ITEM 1 – REVIEW OF MINUTES

Nov. 19.08 – Approved as written

ITEM 2 – SUSTAINABILITY REPORT – B. Visas/K. Smith

See handouts and attached powerpoint for specifics

Brenda Visas reported that a Sustainability Management Plan is in progress and should be available June 09.

Brenda reviewed the steering committee membership and responsibilities (see slide 2).

A policy and mission statement have been drafted for future approval.

Future projects under consideration include: Organic garden, farmers market, work on the native and bamboo gardens and establishment of an evolutionary plant garden (hillside next to Lohman Theatre).

Completed projects by committee include: transition to sustainable dining utensils/serving cartons, disposal of coffee grounds and compost collection for future gardens.

Karen Smith shared her work with TTW students and the parent presentation she developed for the TTW Graduation – she has organized the students as a team to collect recycle paper which is then made into scratch pads. As the collections and distribution team, the students have an opportunity to interact with the college community, learn leadership skills and teamwork and are doing valuable sustainable community service.

ITEM 3 – LeaderFISH PRESENTATION – A. Stenger

ITEM 4 – WRAP UP AND EVALUATION OF FALL QUARTER “WORK”

REMINDER – Next presentation: Jan. 7 – Student Recruitment & Outreach

Adjourned to Annual Holiday Party
