## **URGENT CARE or EMERGENCY ROOM?**

Taken from (<https://medfoundation.verity.org/patient-resources/urgent-care/>)

**The Emergency Room should be reserved for true emergencies**, like serious accidents, symptoms of heart attack or stroke, or any other life-threatening medical problem.

**Urgent Care is the best place for non-emergencies that need medical attention within 24 hours.**

Urgent Care is a convenient alternative where you can get quick, quality medical treatment for conditions like fever, sore throat, flu, sprains, simple fractures and other common ailments.

### **Examples of conditions treated in Urgent Care Centers:**

Abscesses	Fractures
Allergies	Headaches
Asthma	Infections
Body aches	Ingrown toe nails
Minor burns	Joint pain
Colds	Lacerations
Coughs	Nausea
Cuts and scrapes	Nose bleeds
Dehydration	Puncture wounds
Diarrhea	Rashes
Ear pain	Stomach Ache
Eye problems	Urinary problems
Fever	Sore throat
Flu	Vaginal bleeding, discharge, or infection
