I just learned that we also have two staff members in the LRC, Tetyana Batychko and Olga Streinikova, from Ukraine. Please give them your support as well, and LMK if there are others in our college who also have close ties to Ukraine.

Best regards,

Bernadine

Subject: Ukraine and Russia

Hello, all,

The events in the past few days are a stark reminder of how some Foothill challenges pale in comparison. I am writing to ask you to be mindful of our two Ukrainian and four Russian students who are here through our international program. We are contacting their individual instructors and the ISP office reached out to the Ukrainian students last week. We are also concerned for our Russian students, should they encounter any anti-Russian sentiment. We are reaching out to their instructors as well. Also, we want to support our faculty who have ties to Ukraine. Natasha Mancuso, our professor in business and marketing, was born and raised in Ukraine and I know she has shared her poignant story with some of you.

Best regards,

Bernadine
