The top 25 online courses by FTES represent 33% of total FTES generated by all online courses (454/1,358).

Almost half of the top 25 courses are housed in Business & Social Sciences (44% or 11 courses), while the remainder are in the Fine Arts & Communication (7), STEM (5), and Language Arts (2) divisions (Table 2). Not surprisingly, the Business & Social Sciences division also generates most of the FTES from these top online courses (44%).

Overview

Online sections are defined by sections with the coding ending in “W.” These sections were taught in an online fully asynchronous modality. There were 463 sections offered through this instructional modality. FTES is an estimated figure as the spring term was still open at time of this analysis. Spring includes late start courses.
