From: College Advisory Council

Dear Student Leaders,

For the sake of transparency, we must inform you that our council has not yet had the agenda time to collectively review your demands provided in the letter dated October 2020 with the depth and attention they deserve.

That said, we do want to offer a response, acknowledging that your demands matter to Advisory Council. They do. The charge of the College Advisory Council is to monitor goals related to the Educational Master Plan, which for the 2020-2021 school year is focused entirely on equity. The Advisory Council plans to collectively analyze your open letter and identify, within our work, how we can help our campus community meet your demands. This process will begin at our next council meeting on February 5, 2021.

We deeply appreciate your coming to us and the other governance councils as we recognize that listening to students and collaborating with students is a crucial part of our college's governance structure.

Advisory Council looks forward to working with Foothill's student leaders in order to effect the changes you are demanding, especially within the scope of our charge. We acknowledge this work will be ongoing and will not be resolved with a few small changes.

Respectfully,
College Advisory Council
