Greetings!

The Academic Senate for California Community Colleges (ASCCC) Open Educational Resources Initiative (OERI) is an ASCCC initiative that has five initial years of funding. Primary goals of the OERI are to increase student success and address educational inequities by increasing the availability of open educational resources (OER) and adoption of OER text-equivalents by California community college (CCC) faculty. In order to contribute to the available OER, the OERI will fund the development of resources by CCC faculty that address identified gaps in currently available OER. All products completed with these funds must be licensed as CC-BY or CC-BY-NC (please see <https://creativecommons.org/licenses/> for details about these Creative Commons licenses). Individual faculty or teams of faculty may apply.

The goal of this funding opportunity is to increase the adoption of open educational resources in the California community colleges by increasing the availability and adoptability of OER text-equivalents. "Adoptability" may be increased through the modification of existing resources or the development of ancillaries.

This initial OER development funding opportunity is explicitly designed for projects of a limited scope that can be completed in a short period of time. The OERI anticipates funding projects with a broader scope and a longer duration in the future.

The narrative elements of this application should be prepared in a word processing program and submitted in the space provided. The [proposal template is available as a Word document](#) to permit you to compile all necessary information and prepare all narrative responses. Please find the Proposal Evaluation Rubric that will be used to guide the scoring of applications at the end of the [Request for Proposals](#).

Applications are due May 30, 2019 at 5 pm PST. Late applications will not be accepted and incomplete applications will not be reviewed.

This application is available at: <https://tinyurl.com/ASCCC-OERI-May2019App>.
