Subject: Thinking of our own

Hello, all,

Hope you have had a restful holiday weekend. Unfortunately, you may have also heard of the underwater volcano eruption in Tonga and while Tonga is very far away, our students and staff whose families are in Tonga, are not. Please offer your support for our Foothill family whose members may be affected, including our student body president. With Covid, it has already been very trying times, but this disaster gives us a new reality about how members of our family can be impacted. Whether on Zoom or in person, hope you will express your concern.

Best regards,

Bernadine
