Whether you want university-transfer preparation, career-training programs, basic skills improvement or professional development, you’ll find that Foothill College is a lively center for outstanding instruction and enriching student activities. Lives change in powerful ways at Foothill College.

At the end of 2012, we’ll be opening the Foothill College Physical Sciences & Engineering Center (PSEC), which will serve as the future home of the college’s Science Learning Institute, and has already come to be regarded as a leader in developing science, technology, engineering and mathematics, also called STEM, curricula.

At Foothill, we also have fun! From student clubs that match your interests to social events, from student leadership classes to actual student government, from intercollegiate athletics and intramural games to fine arts exhibits and performing arts concerts, Foothill offers you the total college experience.

Our students, faculty and staff come from a variety of backgrounds and life-stories. These traits, combined with our majestic campus, make Foothill a leader in providing students with a comprehensive, high-quality education.
Welcome to the 2011–2012 academic year at Foothill College! As a community of scholars dedicated to student success, we welcome you to Foothill College, an outstanding choice for higher education. Foothill College is dedicated to serving our community and providing outstanding educational opportunities to our students. While state budget reductions have presented challenges, Foothill continues to prepare students to transfer to the university of their choice, to offer the highest quality work force degree and certificate programs and offer basic skills instruction to prepare students for college-level work. Under the strong leadership of its faculty, classified staff, administration, board of trustees and chancellor, Foothill is addressing the current challenges through strategic use of limited resources and cultivation of a campus climate that engenders innovation and creativity.

Our faculty continue to seek new ways to improve student learning, as evidenced by the emergence of successful new programs such as Math My Way, that have earned national attention for improving student success. Our instructors participate in many local and national organizations to expand and share their knowledge. Through the support of our voters who approved the Measure C bond in 2006, Foothill has begun construction on the Physical Sciences and Engineering Complex, a state-of-the-art center for science learning and the advancement of STEM education. With an anticipated opening in January of 2013, we look forward to bringing our students a new level of quality for science learning, and in Foothill continuing its leadership role in preparing students for careers in the sciences.

As a new student, you will find many outstanding facilities here at Foothill, and notice we are in the process of renovating existing buildings and constructing new educational facilities. We are deeply grateful to our community for passing Measure C in 2006, which allows us to complete maintenance, renovation and construction projects and keep our technology and learning environments current.

In saving the best for last, let me reveal that the secret of our creativity and innovation at Foothill College is our people! Students, community supporters and employees come together to create a vibrant, welcoming place of learning. Our community supporters contribute their time, money and good will, and they are an integral part of Foothill College’s achievements. Our beautiful facilities and grounds are cared for by colleagues who take great pride in a job well done. Our programs and services are delivered by dedicated individuals who are often local heroes and heroines, or state and national leaders in their fields, or winners of prestigious awards. Our students excel in academics, creative and performing arts, athletics, student government and community service. They are our raison d’être and they are our reason for joy!

College Profile

Foothill-De Anza Community College
District Mission
The mission of the Foothill-De Anza Community College District is student success. We accomplish this by providing access to a dynamic learning environment that fosters excellence, opportunity and innovation in meeting the diverse educational and career goals of our students and communities.

Foothill College
Mission, Vision, Values & Purpose
Our Mission
A well-educated population being essential to sustaining and enhancing a democratic society, Foothill College commits itself to providing access to outstanding educational opportunities for all of our students. Whether through basic skills, career preparation, lifelong learning, or transfer, the members of the Foothill College community are dedicated to the achievement of learning and to the success of our students. We affirm that our unwavering dedication to this mission is critical to the prosperity of our community, our state, our nation, and the global community to which all people are members.

Our Vision
Foothill College envisions itself as a community of scholars where a diverse population of students, faculty and staff intersect and are engaged in the search for truth and meaning. We recognize that by necessity this search must be informed by a multiplicity of disciplinary modes of inquiry. In order to ensure that every student has the opportunity to share in this vision, Foothill College commits itself to providing students with the necessary student support services, outstanding instruction, and opportunities for leadership both within and outside the classroom. By enacting this vision, the college ensures that it remains the distinctive and innovative institution it has been since its inception.

Our Values
- Honesty
- Integrity
- Trust
- Openness
- Transparency
- Forgiveness
- Sustainability

Our Purpose
To provide access to educational opportunity for all with innovation and distinction.

Our Institutional Learning Outcomes
An important aspect of upholding institutional integrity is maintaining focus on the Foothill College institution-level learning outcomes (ILOs), also known as the 4-Cs. These are:
- Communication;
- Computation;
- Creative, Critical & Analytical Thinking; and
- Community/Global Consciousness & Responsibility.

Every course at Foothill College addresses at least one of these ILOs. In addition to incorporating and reflecting the synthesis of the cognitive and affective domains of learning, the ILOs provide a framework for the development of breadth and depth in courses and programs, and are the basis of all learning experiences at Foothill College.

Since the Foothill College Academic Senate and Curriculum Committee adopted the institution-level learning outcomes as the general educational student learning outcomes, the college’s general education pattern is designed to integrate the 4-Cs across the curriculum. The Foothill College general education (GE) pattern, inclusive of courses in the seven areas of humanities, English, natural sciences, social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and lifelong understanding, supports the college’s institution-level learning outcomes. Completion of the GE pattern provides students with the depth and breadth of knowledge, and the skills and abilities that will enable them to be productive lifelong learners, ethical human beings and effective citizens.

Our History
The Foothill-De Anza Community College District was formed Jan. 15, 1957, following several months of study by citizens groups and the California Department of Education. The district covers an area of about 105 square miles and includes the Palo Alto Unified School, Mountain View-Los Altos Union High School and Fremont Union High School districts.

On Sept. 15, 1958, the district opened a temporary campus on El Camino Real in Mountain View. The Los Altos Hills main campus of Foothill College was completed and opened to students in September 1961.

In 1967, the district opened its second campus, De Anza College, in Cupertino. The two colleges coordinate programs and services, thereby providing our students with the flexibility to enroll in courses at both campuses.

Foothill: An Outstanding Community College
Founded with the hallmark of educational opportunity for all, Foothill College is recognized internationally as one of the nation's most outstanding community colleges. Students of all ages enroll at Foothill for a single class, one- or two-year degree programs, or to complete general education requirements for transfer to four-year universities. Our academic programs lead to Associate in Arts and Associate in Science degrees. They also meet freshman and sophomore requirements of University of California, California State University and private education systems. In addition, we offer many professional and technical programs for students seeking re-training or career advancement.

Foothill serves northern Santa Clara County, educating more than 18,000 day and evening students at the Main Campus, Middlefield Campus in Palo Alto, online, and many community and industry sites each quarter.

Committed to Our Community
We are committed to community education. At Foothill College, we:
- Offer low-cost, quality education.
- Recognize that our students have different, changing educational needs.
- Strive to create a college community of students, faculty and other educational workers.

Our educational process should help you:
- Develop and recognize human dignity.
- Think for yourself, learn to learn, and practice creative arts and skills.
- Become a contributing community member.

We meet our commitments by providing:
- An academic program to help you transfer to a four-year college or university.
- Professional and technical programs to help you develop skills for job entry, re-entry and career upgrading.
- A general-education program to broaden educational and cultural experiences.
- Remedial and developmental education to bring basic skills up to full potential.
- Excellence in all academic programs, student services and community-outreach programs.
- Convenient community classrooms.
- Out-of-class activities so you can learn in less formal, more hands-on environments.
- A counseling and matriculation program to help you recognize your capabilities, and educational and life goals.
- Health services, psychological services, financial aid, job counseling and placement testing.
- Partnerships with social and educational agencies, business and industry to determine and serve our community's educational needs.
- Cultural programs, recreational activities, resources and facilities available to the general public.

We Celebrate Diversity
We value the diversity of students on our campus and continually work to meet the needs of this entire population. Our faculty, staff and administrators believe that teaching a multicultural perspective is just as important as teaching reading, writing and technology in today's world.

You’ve continued your tradition of innovation in more recent years when the district created the first official board policy to provide support to faculty members who want to create, use or improve open educational resources as substitutes for costly college textbooks.”

—U.S. Secretary of Education Arne Duncan, Speaking at the Foothill College 50th Annual Commencement Ceremony, June 25, 2010.

“To get the most out of Foothill College you must be ready to take advantage of opportunity. This strategy paid off for me. With the few hours that I spent applying for financial aid and scholarships I've been able to completely pay my way through college. This is especially important for me because growing up with little money, higher education was never talked about in my family. I never thought it possible that I would be where I’m today, and if it was not for financial aid resources, I know my story would have turned out very differently.”

—Julie A. Berkovatz, Foothill College Alumna

Julie A. Berkovatz attended Foothill College for three years and completed the Associate in Arts Degree in Graphic & Interactive Design. She then transferred to San Jose State University to further pursue the study of graphic design.

Financial Planning & College Costs

Student Fees
All students pay $24 per unit\footnote{1,2}. In addition, the non-resident student tuition fee and the foreign student tuition fee is $135 per unit, for a total of $159 per unit.

Foothill charges additional fees for Campus Center use, on-campus parking, lab courses, student-body activities (voluntary) and health services. International F-1 Visa students are required to purchase comprehensive health insurance for $390 each quarter.

All fees, which are posted online at www.foothill.edu, are subject to change. Tuition and fees may be refunded under certain circumstances; the specific refund policy is posted online. Direct questions about tuition and fees to the Admissions & Records Office in Building 8100 or call (650) 949-7325.

Instructional Materials Fees
In some courses, there will be an instructional materials fee. These fees, detailed in the online class schedule, reflect the actual cost for materials, meaning the cost is usually lower than if you purchased the same items separately. Unless there’s an issue of health or safety, you can either pay the fees to the college or provide your own materials of equal quality. Your instructor will provide a list of required materials.

Estimated Annual Cost of Attending Foothill College
It’s important for you to financially plan your education. The following cost estimates are calculated for a student attending Foothill College full time (enrolled in 15 units) for nine months.

Refunds & Repayments

Refunds
The college maintains a refund policy for tuition and fees at the Admissions Office, and book purchases at the bookstore. In most cases, a student can request a refund for classes dropped during the first two weeks of classes. The Admissions & Records Office and Bookstore can provide the most current policies for obtaining a refund.

Repayment
The student who withdraws from the college on or before 60 percent of the quarter is completed, may be required to repay Title IV funds. The funds are repaid to the Financial Aid Office and must be returned within 30 days after the college's determination that the student has withdrawn.

Financial Aid

Are You Eligible?
Financial aid eligibility is based on need—the difference between what you and your family can provide and college expenses.

Your financial need is determined by the information you and your family provide through the Free Application for Federal Student Aid (FAFSA) and any Foothill College additional paperwork. Regardless as to whether the application shows unmet need or not, we may be able to help. The total amount offered cannot exceed your documented financial need, and the monies must be used solely to meet cost of attendance at Foothill (refer to chart at left).

If you are in default on a loan, or owe an overpayment on a grant or loan, you will not be eligible for financial aid until the situation is satisfactorily resolved.

Eligibility requirements are generally established once you’ve shown, through a completed application, that you:
- Have applied for admission.
- Have enrolled in an academic program that requires 24 units or more to complete.
- Maintain satisfactory academic progress.
- Demonstrate verifiable financial need. Some exceptions may apply. Consult the Financial Aid Office for details.
- Show academic major/goals and units of enrollment that can be applied to an educational plan.
- Have a high-school diploma, GED, have passed an independently administered examination approved by the Department of Education, or have shown the ability to benefit through prior unit completion.
- Are a U.S. citizen, permanent resident or other eligible non-citizen.
- Have a valid Social Security Number.
- Register with Selective Service if required.

Federal Pell Grant
Federal Pell Grants are awarded to undergraduates based on financial need. This is free grant aid that ranges from $555 to $5,550. Maximum and minimum amounts are subject to change by federal legislative action.

Federal Supplemental Educational Opportunity Grant (FSEOG)
This federal program may be an option if you have exceptional financial need and would be unable to continue your education without a Pell Grant. The FSEOG Award is up to $600 per academic year at Foothill College.
Federal Work Study (FWS)
If you have financial need and want to earn a part of your educational expenses through employment, Federal Work Study (FWS) may be an option. You can work up to 25 hours per week while classes are in session and 40 hours during school vacations, however you must be enrolled in a minimum of six units to be eligible for FWS. If you receive an FWS award offer, it is your responsibility to schedule an interview with the Financial Aid Office for FWS placement assistance.

Federal Direct Subsidized & Unsubsidized Student Loan
Federal Direct Loans are made by the U.S. Department of Education. As a first-year undergraduate, you can borrow up to $3,500 subsidized per year. As a second-year undergraduate, you can borrow up to $4,500 subsidized per year. Additional Unsubsidized Stafford may also be available annually. For details, visit the Financial Aid Office (Room 8202).

Federal Direct Loan totals may not exceed $31,000 for dependent undergraduates and $57,500 for independent undergraduates (no more than $23,000 can be subsidized). You begin repayment six months after you graduate or drop below half-time enrollment. During the repayment period, and upon receipt of funds for unsubsidized loans, you will be charged a fixed interest rate that will not exceed 8.5 percent on the unpaid balance and adjusted for new loans each July 1. As of July 1, 2011, the interest rate will be 3.4 percent.

Federal Direct PLUS Loan for Parents
Federal Direct PLUS Loans are made by the U.S. Department of Education. Parents of dependent undergraduate students may borrow up to the maximum of the amount determined to be unmet educational expenses.

A determination of need must be made through the FAFSA application, but Federal Direct PLUS eligibility is based on unmet educational expenses. Interest charges begin upon receipt of the loan.

CAL Grants
To be eligible, in addition to federal aid requirements, a student must:
- be a California resident, and
- not have a bachelor's or professional degree (except extended Cal Grant A or B awards for a teaching program or other five-year program), and
- file a completed FAFSA and Cal Grant GPA Verification Form by the annual March 2 deadline.

CAL GRANT A: Covers fees at the UCs, CSUs, and private institutions in California. This award may not be used to pay for community college fees. Funding for students who are enrolled at community colleges may be held in reserve for up to three years.

CAL GRANT B: Is for high-potential students from disadvantaged or low-income families who otherwise would not be able to pursue a higher education. California community college awards are up to $1,551 per year.

ENTITLEMENT AWARD: Every graduating high school senior who has a grade-point average of at least 2.0, meets the Cal Grant financial and eligibility requirements and applies by March 2 within one year of graduation is guaranteed this award.

COMPETITIVE AWARD: The student who will enroll at a California community college, although strongly encouraged to apply by March 2, has a second annual deadline of Sept. 2. Other students who meet the basic Cal Grant eligibility requirements and who have at least a 2.0 grade-point average may compete for this award.

CAL GRANT C: Helps vocationally oriented students acquire marketable job skills within a short time. Full- or half-time training must be for at least four months and lead to a recognized occupational goal—diploma, associate degree, license qualification or certificate. Funding is available for up to two years, depending on the length of the program, as long as academic progress is acceptable. Awards for California community college students are limited to up to $576 in training related costs.

California Chafee Grant
This federal program, administered by the California Student Aid Commission, offers college and vocational school financial aid to youth aging out of a foster care program. For up to $5,000, the student must demonstrate financial need, meet basic eligibility requirements, complete the FAFSA and the Chafee Grant Application available at www.csac.ca.gov.
Board of Governors Fee Waiver (BOGW)

While state law requires that students attending California community colleges pay an enrollment fee, the California Community Colleges offer the BOGW. This grant program waives enrollment fees for the academic year.

If you are a California resident, you qualify for a BOGW if any one of the following statements applies to your current status:

- You have qualified for financial aid and your calculated need hasn’t been met;
- You or your family are receiving TANF/CalWORKS, Supplemental Security Income (SSI) or General Assistance/General Relief;
- You have received certification from the California Department of Veterans Affairs or the California National Guard Adjutant General that you are eligible for a dependent’s fee waiver; or
- You meet income standards; year specific
- You have documentation that you are a recipient or the child of a recipient of the Congressional Medal of Honor.
- You have documentation that you are a surviving dependent of any individual killed in the Sept. 11, 2001 terrorist attack.
- You have documentation that you are a dependent of a deceased law enforcement/fire suppression personnel killed in the line of duty.

- Alternatively, some recipients obtain eligibility by downloading the BOGW form online at www.foothill.edu/aid or picking up the form in the Foothill Financial Aid Office (Room 8202).
- Only one application is required per year (July 1–June 30).
- You do not have to be enrolled in a specific number of units to be eligible for the BOGW.

Other Aid

Emergency Loans

If you face an unexpected educational emergency, Foothill offers short-term loans up to $200. To qualify, you must be enrolled full time (12 units), purchase a Foothill College OwlCard and meet satisfactory academic progress requirements. These 30-day loans are interest-free. An overdue loan may be subject to additional late fees, registration holds, and assignment to collection services. Emergency loans are administered through the Financial Aid Office. For information, call (650) 949-7245.

Employment

If you’re interested in working to help defray the cost of attending college, consider a part-time, on-campus position. Most of these jobs pay from $8 to $14/hour. Jobs that are not based on financial need are called “district” employment, and you must be enrolled in a minimum of six units to be eligible for these jobs. For information, call (650) 949-7245.

Scholarships

More than $100,000 in campus and local scholarships are awarded annually to Foothill students. Scholarships, which vary in amount, are considered academic gifts and need not be repaid. They’re generally based on academic standing, financial need, potential progress in major fields of study, and college or community activities. Scholarships are computed as resources for students receiving financial assistance.

A listing of current scholarships is available in the Financial Aid Office and at www.foothill.edu/aid.

**PURCHASE USED TEXTBOOKS:** The Foothill College Bookstore continues to provide a large selection of used textbooks at up to 25-percent off the new textbook price. Look for used textbooks both online and in store. Review available used titles as well as policies and restrictions at books.fhda.edu. Used textbooks may also be available at other retail bookstores.

**RENT TEXTBOOKS:** With a valid OwlCard, you can rent textbooks from the Foothill College Bookstore. Review available rental titles as well as policies and restrictions at books.fhda.edu;

**BUY E-BOOKS:** The Foothill College Bookstore offers textbooks in electronic form via www.cengagebrain.com. Review available e-book titles, policies and restrictions at books.fhda.edu;

**SWAP BOOKS:** Buy and sell your used books directly with other students. Listings for the student-run book exchange are free to review. Review available titles, instructions and policies at www.foothill.edu/books;

**USE TEXTBOOKS THAT HAVE BEEN PLACED ON RESERVE IN THE FOOTHILL COLLEGE LIBRARY:** Be aware that some books on reserve cannot be checked out. Review more library reserve instructions and policies at www.foothill.edu/library; and

**SELL YOUR BOOKS DURING BOOK-BUYBACK:** The Foothill College Bookstore buys back titles that instructors have requested for the following quarter at up to 50 percent of the new price. Thousands of other titles may be bought back each quarter for wholesale value, up to 40-percent cash back. Buyback operates on a first-come, first-served basis. The quantity being bought back by the Foothill College Bookstore is limited and may be reached at any time. The price paid during buyback is subject to the condition of the book and may change without notice. Review more buyback information, dates and policies at books.fhda.edu.

Foothill College
General Education Pattern

The Foothill College general education (GE) pattern is designed to ensure that students meet the four institutional/General Education Learning Outcomes. Also known as the college’s 4-Cs, these are:

1. COMMUNICATION: Demonstrate analytical reading and writing skills, including evaluation, synthesis and research; deliver focused and coherent presentations; and demonstrate active, discerning listening and speaking skills in lectures and discussions; and

2. COMPUTATION: Demonstrate complex problem-solving skills, technology skills, computer proficiency and decision analysis (synthesis and evaluation); apply mathematical concepts and reasoning; and demonstrate the ability to analyze and use numerical data; and

3. CREATIVE, CRITICAL & ANALYTICAL THINKING: Judgment and decision making, intellectual curiosity, problem solving through analysis, synthesis and evaluation, creativity, aesthetic awareness, research method, identifying and responding to a variety of learning styles and strategies; and

4. COMMUNITY/GLOBAL CONSCIOUSNESS & RESPONSIBILITY: Social perceptiveness, including respect, empathy, cultural awareness, and sensitivity, citizenship, ethics, interpersonal skills and personal integrity, community service, self-esteem, interest in and pursuit of lifelong learning.

Completion of the Foothill College GE pattern requires that students successfully earn a minimum of 30–35 units from the courses listed on pages 76–77 with at least one course in English, humanities, natural sciences (with lab), social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and two courses in lifelong learning from two different academic departments.

It is imperative to note that this pattern is only appropriate for students who are pursuing a Foothill College associate in arts or associate in science degree. Students who plan to earn the A.A.-T or A.S.-T degree (page 30) must complete either the Intersegmental General Education Transfer Curriculum (IGETC) (page 78) or CSU, General Education Breadth (page 79) patterns. Students are strongly advised to meet early and often with a Foothill counselor to determine which pattern will best meet their goals.

The IGETC requirements for transfer from a community college to either the California State University or University of California system are listed on page 78. CSU General Education requirements are listed on page 79.

Select a Major

Selecting a college major is an important step—one that establishes your career goals and determines where you should direct your academic efforts.

 Majors within career and transfer programs are described within the following pages. The chart on pages 28–28 summarizes degrees and certificates available as of Fall Quarter 2010. Consult curriculum sheets located on the Web site and available in the Counseling Center, Room 8301, for the most current degree and certificate information. You can also consult with a Foothill counselor to develop a strategy for selecting your college major. To schedule a consultation, call (650) 949-7423.

Certificate Programs

Foothill offers the following types of certificate programs:
- Certificate of Achievement
- Certificate of Completion (non-credit)
- Other Division Certificates
  - Career Certificate (non-transcriptable)
  - Certificate of Proficiency (non-transcriptable)
  - Certificate of Specialization (non-transcriptable)
  - Skill Certificate (non-transcriptable)

For information about certificates, contact the division office for unit requirements, course sequences and major requirements. Foothill awards these certificates when you satisfactorily complete certain specialized programs requiring fewer than two years of full-time study. Some certificate programs comprise (1) a complete curriculum pattern or (2) major and related courses selected from an Associate in Arts or Associate in Science degree curriculum at the recommendation of an advisory committee.

The following state requirements apply to Certificate of Achievement programs:
- A minimum of 27 units that follow a prescribed course pattern;
- A minimum GPA of 2.0 for these units;
- A maximum of 12 transfer quarter units from other institutions of higher education; and
- Proficiency in mathematics and English as evidenced by examinations or completion of college courses.

Foothill College Course Catalog 2011-2012 • www.foothill.edu
Other Foothill College divisions also offer certificates of completion, proficiency, specialization, career and skills. These certificates will not appear on the student’s transcript. General requirements include the prescribed coursework and a GPA of at least 2.0 in these courses. More information on specific requirements is available in the division office offering the certificate or from a Foothill counselor.

Types of Associate Degrees Offered at Foothill College

While many students complete an associate degree in preparation for immediate entry into the job market, earning an associate degree may also serve as excellent preparation for transfer to a four-year college or university. By earning an associate degree, you indicate to potential employers, transfer institutions and society that you not only have specialized knowledge in a particular area of study. Rather, degree completion also signals that you have gained critical and analytical thinking ability, written and oral communication skills, and are able to consider issues with ethical and global perspective.

You are strongly advised to meet with a Foothill counselor early to decide which degree best suits your academic needs and for assistance in planning your course of study. Requirements for all Foothill College associate degrees include completion of (1) a minimum of 90 quarter units in a defined set of courses; (2) a minimum of 24 units successfully completed at Foothill College; (3) a grade-point average of 2.0 or better in all college courses including Foothill courses; (4) a major or area of emphasis of at least 27 units in a curriculum approved by the Foothill College Curriculum Committee; and (5) general education coursework. There are significant differences in the general education requirements depending upon the degree you are pursuing; consequently, you are again urged to meet with a Foothill counselor to determine which general education pattern is most appropriate.

The four types of associate degrees offered are:

**Associate in Science Degree (A.S. Degree)**

The A.S. degree is awarded to students who complete all of the requirements in a major or area of emphasis in the areas of science, technology, engineering or mathematics. This degree also requires completion of the Foothill College General Education requirements. Students who plan to complete this degree and who also intend to transfer to a four-year college or university are advised to meet early and often with a Foothill counselor for assistance in developing an educational plan that satisfies both sets of requirements.

**Associate in Art Degree (A.A. Degree)**

The A.A. degree is awarded to students who complete all of the requirements in a major or area of emphasis in the liberal arts, social sciences and fields other than science, technology, engineering or mathematics. This degree also requires completion of the Foothill College General Education requirements. Students who plan to complete this degree and who also intend to transfer to a four-year college or university are advised to meet early and often with a Foothill counselor for assistance in developing an educational plan that satisfies both sets of requirements.

**Transfer Associate Degrees**

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer”, a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (A.A.-T) or the Associate in Science for Transfer (A.S.-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (A.A.-T or A.S.-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. While a minimum GPA of 2.0 is required for admission, some majors may require a higher GPA. Students transferring to a CSU campus that does accept the A.A.-T or A.S.-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.
Associate in Science-Transfer (A.S.-T Degree)
Similar to the A.S. degree, the A.S.-T degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in the areas of science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the CSU General Education/Breadth Requirements or the Intersegmental General Education Breadth Requirements (IGETC). Students who plan to complete this degree and who intend to transfer to a non-local CSU, UC or other college or university are advised to meet early and often with a Foothill counselor for assistance in developing their educational plan.[1]

Associate in Arts-Transfer (A.A.-T Degree)
Similar to the A.A. degree, the A.A.-T degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in academic areas such as the liberal arts, social sciences and related fields other than science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the CSU General Education/Breadth Requirements or the Intersegmental General Education Breadth Requirements (IGETC). Students who plan to complete this degree and who intend to transfer to a non-local CSU, UC or other college or university are advised to meet early and often with a Foothill counselor for assistance in developing their educational plan.[1]

Curriculum Advisory Committees
At Foothill, we strive to ensure that our career education curriculum meets the needs of business, industry and government. This is why we invite a number of occupational leaders to advise us on:
- new courses and course content;
- facilities and equipment;
- nature and extent of employment needs;
- how to evaluate the appropriateness of contents of existing courses; and
- how to evaluate student performance.
We constantly implement the recommendations of more than 30 occupational advisory committees. A campus advisory committee for vocational education also meets periodically to review and make recommendations for career education. For information on specific courses, consult your counselor or review the program’s curriculum sheet online at www.foothill.edu.

“One of the great benefits of Foothill College is the small class sizes, which helped me stay engaged during class time and provided an opportunity for quality interactions with the excellent faculty who clearly cared about my success. I also appreciated the diversity of the student body at Foothill; my classes were enriched by the variety of international students who provided different perspectives and experiences.”

— Julia Weiland Van Roo, Foothill College Alumna

Currently the Presidential Management Fellow for the Office of Community Planning & Development at the U.S. Department of Housing & Urban Development, Julia Weiland Van Roo majored in speech communication at Foothill College and earned two Foothill associate in art degrees, one in speech communication and one in law and society (pre-law) in 2002. She then successfully transferred to the University of California, Berkeley, and earned a bachelor’s degree in history and rhetoric in 2004. Later, she entered graduate school and in 2010 earned a juris doctor degree as well as a master of public policy degree—both from Stanford University.

Academic Freedom

Academic freedom encompasses the freedom to study, teach and express ideas and viewpoints, including unpopular and controversial ones, without censorship, political restraint or retribution. Academic freedom allows for the free exchange of ideas in the conscientious pursuit of truth. This freedom exists in all service areas, including but not limited to teaching, librarianship, counseling, coordinating and all faculty-student interactions. Academic freedom is the bedrock principle of all institutions of learning and must be extended to all faculty regardless of their status as full time, part time or probationary.

Faculty members have the principal right and responsibility to determine the content, pedagogy, methods of instruction, the selection, planning and presentation of course materials, and the fair and equitable methods of assessment in their assignment in accordance with the approved curriculum and course outline and the educational mission of the Foothill-De Anza Community College District, and in accordance with state laws and regulations. These rights and responsibilities include, but are not limited to, the faculty member’s choice of textbooks and other course materials, assignments and assessment methods, teaching practices, grading and evaluation of student work, and teaching methods and practices.

Admission & Enrollment Policies

Academic Prerequisites, Credit & Placement

Many courses require that you complete prerequisites in order to enroll. These prerequisites are listed under each course description in this catalog and the online class schedule.

All courses listed with a prerequisite have a registration block. If you have completed a course to fulfill the prerequisite requirement at another college, you must first provide a transcript and consult with a Foothill College counselor. To schedule a consultation, call (650) 949-7423.

Before registering, you must call the Matriculation Office at (650) 949-7512 to verify you have satisfied necessary prerequisites for CHEM 1A, 1B, 25, 30A; ENGL 1A, 110; ESLL 25, 26, 226, 236, 237; MATH 1A, 10, 49, 51, 101, 102, 103, 105 and 200 courses.

It is important that you call the Matriculation Office before you enroll. If you delay calling for prerequisite verification, there may not be sufficient time before registration to clear you for the class in which you want to enroll. The college has the authority to drop you from any course if you have not met the necessary prerequisites. For refund policies, contact the Admissions & Records Office in Room 8101.

If you submit written or performance evidence showing you have sufficient competence in the area of study due to previous training or experience, you may be able to enroll in a course without completing the listed prerequisites. You can only do this, however, if your counselor, instructor or division dean provides authorization.

Admission Guidelines

Foothill has an open-door admission policy for all high-school graduates and non-graduates who are 18 years of age or older. Students enrolled in the junior and senior year of high school may attend Foothill College with written parental and school permission. Forms for parental and school permission are available in the Admissions & Records Office (Room 8101), Middlefield Campus and at www.foothill.edu.

Special admission procedures such as additional testing, application forms and counseling sessions are required for admission to a number of career programs. Some of these programs begin only in the Fall Quarter. You must complete all special admission requirements in the preceding Spring Quarter. Programs in this category include dental assisting, dental hygiene, primary care associate, radiation science, diagnostic medical sonography (ultrasound), radiologic technology, respiratory therapy and veterinary technology.

Challenging Prerequisites

You may challenge prerequisites and corequisites if you can demonstrate that:

- You have the knowledge or ability to succeed in the course without the prerequisite or corequisite.
- You will be subject to undue delay in attaining your educational goal because the prerequisite or corequisite has not been made reasonably available.
- The prerequisite or corequisite is unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
- The prerequisite or corequisite has been established in an arbitrary manner.

To challenge a prerequisite, see your counselor and complete a Prerequisite Challenge Petition prior to the first day of the quarter. Advisories, when made, are listed as recommendations following prerequisites and are published in this catalog, class schedule and at www.foothill.edu. To schedule a counseling appointment, call (650) 949-7423.

Open Course Policy

It is the policy of the Foothill-De Anza Community College District that, unless specifically exempted by statute or regulation, every course, course section or class reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets such prerequisites as may be established pursuant to regulations contained in California Administrative Code Title V commencing with Section 55200.

Enrolled Student Classifications

You are a matriculated student if you have filed an Application for Admission, enrolled at Foothill and have done one of the following:

- Submitted high school and other transcripts;
- Met with a Foothill College counselor, counseling associate or career advisor to examine educational opportunities;
- Announced an intention to study for a degree or certificate;
- Begun a series of introductory, general education or special courses; or
- Begun a series of special courses leading to a certificate or degree.
Exceptions to Admissions & Registration Policies
To request an exception to a published policy, you must file an exception petition. These forms are available in the Admissions & Records Office in Room 8101, at the Middlefield Campus Administration Building and online at www.foothill.edu.

General Program Requirements
All beginning freshmen must enroll in the CNSL 50: Introduction to College course, or demonstrate proof that they have completed an equivalent course. If you are eligible for ENGL 1A, you should complete this course by the end of the third quarter of enrollment; you may take a communication course first. If you are eligible for ENGL 110 or 100, you should complete these courses during the first or second quarter.

You may receive up to 10 quarter units of credit for each score of 5, 4 or 3 on College Entrance Board Advanced Placement Tests. Your Foothill transcript will show units but will not indicate grades. The Evaluation Office, located in the Counseling Center, Room 8301, provides information on how the advanced placement scores are marked on transcripts and the equivalencies for the University of California and California State University.

You may receive up to nine quarter units for each of five general CLEP tests completed with a score of at least 500. Your Foothill transcript will show elective unit credit for each successful test score. These units may also be used to fulfill certain general education requirements.

If you want to transfer credit from an armed services school or other special institution, you may apply through a counselor. It’s possible these credits will be accepted toward the Associate in Arts or Associate in Science degree once you have successfully completed a minimum of 15 units at Foothill.

General Registration Information
If you are a new or former student, you must submit the Application for Admission by the quarterly deadline posted at www.foothill.edu. We encourage you to complete the application, complete the placement testing process and submit necessary transcripts as early as possible.

Students planning to transfer to Foothill are advised to submit transcripts from high schools and colleges previously attended.

If you plan to receive veterans benefits, apply for financial aid or earn a degree or certificate, you must submit transcripts. Request previous institutions to send your transcripts directly to the Foothill College Admissions & Records Office, 12345 El Monte Road, Los Altos Hills, CA, 94022-4599.

International students on F-1 visas must follow specific admissions requirements. For more information, review www.foothill.edu/international.

To register for Foothill College classes, follow the online registration instructions published in the online class schedule and on the college website at www.foothill.edu. The class schedule for the current academic term is posted online. Online information is subject to change. We encourage you to review the website frequently. For more information, call the Admissions & Records Office at (650) 949-7325.

Residency Requirements
Foothill College generally serves the communities of Palo Alto, Mountain View, Los Altos and Los Altos Hills, and our sister school, De Anza College, generally serves the cities of Cupertino and Sunnyvale. Both colleges, however, accept students from outside these cities.

If you are an out-of-state student, you are considered a non-resident until you have satisfied current California residency requirements. This rule applies to visa-holding, non-citizens eligible to establish residency. Non-resident tuition is required of all students in this category. The student who has had a change in residency, and was initially charged out-of-state fees in error, may request a refund within the academic year (prior to June 30) of the documented residency change.

If you are an international student with an F-1 visa, you are not eligible for California residency.

Unit Limitation
An average class load is 15 units per quarter. The maximum number of allowable units per quarter without a counselor’s approval is 20 units. If you intend to enroll in more than 20 units, you must obtain a counselor’s approval and submit a petition to the Academic Council. The maximum number of allowable units for Summer Session is 12 units. High school juniors and seniors are limited to enroll in no more than six units for Summer Session. To complete the petition process, schedule a consultation with a Foothill counselor by calling (650) 949-7423.
Academic Disqualification, Course Substitutions & Graduation Requirements

Make an appointment with your counselor to resolve problems such as disqualification and readmission, course substitutions, and exceptions to graduation requirements. To schedule an appointment, visit Counseling Appointments in the Counseling Center, Room 8301, or call (650) 949-7423.

Disqualification

You may be dismissed from Foothill College if you are on probation for three consecutive quarters. If you are disqualified, you will receive notice of dismissal by mail the following quarter. Dismissal will be reviewed by the Academic Council at your request. You may be readmitted after a one-quarter absence (excluding Summer Session). Consult with a Foothill counselor for readmission policies and procedures.

Academic In-Class Issues

If you have academic complaints, including treatment in a course or program, you should seek to resolve the problem by speaking with these people, in this order:
1. Course instructor;
2. Division dean (make an appointment through the division administrative assistant);
3. Division dean’s supervisor;
4. Vice president, Student Development & Instruction; Room 8104 (Room 1029 after 9/1/10); (650) 949-7524.

Academic Regulations

The Academic Council is responsible for academic regulation evaluation, enforcement, interpretation and exceptions. You can obtain petitions from the Evaluations Office in the Counseling Center, Room 8301, or call (650) 949-7231.

Academic Renewal

The academic renewal process permits students the opportunity to request the exclusion of entire quarters of coursework from the Foothill College grade-point average up to a maximum of 45 units. Eligibility for academic renewal requires that you meet specific criteria. Consult your counselor for more information.

Add/Drop Date

You are responsible for initiating the drop process and for notifying both the instructor and Admissions & Records Office.

The last day to add classes without petitioning is the end of the second week of instruction. The last day to drop a class without a W-mark is the end of the third week of the quarter for Fall, Winter and Spring quarters. Between the fifth and eighth weeks, all drops will receive a W-mark. You cannot drop after the eighth week. You may receive no more than four W-marks in any one course. For Summer Session class drop dates, consult the current class schedule or online college calendar at www.foothill.edu.

Probation

There are two types of probation: academic and progress probation.
- Academic probation occurs when your grade-point average is below 2.0.
- Progress probation occurs when after attempting 12 units, at least half of the units received are W (withdrawal), I (incomplete) or NP (no pass). Correcting these situations will result in removal from probation. If you’re placed on probation, you must consult a counselor for academic and procedural advice. You will be notified of probation by mail the following quarter.

Assignments & Examinations Regulations

As a Foothill student, you’re expected to do your own work on examinations and course assignments. Each instructor will enforce certain regulations to ensure honesty. If you violate these regulations, you will be dropped from the class, and the circumstances may be entered in your permanent record. Further difficulty in this respect may result in disqualification from Foothill College. See page 52–53 of this catalog and/or obtain the Honor Code Booklet, available from the Student Affairs & Activities Office, Room 2002.
Attendance
Regular and punctual attendance is an integral part of the learning process. As a Foothill student, you are expected to attend all scheduled classes in which you are enrolled. An instructor has the authority to drop a student who violates written attendance policies. Instructors are not obligated to hold seats for students who are enrolled but do not attend the first class meeting.

Audit Request Procedures
A number of Foothill classes are available for audit. To be eligible, you must have already taken and completed the class at Foothill the number of times permitted, and received a grade of C or better. Audit requests must have the signature of the instructor before you submit the request to the Admissions & Records Office. Auditors are admitted on a space-available basis.

The audit fee is $10 per unit. If you're currently enrolled in 10 or more units, fees for the first three audit units are waived. Approved audit requests will be accepted beginning the second week of class.

Cancellation of Classes
Classes may be canceled when enrollments are lower than planned. Foothill College has the authority to change or cancel courses and programs as circumstances require.

Class Preparation/Progress
After prior notification, an instructor may drop students who demonstrate insufficient preparation/prerequisites. In addition, any instructor may drop students who persistently neglect class assignments or demonstrate inadequate progress.

Class Size & Frequency
Minimum class-size guidelines apply to all lecture, lecture/lab and laboratory classes at Foothill. While a minimum class size is generally required, special circumstances may necessitate continuing a class that does not meet these guidelines.

Exceptions are based on program needs such as second-quarter, third-quarter or second-year sequential courses; courses required for an identified major or career; combined courses meeting at the same hour with the same instructor; and one-of-a-kind offerings needed for graduation or transfer. Exceptions may also be based on the following:
- Limited classroom or laboratory facilities; or
- Statutory and state regulations mandating class size, independent study, special projects and cooperative education.

Other circumstances that warrant exception are made by the Educational Resources & Instruction Office.

Course Repetition
Unless exceptions are specifically indicated in course descriptions in this catalog, you cannot repeat a course that you completed with a grade of C or better. State law allows students to repeat a class only once to remove a substandard grade (D, F or NP). There is no limit on the number of times the student may enroll in courses designed to meet a legally mandated training requirement as a condition of continued paid or volunteer employment. You may receive no more than four W-marks in any one course.

Some Foothill College programs require that the student complete a sequential program of study without a break in attendance. When a student is enrolled in one of these programs and has a break in enrollment, he/she will be required to re-take coursework that has previously been completed with a passing grade.

Credit by Examination (Challenge)
As an enrolled Foothill student, you may be able to obtain credit by examination in subject matters or fields for which you are especially qualified through training or experience, but for which you have not already received college course credit or advanced placement credit. You must complete 15 units at Foothill College before you are eligible to petition for credit by examination.

The Petition for Credit by Examination form is available online at www.foothill.edu/reg/forms.php. You may also obtain petitions from a counselor during the first week of classes. The list below identifies those courses for which credit by examination is currently available. You may not challenge other courses. Prior to submitting a Petition for Credit by Examination, you are required to obtain approval from either the appropriate academic division dean or course instructor to verify your eligibility.

Examinations will normally be completed by the end of the second week. Units earned through credit by examination will be identified on your transcript. No course may be challenged during a term after which the class has met for two weeks. Credit by examination is not available during the summer term. If you have previously failed a course, you are not eligible to petition for credit by examination in that course. Units of credit received through this procedure may not apply toward the minimum of 24 resident units required at Foothill College for the associate degree. A maximum of 20 units may be earned via credit by examination.

There are special limitations for challenging foreign language courses, courses that depend on laboratory or activity experiences, or sequential courses. You may not challenge a course at a lower level than one you have successfully completed in the same department.
The examination may include written, oral or skill tests, or a combination of all three. This examination will determine whether you have demonstrated essentially the same knowledge and skills as students who successfully complete the traditional course. To obtain credit by examination, you are required to be enrolled in the course. The instructor will inform you about the requirements for successful completion. The examination grade will be entered as the course grade on your permanent record.

Although the University of California and California State University systems accept, within certain limitations, appropriate credits obtained by examination, Foothill College cannot guarantee that other institutions will do so. If you are pursuing credit by examination, you are encouraged to discuss the transfer and graduation implications with a counselor.

The following courses are available for credit by examination: GEOG 12, 58, 101A, 101B, 101C and 101D.

### College Credit for Advanced Placement (AP) Exams

- The student may earn credit for AP tests with scores of 3, 4 or 5. AP credit can be used to meet IGETC, CSU GE and Foothill A.A. or A.S. general education (GE) and/or major requirements.
- The student is responsible for formally requesting that the College Board send AP exam results to the Foothill College Evaluations Office (12345 El Monte Road, Los Altos Hills, CA 94022-4599) for use on the A.A., A.S. or GE patterns.
- Course credit and units granted at Foothill College may differ from course credit and units granted by a transfer institution.
- Programs noted with an asterisk (*) are not offered at Foothill College.

A.A./A.S. DEGREES: Be aware that if an AP exam credit is evaluated as being equivalent to a Foothill course, e.g. HIST 4A, the student who receives AP credit and then completes the equivalent Foothill course will have the unit credit for such duplication deducted prior to being awarded the A.A./A.S. degree. Credit by AP exam is noted and listed first on the student’s transcript, with units assigned and no grade.

CSU GE: AP exams may be incorporated into the certification of CSU General Education–Breath requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education–Breath area if the exam is included as part of a full or subject-area certification. Be aware that individual CSU campuses may choose to grant more units than those specified toward completion of General Education–Breath requirements.

IGETC: AP exams must be used in the IGETC area indicated regardless of where the certifying California Community College’s discipline is located.
Foothill College International
Baccalaureate Exam Policy

The student may earn credit for successful completion of International Baccalaureate (IB) higher-level subject exams with scores of 5, 6 or 7. IB credit can be used to meet IGETC, CSU GE and Foothill College A.A. or A.S. general education (GE) and/or major requirements as specified in the tables below. The student is responsible for formally requesting that the international baccalaureate organization send exam results to the Foothill College Evaluations Office (12345 El Monte Road, Los Altos Hills, CA 94022-4599 USA). Course units and credits granted at Foothill College may differ from course credit and units granted by a transfer institution.

*In addition to a score of 5, 6 or 7 on the higher-level IB exam, the student must have completed the IB diploma program to earn Foothill GE credit in these areas.

Transfer Credit from Another Institution

Foothill College accepts credit for lower-division coursework previously completed at a college accredited by one of the six regional accrediting associations. Students must have official transcripts sent to the Foothill College Admissions & Records Office. To be official, transcripts must be sent from college to college or hand-delivered in a sealed, unopened college envelope.

FOREIGN COLLEGES: Students who want to use coursework completed at foreign institution must have their transcripts evaluated by a foreign evaluation service. Students should meet with their counselors to petition to use any of this coursework toward the associate degree. Coursework from a foreign institution cannot be used for certification to a four-year institution. Students should contact the school to which they want to transfer to determine if any credit will be awarded from the foreign institution.

NON-REGIONALLY ACCREDITED COLLEGES: Students may petition for individual courses taken at a non-regionally accredited college to be accepted for major requirements. The credit is non-transferable toward a bachelor’s degree. Students must have official transcripts sent to the Foothill College Admissions & Records Office. To be official, transcripts must be sent from college to college or hand-delivered in a sealed, unopened college envelope.

Final Examinations

Foothill gives final examinations in all courses except physical education, CNSL 50, cooperative education and tutoring courses. We make special arrangements for self-paced courses and classes that only meet once a week. Final examinations normally will not be given in advance of the scheduled time.

You are responsible for taking all assigned final examinations. Failure to take the final examination results in an F grade. If you miss a final examination for a legitimate reason, communicate with your instructor immediately.

At Foothill, we strive to minimize student activities during the week before final examinations. However, classes and instruction continue as usual. During this period, instructors may assign coursework or have students complete part of the final examination.
Course Grading Categories

Foothill offers course grades in these five categories:

1. Courses in which all students are graded on a 4.0 scale of A, B, C, D, F.
2. Courses in which all students are graded on a Pass/No Pass (P/NP) basis.
3. You who enroll in a class as a Pass/No Pass option instead of a letter grade must submit a Pass/No Pass Card signed by the student within the first four weeks of the quarter. The form must be submitted to the Admissions Office.
   a. You may choose to apply to the associate degree no more than 16 units of P-graded courses from this category. Students transferring to a four-year school should consult with a counselor.
   b. In your major must be taken for a letter grade.
4. No grades are recorded for non-credit courses with course numbers ranging from 400–499.
5. In calculating the student’s degree-applicable grade-point average, grades earned in non-degree-applicable courses shall not be included. Courses that are non-degree-applicable are noted in the class schedule and Course Catalog.

P and NP are assigned to those courses in which student achievement is evaluated on a pass/no pass basis rather than a letter grade (A, B, C, etc.). Pass/No Pass courses are so designated in the announcement of courses section of the catalog.

*In the plus/minus grading system, the A+ grade is calculated the same as the A grade.

**In the plus/minus grading system, the C- grade is not permitted under Title 5 law.
Incomplete

For a justifiable, approved reason (serious illness, emergency, etc.), you may ask your instructor for more time to complete coursework. After the end of the eighth week and before the end of the quarter, you must request that the instructor assign a grade of Incomplete (I). The instructor files an Incomplete Contract that explains the reason and precisely outlines the work due, procedure required, and due date for you to complete the work. You should sign and keep a copy of the contract.

The college does not assign an incomplete because a student is slow or negligent in submitting required work. If you meet the course requirements within one calendar year, the I grade may be changed; otherwise it may be listed as F.

Withdraw from College

To withdraw from college after the eighth week, you must consult with a counselor and petition the Academic Council to obtain an approved dismissal. This is for your protection, since you may receive an F in all classes after the eighth week if you do not follow these guidelines. The petition must have the instructor's approval signature for each class.

Transcripts

The Admissions & Records Office forwards transcripts at your request. Transcripts to educational institutions will be sent directly to those institutions. Transcripts given directly to you may be classified as unofficial.

Transcript costs and procedures for requesting transcripts are published at www.foothill.edu.

Foothill reserves the right to withhold transcripts from students under certain circumstances, such as defaulting on a loan, outstanding balance due on an account or until all obligations to the college are cleared.

Transcript/Grade Changes

Section 76224 of the California State Education Code states, “The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith or incompetency.” By law, instructors are the only people who can change grades.

If you believe corrections should be made within the above restriction, you should first talk to your instructor. Corrections must be initiated within two years after the grade was earned. If an error has been made, and a correction is necessary prior to the two-year period, you may request a review of the records at the Admissions & Records Office.

Grades received prior to 1983 may not be changed. Exceptions to this policy include a bona fide error in grading; and a course in which an unsatisfactory grade was given is repeated for a satisfactory grade.

Petition to Replace Substandard Grade for Foothill College GPA Calculation

When a substandard grade (D+, D, D-, F, NC or NP) was recorded at Foothill, an equivalent course may subsequently be completed at another accredited college or university. The student’s academic transcript shall then be annotated to reflect exclusion of the previously recorded coursework with the substandard grade for purposes of grade-point calculation and for all considerations associated with the awarding of certificates and degrees. Replacement with a grade of Pass/No Pass is not permitted, as it does not improve the student’s grade-point average (GPA). It is important to note that all grades remain on the academic transcript, and that some transfer institutions may require recalculation of the GPA to include both the substandard grade and the subsequent grade.

When submitting this petition, the student must attach:
- a copy of his/her transcript and
- either the course outline of record or the course catalog description to confirm course equivalency.

Be aware that official (sealed) transcripts from the other regionally accredited institution must be submitted to Foothill College Records Office before submitting this petition.

The complete petition form must include student’s identification number (SID), name, date, Foothill College course identifier, the date that the Foothill course was completed and initial grade, equivalent course identifier, date repeated and grade earned upon repetition, as well as the valid signatures of the student, discipline faculty member and division dean.

High School Credits at Foothill

Although Foothill College cannot grant a high school diploma, many local high schools recommend that students who are age 19 or older complete high school requirements by taking college courses. If you choose to earn a high school diploma this way, you should obtain a statement from your high school principal or counselor indicating:
- The subjects necessary to complete graduation requirements, and the number of quarter credits in each;
- Suggestions for Foothill courses to satisfy these requirements;
- The total number of quarter credits required, including electives; and
- Acceptance of credit for courses taken at Foothill.

[1] It is strongly recommended that the student consult with the appropriate Foothill division dean to confirm equivalency with discipline faculty before repeating the course.
When you complete the college courses, request that the Foothill College registrar send a college transcript to your high school. The diploma will be issued in accordance with your school’s procedures.

All credit courses taken at Foothill count as college credit, whether or not they count toward high school requirements.

**Honors Institute**

For more than 30 years, Foothill College has provided an honors program that offers an enriched academic, cultural and social experience to intellectually inquisitive and motivated students. The Honors Institute offers students an academic environment that promotes critical thinking, analytical writing, and research skills with an innovative and challenging curriculum. Opportunities for participation at cultural events, conferences and unique honors seminars provide students an intellectual community that encourages and supports them in achieving their goals. The Honors Institute offers stimulating academic opportunities to a previously underserved population, prepares talented and ambitious students for the challenges of higher education, and supports successful transfer to either baccalaureate-granting colleges and universities or expanded career opportunities.

A fundamental goal of the program is to promote self-confidence and increase self-esteem in students who need the encouragement to excel as well as the courage to continue their education and fulfill their goals. The Honors institute recruits and cultivates honors students, nurturing and encouraging those students who might never have considered themselves capable of success in an enhanced learning environment or transferring to a selective university. Rather than presenting itself as a selective entity, the Honors Institute welcomes all students and especially encourages students remediating through basic skills courses to strive toward participation in the honors program.

Foothill College is one of a handful of community colleges in Northern California that is approved for the UCLA Transfer Alliance Program (TAP), which offers students preferred admission to the UCLA College of Letters & Science (80-percent or higher admission rate). To be eligible, students are required to complete the honors scholar program, which consists of completing a minimum of seven honors courses/minimum of 23 honors units. Regardless of their interest in transferring to UCLA, all honors students are encouraged to complete the honors scholar program, which awards students with the permanent transcript notation of “Honors Scholar” and offers additional transfer admission and scholarship opportunities.

Foothill College honors students are typically leaders at the annual Bay Area Community College Honors Research Symposium (held at Stanford University and UC Berkeley). Foothill honors faculty work closely with honors students to mentor students in their research. Here, honors students present their research to hundreds of other honors students. Other honors program benefits include specialized honors counseling, early registration, specialized workshops, free tickets to attend local lectures with internationally renown writers, scientists, artists and politicians, transfer admission guarantees (TAGs), and more.

Minimum requirements for participation include completion of ENGL 1A with a grade of B or better, 10 quarter units, and a 3.3+ GPA. Students without any college experience may apply if they have a high school GPA of 3.5 and completion of ENGL 1A. Students who are placed in Foothill’s ENGL 1AH: Honors English Composition course via Foothill College placement tests are also eligible.

Students who are not yet eligible for the program based upon the GPA requirements are welcome to participate in the Try an Honors Course Program, which offers students who have competed ENGL 1A or ESLL 26 with a grade of B or better an opportunity to enroll in an honors course (pending space availability).

For more information, access www.foothill.edu/hon or call (650) 949-7638.
Off-Campus Trips & Activities
Some programs require off-campus field trips and activities. Transportation is usually the responsibility of the individual student or a travel agency. The district is not liable for occurrences when participants are not under a faculty or staff member’s direct, scheduled supervision.

Open-Entry/Open-Exit Classes
Foothill offers several open-entry/open-exit courses, allowing you to work at your own pace. You may generally enroll in these courses at any time, through the end of the seventh week of the quarter. Many of these courses are offered in the off-campus centers, ISC, Fine Arts and Language Arts laboratories and PSME Center. Lists of courses with unusual start times are available in these facilities and in the online class schedule.

Independent/flexible study classes and cooperative work study classes are not open-entry/open-exit classes. You must enroll in these classes by the end of the second week of instruction.

Scholastic Honors
Foothill commends students who earn the associate degree, complete a minimum of 24 Foothill units and meet the following criteria by awarding:
- **HIGHEST HONORS:** 4.0 GPA in all Foothill College coursework.
- **HIGH HONORS:** at least 3.5 GPA in all Foothill College coursework.
- **HONORS:** at least 3.3 GPA in all Foothill College coursework.

Additional scholastic honors are awarded to eligible students on the following basis:
- **DEAN’S LIST:** Awarded on a quarterly basis to full-time students completing 12 or more Foothill units in one quarter with at least a 3.5 GPA; and part-time students completing a minimum of 12 cumulative units at Foothill College with an overall and quarter Foothill GPA of at least 3.5.
- **PRESIDENT’S MEDAL:** Awarded at the annual commencement ceremony to first-time degree recipients with a 4.0 GPA in all college coursework applicable toward the associate degree, including 60 resident units at Foothill College. To qualify for this award, the student must petition for graduation by May 1, and must attend the commencement ceremony in June.

Student Access to Education Records
The Family Education Rights & Privacy Act, also called FERPA (Section 438, Public Law 93380), requires educational institutions to provide student access to official education records directly related to the student. The act also says you have the right to challenge such records on the grounds that they are inaccurate, misleading or otherwise inappropriate.

Your written consent is required before the college will release personal information from your records to other than a specified list of persons and agencies. These rights extend to present and former Foothill students.

Education records generally include documents related to admissions, enrollment in classes, grades and related academic information. These records are filed in the Admissions & Records Office.

The registrar is the college’s designated records officer.
Personal education records will be made available for inspection and review during normal business hours to currently and formerly enrolled students, within 45 days following completion and filing of a written request with the records officer.

The college may release certain types of directory information unless you notify the records officer that certain or all information cannot be released without personal consent. Directory information may include (1) student name and city of residence, (2) date and place of birth, (3) participation in recognized activities and sports, (4) dates of attendance, (5) degrees and awards received, and (6) the most recent previous educational agency or institution attended, and (7) height and weight of members of athletic teams, which may be released only by the appropriate athletic staff member or athletic director. Objection to the release of this information must be made in writing to the Admissions & Records Office prior to the first day of instruction of any quarter or Summer Session.

**College & District Policies**

**Academic Honor Code**

As a student at Foothill College, you join a community of scholars who are committed to excellence in the teaching and learning process.

We assume that students will pursue their studies with integrity and honesty; however, all students should know that incidents of academic dishonesty are taken very seriously.

When students are caught cheating or plagiarizing, a process is begun that may result in severe consequences.

It is vitally important to your academic success that you know what constitutes academic dishonesty at Foothill College.

**What Is Academic Dishonesty?**

The two most common kinds of academic dishonesty are cheating and plagiarism.

- Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of dishonest, deceptive or fraudulent means.
- Plagiarism is representing the work of someone else as your own and submitting it for any purpose.

It is your responsibility to know what constitutes academic dishonesty. Interpretations of academic dishonesty may differ among individuals and groups. However, as a student at Foothill, you are expected to refrain from the behavior outlined herein. If you are unclear about a specific situation, speak to your instructor.

The following list exemplifies some of the activities defined as academic dishonesty:

**Cheating**

1. Copying, in part or in whole, from someone else’s test;
2. Submitting work presented previously in another course, if contrary to the rules of either course;
3. Altering or interfering with grading;
4. Using or consulting, during an examination, any sources, consulting others, use of electronic equipment, including cell phones and PDAs, or use of materials not authorized by the instructor; or
5. Committing other acts that defraud or misrepresent.

**Plagiarism**

1. Incorporating the ideas, words, sentences, paragraphs or parts of another person’s writings, without giving appropriate credit, and representing the product as your own;
2. Representing another’s artistic or scholarly works such as musical compositions, computer programs, photographs, paintings, drawings or sculptures as your own;
3. Submitting a paper purchased from a research or term paper service, including the Internet; or
4. Undocumented Web source usage.

**Other Specific Examples of Academic Dishonesty**

1. Purposely allowing another student to copy from your paper during a test;
2. Giving your homework, term paper or other academic work to another student to plagiarize;
3. Having another person submit any work in your name;
4. Lying to an instructor or college official to improve your grade;
5. Altering a graded work after it has been returned, then submitting the work for re-grading;
6. Stealing tests;
7. Forging signatures on drop/add cards or other college documents; or
8. Collaboration without permission of instructor.

**Consequences of Academic Dishonesty**

Academic and/or administrative sanctions may be applied in cases of academic dishonesty.

**Academic consequences may include:**

1. Receive a failing grade on the test, paper or exam;
2. Have your course grade lowered;
3. Receive a grade of F in the course;

**Administrative consequences may include:**

1. Be placed on disciplinary probation;
2. Be placed on disciplinary suspension; or
3. Be expelled.
The Student Affairs & Activities Office maintains a record of students who have engaged in academic dishonesty. This information is used to identify and discipline students reported for academic dishonesty more than once. A copy of the Foothill College Student Conduct, Discipline & Due Process Procedure is printed in the handbook for each of these groups, and copies are available in the Student Affairs & Activities Office in Room 2002. We thank the San Jose State University Student Affairs Vice President’s Office for many of the statements in this section. The Foothill College Academic Honor Code was developed and approved by the college’s Academic Senate in 2004.

Americans With Disabilities Act (ADA)

Title IX Procedural Requirements

Title IX is a comprehensive federal law that prohibits discrimination on the basis of sex in any federally funded education program or activity. In addition to traditional educational institutions, Title IX also applies to any education or training program operated by a recipient of federal financial assistance. Many of these education programs became subject to Title IX regulations in 2000. Foothill College has responsibilities to ensure that students and employees comply with the non-discrimination mandate of Title IX and its procedural requirements. Foothill College has established a method for receiving and resolving sex-based discrimination complaints. At Foothill College, the vice president of Instruction & Institutional Research is the institution’s designated Title IX coordinator. For information, call Acting Vice President of Student Development & Instruction Denise Swett at (650) 949-7524 or visit Room 8104.

The college actively seeks to educate staff and students on the deleterious effects of expressions of hatred or contempt based on race, color, national or ethnic origin, age, gender, religion, sexual orientation, or physical or mental disability; and promotes equality and mutual respect among all groups and individuals. Standards of conduct for students and the applicable sanctions for violating the standards of student conduct are contained in the Academic Policies section in the Course Catalog and online at www.foothill.edu.

Decisions regarding discipline of employees will be made in accordance with applicable legal and contractual provisions and procedures, and may range from reprimand to dismissal.

Drug-Free Campus Policy

The unlawful possession, use or distribution of any illicit drug or alcohol by students on district property or at district activities or events is prohibited.

The use of drugs and alcohol may pose significant health risks. It is the responsibility of all members of the district to observe and follow the guidelines. –Amended July 12, 2010. (FHDA Board Policy 3217).

Complaints & Grievance Process

Foothill College has an established procedure for grievances and complaints in order to provide a means for resolving alleged unfair or improper action by any member of the academic community. Procedures and forms are available on campus in the Student Affairs & Activities Office, located in Room 2002. A copy of the Foothill-De Anza Community College District (FHDA) Board Policy & Administrative Procedures is available for review from the FHDA District Human Resources Office as well as online at www.fhda.edu/about_us/board/policy. Student Conduct & Due Process

I. Overview & Definitions
In developing responsible student conduct, disciplinary proceedings play a role substantially secondary to example, counseling, guidance and admonition. At the same time, educational institutions have a duty and the corollary disciplinary powers to protect their educational purpose through the settings of standards of scholarship and conduct for the students who attend them and through the regulation of the use of institutional facilities. The purpose of these procedures is to provide a prompt and equitable means to address violations of the Student Code of Conduct, as set forth in FHDA Administrative Procedures (AP) 5510 and 5520, which guarantees the student or students involved the due process rights entitled to them by state and federal constitutional protections. These procedures will be used in a fair and equitable manner, and not for purposes of retaliation. They are not intended to substitute for criminal or civil proceeds that may be initiated by other agencies.

Foothill and De Anza colleges consider the following principles essential to their educational missions and community life:
1. Mutual respect between students, faculty and staff;
2. Pursuit of studies with honesty and integrity;
3. Respect for college and personal property; and
4. Compliance with all rules and regulations.
These standards are intended to promote responsible student conduct and fair play.

23. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

IV. Types of Disciplinary Action

The following are the usual types of discipline the college imposes for violations of its rule or California laws. The following topics are listed in alphabetical order.

ADMONITION: An administrative, verbal warning to the student to cease and desist from conduct determined to violate the Student Code of Conduct.

DAY: Day(s) during which the district is in session and regular classes are held, excluding Saturdays and Sundays.

DISCIPLINARY PROBATION: Exclusion from participation in privileges or extracurricular activities set forth in the notice of disciplinary probation for a specified period of time.

EXPULSION: Exclusion of the student by action of the FHDA Community College District Board of Trustees from all colleges in the district for one or more terms, or permanently.

REMOVAL FROM CLASS: Exclusion of the student by an instructor for the day of the removal and the next class meeting.

RESTITUTION: Financial liability for damage to or misappropriation of property. Restitution may take the form of appropriate service to repair or otherwise compensate for damages.

SUMMARY SUSPENSION: Any student who has willfully disrupted the orderly operation of the campus may be promptly suspended pending a hearing, where such immediate suspension is required in order to protect lives or property and to ensure the maintenance of order, provided, however, that a reasonable opportunity must be afforded the suspended person for hearing within 10 days. In all other cases, where disciplinary action is to be taken in response to willful disruption of the orderly operation of the campus, discipline shall be imposed only after a prompt hearing by a campus body resulting in a finding that the student willfully disrupted the orderly operation of the campus.

SUSPENSION: Exclusion of the student for good cause from one or more classes for a period of up to 10 days of instruction, or the remainder of the school term, or from all classes and activities for one or more terms. The suspended student is prohibited from being enrolled in any other college in the district for the period of suspension.

WITHDRAWAL OF CONSENT TO REMAIN ON CAMPUS: Withdrawal of consent by the student discipline officer for any person to remain on campus in accordance with California Penal Code Section 626.4 where the student
discipline officer has reasonable cause to believe that such person has willfully disrupted the orderly operation of
the campus.

WRITTEN WARNING: Written notice to the student that
continuation or repetition of specific conduct found
wrongful within a period of time stated in the warning,
may be cause for more severe disciplinary action. Written
reprimands may become part of a student’s permanent
record at the college.

V. Discipline & Due Process Procedures
at Foothill College

Except in cases where immediate discipline pending a
hearing is authorized, the following procedures will apply
before disciplinary action is taken to suspend or expel a
student. The student discipline officer will determine if
there are sufficient grounds to warrant discipline. If the
student discipline officer determines sufficient grounds
exist to warrant discipline, the student will be provided
with written notice of that determination. The written
notice will include the following:
1. The specific section of the Student Code of Conduct
   that the student is charged with violating;
2. A short statement of the facts supporting the
   accusation; and
3. The nature of the discipline that is being considered.

The following topics are listed in chronological order.
TIME LIMITS: The notice must be provided to the student
within 10 days of the date on which the conduct took
place; in the case of continuous, repeated or ongoing
conduct, the notice must be provided within 10 days of the
date on which conduct occurred which led to the decision
to take disciplinary action.

PRE-HEARING MEETING: If the student chooses to meet
with the student discipline officer, the meeting must occur
no sooner than 10 days after the notice is provided. At the
meeting, the student must again be told the facts leading
to the accusation, and must be given an opportunity to
respond verbally or in writing to the accusation.

SCHEDULE OF HEARING: The formal hearing shall be
scheduled within 10 days after the pre-hearing meeting
with the student discipline officer.

CAMPUS DISCIPLINARY HEARING BOARD: This board
shall be comprised of members of the faculty and
administration. The student discipline officer and the
president of the Academic Senate shall each, at the
beginning of the academic year, establish a list of persons
who will serve on student disciplinary hearing panels.
The student discipline officer shall appoint the hearing
panel from the names on these lists. The administrator
on the hearing panel shall serve as chair. However, no
administrator or faculty member who has any personal
involvement in the matter to be decided, who is a
necessary witness, or who could not otherwise act in a
neutral manner shall serve on a hearing panel.

CONDUCT OF THE HEARING: The members of the hearing
panel shall be provided with a copy of the accusation
against the student and any written response provided
by the student before the hearing begins. The student
discipline officer shall present the facts supporting the
accusation. The student discipline officer and the student
may call witnesses and introduce oral and written
testimony relevant to the issues of the matter. Formal
rules of evidence shall not apply. Any relevant evidence
shall be admitted. Unless the hearing panel determines
to proceed otherwise, the student discipline officer and
the student shall each be permitted to make an opening
statement. Thereafter, the student discipline officer shall
make the first presentation, followed by the student. The
student discipline officer may present rebuttal evidence
after the student completes his or her evidence. The
burden shall be on the student discipline officer to prove
by substantial evidence that the facts alleged are true.
The student may represent him or herself, and may also
have the right to be represented by a person of his or her
choice. An attorney shall not represent the student unless,
in the judgment of the hearing panel, complex legal issues
are involved. If the student wishes to be represented by
an attorney, a request must be presented not less than
five days prior to the date of the hearing. If the student is
permitted to be represented by an attorney, the student
discipline officer may request legal assistance. The hearing
panel may also request legal assistance; any legal advisor
provided to the panel may sit with it in an advisory
capacity to provide legal counsel but shall not be a member
of the panel nor vote with it. Hearings shall be closed and
confidential unless the student requests that it be open
to the public. Any such request must be made no less
than five days prior to the date of the hearing. In a closed
hearing, witnesses shall not be present at the hearing
when not testifying, unless all parties and the panel agree
to the contrary. The district shall record the hearing either
by tape recording or stenographic recording, and shall
be the only recording made. No witness who refuses to
be recorded may be permitted to give testimony. In the
event the recording is by tape recording, the hearing panel
chair shall, at the beginning of the hearing, ask people
present to identify themselves by name, and thereafter
shall ask witnesses to identify themselves by name. Tape
recording shall remain in the custody of the district at
all times, unless released to a professional transcribing
service. The student may request a copy of the tape
recording. All testimony shall be taken under oath; the
hearing panel chair shall administer the oath. Written
statements of witnesses under penalty of perjury shall
not be used unless the witness is unavailable to testify. A witness who refuses to be tape-recorded is considered "unavailable". Within 10 days following the close of the hearing, the hearing panel shall prepare and forward to the student discipline officer a written recommendation. The recommendation shall include specific factual findings regarding the accusation, and shall include specific conclusions regarding whether any specific section of the standards of student conduct were violated. The decision shall also include a specific recommendation regarding the disciplinary action to be imposed, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original accusation, the written response, if any, of the student, and the oral and written evidence produced at the hearing. The student discipline officer will forward the recommendation to the president.

**IMMEDIATE SUMMARY SUSPENSION:** The president may order immediate interim suspension pending a hearing of a student where he/she concludes that immediate suspension is required to protect lives or property and to ensure the maintenance of order, provided that a reasonable opportunity is afforded the suspended person for a hearing within 10 days. This procedure complies with Education Code Section 66017.

**REMOVAL FROM CLASS:** Any instructor may order a student removed from his/her class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the student discipline officer. The student discipline officer shall arrange for a conference between the student and the instructor regarding the removal. If the instructor or the student requests, the student discipline officer shall attend the conference. The student shall not be returned to the class during the period of the removal without the concurrence of the instructor. Nothing herein will prevent the student discipline officer from recommending further disciplinary procedures in accordance with these procedures based on the facts that led to the removal. This procedure complies with Education Code Section 76032.

**WITHDRAWAL OF CONSENT TO REMAIN ON CAMPUS:** Also review Penal Code Section 626.4. The student discipline officer may notify any person for whom there is a reasonable belief that the person has willfully disrupted the orderly operation of the campus that consent to
remain on campus has been withdrawn. If the person is on campus at the time, he/she must promptly leave or be escorted off campus. If the student discipline officer withdraws consent, a written report must be promptly made to the college president and the district police. The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the period of the withdrawal. The request shall be granted not later than 10 days from the date of receipt of the request. The hearing will be conducted in accordance with the provisions of this procedure relating to interim suspensions. In no case shall consent be withdrawn for longer than 10 days from the date upon which consent was initially withdrawn. Any person as to whom consent to remain on campus has been withdrawn who knowingly re-enters the campus during the period in which consent has been withdrawn, except to come for a meeting or hearing, is subject to arrest.

**President’s Decision for Suspension:** Within 10 days following receipt of the hearing panel’s recommended decision, the college president shall render a written decision. The college president may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the president modifies or rejects the hearing panel’s decision, the college president shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. Written notice of the college president’s decision shall be provided to the student. The notice will include the right of the student to request an appeal of the decision within 30 days of receipt of the decision. The college president will review the appeal and any additional information provided by the student, and render a decision on the appeal. The decision of the college president shall be final. The college president shall notify the district chancellor of the decision to suspend a student.

**President’s Decision for Expulsion:** Within 10 days following receipt of the hearing panel’s recommended decision, the president shall render a written recommended decision to the FHDA board of trustees. The college president may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the college president modifies or rejects the hearing panel’s decision, the college president shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. The college president’s recommendation shall be forwarded to the FHDA board of trustees.

**Board of Trustees Decision:** Once received, the college president’s recommendation will be placed on the agenda of the next regularly scheduled district board meeting. The district board of trustees shall determine whether to expel a student for cause following hearing before the board. The board shall consider an expulsion recommendation in closed session, unless the student has requested that the matter be considered in a public meeting in accordance with these procedures (Education Code Section 72122). The student shall be notified in writing, by registered or certified mail or by personal service, at least three days prior to the meeting, of the date, time and place of the board’s meeting. The student may, within 48 hours after receipt of the notice, request that the hearing be held as a public meeting. Even if a student has requested that the board consider an expulsion recommendation in a public meeting, the board will hold any discussion that might be in conflict with the right to privacy of any student other than the student requesting the public meeting in closed session. The board may accept, modify or reject the findings, decisions and recommendations of the college president and/or the decision of the college president. If the board modifies or rejects the decision, the board shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. The decision of the board shall be final. The final action of the board on the expulsion shall be taken at a public meeting, and the result of the action shall be a public record of the district.

- Course grades, to the extent permitted by Education Code Section 76224(a), which provides: "When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor
of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final.”

Definitions

GRIEVANT: A student alleging that a college decision or action has adversely affected his or her status, rights or privileges as a student, or alleges that another student has violated the student’s rights.

PARTY: The student, or any persons claimed to have been responsible for the student’s alleged grievance, together with their representatives. “Party” shall not include the grievance hearing committee or the college grievance officer.

PRESIDENT: The college president or a designated representative of the college president.

STUDENT: A currently enrolled student, a person who has filed an application for admission to the college, or a former student. A grievance by an applicant shall be limited to a complaint regarding denial of admission.

RESPONDENT: Any person claimed by a grievant to be responsible for the alleged grievance.

WORK DAY: A work day shall mean days during which the district is in session and regular classes are held, excluding Saturdays and Sundays. All time deadlines shall be measured by work day, unless otherwise specified as calendar days.

Informal Resolution of Grievances

Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person’s immediate supervisor, or the vice president who oversees that division.

The college president has appointed an employee who shall assist students in seeking resolution by informal means. This person shall be called the grievance officer.

Informal meetings and discussion between persons directly involved in a grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought before persons directly involved in the case have stated official or public positions that might tend to polarize the dispute and render a solution more difficult. At no time shall any of the persons directly or indirectly involved in the case use the fact of such informal discussion, the fact that a grievance has been filed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute or for any purpose other than the settlement of the grievance.

Any student who believes he or she has a grievance shall file a Statement of Grievance Form with the grievance officer within 30 calendar days of the incident on which the grievance is based, or 30 calendar days after the student could have reasonably discovered the basis for the grievance, whichever is later. The Statement of Grievance Form must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance
to become official. Within two work days following receipt of the Statement of Grievance Form, the grievance officer shall advise the student of his or her rights and responsibilities under these procedures, and assist the student, if necessary, in the final preparation of the Statement of Grievance Form.

If at the end of 10 work days following the student’s first meeting with the grievance officer, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a grievance hearing.

Steps in the Informal Process Involving College Employees

1. The student shall confer with the faculty member, administrator or classified staff person directly involved in the facts giving rise to the grievance.

2. If unresolved after Step 1, the student shall confer with the faculty member’s division dean, or the supervisor of the administrator or classified staff person.

3. If unresolved after Step 2, the student shall confer with the vice president of that dean’s or supervisor’s division.

4. Within the 30-calendar-day time limit as previously outlined, if the student does not feel that the matter can be resolved after completing Steps 1, 2 and 3, an official Statement of Grievance Form may be filed with the grievance officer. The grievance officer will advise the student of his/her rights and assist the student, if necessary, in the final preparation of the Statement of Grievance Form.

5. If after 10 work days from the first meeting with the grievance officer there is no informal resolution, the student may request a grievance hearing.

If the complaint involves a grievance against another student, grievant shall confer directly with the grievance officer, who will advise the grievant of his/her rights and assist the grievant in preparing the Statement of Grievance Form.

Formal Grievance Process

Grievance Hearing Committee

The college president or his/her designee shall at the beginning of each quarter, including any summer session, establish a standing panel of members of the college community, including faculty members and administrators, from which one or more grievance hearing committees may be appointed. The panel will be established with the advice and assistance of the Academic Senate, who shall submit names to the president or his/her designee for inclusion on the panel. A grievance hearing committee shall include three members from the panel described above. The administrator on the hearing panel shall serve as chair.

No person shall serve as a member of a grievance hearing committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner.

The grievance officer shall sit with the grievance hearing committee but shall not serve as a member nor vote. The grievance officer shall coordinate all scheduling of hearings, serve to assist all parties and the hearing committee to facilitate a full, fair and efficient resolution of the grievance, and shall avoid an adversary role.

Request for Grievance Hearing

Any request for a grievance hearing shall be filed on a Request for a Grievance Hearing Form in writing within 30 calendar days after discovery of the grievable action and after completing steps 1–3 of the informal process previously outlined.

Within 10 work days following receipt of the Request for Grievance Hearing Form, the grievance officer shall convene a grievance hearing committee as described above, and the grievance hearing committee shall meet in private and without the parties present to determine on the basis of the Statement of Grievance whether it presents sufficient grounds for a hearing.

The determination that the Statement of Grievance presents sufficient grounds for a hearing shall be made if the following are found to be true:

1. The statement contains facts, which, if true, would constitute a grievance under these procedures;

2. The grievant is a student as defined in these procedures, which include applicants and former students;

3. The grievant is personally and directly affected by the alleged grievance;

4. The grievance was filed in a timely manner

5. The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.
If the grievance does not meet each of the requirements, the hearing committee chair shall notify the student in writing of the rejection of the Request for a Grievance Hearing, together with the specific reasons for the rejection and the procedures for appeal. This notice will be provided within seven work days of the date the decision is made by the grievance hearing committee.

- If the Request for Grievance Hearing satisfies each of the requirements, the college grievance officer shall schedule a grievance hearing. The hearing will begin within 30 calendar days following the decision to grant a grievance hearing. All parties to the grievance shall be given not less than 10 work days notice of the date, time and place of the hearing.

Hearing Procedure

The grievance hearing committee chair is responsible for making sure that administrative procedures are followed and for maintaining decorum at the hearing.

- The members of the grievance hearing committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins.
- Party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.
- Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.
- Unless the grievance hearing committee determines to proceed otherwise, each party to the grievance shall be permitted to make an opening statement. Thereafter, the grievant or grievants shall make the first presentation, followed by the respondent or respondents. The grievant(s) may present rebuttal evidence after the respondent(s)’ evidence. The burden shall be on the grievant or grievants to prove by substantial evidence that the facts alleged are true and that a grievance has been established as specified above.
- Each party to the grievance may represent himself or herself, and may also have the right to be represented by a person of his or her choice; except that a party shall not be represented by an attorney unless, in the judgment of the grievance hearing committee, complex legal issues are involved. If a party wishes to be represented by an attorney, a request must be presented not less than 10 work days prior to the date of the hearing. If one party is permitted to be represented by an attorney, any other party shall have the right to be represented by an attorney. The hearing committee may also request legal assistance; any legal advisor provided to the hearing committee may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.
- Hearings shall be closed and confidential unless all parties request that it be open to the public. Any such request must be made no less than five work days prior to the date of the hearing. In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the committee agree to the contrary.
- The hearing shall be recorded by the grievance officer either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the grievance hearing committee chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. The tape recording shall remain in the custody of the district, either at the college or the district office, at all times, unless released to a professional transcribing service. Any party may request a copy of the tape recording.
- All testimony shall be taken under oath; the oath shall be administered by the grievance hearing committee chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape-recorded shall be considered to be unavailable.
- The grievance hearing committee shall prepare and send a decision to the grievance officer. The decision will be forwarded by the grievance officer to the grievant within 14 work days. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined above. The decision shall also include a specific recommendation regarding the relief to be afforded the grievant, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing.

Appeal & President’s Decision

A student prejudiced by a decision of the grievance hearing committee shall be entitled to appeal that decision to the college president. The appeal shall be made in writing to the college president within 30 calendar days of receipt of the grievance hearing committee’s decision. The college president shall review the appeal and the grievance hearing committee’s findings and conclusions, and will render a decision. Within seven work days following the receipt of the request for appeal, the college president shall prepare and send a decision to the grievant. The decision of the college president shall be final.
Time Limits

Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

Illegal Distribution of Copyrighted Materials

Foothill College students are prohibited from using the Foothill-De Anza (FHDA) Community College District information network to illegally download or share music, video and all other copyrighted intellectual property. Foothill College supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the FHDA information network who have violated the law.

Be aware that illegal forms of downloading and file sharing as well as the unauthorized distribution of copyrighted materials are violations of the law and may subject you to academic sanctions from the college as well as criminal and civil penalties, including a lawsuit against you by the Recording Industry Association of America (RIAA). Learn more at www.campusdownloading.com.

In addition to being illegal, file sharing drains the FHDA network’s bandwidth, which slows computer connections for students and employees who are using the network for legitimate academic purposes and ultimately costs the college money.

The college has developed policies and consequences to ensure that students respect music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies at www.foothill.fhda.edu/services/studentright.php#misuse.

There are plenty of easy, affordable ways to get music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners that offer a range of legal downloading options, including download and subscription services, legitimate peer-to-peer services, video-on-demand, podcasts and CD kiosks. For a list of sources that offer legal downloading sites, access www.riaa.com.
Summary of Civil & Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under the Copyright Act. These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading and/or uploading substantial parts of a copyrighted work without authority constitutes an infringement. For details, review U.S. Code Title 17; Section 106.

Civil and criminal penalties are applicable for copyright infringement. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than $750 and not more than $30,000 per work infringed. For willful infringement, a court may award up to $150,000 per work infringed. A court can also assess related costs and attorneys’ fees. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. For details, review U.S. Code Title 17; Sections 504–505.

For more information, review the U.S. Copyright Office website at www.copyright.gov, especially the FAQ at www.copyright.gov/help/faq.

Although personal use is not an intended use, the district recognizes that the network will be used for incidental personal activities and will take no disciplinary action provided that such use is within reason and provided that such usage is ordinarily on an employee's own time; is occasional; and does not interfere with or burden the district’s operation. Likewise, the district will not purposefully monitor or punish reasonable use of the network for union business-related communication between employees and their unions Approved 11/17/97; Reviewed by FHDA Board 8/16/99, 7/7/03.

[3] The term transferred out is defined as the student who transferred to a University of California campus, or California State University campus, or another California community college campus.

[4] Completers are students who within a degree-year period completed the requirements for an associate degree, certificate, or transferred out of the college, or were prepared to transfer which is defined as successfully completing 84 or more transferable units and achieving a grade-point average equal to or greater than 2.0 (out of a possible 4.0).
“After high school, I didn’t know which four-year university I wanted to attend or what major I wanted to study. I enrolled at Foothill College, and little did I know that my decision was the turning point of my life.

“I worked hard, stayed focused and was rewarded with unimaginable opportunities. I met my future wife at Foothill, transferred to and graduated from Santa Clara University’s prestigious business school, had a wonderful career in consulting, strategic planning, management and marketing. And, I retired at age 40!

“Foothill has a unique portfolio of caring and challenging teachers, great class sizes, and comprehensive financial aid and counseling resources. Reach out and take advantage of these incredible assets and you’ll be greeted by options and opportunities that you too couldn’t have imagined.”

Associate in Arts & Associate in Science Degree Graduation Requirements
Requirements for the Associate in Arts (A.A.) and Associate in Science (A.S.) degrees are listed on pages 76–77 and include completion of all the following:
- A minimum of 90 units in prescribed courses;
- A minimum of 24 units completed at Foothill College;
- A GPA of 2.0 or better in all college courses including Foothill courses;
- A major of at least 27 units in a curriculum approved by the Foothill College Curriculum Committee;
- The general education requirements are listed in the charts on pages 76–78. If you plan to transfer to a four-year college or university, you should also review the specific requirements of those institutions;
- English Proficiency: ENGL 1A or ESL 26;
- Math Proficiency: MATH 17, 105 or 108; and
- The student may apply only one English or ESL course below transferable freshman composition toward the associate degree.

One course is required from Area I through Area VI. Two courses (a minimum of four units from two disciplines) are required in Area VII. Courses may only be used in one area.

General Education Reciprocity
The Foothill-De Anza Community College District has entered into a mutual General Education (GE) Reciprocity Agreement with other community colleges to accept the general education courses of these colleges "as completed." In addition to Foothill, participating institutions include Chabot, De Anza, Evergreen Valley, Gavilan, Las Positas, Mission, Ohlone, San Jose City and West Valley colleges.

The reciprocity agreement allows students who obtain a certification of completion of associate degree GE requirements at one of the participating colleges to transfer both the GE coursework and graduation proficiencies to any of the other participating colleges. Additional GE coursework will not be required if the official certification is presented. Students will still be required to complete all courses or prerequisites needed for a major. The agreement also means that the other participating colleges will accept the Foothill GE pattern when presented with official certification.

Students seeking an official general education certification for use by a reciprocity institution are encouraged to review their records with a counselor prior to submitting the General Education Certification Request. Students who have completed courses at other colleges and universities must have official transcripts on file prior to submitting the request. Requests for A.A./A.S. general education certification may be submitted to the Evaluations Office in Room 8301.

Petition for Graduation
Upon completion of required coursework, you may request to receive the A.A./A.A.-T/A.S./A.S.-T degree from Foothill College. You must complete a 30-minute petition for graduation consultation with a Foothill counselor and all transcripts of your college coursework at Foothill and/or other schools must be on file at Foothill College. The petition should be filed no later than the beginning of the quarter during which you plan to complete graduation requirements. Foothill confers degrees every quarter, and the annual commencement ceremony is presented in June. For more information, schedule a consultation with a counselor by accessing www.foothill.edu/counseling.

Catalog Rights/Requirements for Graduation
The Course Catalog serves as an agreement between the student and the college to identify courses that the student must complete in order to qualify for a degree or certificate. The student has the right to select the course requirements for a degree or certificate from any catalog as long as continuous enrollment has been maintained.

Allied health programs reserve the right to change catalog rights by modifying program requirements based upon state and federal accreditation standards.

Continuous Enrollment
Continuous enrollment is important in deciding which catalog a student may select to determine degree or certificate requirements. A continuously enrolled student is defined as one who attended Foothill or De Anza colleges at least two quarters each academic year, excluding Summer Session. A single W-mark in a term qualifies as an attended term.
Currency of Major/Certificate Requirements

In certain Foothill College programs, currency of course content is essential. The Foothill College Curriculum Committee reserves the right to determine an acceptable level of currency of any course in any major or certificate. This means that a course may only be used toward fulfilling a certificate or degree for a prescribed number of years. Students should check certificate and major requirements for courses that are noted as having currency levels.

Online Degrees

The Foothill Global Access (FGA) Program offers online educational opportunities and services comparable to those available to on-site students. FGA offers students a variety of distance learning courses that meet the same high academic standards as traditional classes.

The program also offers several associate degree programs entirely online, including anthropology, database management, art history, economics, general studies/social science, geography, history, computer software development, music technology, psychology and sociology as well as general education requirements. These degrees are fully transferable and can be completed online. A few courses, such as communication, English and math, may require occasional meetings or proctored exams. For more information, access www.foothill.edu/fga.

Discontinued Degrees

A discontinued degree is one that was once offered by Foothill College but which is no longer offered. To be considered for an associate degree in a discontinued program, the student who has maintained continuous enrollment may file to graduate from Foothill College within seven years of the time that a program is discontinued.

Non-Transcriptable Certificates

Per Title 5 regulations, certificates of achievement are noted on the student’s transcript. However, certificates of completion, proficiency, specialization, skills, and career are not reflected on the student’s transcript.

Course Numbering System

Most Foothill courses are baccalaureate in level and can be transferred to four-year institutions.

In general, courses at Foothill College are numbered using the following guidelines:

<table>
<thead>
<tr>
<th>NUMBER</th>
<th>INSTITUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1–49</td>
<td>Transferable to the University of California.</td>
</tr>
<tr>
<td>1–99</td>
<td>Transferable to the California State University.</td>
</tr>
<tr>
<td>1–199</td>
<td>Foothill A.A./A.S. degree-applicable.</td>
</tr>
<tr>
<td>200–299</td>
<td>Prerequisites for required courses that lead to the A.A./ A.S. degree* and non-degree applicable credit courses.</td>
</tr>
<tr>
<td>300–399</td>
<td>Workshops, review and other courses offered to meet special collegiate needs of a community nature.</td>
</tr>
<tr>
<td>400–499</td>
<td>Non-credit, non-graded courses in consumer education, senior education, adaptive learning or other areas that do not apply to the A.A./ A.S. degree.</td>
</tr>
</tbody>
</table>

All courses numbered 200 and above are non-degree applicable. Grades earned in these courses shall not be included in the student’s degree-applicable grade-point average.

Individual course descriptions identify course transferability to UC and CSU campuses; however, since transferability is subject to change, students should verify transferability at www.assist.org.

There are exceptions to this numbering system. Consult the course listings in this catalog to determine which courses between 1–199 are non-degree applicable. Students should consult a counselor to determine course transferability. A list of transferable courses may be viewed at www.assist.org.

Note: Courses considered transferable may not necessarily satisfy specific requirements at all four-year institutions. While students are strongly encouraged to develop an educational plan with a counselor, the final responsibility for proper course selection rests with the individual student.

*Basic Skills: Limitations & Waivers

Enrollment in basic skills courses is limited to no more than 45 quarter units at Foothill College. ESL and learning disabled students are exempt from this limitation. Waivers may be available for other students who show significant progress, but these waivers are only for a specified period of time or number of units.

Visit the Counseling Office for copies of the Foothill Associate Degree/Graduation Requirements; CSU GE/Breadth Requirements; and IGETC listings; or access them online at www.foothill.edu.

For help deciding which general education plan to follow, consult a Foothill counselor.
Certification of General Education for Transfer

Foothill College will certify completion of up to 58 units of the 72-unit general education requirement for graduation from the CSU (See page 79). IGETC Certification for CSU or UC requires full certification of Areas 1 through 5. (See page 78). You may request certification by completing the official certification form or transcript request form available from the Admissions & Records Office in Room 8101 or Evaluations Office in Room 8301.

You are encouraged to consult with a counselor for help in selecting courses. We encourage all students to consult with a counselor each quarter for new course requirements.

Four-Year Institution Requirements

Articulation Agreements

Articulation is the process of negotiating and approving Foothill courses with other institutions. Foothill has course-to-course and major-preparation articulation agreements with every UC and most CSU campuses, as well as many four-year colleges and universities. This information is available to you through your counselor or via the Internet. To review online information, access these Web sites:
- www.foothill.edu
- www.assist.org
- Website of the specific college of interest

Assist Web Page

As the official statewide repository for articulation information, Assist (www.assist.org) is the primary site for students to find specific Foothill College courses that fulfill general education and/or major preparation requirements at UC and CSU campuses. Listings of course equivalencies assist students in selecting appropriate courses to prepare for transfer. Information about exploring majors, selection criteria for impacted and selective programs/majors, transfer credit limitations and important links to UC and CSU websites are also available at www.assist.org. Although, Assist is an excellent tool, it is recommended that students apply Assist information to their education plan in conjunction with a Foothill counselor.

Transfer Admission Guarantees

If you complete a Transfer Admission Guarantee (TAG), you’ll be given first consideration for admission to selected colleges and universities. You must complete agreed-upon general education courses, as well as major courses, with a specified minimum grade-point average. Work with a counselor to develop a TAG. The TAG must be prepared before transfer. The TAG ensures acceptance and smooth transfer to the chosen college or university. The Transfer Center, Room 8329, has additional information regarding deadlines for TAGs.

The following institutions offer Transfer Admission Guarantees for Foothill students:
- Cornell University*
- CSU Monterey Bay
- CSU East Bay
- Golden Gate University
- Menlo College
- National Hispanic University
- Notre Dame de Namur University
- Palo Alto University
- Santa Clara University
- UC Davis
- UC Irvine
- UC Merced
- UC Riverside
- UC San Diego
- UC Santa Barbara
- UC Santa Cruz
- University of San Francisco
- University of the Pacific

*Applies to School of Civil & Environmental Engineering.

This list increases each year. Verify current TAG availability in the Transfer Center, Room 8329.

Additional transfer agreements are also available through the Foothill Honors Institute, including the Transfer Alliance Program with the University of California, Los Angeles (UCLA). To verify current honors agreements, visit the Honors Institute (Room 1961).

University of California Breadth General Education Requirements

The University of California (UC) has campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara and Santa Cruz.

UC campuses have uniform basic eligibility requirements. Each campus is distinctive, however, and not all majors are offered at every campus. Each school and college at a specific UC campus has outlined major requirements that prepare you for the academic discipline.

Foothill’s counselors and Career/Transfer Center staff can advise you regarding the courses acceptable for credit at UC campuses as well as those meeting the breadth requirements for specific UC colleges and schools. You can also review this information on the Internet at www.assist.org. The Foothill College website at www.foothill.edu includes the Transfer Course Agreement Listing for all Foothill courses that are transferable to all UC campuses. You should explore all undergraduate colleges, schools and majors to determine which campuses will best satisfy your educational needs. We encourage you to discuss the advantages of each major and campus with a counselor.
Preparation for Transfer to Four-Year Colleges & Universities

Each year, hundreds of Foothill College students transfer to a four-year college or university after completing lower-division major preparatory and general education requirements. The secret of our students’ success is that they understand which transferable courses are required for:

- Admission to the college/university of their choice;
- Major preparation; and
- Completion of general education requirements.

Counselors are an excellent resource for transfer information. Understanding these requirements ensures that students can transfer in a timely manner to earn their bachelor’s degree without delay.

These requirements often change annually; therefore, students should meet with a counselor every year. Many of the courses offered at Foothill College are similar to courses offered in the lower division, or first two years, at four-year colleges and universities. Because requirements often vary significantly from campus to campus, it is recommended that you decide on your major and transfer institution as soon as possible. In addition to offering counselors to help you with this decision, Foothill College offers Counseling (CNSL) and Career Life Planning (CRLP) courses to help you explore and evaluate options.

Transfer to the California State University (CSU)

The following information is an abstract from the CSUMentor website (posted April 2011). Foothill College is not responsible for any changes CSU may make to this information. For complete information and updates, access www.csumentor.edu/planning/transfer/.

For students interested in transfer to one of the 23 campuses of the CSU, admission eligibility is based on transferable units completed. You are considered a transfer student if you complete college units after the summer following graduation from high school. Admission offices at the 23 CSU campuses use a common set of factors to make admission decisions for both classes of transfer students. All campuses have higher standards for out-of-state students and international students. Some campuses have higher standards for particular majors. Finally, some campuses have higher standards for all applicants. Some campuses give preference in admission to students who reside or have completed an identified number of units at institutions in their local area. For detailed information, access www.calstate.edu/sas/publications/.

Lower-Division Transfer Admission

Many CSU campuses do not accept lower-division transfers. Be sure to check with the campus if you are considering transfer as a lower-division student. Students who have completed fewer than 60 transferable semester units (90 quarter units) are considered lower-division transfer students. You are eligible for admissions consideration as a lower-division transfer if you:

- Have a college grade-point average of 2.0 or better in all transferable college units completed;
- Are in good standing at the last college or university attended; i.e., you are eligible to re-enroll;
- Meet the admission requirements for a first-time freshman or have successfully completed the necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects; and
- Meet the eligibility index required of a freshman.

Upper-Division Transfer Admission

Students who have completed 60 or more transferable semester units (90 quarter units) are considered upper-division transfer students. You are eligible for admission if you:

- Have an overall college grade-point average of 2.0 or better (2.4 for California nonresidents) in all transferable college units attempted;
- Are in good standing at the last college or university attended; and
- Prior to transfer, you complete at least 30 semester units (45 quarter units) of general education coursework with a grade of C or better. The 30 (45) units must include all of the general education requirements in English composition, oral communication, critical thinking and at least one course of 3 semester units (4 quarter units) in college-level mathematics.

Major Requirements

Students are encouraged to complete as many lower-division major preparatory requirements as possible prior to transfer. Many majors, especially in highly selective programs, have supplemental requirements that must be met prior to transfer. Consult with a counselor for additional information. These requirements may also be viewed at www.assist.org. Some oversubscribed programs may require supplemental courses or information for admission.
Transfer to the University of California (UC)

The University of California (UC) campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara and Santa Cruz all share the same minimum admission requirements; however, each campus is unique. The academic programs offered, the size of the student body and the location are just a few of the factors that contribute to the individual character of each campus. Entrance requirements may vary, as well. Although some campuses are able to admit all eligible transfer applicants, others can accommodate only a limited number of transfer students. Academic preparation and grade-point average (GPA) are used by the competitive campuses and programs in the selection process. Criteria vary from year to year and from campus to campus according to the number and qualifications of applicants to each campus and program. For more information about campuses, consult the university general catalogs available online or in the Foothill College Transfer Center (Room 8329). Complete information on the UC may be found at www.universityofcalifornia.edu/admissions/.

The UC will award graduation credit for up to 105 lower-division quarter units of transferable coursework from a community college. Courses in excess of 105 quarter units will receive subject credit and may be used to satisfy university subject requirements. There is no limit, however, on the number of units used to determine a student’s GPA, so all UC-transferable units will apply.

Minimum Admission Requirements for Transfer Applicants Who Are California Residents

The following information was taken from the University of California (UC) publication 2010-2011 Answers for Transfers. Foothill College is not responsible for any changes that the UC may make to this information. For complete information and updates, access www.universityofcalifornia.edu/admissions.

The UC considers you a transfer applicant if you enrolled in a regular session at a college or university after high school, not including summer session. (You can’t disregard your college record and apply as a freshman.) There are three ways to meet the university’s minimum admission requirements for transfer students. The path you use depends on the degree to which you satisfied UC’s minimum eligibility requirements for freshmen at the time you graduated from high school.

1. If you were eligible for admission to the university when you graduated from high school—meaning you satisfied the subject, scholarship and examination requirements, or were identified by the university during your senior year in high school as eligible in the local context—you are eligible to transfer if you have a 2.0 GPA in your transferable college coursework.

2. If you met the scholarship requirements in high school but did not satisfy the 15-course subject requirement, you must take transferable college courses in the missing subjects, earn a grade of C or better in each required course, and maintain a 2.0 GPA in all transferable coursework to be eligible for transfer.
3. If you were not eligible for admission to the university when you graduated from high school because you did not meet the scholarship requirement, you must:
   a. Complete 90 quarter units/60 semester units of transferable college credit with at least a 2.4 GPA (2.8 for nonresidents). No more than 21 quarter/14 semester units may be taken as Pass/Not Pass, and
   b. Complete the following seven transferable college courses, earning a grade of C or better in each course:
      - Two courses in English composition; and
      - One course in mathematical concepts and quantitative reasoning; and
      - Four courses chosen from at least two of these subject areas: arts and humanities, social and behavioral sciences, and physical and biological sciences.
      - Each course must be worth at least 4-5 quarter/3 semester units.

   For a list of UC-transferable courses and those that specifically meet the seven-course pattern described above, access www.assist.org.

   Eligibility for transfer does not guarantee admission. To present a competitive application, students are encouraged to exceed minimum requirements.

Nonresidents
The minimum admission requirements for nonresidents are very similar to those for residents. If you are not a California resident, consult with the admissions office at the university campus(es) that you’re interested in for details. In all cases, however, nonresidents must have a grade-point average of 2.8 or higher in all transferable college coursework.

Be aware that many campuses use criteria that exceed these minimum requirements to select students for admission. For nonresident admission information, you are advised to consult frequently with a counselor and/or read university catalog and university websites or contact the admissions office at the appropriate university.

Priority Application Filing Period
Students are encouraged to apply during the following application periods:

A.A./A.S. Degree & General Education Requirements 2011–2012

The Foothill College general education (GE) pattern is designed to ensure that students meet the four institutional-level general education student learning outcomes. These are:

1. **Communication**—Demonstrate analytical reading and writing skills, including evaluation, synthesis and research; deliver focused and coherent presentations; demonstrate active, discerning listening and speaking skills in lectures and discussions.

2. **Computation**—Complex problem-solving skills, technology skills, computer proficiency, decision analysis (synthesis and evaluation), apply mathematical concepts and reasoning, and ability to analyze and use numerical data.

3. **Creative, Critical & Analytical Thinking**—Judgment and decision making, intellectual curiosity, problem solving through analysis, synthesis and evaluation, creativity, aesthetic awareness, research method, identifying and responding to a variety of learning styles and strategies.

4. **Community/Global Consciousness & Responsibility**—Social perceptiveness, including respect, empathy, cultural awareness and sensitivity, citizenship, ethics, interpersonal skills and personal integrity, community service, self-esteem, interest in and pursuit of lifelong learning.

Completion of the Foothill College GE pattern requires that students successfully earn a minimum of 30–35 units from the courses listed below with at least one course in humanities, English, natural sciences (with lab), social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and two courses in lifelong learning from two different academic departments. Although several courses have been approved for more than one area, a single course may only be used to satisfy one of Areas I–V, plus either Area VI or VII.

It is imperative to note that this pattern is only appropriate for the student who is pursuing a Foothill College Associate in Arts or Associate in Science degree, but is not appropriate for the student who is pursuing an A.A.-T or A.S.-T degree. The student who plans to earn an A.A.-T or A.S.-T degree must complete either the IGETC or CSU Breadth GE pattern. Because there are significant differences between the three patterns, the student is strongly advised to meet with a counselor to determine which pattern will best meet the student’s goals.

Intersegmental General Education Transfer Curriculum (IGETC)

IGETC is a pattern of Foothill College courses that fulfills lower-division general education requirements for transfer to California State University and University of California. IGETC is an alternative to the CSU and local UC General Education-Breadth Requirements. Many private universities also recognize IGETC for fulfillment of general education requirements.

IGETC is a good option for the student who intends to transfer but is undecided about a major and/or unsure about attending CSU or UC. Some majors require extensive lower-division preparation, therefore, IGETC may not be the best choice for general education. Some universities do not accept IGETC. Always consult a counselor when developing an educational plan.

Course requirements for all areas of IGETC must be completed with a grade of C or better and certified by Foothill College for university credit. Submit a request for IGETC certification at the Counseling Center or Admissions Office.

For updated information, consult your counselor or access www.assist.org. Completion of IGETC requirements also qualifies students for a Foothill College Certificate of Achievement in Transfer Studies.

Course Numbering System

The following course numbering system provides a detailed explanation regarding course number designations. When in doubt about the transferability of a course, always consult a counselor.

You are responsible for reviewing prerequisites and repeatability as noted in course descriptions. Only courses with substandard grades may be repeated. Consult a Foothill counselor for more information.

Where there is a conflict between the catalog statements and published curriculum sheets, the latter will take precedence. New courses and programs maybe added throughout the year and for more information, please see the online catalog.

- Courses approved for transfer to the University of California are usually numbered 1–49. There are some exceptions to this rule; therefore, you should always consult with a counselor to verify course transferability. For more information, access www.foothill.edu or www.assist.org. The term degree applicable signifies courses which apply to the associate degree and/or baccalaureate transfer degree.
- Courses designated 1–99 are baccalaureate in nature and are generally transferable to the California State University.
- Courses numbered 100 and above are not transferable.
- Courses numbered 200–299 are prerequisites for required courses that lead to the associate degree and non-degree applicable credit courses.
- Courses numbered 300–399 are workshop, review and other courses offered to meet special collegiate needs of a community nature.
- Courses numbered 400–499 are non-credit, non-graded courses in consumer education, adaptive learning or other areas that do not apply to the associate degree.
- Community services courses are fee-based, and are scheduled and publicized separately from the state-supported courses identified in this catalog.

Through data binding and other markup extensions, XAML permits the implementation of a considerable degree of functionality without requiring a full fledged programming language such as C#. At the same time, Blend is able to totally coordinate with Visual Studio so that the same project can be worked on simultaneously by a designer using Blend and by a C# developer using Visual Studio. Blend will ultimately be used both by professional user interface designers and by developers for most WPF (Windows Presentation Foundation) Uls since its feature set for design purposes is considerably richer than the equivalent designer in Visual Studio. Through data binding and other markup extensions, XAML permits the implementation of a considerable degree of functionality without requiring a full fledged programming language such as C#. At the same time, Blend is able to totally coordinate with Visual Studio so that the same project can be worked on simultaneously by a designer using Blend and by a C# developer using Visual Studio. Blend will ultimately be used both by professional user interface designers and by developers for most WPF (Windows Presentation Foundation) UIs since its feature set for design purposes is considerably richer than the equivalent designer in Visual Studio. Advisory: Must be at least 21 years old to participate in wine tasting; proof of identity required.
May be taken 5 times for credit.
1 hour lecture.
Trace the lineage of wines as they developed around the world, how certain cultures are defined by particular grape varietals or wine types. The development of each region and the wine types associated will be culminated at the end of each session with a sampling of wines. Reading wine labels will be demystified, reducing the confusion and minimizing risk when selecting a bottle of wine. Grape growing and wine making techniques throughout history and around the world are examined. Guest speakers, including sommelier, chef, vendor, and critic guide the wine tastings as they impart their specialized skills. [FHGE: Non-GE; Transferable: CSU]

VITI 90B VINEYARD ESTABLISHMENT 2 Units
May be taken 5 times for credit.
2 hours lecture.
Buying grapevines at a nursery and planting them is but one step in the integrated process of establishing a vineyard. Regional differences, vine growing theories, and historical development are presented, along with variety selection and a discussion of how grapevines grow. The establishment process begins with site evaluation, soil preparation and physical layout. Trellis systems, drip irrigation, cover crops, and deer fences are illustrated. Various types of controls for potential pests and diseases are revealed. And, of course, the vines themselves are described from planting, through training, and into harvest. [FHGE: Non-GE; Transferable: CSU]

VITI 90C VINEYARD MANAGEMENT 2 Units
May be taken 5 times for credit.
2 hours lecture.
Fertilization needs, irrigation practices, frost protection systems, ground cover requirements, and grape harvest are detailed. Pests, diseases, and other disorders are illustrated to facilitate troubleshooting problematic vineyards. Integrated pest management, organic, and biodynamic practices are forms of control presented. Cultural operations designed to reduce potential problems and the use of pesticides are discussed. License and certificate holders may receive continuing education hours from the California Department of Agriculture. [FHGE: Non-GE; Transferable: CSU]

VITI 90D VINE PRUNING 1 Unit
May be taken 5 times for credit.
1 hour lecture.
The annual growth cycle and growth habits of grapevines are detailed and applied to vineyard practices specific to the vines themselves. Follow the 3 year process from planting and through the training process until the vines are mature. Students will travel to a local vineyard to prune actual grapevines under supervision. Bring a pair of pruning shears. Work clothes and boots are recommended. [FHGE: Non-GE; Transferable: CSU]

VITI 90E BASIC WINEMAKING 2 Units
Advisory: Must be at least 21 years old to participate in tasting for which a fee may be assessed.
2 hours lecture.
The ancient art of winemaking is revealed beginning with grape harvest and through the factors that influence wine quality and potential. The steps of red and white winemaking are presented on both small and large scales, with emphasis on types of equipment and sanitation requirements. Crushing, fermentation, cap management, and pressing take students through the initial processing phase. Methods of wine aging and storage considerations are discussed. Manipulations such as chemical adjustments, stabilization, blending, filtration, fining, and lab tests expose the winemaker’s secrets. Bottling, whether by hand or mechanized, is the final step in this one-day experience from grapes on the vine to finished wine in the glass. [FHGE: Non-GE; Transferable: CSU]

“When I enrolled at Foothill as a re-entry student in the mid-1970s, I was scared—afraid that I wouldn’t fit in, afraid that I wouldn’t be able to do the work. What I found was a family of teachers who created an environment of personal attention and support for each student. Foothill gives students the opportunity to develop direction. It’s an especially valuable community resource for students who may be returning to school after raising a family, seeking skills for job advancement or enjoying retirement and the opportunity for personal enrichment.”

—Anne Cribbs, President & CEO, Cribbs & Company; Chairwoman, Bay Area Sports Organizing Committee; Gold Medalist, 1960 Olympic Games

Parking Regulations
The Foothill-De Anza District Police Department supervises on-campus parking and traffic. The following rules and regulations apply to all students, staff and public. You can find a complete list of college parking and traffic regulations in the Admissions & Records Office and District Police Department, 2103.

- The speed limit in campus parking areas and access ways is 5 miles per hour. The speed limit of 20 miles per hour is posted on all roadways and is strictly enforced.
- Except in areas with 30-minute parking meters, all vehicles must display a valid parking permit to park on campus. Failure to display a permit will result in a citation.
- A parking permit is required from 7 a.m. to 10 p.m. seven days a week—at the Foothill College Main Campus. This requirement is enforced.
- Overnight parking is prohibited.
- Parking permits are not required at Middlefield Campus.
- Day-use parking permits are $2 and are valid for the date of purchase only. Purchase from permit dispensers in all student parking lots. Purchase quarterly or annual permits from the Admissions & Records Office.
- All vehicles must properly display a valid parking permit. Students are authorized to park in marked stalls in student lots only. Students may not park in stalls marked for disabled, staff, vendors, official vehicles or park in roadways, dirt areas or along parking lot curbing. People with disabilities are required to display state-issued identification on their vehicles or, in the event of temporary disabilities, obtain permits from the Disability Resource Center, Room 5801; or call (650) 949-7017.
- Staff parking permits are required for all staff spaces. Staff permits are issued by the District Police Department.
- Special permits will be issued only by the District Police Department. The permit must be displayed on the dashboard or hang on the interior mirror so it can be read from the outside. Special permits are valid only when used within the areas and dates designated on the permit.
- Motor vehicles, bicycles and skateboards are not permitted on the interior portion of campus.

- All vehicles remaining for more than 20 minutes in areas posted for 20-minute maximum will be cited.
- Parking or loitering on campus after 11 p.m. and/or after special activities is prohibited.
- Alcoholic beverages are prohibited on campus.

For more information, call the District Police Department at (650) 949-7313.
