

**April 24, 2020**

Dear Colleagues,

Well, we have made it to the end of week two and census will be with us on Monday.

Please remember to reach out to any students who might be less active in our classes and offer our support.

The data suggests that students are stressed and feeling disconnected and a few kinds words go a long way to helping them feel that we are there for them and are doing everything we can to help them move forward. Thank you for 'leaning in' and all you do for Foothill.

**Governance Updates**

## Equity & Education Council

E&E did not meet in March. At the meeting on Friday, April 17, the group covered two major items:

1. E&E discussed issues of student equity in the virtual campus. Committee members were asked to think about creating clear goals for the challenges facing students. At this time, most/all of the items pertained to access (technology) and the group recognizes the need to move the conversation beyond just technology access in coming meetings.
2. Dual enrollment as an equity strategy: E&E continued to debate whether or not dual enrollment is, or could be, an "equity strategy" for Foothill College. There was consensus that so far it's definitely been an enrollment strategy but not yet consensus about DE as a way to close Foothill's equity gaps. Discussion will continue at the next meeting.

Additional updates to come in next week's Parliament.
