

Academic Senate Minutes May 11, 2020

Meeting called to order at 2:02 Roll call:

Eric Kuehnl (Senate VP/CCC Faculty Co-Chair)
Robert Cormia (Senate Secretary/Treasurer)
Isaac Escoto (Senate President)
Mary Thomas (LIBR)
Tracee Cunningham (CNSL)
Voltaire Villanueva (CNSL)
Kate Jordahl (FA/COMM)
Robert Hartwell (FA/COMM)
Sara Cooper (BHS/Faculty Association Liaison)
Rachelle Campbell (BHS)
Kathryn Maurer (BSS)
Maria Dominguez (BSS)
David McCormick (LA)
Amber La Piana (LA)
David Marasco (PSME)
Matthew Litrus (PSME)
Mimi Overton (SRC)
Donna Frankel (Part Time Rep)
Mary Anne Sunseri (Part Time Rep)
Rita O'Loughlin (KA/ATHL)
Dixie Macias (KA/ATHL)
Carolyn Holcroft (Professional Development Coordinator)
Kristy Lisle (Cabinet Liaison)
Leonardo Blas (ASFC President) absent

Guests

Katherine Lee (LRC)
Eric Reed (STEM/PSME)
Ben Stefonik (BSS)
Chris Chavez (Student Services)
Luis Carrillo (CNSL)
Dokesha Meacham (CNSL)
Laura Triona (IR)
Laurie Scolari (AVPSS)
Chris Chavez (Program Coordinator/CNSL)
Melissa Cervanes (Dean of Office of Equity and Inclusion)
Konstantin Kalartzidis (Instr Support)

Consent calendar Fatima Jinnah (CNSL) - dean of counseling search committee. Kerri Ryer stepping in as BSS senate rep 20-21 year.

Adult education students as special admits - if we allow adult education to enroll as special admits, could help enrollment, and help adults pursue careers and transition into higher education. Kristy responded that this could be an opportunity for teaching assignments.

Consent calendar was approved by consensus. The agenda was also approved by consensus. Minutes from the April 27th and May 1st meeting were both approved by consensus.

Announcements: Isaac commented that we're down a full-time faculty member on Education and Equity, and we need to be thinking about Senate representation for 20-21. There was a comment that keeping these committees staffed is important for keeping a faculty voice in College governance. Senators should send a message to division faculty to solicit participation in governance committees.

Commencement will be virtual this year, but we will still do it, and a committee is working on it.

Other updates: Isaac commented that the letter to President Nguyen was delivered and we're awaiting a response, we'll also be awaiting a meeting next week with Chancellor Judy Miner.

Isaac commented that Vice Chancellor Susan Chew made a general presentation re: budget to the all admin meeting, and Chancellor's Advisory Council. The Advisory Council will be working on this topic through the end of the academic year and into summer.

Robert commented that the California budget situation could likely impact the College in the next academic year, and having a faculty presence during summer decision making was important.

Kathryn enumerated key topics including faculty prioritization, decision making, hiring hold, LRC, and asked what are the best logistics to coordinate all of this over summer, and into fall?

There was a comment about the summer Senate cabinet maybe needing to be larger to include voices from all divisions. Comment that this is a critical time for faculty voice, and decisions that impact instruction. Isaac offered that we might consider if we'd like governance representation over the summer - IP&B met weekly last summer.

David Marasco commented that the summer cabinet has usually been larger in number than just the officers. Additional comment that given the "asks" that are part of the letter to President Nguyen, that faculty should also be available to have a voice in governance. Isaac commented that the summer cabinet can (and usually does) include a number of people beyond officers. Robert Cormia also suggested that whenever possible, the College should not delay important decisions, and instead try to have faculty available to "scramble" and Zoom into meetings.

Discussions are underway regarding how to return to campus (physically), when it is safe to do so. How do we know which sections to come back first, how to be safe, and what equipment would be necessary to come back safely? R&R has been tasked with creating a return to campus plan. R&R discussed return to campus, there was a proposal to have a smaller committee to discuss this. Question regarding if the Scheduling Taskforce (which already exists) somehow plays a role in R&R's task with a return to work plan. Kristy commented that the scheduling task force should continue their work, and then intersect the back to campus committee. Rachelle talked about some allied health classes returning to campus, and following the advance work by Ohlone College, etc.

The fall course schedule is due May 20th. Chancellor Miner may send something out later on this week, regarding scheduling guidance. Kristy commented that any time the faculty and Senate wants to check back in to see what is going on, please reach out to her. Comment that the summer senate cabinet may need to schedule ongoing meetings in the summer. Voltaire suggested that as we return to campus, many of our faculty will be providing services to students, not just instruction. We need to be mindful of the environment different folks work in, when we determine what makes a work environment safe. The library faculty are talking about what would be going on with the return of students. We want a return to campus to be "science based", but most of us don't have discipline knowledge about biology as related to the COVID-19 virus.

Kristy and Isaac discussed the coding of classes in the schedule for fall. There was a concern that the designation "W" was always fully synchronous, and Y was always a synchronous hybrid, but changed lettering on 2 and 3. 1 will be W, 4 will be Y, and 2 and 3 will be new categories "Behind the scenes" (in BANNER?) the number codes 1-4 will be a "72" for reporting purposes. Some schools require a face to face lab for some science courses.

Kathryn commented it's not just reporting of online classes, it's a campus culture around the pedagogy and instruction. Kristy talked about the need for some students to have a designation in courses they take, synchronous vs. asynchronous online instruction. For allied health, and hybrid instruction, room numbers would replace the time of meeting for synchronous online. David mentioned synchronous face to face lab combined with a synchronous online lecture. Kristy noted that we would add that as an option for scheduling coding.

There was comment about the conversations around synchronous and asynchronous work in online instruction. Kristy commented that all positive attendance classes are using estimates from last year, be careful about making plans for courses next year that are positive attendance that weren't this year.

Priority registration for student governance

Student Government from Foothill and De Anza have been asking for early registration for participation in governance. But there was a comment that in the past we had given priority for

so many students to get priority registration, that it no longer made a difference to offer priority registration.

Student technology experience

Chris and Laurie and Lara Triona gave a presentation on technology and the student experience. Overview about the technology that students are experiencing. A fictional student “Ruby” 27% first generation and 23% Latinx, and 100% online. How does Ruby navigate student support services? Many if not most students are using email for contact with faculty and staff. Comments came back that the College website wasn’t very friendly. The College needs to build an inventory of all the technology applications that we have, and do they all work together well?

Chris Chavez student success specialist talked about services for students, ESL and other foundational services. Discussed “Starfish” application, but that it’s limited to faculty and some students. The new funding formula targets student completion, and retention programs and just in time “stay on the path” and referral system applications. Chris spoke about the need to have student referrals online.

What does the research say? Factors studied by the RP group - students want to have 6 success steps: nurtured engaged connected directed valued focused. Leverage technology to enhance the student experience. For the institution, the goal is to narrow the achievement gap. Guided pathways presented evidence of connection entry progress and completion. Need to get all students into Starfish, to make it easier for support staff to access information about a student, and help connect that student to other College services.

Twice a quarter an instructor gets an email to log in and report on a student. Faculty can share kudos as well as referral for help. Math faculty have reported good success with the program. A main benefit of Starfish is to make the student referral process easier. Chris can see if meetings with students occurred, and if so what was the outcome. Another point to consider is the raise your hand option. Training for the (new) system would be conducted over Zoom. Budget details, Starfish agreement 60% discount to the CCCO, ~ \$300K, \$99K per year for 3 years. The new funding formula is about completion, and Starfish will help with student retention and success. Part of the expenditure plan for Guided Pathways. Isaac commented that we (faculty) aren’t expected to be Starfish experts, and that we would have training so more folks become comfortable with the platform. Handoffs between faculty and counselling can be smoother with Starfish. Different folks in disciplines will step up. Mention in the chat box of how helpful Starfish has been as related to tutoring.

COOL updates Committee for Online Learning (COOL)

Ben Stefonik talked about the COOL special COVID-19 session meeting last week. The main outcome was that there was significant support for holding a special professional development event in July. There might be funding for P/T faculty to get a training stipend, and for F/T faculty

to get PGA. \$350 for any P/T faculty to get Canvas certified to be able to teach in fall. COOL will check in with Lené about this professional development week. It won't be Flex week; it will be Professional Development (PD). There was a question about getting people up to speed with Canvas, versus creating better online instruction. These are not the same thing.

Announcements - the online teaching conference this year will be free.

Next COOL meeting 5/25/2020

Next Senate meeting June 1, 2020

Meeting adjourned at 4:00 p.m.
