The Story:

Internet access is less consistent and reliable

N=1175

Consistent defined by being able to access whenever you want;  
Reliable defined by hardware will work whenever needed.

# Our Superhero Powers

## How much power?

At least  
**3 out of 4**

Email, Chat/IM,  
Videoconference/Webinar  
capabilities

The Story:

**49%**

Cannot easily use the latest operating system

# Power is not always enough

## Concerns & Challenges

- I worried that [the] professor might give out practices and homework problems on pdf version which need to be printed out...make all homework online since some students *don't have access to printer.*

## Concerns & Challenges

- Students e-books will not work if they have *out of date laptops* (like mine, it's from 2009). I can't install the proper Adobe software to access my e-books.
- For some classes the whole curriculum is hard to understand based on *how the information is presented and organized through canvas.*

# Can power access information?

## Class Access: CANVAS

84%

Reporting very/somewhat comfortable

The Story:

Previous experience with online learning

# Can power engage?

## Class Participation: ZOOM

60%

Reporting very/somewhat comfortable

The Story:

Increasing use may benefit with student training and support

# Can power be tested?

## Class Testing: PROCTORIO

66%

Do not know what it is

The Story:

Students will need more information

## Privacy Concerns

- Concerned with the possible use of *Zoom which seems to have shady problems when it comes to privacy.*
- I've heard a bit about *Zoom security being compromised;* I'd prefer not to use it.

## Privacy Concerns

- Privacy [concerns]...being forced to being monitored in Zoom or Proctorio. *I prefer my camera is off because of hacking safety.*

## Privacy Concerns

- Don't use online proctoring services. They are extremely invasive and demand the user to be alone in a room. I have two toddlers that have to stay at home...*because of the lock down...being alone to take an exam is just not possible.*

**No superhero  
is perfect**

**Every  
superhero  
needs a  
team....**

**An (tech) assist may be needed**

## **The Virtual Hub**

**1 Laptop/Internet Access**

**2 Discuss Tech Issues  
w/Live Person**

**3 How-to Videos**

N=1336

Other services ranked #4 Instructional software webinars; #5 Chat room to share/discuss tech issues;  
#6 Submit questions not related to online learning

**An (personal) assist  
may be needed**

Approximately  
**1 out of 3**

**Mental Health**

**Place to Study**

**Tech Troubleshooting**

**Tutoring**

N=1132

Respondents could select multiple options. S

Question asks students to identify current experiences that are of significant concern,  
enough to be possibly be a hindrance to enrollment/success.

**An (personal) assist  
may be needed**

At least  
**1 out of 4**

**Reliable Finances**

**Internet Access**

## Concerns & Challenges

- ...it is *hard to be it home and not get easily distracted*. Even more when you have younger siblings.
- My main concern is *how resources, such as tutors and books, are available* to students.

## Concerns & Challenges

- I'm wondering *what is going to happen to some services* such as psychological services, EOPS, and food services.

## Concerns & Challenges

- I wish *teachers would be more empathetic and offer the lectures with a asynchronous option.*

Some want to only live stream...I am a single mother who works full time. I would normally have child care but now I don't.

## What's the attack plan?

- For international students, can they have *access to recorded live class sessions*? (I have friends planning to wake up at 3 am for 3 days a week because they do not want to miss important classes).

## What's the attack plan?

- It would be nice if the *college's social media* put *posts on stress and anxiety relievers* during this transition to online courses and the pandemic.

## What's the attack plan?

- I think providing some guidance as to *how to get physical book copies would be helpful*, since I personally am not a fan/do not learn best when the textbook is online.

# Ready to Engage!

- Can you *make all classes into distance learning classes* in the future ?
- The spring quarter put the on campus class online so I enrolled. Please *don't put it back on campus.*
- It's *difficult to be on campus if you're the provider and have to work multiple jobs* to make ends meet...[when class is not offered online] only choice happens to be skipping a quarter or changing a major which just delays the process and progress.

## When to assist?

Monday thru Thursday

+ Afternoons (1 to 5 pm)

IF weekend: Afternoon then  
Evening (6 to 10 pm)

The Story:

While weekdays and afternoons are preferred, about 20%-25% prefer evenings

# How to let them know

Email

Canvas Class Site

MyPortal

The Story:  
Messaging should stay local

## **Our Superhero Thus Far**

- What are your takeaways?
- Ask about hardware capability
