three levels of management and identify the various production and service positions in a food and beverage operation.
- C. Explain marketing in terms of providing guest-pleasing service and discuss the elements and importance of feasibility studies, marketing research, and marketing plans.
- D. Discuss nutrition and special dietary concerns as they relate to the food service industry and contrast the nutritional concerns and obligations of commercial and noncommercial operations.
- E. Describe menu pricing styles, menu schedules, menu types, and the menu planning process.
- F. Explain how a menu dictates operations in a food and beverage establishment and describe its importance as a marketing tool.
- G. Explain how to create and use a standard recipe and how to calculate costs.
- H. Explain basic menu engineering, menu scoring, and goal value method.
- I. Understand and identify the concepts that prevail in truth in menu.
- J. Identify and describe the types of service that food and beverage operations can provide and explain how to provide excellent quest service.
- K. Describe the factors involved in facility design and equipment selection for a food and beverage operation and understand effects the menu may impose.
- L. Explain the importance of staffing in menu development.
- M. Analyze the impacts of menu changes and how they can affect the restaurant not only at a unit level but at a strategic level as well.

3. Special Facilities and/or Equipment -

Laptop computer and projector or TV screen Whiteboard with erasable markers

4. Course Content (Body of knowledge) -

This course examines the role of the menu in a food service establishment as the driving force and the primary management tool. Every aspect of food service operation is menu driven, including such areas as facility design, inventory controls, pricing and costing, equipment selection, staffing, and style of service. Proper techniques for costing of menu items and proper purchasing techniques will also be covered. Topics include:

- A. Menu Planning (Lec)
- B. Cost Control (Lec)
- C. Menu Pricing Strategies (Lec)
- D. Menu Mechanics (Lec)
- E. Menu Analytics (Lec)
- F. Beverage Menu (Lec)
- G. Service Considerations in Menu Planning (Lec)
- H. Production Concerns in Menu Execution (Lec)
- I. Financial Planning and the Menu (Lec)
- J. Ethics and Menu (Lec)
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

- A. Written portfolio of recipes, costing and marketing plan
- B. Routine checks for understanding
- C. Evaluation of notebook
- D. Student presentations
- E. Quizzes based on the units

7. Representative Text(s) -

Kotschevar, Lendal, and Diane Withrow. Management by Menu. 4th ed. John Wiley and Sons Publications, 2008.

Although this text is older than the suggested "5 years or newer" standard, it remains a seminal text in this area of study.

8. Disciplines -

Culinary Arts/Food Technology

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Group projects
- D. Portfolio

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Students will produce a breakfast, lunch and dinner menu.
- B. Students will cost out 12 recipes for one of their menus as part of a portfolio.
- C. Students will submit a base feasibility for their concept and describe their foodservice operation in detail.
- D. Students will present a basic marketing plan for their concept.

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is NOT part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Former ID:

Need/Justification -

This course is part of the culinary arts apprenticeship program and will greatly help students gain and retain jobs within the culinary arts industry. It maintains currency for students, with trends in foodservice and food ethics.

1. Description -

Covers the principles of sustainability, including issues of animal welfare, nutrition, climate change, farm to table; other

issues that impact people and the environment, such as water consumption, wage and supply chain ethics, and the reduction of our environmental footprint. The future of food and technology emerge as topics of discussion, and case studies feature menu innovation, actual operations, and a field trip to a sustainable restaurant or foodservice operation.

Prerequisite: Per California Code of Regulations, this course is limited to students admitted to the Culinary Apprenticeship Program.

Co-requisite: None Advisory: None

2. Course Objectives -

The student will be able to:

- A. Define and understand the impacts of sustainability.
- B. Define terminology related to food and food service sustainability (recycling, biodegradable, composting, sustainable, organic, local, regional, seasonal, Amish, free range, food miles, heirloom, energy efficient, etc.).
- C. Describe the benefits of food sustainability practices.
- D. Demonstrate the ability to explore current trends in food and food service sustainability using print sources and/or the internet.
- E. Identify products being used in a facility that can be recycled.
- F. Identify products appropriate for composting.
- G. Identify a variety of areas where waste control is used in the kitchen (product, water, energy, etc).
- H. Identify sources for purchasing local foods (produce, meats, etc., as applicable).
- I. Identify sustainable proteins and seafood.
- J. Identify the benefits of establishing a facility garden to provide produce and herbs for the kitchen.
- K. Identify environmentally friendly cleaning products.

3. Special Facilities and/or Equipment -

Laptop computer and projector or TV screen

Whiteboard with erasable markers

Access to commercial kitchen for observation, demonstration and practice

4. Course Content (Body of knowledge) -

- A. Definition of Sustainability (Lec)
- B. Impacts of Sustainability: 3 Ps People, Plate and Planet, as opposed to conservation (Lec)
- C. Demographics and Consumer Preferences (Lec)
- D. Nutrition, Health and Sustainable Food (Lec)
- E. Food Ethics: Science and Policy Issues (Lec)
- F. Menu Development (Lec)
- G. Fishing and Seafood Issues (Lec)
- H. Farm to Table and Local Food Movements (Lec and Lab)
- I. Supply Chain Issues (Lec and Lab)
- J. Water Sustainability (Lec)
- K. Climate Change (Lec)

5. Repeatability - Moved to header area.

6. Methods of Evaluation -

- A. Written examination
- B. Routine checks for understanding
- C. Evaluation of submitted notebook
- D. Student presentations
- E. Quizzes based on the units
- F. Homework assignments

7. Representative Text(s) -

Menus of Change: The Business of Health, Sustainable, Delicious Food Choices Harvard TH Chan School of Public Health and the Culinary Institute of America, 2016.

8. Disciplines -

Culinary Arts/Food Technology

9. Method of Instruction -

- A. Lecture
- B. Discussion
- C. Laboratory
- D. Demonstration: case study of Stanford University and Full Circle Farms

10. Lab Content -

- A. Field trip to Stanford University Residential Dining Hall
- B. Field trip to Full Circle Farm in Sunnyvale

These field trips give the students the chance to see sustainable food service operations and assess the challenges that they undertake. Students will take notes applicable to case studies and papers related to the locations.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Two 1800-word (minimum) papers. One is a case study on Stanford University Residential Hall Dining and how it practices sustainability. The second will focus on the supply side and a visit to an organic farm, Full Circle farm in Sunnyvale, CA.
- B. Required reading from the listed text.
- C. Assessment includes one 1200-word essay on the movie <u>Food Inc.</u>, in which students express their thoughts on the challenges of sustainability in an economy where mass food production is required. Students also discuss the difficult encounters not just to the food production system but socio-economic concerns as well.

General Education Review Request AREA I - HUMANITIES

Course Number & Title:

Breadth Criteria:

At Foothill College, the primary objective of the general education requirements is to provide students with the depth and breadth of knowledge and understanding required to be independent, thinking persons who are able to interact successfully with others as educated and productive members of our diverse society. Design and implementation of the general education curriculum ensures that students have exposure to all major disciplines, understand relationships among the various disciplines, and appreciate and evaluate the collective knowledge and experiences that form our cultural and physical heritage. General education courses provide content that is broad in scope and at an introductory depth, and all require critical thinking.

A general education enables students to clarify and present their personal views as well as respect, evaluate, and be informed by the views of others. This academic program is designed to facilitate a process that enables students to reach their fullest potential as individuals, national and global citizens, and lifelong learners for the 21st century.

In order to be successful, students are expected to have achieved minimum proficiency in math (MATH 105) and English (ENGL 1A, 1AH or ESL 26) before enrolling in a GE course.

A completed pattern of general education courses provides students with opportunities to acquire, practice, apply, and become proficient in each of the core competencies listed below.

- B1. Communication (analytical reading, writing, speaking, and listening skills including evaluation, synthesis, and research).
- B2. Computation (application of mathematical concepts, and/or using principles of data collection and analysis to solve problems).
- B3. Creative, critical, and analytical thinking (reasoning, questioning, problem solving, and consideration of consequence).
- B4. Community and global consciousness and responsibility (consideration of one's role in society at the local, regional, national, and global level in the context of cultural constructs and historical and contemporary events and issues).
- B5. Information competency (ability to identify an information need, to find, evaluate and use information to meet that need in a legal and ethical way) and digital literacy (to teach and assess basic computer concepts and skills so that people can use computer technology in everyday life to develop new social and economic opportunities for themselves, their families, and their communities).

<u>Depth Criteria for Area I - Humanities:</u>

The humanities include courses in Arts and Letters that give students knowledge and understanding of significant works of the human intellect and imagination. These works cover all the varieties of human expression through time. Knowledge of the significance of the historical and cultural context in which the works are created and interpreted expands the students' awareness of the human condition, cultivating an appreciation of human values and achievements. Humanities courses should enable students to participate in social and cultural communities associated with artistic and literary endeavors, enriching their personal and professional lives.

A course meeting the Humanities requirement incorporates a multidisciplinary approach (drawing from *two or more* of the following - history, literature, philosophy, religion, language, and the arts) as it addresses and explores central questions about the meaning and experience of human life.

A course meeting the Humanities General Education Requirement *must* help students:

- H1. Acquire knowledge and understanding of significant artistic, literary, or philosophical works and the historical and cultural context in which the works were created and interpreted;
- H2. Deepen their knowledge of the human condition through systematic inquiry into consciousness, values, ideas, and ideals;
- H3. Develop appreciation for what is significant about human life and its creations;
- H4. Make reasoned judgments that reflect ethical and aesthetic human values;
- H5. Develop the ability to respond to artistic and literary works both analytically and affectively through writing as well as through other forms of artistic expression.

In addition, courses *must* identify how they will help students achieve *at least two* of the following learning outcomes:

- H6. Understanding of the ambiguities, vagaries, and value inherent in human language;
- H7. Appreciation of nonverbal communication to be found in the visual and performing arts;
- H8. Recognition of the variety of valid interpretations of artistic expression;
- H9. Appreciation of our common humanity within the context of diverse cultures;
- H10. Thinking critically, including the ability to find, recognize, analyze, evaluate, and communicate ideas, information, and opinions as they relate to the products of human intellect and imagination.

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process.

Former ID: Formerly: JRNL 49

Need/Justification -

This course helps to support the creation of student generated news on campus. Additionally, it will be included as a required core course for the forthcoming AA degree in Journalism.

1. Description -

Provides practical experience in creating basic news and feature content as members of the college newspaper, magazine or online media staff, which includes a lab that regularly produces a news or feature non-fiction product with a journalism emphasis by and for students and distributed to a campus or community audience. Must include weekly news assignments. May include a variety of student media across multiple platforms, including print, broadcast, and online. Includes practical experience in design/layout, visual, online, multimedia journalism, and emerging technologies. Must be student-produced with student leadership.

Prerequisite: None Co-requisite: None

Advisory: ENGL 1A or 1AH; not open to students with credit in JRNL 49.

2. Course Objectives -

The student will be able to:

- A. Employ journalistic reporting and writing skills to produce stories for a student media product, such as a newspaper, magazine or website.
- B. Demonstrate an understanding of the legal and ethical aspects of student media.
- C. Utilize basic media production technology and processes to present assignments.

3. Special Facilities and/or Equipment -

A classroom/laboratory equipped as a news room: computers with word processing, graphic and page layout software; internet access; cameras; telephones; fax machine; portable recorders; references; basic supplies.

4. Course Content (Body of knowledge) -

- A. Employ journalistic reporting and writing skills to produce stories for a student media product, such as a newspaper, magazine, broadcast, or website
 - 1. Define relevant news content and best form for publication, such as photojournalism, broadcast journalism, print (magazine or newspaper), online and multimedia journalism
 - 2. Gather news information weekly
 - 3. Complete assignments for publication by stated deadlines
 - 4. Revise and copy edit basic news and information into publishable form, with attention to accuracy, clarity, thoroughness, fairness, AP Style, and media law and ethics
 - Build a portfolio of completed projects for student media that demonstrates a range of storytelling formats/styles
- B. Demonstrate an understanding of the legal and ethical aspects of student media
 - 1. Discuss First Amendment issues
 - 2. Discuss libel, privacy and copyright law and ethics issues and policies affecting media
 - 3. Critique and self-critique newspapers, magazines, news websites and/or news broadcasts
- C. Utilize basic media production technology and processes to present assignments
 - 1. Develop news stories through written, visual, audio, video or other multimedia formats
 - 2. Determine the best format--print, multimedia, visual, etc.--for telling basic news stories
 - 3. Complete assignments and electronically file stories, photos and video
 - 4. Use software and web tools to present content visually
 - 5. Develop effective design/layout for story presentation
 - 6. Apply AP Style and legal and ethical guidelines
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

- A. Assignments evaluated for adherence to conventions of journalistic style, ethics, professionalism, and deadline timeliness across multiple platforms.
- B. Comprehension tests and a final exam requiring students to demonstrate critical thinking using concepts that have been introduced and studied throughout the course.
- C. Peer critiques and self-critiques evaluated based on thoroughness and identification of areas needing improvement.
- D. Review of portfolio and log for completeness and professionalism of presentation.

7. Representative Text(s) -

Examples of Primary Texts and References:

8. Disciplines -

Communication Studies OR English OR Journalism

9. Method of Instruction -

- A. Lecture and visual aids
- B. Discussion of assigned reading
- C. Collaborative learning and small group exercises
- D. Laboratory experience which involve students in formal exercises of news gathering and reporting activities

10. Lab Content -

Production of a regular news or feature non-fiction product with a journalism emphasis by and for students and distributed to a campus or community audience. Must include weekly newsgathering activities; regardless of publication frequency.

- A. Finding stories
- B. Reporting and writing news, feature, opinion and sports stories
- C. Using video equipment, editing video
- D. Using a digital camera and photo editing software
- E. Electronically filing stories, photos and other visual media
- F. Proofreading, copyediting and improving stories
- G. Applying standards, including multiple named sources, adequate lead, spelling, grammar, AP Style
- H. Using design software
- I. Interviewing for news media
- J. Role of student media on campus
- K. Finding college, expert and real person sources using standard methods, websites and social media
- L. Online and multimedia presentation of stories
- M. Utilizing journalism resources, such as textbooks, guides and websites to improve skills
- N. Understanding and applying ethical standards for news reporting and photojournalism
- O. Understanding and applying ethical standards for news reporting
- P. Understanding news staff organization
- Q. Understanding media law as it applies to journalism
- R. Using software and web programs to present stories
- S. Exploring careers in news media
- T. Exploring entrepreneurial opportunities in news media
- U. Using critique and self-critique to improve the product
- V. Understanding the business side of student media, such as advertising, promotions, printing and distribution
- 11. Honors Description No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Complete one or more basic reporting/writing and/or visual media and/or online assignments per week, such as coverage of one event; submit by deadline.
- B. Read about and react to journalistic concepts and issues using critical thinking skills.
- C. Participate in self-critiques and peer critiques.

D. Compile a digital or print portfolio of completed work, including a log of activities with descriptions of learning

experiences and time spent on assignments.

Ensure you're using the current version of this form by downloading a fresh copy from the CCC webpage!

Content Review Date:

Former ID:

This course provides the student with the knowledge and practical skills to teach aquatic exercise to all segments of the population. Successful completion will enhance the student's skill set, which in turn will help them to become more marketable in the workforce.

1. Description -

Provides the fitness professional with the knowledge and practical skills to teach aquatic exercise class to all segments of the population. Applied exercise anatomy, applied aquatic exercise physiology, aquatic exercise physics, aquatic exercise choreography, programming for different forms of aquatic exercise, health risk appraisal, water safety concerns, special populations, exercise motivation and shallow and deep water design.

Prerequisite: None Co-requisite: None

Advisory: Some laboratory hours will be spent in the pool; not open to students with credit in SPED 73.

2. Course Objectives -

The student will be able to:

- A. Evaluate anatomy as it pertains to water fitness
- B. Interpret exercise physiology as it applies to aquatic exercise
- C. Compose a aquatic exercise program with proper movements
- D. Describe the interaction of the skeletal and muscular systems
- E. Distinguish the principles/laws of water physics as they apply to exercise
- F. Apply the principles, components of aquatic exercise in a teaching setting
- G. List the signs of a water crisis
- H. Design a comprehensive a aquatic exercise program
- I. Explain the psychology of exercise motivation
- J. Recall the characteristics of special populations
- K. Summarize the business and legal considerations of teaching aquatic exercise
- L. Compare and contrast the differences of deep water exercise to shallow water exercise and swimming as an effective aquatic exercise program

3. Special Facilities and/or Equipment -

- A. Access to pool
- B. Multimedia classroom
- C. Accessible pool and classroom

4. Course Content (Body of knowledge) -

- A. Evaluate exercise anatomy as it pertains to water fitness
 - 1. Name the major systems of the human body as they apply to aquatic exercise
 - a. Skeletal system
 - b. Muscular system
 - c. Respiratory system
 - d. Cardiovascular system
- B. Interpret exercise physiology as it applies to aquatic exercise
 - 1. Describe the physiological principles
 - a. Overload
 - b. Progressive overload
 - 2. Adaption
 - 3. Specificity
 - 4. Cross training reversibility
- C. Compose a water exercise program with proper anatomical movements
 - 1. Define the anatomical reference terms
 - a. Anatomical position
 - b. Movements terms
 - c. Flexion
 - d. Extension
 - e. Retraction
- D. Describe the interaction of the skeletal and muscular systems
 - 1. Motions at each joint with muscles engaged
 - a. Shoulder
 - b. Spine
 - c. Hip
 - d. Knee

- E. Distinguish the principles/laws of water physics as they apply to exercise; define and discuss the principles/laws of water physics as they apply to exercise
 - 1. Newton's Laws of Motion and related concepts
 - a. Laws of inertia
 - b. Body inertia
 - c. Water inertia
 - d. Limb inertia
 - e. Drag
 - f. Viscosity
 - g. Law of acceleration
 - h. Buoyancy
 - i. Hydrostatic pressure
- F. Apply the principles, components of aquatics exercise in a teaching setting
 - 1. Health/history intake
 - 2. Physician consent
 - 3. Class components of effective teaching
 - 4. Sequences of exercise progressions
 - 5. Design of an aquatic exercise prescription plan for a client
 - 6. Uses of water fitness equipment
 - 7. Demonstrate proper combinations, transitions, and patterns as they apply to water exercise
 - 8. Design and demonstrate a comprehensive aquatic exercise program, this may include swimming program
- G. Recognizing the signs of a water crisis
 - 1. Injury prevention in or around a pool setting
 - a. Water safety inspection of pool and environment
 - b. Assisting distress and drowning victim
 - c. Assisting an injured person with a spine board
 - d. Proper entry and exit and the implementation of transfers
 - Emergency plans
 - a. Execution of rescue of cardiac, seizure and diabetic persons
- H. How to design a comprehensive aquatic exercise program
 - Administer a health history and screening tool
 - 2. Demonstration and explain the purpose of water exercise equipment
 - 3. Controversial water exercises
 - Explain how swimming as an aquatic exercise program is different then traditional water exercise programs
 - 5. Choreography methods
 - a. Cueing
 - b. Transitions
 - c. Deck vs. in pool teaching
 - 6. Teaching effectively
 - a. Verbal instruction
 - b. Tactile instruction
 - c. Audio instruction
 - d. Teaching techniques for both deep and shallow water fitness routines
- I. Understand the psychology of exercise motivation
 - 1. Exercise compliance
 - 2. Law of cause and effect
 - 3. Law of attraction
 - 4. Locus of control
 - 5. Self-efficacy
- J. Characteristics and benefits of aquatic exercise for special populations
 - 1. Older adults
 - 2. Musculo-skeletal problems
 - 3. Neurological problems
 - 4. Cardiovascular pulmonary problems
 - 5. Metabolic problems
 - 6. Other health issues
- K. Understand business and legal considerations of teaching water exercise
 - 1. Legal concerns
 - 2. Labor status
 - a. Employee or independent partnership
 - 3. Insurance considerations
 - 4. ADA concerns
 - 5. Music use
- L. Compare and contrast the differences of deep water exercise to shallow water exercise
 - 1. Deep water techniques and body alignment
 - 2. Deep water equipment
 - 3. Intensity alternations
 - 4. Programming for deep water

5. Repeatability - Moved to header area.

6. Methods of Evaluation -

- A. Oral and written guizzes
- B. Practical demonstrations
- C. Final paper

7. Representative Text(s) -

Knopf, Karl. Introduction to Water Exercise. San Diego, CA: University Readers, 2012.

Sanders, Mary. YMCA - Water Fitness for Health. Champaign, IL: Human Kinetics, 2010.

AEA. Aquatic Fitness Professional Manual. Champaign, IL: Human Kinetics, 2010.

Although these texts are older than the "5 year or newer" standard they remain seminal texts in the area of study.

8. Disciplines -

Physical Education

9. Method of Instruction -

- A. Lecture and discussion
- B. Aquatic activities
- C. Demonstration of practical skills

10. Lab Content -

Students will engage in aquatic exercise skills, such as swimming, deep water exercise, shallow water exercise.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

Additional reading and writing assignments as suggested by instructor.

Ensure you're using the current version of this form by downloading a fresh copy from the CCC webpage!

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is NOT part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Stand Alone Course Approval Requests should be completed and forwarded to your Division Curriculum Committee to begin the approval process. Course #: KINS 82 **Course Title:** Applied Principles of Adaptive Fitness **Credit Status:** Credit course Noncredit course Catalog Description: Focuses on skills necessary for adaptive fitness professionals to implement an adaptive exercise program for persons with chronic medical conditions. Covers a full range of chronic conditions seen in the adult population from orthopedic conditions to neurological. Addresses assessment of physical dysfunctions and appropriate corrective exercises as well as contraindicated movements. Are you requesting Stand Alone approval for the course on a temporary or permanent basis? The course will be **permanently** Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone **temporarily**, and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?) **NOTE:** If you have not submitted your program application to the State by the end of the current academic vear, you must reapply for permanent Stand Alone approval. The Curriculum Committee must evaluate this application based on the following criteria:

| Criteria A. Appropriateness to Mission |
|---|
| The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene. |
| Please indicate how your course supports the Foothill College Mission (select all that apply): \underline{X} Transfer |
| Approved 4/30/13; Form Revision 12/5 |

| Workforce/CTE | |
|---|------------------------------------|

Program TOPs Code: 080900
Program Unique Code: 15150

Content Review Date:

Former ID:

This course provides the student the opportunity to learn the principles and skills needed to work with disabled and chronically ill individuals in an exercise setting. Successful completion will enhance the student's skill set, which in turn will them to become more marketable in the workforce.

1. Description -

Focuses on skills necessary for adaptive fitness professionals to implement an adaptive exercise program for persons with chronic medical conditions. Covers a full range of chronic conditions seen in the adult population from orthopedic conditions to neurological. Addresses assessment of physical dysfunctions and appropriate corrective exercises as well as contraindicated movements.

Prerequisite: None Co-requisite: None

Advisory: Not open to students with credit in SPED 54.

2. Course Objectives -

The student will be able to:

- A. Explain basic pathology of common chronic conditions
- B. Demonstrate safe and effective assessment techniques for various chronic conditions
- C. Apply safe and appropriate adaptive exercise program
- D. Demonstrate recognition of contraindicated exercises

3. Special Facilities and/or Equipment -

- A. Multi-media classroom.
- B. Accessible classroom.

4. Course Content (Body of knowledge) -

- A. Explain basic pathology and etiology of common chronic conditions
 - 1. Metabolic conditions
 - a. Diabetes
 - b. Obesity
 - 2. Cardiovascular and respiratory conditions
 - a. Heart disease
 - b. COPD
 - c. Asthma
 - 3. Neurologic conditions
 - a. Stroke
 - b. Multiple Sclerosis
 - c. Parkinson Disease
 - d. Spinal cord injuries
 - 4. Orthopedic conditions
 - a. Arthritis (osteo or rheumatoid)
 - b. Joint replacements
 - c. Low back conditions
- B. Demonstrate effective assessment techniques
 - 1. Flexibility
 - 2. Cardiovascular endurance
 - 3. Muscular strength
 - 4. Muscular endurance
 - 5. Balance
 - 6. Coordination
- C. Apply safe and appropriate exercise program
 - 1. Considerations and adaptations for each specific condition
- D. Recognition of contraindicated exercises
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

- A. Oral presentation of a term paper (comprehensive therapeutic exercise program for a chronic condition)
- B. Submit a written 2-3 page paper on a chronic condition

- C. Perform a health intake of a client
- D. Perform an assessment of a client
- E. Develop and submit a portfolio of conditions
- F. Complete the study questions at the end of each chapter

7. Representative Text(s) -

Williamson, Peggy. Exercise for Special Populations. Baltimore, MD: Lippincott, 2010.

Knopf, Karl. Principle of Therapeutic Exercise. San Diego, CA: University Readers, 2012.

Although these texts are older than the "5 years or newer" standard they remain seminal texts in the area of study.

8. Disciplines -

Physical Education (Adapted): Disabled Student Programs and Services

9. Method of Instruction -

Lecture, discussion, cooperative learning exercises, oral presentations, demonstration.

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

The student will complete a comprehensive written case study about a client addressing all aspects of the condition. The case study will be an overview of the client from health history intake to program design. Confidentiality protocols will be observed.

Ensure you're using the current version of this form by downloading a fresh copy from the CCC webpage!

Content Review Date:

Former ID:

This course provides the student the opportunity to learn the principles and skills needed to understand and work with the aging adult. Successful completion will enhance the student's skill set, which in turn will help them to become more marketable in the workforce.

1. Description -

For the fitness professional to explore how quality of life and longevity are impacted by lifestyle, wellness and fitness. Investigate what is aging, contributing factors of aging, and how aging can be influenced from a fitness perspective. Explore the interaction of the physiological, psychological and sociological aspects of aging.

Prerequisite: None Co-requisite: None

Advisory: Not open to students with credit in SPED 57B.

2. Course Objectives -

The student will be able to:

- A. identify the characteristics of aging
- B. recognize the changes in structure, capacity and endurance
- C. recognize the changes in coordination, motor control and skill
- D. identify positive strategies that will influence successful aging
- E. identify the physical and psychosocial relationship in aging
- F. understand physical performance and achievement in the older adult

3. Special Facilities and/or Equipment -

- A. Accessible classroom
- B. Multimedia classroom

4. Course Content (Body of knowledge) -

- A. Characteristics of aging
 - 1. overview of the current theories on aging
 - 2. quantity and quality of life
 - 3. individual differences
- B. Recognize the changes in structure, capacity and endurance
 - 1. physical development and decline
 - 2. cardiovascular and pulmonary function
 - 3. muscular strength and power
- C. Recognize changes in coordination, motor control and skill
 - 1. balance, posture and locomotion
 - 2. motor coordination and control
- D. Identify positive strategies that influence aging
 - 1. diet and exercise
 - 2. lifestyle
 - 3. family
 - 4. self-efficacy and confidence
 - 5. productivity
- E. Identify the physical and psychosocial relationship in aging
 - 1. health, exercise and cognitive function
 - 2. health related quality of life
- F. Physical performance and achievement
 - 1. physical function of older adult
 - 2. physically elite older adults
 - a. how proper health care and preventive wellness programs apply to longevity
 - b. the role that intergenerational programs and social functions play in healthy aging
 - c. analyze the influence that physical, cognitive, psychological and sociological interventions have on aging
- G. Identify positive strategies that will influence successful aging
 - 1. nutrition and the role it plays in healthy aging
 - a. diet
 - 2. physical activity, fall prevention exercises role in healthy aging
 - a. active lifestyle
 - b formalized exercise programs
- h. adaptive exercises

- 1. social interaction, group activities role in healthy aging
 - a. friends and family
 - b. support groups
 - c. wellness model
- 2. intellectual stimulation and learning role in healthy aging
 - a. continued education
 - b. learning new skills
- C. Articulating the concept of youth marketing and the myths of aging
 - 1. marketing youth
 - 2. denial of aging
 - a. why people lie about their age
 - b. acceptance of older people within the work place and society
- 5. Repeatability Moved to header area.

6. Methods of Evaluation -

- A. Classroom presentations
- B. Oral quizzes
- C. Quizzes and exams
- D. Class project

7. Representative Text(s) -

Knopf, Karl. <u>Fitness Over 50.</u> San Diego, CA: University Readers, 2012. Spirduso, Waneen, Karen L. Francis, and Priscilla G. MacRae. <u>Physical Dimensions of Aging.</u> Champaign, IL: Human Kinetics, 2005.

Although these texts are older than the suggested "5 years or newer" standard, they remain seminal texts in this area of study.

Program Title: ADAPTIVE FITNESS THERAPY

Program TOPs Code: 080900
Program Unique Code: 15150

Content Review Date:

Former ID:

This course provides the student the opportunity to learn the principles and skills needed to assist disabled and chronically ill individuals to function more efficiently, effectively and successfully in their communities. Successful completion will enhance the student's skill set, which in turn will help them to become more marketable in the workforce.

1. Description -

Explores the theories of functional fitness. Assists students to identify chronic conditions and then assess and formulate a functional exercise program. Role that functional exercise plays in improving daily living skills. Explanation of the different types of equipment used for functional exercise.

Prerequisite: None Co-requisite: None

Advisory: Not open to students with credit in SPED 56.

2. Course Objectives -

The student will be able to:

- A. interpret the role functional fitness plays in improving chronic condition
- B. evaluate basic concepts to design a adaptive exercise program
- C. create a functional fitness assessment for a chronic condition
- D. formulate treatment plans for specific conditions
- E. discuss how functional fitness exercise can help improve daily living skills
- F. demonstrate the type of equipment used in a functional exercise program

3. Special Facilities and/or Equipment -

- A. Multimedia classroom
- B. Accessible classroom

4. Course Content (Body of knowledge) -

- A. Interpreting the role functional fitness plays in improving chronic conditions
 - 1. traditional vs. functional exercise practices
 - 2. medical fitness centers vs. gyms
- B. Evaluate basic concepts to design an adaptive exercise program
 - 1. goal setting
 - 2. health intake
 - 3. medical referrals/recommendations
 - 4. pre-/post-assessment
- C. Create a functional fitness assessment for a client
 - 1. assemble a health history
 - 2. describe the condition
 - 3. explain contra-indications for the condition
 - 4. include components of fitness needed for the condition
 - a. flexibility
 - b. strength and muscular endurance
 - c. cardiovascular endurance
 - d. balance and coordination
- D. Formulate treatment plans for specific conditions
 - 1. orthopedics
 - a. shoulder
 - b. upper and lower back
 - c. hip joint
 - d. knee joint
 - e. arthritis
 - 2. neurological
 - a. head injuries
 - b. spinal cord injuries
 - c. multiple sclerosis
 - d. Parkinson disease
 - 3. cardio-respiratory disorders
 - a. heart disease
 - b. chronic obstructive pulmonary diseases
 - 4. metabolic disorders
 - a. diabetes

- b. obesity
- E. Discuss how functional fitness exercise can help improve daily living skills
 - 1. getting up and down from a chair
 - 2. climbing stairs
 - 3. walking
- F. Demonstrate the use of equipment used in a functional exercise program
 - 1. stability balls
 - 2. medicine balls
 - 3. i-cords and bands
 - 4. free weights
 - 5. balance apparatuses
- **5. Repeatability Moved to header area.**

6. Methods of Evaluation -

- A. Participation in classroom discussions
- B. Demonstration of skills and assessments tools
- C. Case study on a client describing functional limitation and corrective exercises for that condition
- D. Completion of the Learning Activities from the textbooks

7. Representative Text(s) -

Knopf, Karl. <u>Principles of Fitness Therapy.</u> Winston Salem, NC: Hunter Textbooks, Inc., 2012. Knopf, Karl. Functional Aspects of Adaptive Fitness. San Diego, CA: University Readers, 2012.

Although these texts are older than the "5 years or newer" standard, they remain seminal texts in the area of study.

8. Disciplines -

Physical Education (Adapted): Disabled Student Programs and Services

9. Method of Instruction -

Lecture, discussion, cooperative learning exercises, oral presentations.

10. Lab Content -

Not applicable.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. Complete the study questions in the textbook
- B. Submit a written a case study
- C. Oral presentation of term project
- D. Submit health history assessment forms

Ensure you're using the current version of this form by downloading a fresh copy from the CCC webpage!

FOOTHILL COLLEGE Stand-Alone Course Approval Request

If a Foothill credit course is **NOT** part of a State approved associate's degree, certificate of achievement or the Foothill College GE Pattern, it is considered by the State to be a "Stand Alone Course." Per Title 5, local curriculum committees must review and approve proposed stand-alone courses to ensure that they are consistent with credit course standards (§55002), the community college mission and there is sufficient need and resources for the course. To be compliant with State regulations, there must be a completed, approved Stand Alone Form on file in the Office of Instruction.

Per our local process, the same process of review and approval is used for noncredit Stand Alone courses.

Are you requesting Stand Alone approval for the course on a temporary or permanent basis? X The course will be permanently Stand Alone; there are no plans to add it to a State approved degree or certificate, nor to the Foothill GE pattern The course will be Stand Alone temporarily, and it will be incorporated into a new degree or certificate that is not yet State approved. In this case, identify the degree/certificate to which the course will be added: O What is the specific timeline for program application/approval? (e.g., is your program application locally approved, or is it still in development and if so, what is your anticipated submission date?)

NOTE: If you have not submitted your program application to the State by the end of the current academic year, you must reapply for permanent Stand Alone approval.

The Curriculum Committee must evaluate this application based on the following criteria:

Criteria A. Appropriateness to Mission

The Foothill College Mission states: Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students, and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability. Foothill College offers associate degrees and certificates in multiple disciplines, and a baccalaureate degree in dental hygiene.

Please indicate how your course supports the Foothill College Mission (select all that apply):

| X Transfer | | | | |
|--|---------------------|--|--|--|
| Workforce/CTE | | | | |
| Basic Skills | | | | |
| Criteria B. Need A course may only be granted Stand Alone Approval if there is <u>demonstrable need</u> for the course in the college service area. Please provide evidence of the need or demand for your course, such as ASSIST documentation for transfer courses or Labor Market Information for workforce/CTE courses (if LMI is | | | | |
| unavailable, advisory board minutes or employer surveys may be submitted). For basic assessment-related data or information may be provided. | skills courses, | | | |

Program Unique Code: 15150

Content Review Date:

Former ID:

This course provides the student the opportunity to learn the principles and skills needed to understand and work with a disabled person in an adaptive water exercise setting. Successful completion will enhance the student's skill set, which in turn will help them to become more marketable in the workforce.

1. Description -

Provides the essential information needed for adaptive aquatics exercise instruction. Student will develop an understanding of how water training principles can be used with individuals including with chronic conditions using adaptive teaching techniques. The applications of deep and shallow water fitness will be studied. Preferred safety techniques for assisting a disabled client with entry and exit from a pool will be demonstrated.

Prerequisite: None Co-requisite: None

Advisory: Laboratory hours in pool; not open to students with credit in SPED 74.

2. Course Objectives -

The student will be able to:

- A. Define and discuss principles of water fitness as they apply to the disabled person.
- B. Demonstrate effective teaching techniques as they apply to individuals with chronic conditions.
- C. Design and demonstrate a adaptive water exercise program for specific chronic conditions.
- D. Determine which method of pool entry and exit is best for each client.

3. Special Facilities and/or Equipment -

- A. Access to pool
- B. Multimedia classroom
- C. Accessible classroom

4. Course Content (Body of knowledge) -

- A. Program design of a water fitness routine
 - 1. Physical fitness
 - a. Cardiovascular endurance
 - b. Muscular strength and muscular endurance
 - 2. Functional fitness
 - a. Activities of daily living
 - b. Balance
 - c. Ambulation
 - 3. Rehabilitation
 - a. Range of motion
 - b. Pain management
- B. Science of aqua physics as it applies to each condition
 - 1. Buoyancy
 - 2. Hydrostatic pressure
 - 3. Gravity versus buoyancy
 - 4. Speed, power and force
 - 5. Resistance
 - 6. Leverage
- C. Identification and exclusion of individuals with medical contraindication to exercise
 - 1. Open wounds
 - 2. Communicable/infectious disease
 - 3. Severe obesity
- D. Understand which chronic conditions respond best to water exercise
 - 1. Orthopedic
 - a. Hip or knee replacement
 - b. Arthritis
 - c. Low back injury
 - 2. Neurological
 - a. Cerebral vascular accident (CVA)
 - b. Multiple Sclerosis
 - c. Parkinson's Disease
 - d. Neuromuscular disease: upper motor neuron or lower motor neuron
 - 3. Other health conditions
 - a. Cardiac disease
 - b. Diabetes

- c. Hypertension
- E. Water equipment as it applies to persons with disabilities
 - 1. Foam noodles
 - a. Deep water exercise for joint problems
 - 2. Paddles and aqua bells
 - a. Develop upper body strength
- F. Pool access for non-ambulatory person
 - 1. Hover lift
 - 2. Manual transfer
 - 3. Ramp
- **5.** Repeatability Moved to header area.

6. Methods of Evaluation -

- A. Case study
- B. Practical demonstration
- C. Participation in all class activities
- D. Oral and written exams

7. Representative Text(s) -

Knopf, Karl. <u>Introduction to Water Exercise.</u> San Diego, CA: Universal Reader, 2012. Sanders, Mary. <u>YMCA-Water Exercise for Health.</u> Champaign, IL: Human Kinetics, 2010.

Although these texts are older than the "5 years or newer" standard, they remain seminal texts in the area of study.

8. Disciplines -

Physical Education (Adapted): Disabled Student Programs and Services

9. Method of Instruction -

Lecture, discussion and demonstrations.

10. Lab Content -

Participation in water exercise activities in the pool, such as shallow water exercise and deep water exercise.

11. Honors Description - No longer used. Integrated into main description section.

12. Types and/or Examples of Required Reading, Writing and Outside of Class Assignments -

- A. The student will complete a comprehensive written case study about a client addressing all aspects of the condition as it pertains to an adapted aquatics setting. The case study will be an overview of the client from health history intake to program design.
- B. Students will be asked to do review of selected literature and do a summary report of their findings.

ASCCC Resolution on CLEP

College Level Examination Program (CLEP) Exam Equivalency List

Spring 2011

Resolution Number: 09.01 Contact: Estela Narrie Assigned to: President Category: Curriculum Status: Completed

Whereas, Resolution 9.04 F10 "College Level Examination Program (CLEP) Exam Applicability to Associate Degree General Education Requirements" called for the development of a suggested system-wide policy template regarding the use of CLEP exam scores for meeting associate degree general education requirements for local consideration and potential adoption;

Whereas, Title 5 regulations outline specific general education area requirements that each college must include for the associate degree (Title 5 §55063, Minimum Requirements for the Associate Degree), and an increasing number of students, including many enlisted military personnel, are requesting general education credit based on CLEP exam scores;

Whereas, Many students attend more than one California community college, and currently CLEP exam equivalencies may not exist or may vary greatly among the California community colleges; and

Whereas, An overwhelming majority of Articulation Officers throughout the California Community College System support the development of a California community college general education (CCC GE) CLEP exam score equivalency list that is aligned with the California State University (CSU) GE CLEP exam score equivalency lists;

Resolved, That the Academic Senate for California Community Colleges urge local senates to adopt and implement the proposed CCC GE CLEP exam score equivalency list.

MSC Disposition: Local Senates

Appendix A: California Community College General Education CLEP List

Status Report:

Senate representatives continue to encourage the adoption and implementation of CLEP exam equivalency list.

The California State University

College Level Examination Program (CLEP)

The College Level Examination Program (CLEP) is a credit-by-examination program that measures a student's level of comprehension of introductory college-level material and consecutively earn college credit. The CSU requires a passing score of at least 50 on the CLEP exam. Each campus in the CSU system determines how it will apply external examinations toward credit in the major. For students not already certified in GE (General Education) and/or American Institutions, the campus also determines how to apply credit from such exams toward the local degree requirement.

| College Level Examination Program (CLEP) | Passing Score | Minimum Semester Credits Earned ¹ | Semester Credits Toward GE Breadth Certification | American Institutions and/or GE Breadth Area ² | Removal Date for GE Breadth ³ |
|--|------------------|---|---|--|---|

For more information on the CSU External Exams Policy download a copy of the CSU <u>Coded Memorandum AA-2015-19 External Exams</u>.

¹These units count toward eligibility for admission. The units may not all apply toward certification of the corresponding GE-Breadth area. See Executive Orders 1036 and 1100 for details.

²Areas of GE Breadth (A1 through E) are defined in EO 1100. Areas of American Institutions (US-1 through US-3) are set forth in Sections IA and IB of EO 1061, and at assist.org.

³Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.

⁴If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate.

⁵Students who pass AP Environmental Science earn 4 units of credit. Tests prior to Fall 2009 may apply to either B1+B3 or B2+B3 of GE Breadth. Fall of 2009 or later, those credits may only apply to B1+B3.

⁶If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in GE Breadth.

⁷If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns six units of baccalaureate credit; the higher score listed for each test is considered "Level II" and earns additional units of credit and placement in Area C2 of GE Breadth, as noted.

Petition for College-Level Examination Program Credit (CLEP)

The following CLEP examinations can be used for credit towards an Associate Degree General Education Requirement or CSU GE Breadth certification. CLEP exams cannot be used for IGETC certification. You must have achieved at least a score of 50 on any of the following exams with the exception of a score of 59 on French Level II, 60 on German Level II, and 63 on Spanish Level II.

CSU may grant additional units for elective credit toward eligibility for admission. Also, there are some CLEP exams not listed below for which CSU may grant elective credit. Please check with the CSU to which you plan to transfer. The California State University CLEP Policy can be found at their website: http://calstate.edu/acadAff/codedmemos/AA-2015-02.pdf

To apply for CLEP credit:

- 1. Obtain a "Petition for CLEP Credit" from the Admissions and Records Office or online at http://web.peralta.edu/admissions/forms/;
- 2. Attach official copies of CLEP score reports from the College Board; and
- 3. Take the completed petition and supporting documentation to a Counselor for review.

Credit by Exam: College Level Examination Program (CLEP)

Students must have the College Board send CLEP exam results to the Admissions Office (hand carried copies will not be accepted) for use on a degree or GE pattern.

CLEP exams CANNOT be used to meet the IGETC requirements. UC does not accept CLEP exams.

CLEP exams may be incorporated into CSU GE requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated CSU GE area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of CSU GE requirements.

Students should check with other prospective transfer institutions regarding acceptance of CLEP scores.

English and Mathematics CLEP exams cannot be used for placement or as a waiver for a prerequisite.

CLEP credit granted at SMC may differ from course credit and units granted by a transfer institution.

A student must be actively enrolled at SMC when applying for credit by CLEP exam. CLEP credit may not be used to meet any residency requirement. Official CLEP scores must be sent to the Admissions Office directly from the College Board. Hand-delivered copies will not be accepted.

^{*}Students should be aware that CLEP credit is evaluated by corresponding it to the equivalent SMC course.

Example: Biology 3. A student who receives CLEP credit for "Biology" and then takes the equivalent SMC course will have the unit credit for such duplication deducted prior to being awarded the degree.
