Welcome to the 2016–2017 Academic Year at Foothill College!

Greetings students,

Welcome to Foothill College—a college with a national reputation for academic excellence and innovation, and a family of talented faculty and staff who cares deeply about your success.

“There is no passion to be found playing small—in settling for a life that is less than the one you are capable of living.”
- Nelson Mandela

Discover your passion at Foothill. Explore what interests you, both inside and outside the classroom. Foothill College’s strengths include a notable record in transfer and career education, complemented by exemplary competitive athletics, extra-curricular activities, and student service programs. We encourage you to take advantage of every aspect of Foothill College to enrich both your educational and social life.

This fall, we are thrilled to welcome the inaugural class of students who will graduate with a dental hygiene bachelor’s degree in 2018! Foothill College was chosen by the California Community Colleges Board of Governors as one of only 15 colleges in the state to offer a baccalaureate degree—a pilot program authorized for the first time by the California Legislature.

We are also looking forward to celebrating the grand opening of our Sunnyvale Center this fall. Students may choose from a wide variety of programs that focus on emerging and in-demand fields such as computer science, geospatial technology, emergency medical services, and biomedical devices. The center will house a full complement of services, including admissions, counseling, and a bookstore. Conveniently located within the Moffett Business Park, the Sunnyvale Center is easily accessible via freeways 101 and 237 and near a VTA light rail stop. For more information and a full listing of courses, please visit foothill.edu/sunnyvale.

Take time to review this student catalog as it contains important information for your success at Foothill. Never hesitate to ask our faculty and staff for help. As I begin my first year as president of Foothill College, I am eager to meet you and help you achieve your aspirations. We are here for you!

On behalf of the faculty and staff at Foothill, I wish you every success and enjoyment in the pursuit of your academic goals.

Of service,

Thuy Thi Nguyen, J.D.

District Mission

The mission of the Foothill-De Anza Community College District is student success. We accomplish this by providing access to a dynamic learning environment that fosters excellence, opportunity, equity, and innovation in meeting the various educational and career goals of our diverse students and communities. The district provides high-quality undergraduate education at an affordable price for students and reasonable cost to the state and maintains the primary mission of advancing California through education, training, and workforce improvement.

Located in the heart of Silicon Valley, Foothill-De Anza serves the communities of Cupertino, Los Altos, Los Altos Hills, Mountain View, Palo Alto, Stanford, Sunnyvale, and portions of San Jose.

Foothill College
Mission, Vision, Values & Purpose

Our Mission
Believing a well-educated population is essential to sustaining and enhancing a democratic society, Foothill College offers programs and services that empower students to achieve their goals as members of the workforce, as future students and as global citizens. We work to obtain equity in achievement of student outcomes for all California student populations, and are guided by our core values of honesty, integrity, trust, openness, transparency, forgiveness, and sustainability.

Our Vision
Foothill College educates students from diverse backgrounds that represent the demographics of the Bay Area, with particular attention to underserved and underrepresented populations. Foothill students master content and skills which are critical for their future success. They develop and act upon a sense of responsibility to be stewards of the public good.

Our Values
• Honesty
• Integrity
• Trust
• Openness
• Transparency
• Forgiveness
• Sustainability

Our Purpose
The college’s purpose is to provide access to educational opportunity for all with innovation and distinction.

Our Institutional Learning Outcomes
An important aspect of upholding institutional integrity is maintaining focus on the Foothill College institutional-level learning outcomes (ILOs), also known as the 4-Cs. These are:

• Communication;
• Computation;
• Creative, Critical & Analytical Thinking; and
• Community/Global Consciousness & Responsibility.

Every course at Foothill College addresses at least one of these ILOs. In addition to incorporating and reflecting the synthesis of the cognitive and affective domains of learning, the ILOs provide a framework for the development of breadth and depth in courses and programs, and are the basis of all learning experiences at Foothill College.

Since the Foothill College Academic Senate and Curriculum Committee adopted the ILOs as the general educational student learning outcomes, the college’s general education pattern is designed to integrate the 4-Cs across the curriculum. The Foothill College general education (GE) pattern, inclusive of courses in the seven areas of humanities, English, natural sciences, social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and lifelong understanding, supports the college’s ILOs. Completion of the GE pattern provides students with the depth and breadth of knowledge, and the skills and abilities that will enable them to be productive lifelong learners, ethical human beings and effective citizens.
Foothill College Offers:

- Associate in arts, associate in science, associate in arts-transfer and associate in science-transfer degrees, as well as preparation for transfer to another college, university or postsecondary institution
- Career education, training and services
- Basic skills, English for second-language learners (ESLL), leadership skills and student development
- Student support services to promote student success

Our History

The Foothill-De Anza Community College District was formed January 15, 1957, following several months of study by citizens groups and the California Department of Education. The district covers an area of about 105 square miles and includes the Palo Alto Unified School, Mountain View-Los Altos Union High School and Fremont Union High School districts.

On September 15, 1958, the district opened a temporary campus on El Camino Real in Mountain View. The Los Altos Hills main campus of Foothill College was completed and opened to students in September 1961.

In 1967, the district opened its second campus, De Anza College, in Cupertino. The two colleges coordinate programs and services, thereby providing our students with the flexibility to enroll in courses at both campuses.

Foothill: An Outstanding Community College

Founded with the hallmark of educational opportunity for all, Foothill College is recognized internationally as one of the nation’s most outstanding community colleges. Students of all ages enroll at Foothill for a single class, one- or two-year degree programs, or to complete general education requirements for transfer to four-year universities. Our academic programs lead to associate in arts, associate in science, associate in arts-transfer and associate in science-transfer degrees. They also meet the freshman and sophomore requirements of University of California, California State University and private education systems. In addition, we offer many professional and technical programs for students seeking re-training or career advancement.

Foothill serves northern Santa Clara County, educating more than 13,000 day and evening students at the main campus, Sunnyvale Center, online and many community and industry sites each quarter.

Sunnyvale Center

To further meet the education needs of Silicon Valley residents and businesses, Foothill College is opening a state-of-the-art 46,883 square foot campus in Sunnyvale this fall. Conveniently located within the Moffett Business Park, the Sunnyvale Center is easily accessible via freeways 101 and 237 and near a VTA light rail stop. Students may choose from a wide variety of academic programs that focus on emerging and in-demand fields, including computer science, geospatial technology, emergency medical services, and biomedical devices. The center will house a full complement of services, including admissions, counseling, and a bookstore. For more information and a full listing of programs and courses, please visit foothill.edu/Sunnyvale.

We are committed to community education. At Foothill College, we:

• Offer low-cost, high-quality education;
• Recognize that our students have different, changing educational needs; and
• Strive to create a college community of students, faculty and other educational workers.

Our educational process should help you:

• Develop and recognize human dignity;
• Think for yourself, learn to learn, and practice creative arts and skills; and
• Become a contributing community member.

We meet our commitments by providing:

• An academic program to help you transfer to a four-year college or university;
• Professional and technical programs to help you develop skills for job entry, re-entry and career upgrading;
• A general-education program to broaden educational and cultural experiences;
• Remedial and developmental education to bring basic skills up to full potential;
• Excellence in all academic programs, student services and community-outreach programs;
• Convenient community classrooms;
• Out-of-class activities so you can learn in less formal, more hands-on environments;
• A counseling and matriculation program to help you recognize your capabilities, and educational and life goals;
• Health services, psychological services, financial aid, job counseling, placement testing and proctoring services;
• Partnerships with social and educational agencies, business and industry to determine and serve our community’s educational needs; and
• Cultural programs, recreational activities, resources and facilities available to the general public.

We Celebrate Diversity

We value the diversity of students on our campus and continually work to meet the needs of this entire population. Our faculty, staff and administrators believe that teaching a multicultural perspective is just as important as teaching reading, writing and technology in today’s world.

“The Most Beautiful Community College”

The Foothill College campus is located on 122 acres in the rolling foothills of Los Altos Hills. The campus adjoins El Monte Road and Interstate 280, the scenic Junipero Serra Freeway.

The American Institute of Architects has honored Foothill for its outstanding design, and a San Francisco Chronicle architecture critic called our campus “the most beautiful community college ever built.” The distinctive Pacific-style architecture harmonizes with the surrounding hillside community, creating a beautiful and informal atmosphere conducive to college study.

Measure C Campus Improvements

Measures C and E are bond measures to fund renovations to existing college facilities, as well as construct new facilities at Foothill College and De Anza College. Voters approved the passage of Measure E in 1999 and the passage of Measure C in 2006. Funding for Measure C projects is generated from general obligation bonds. These funds are not subject to state budget cuts and can only be used for facilities projects. To review Measure C projects at Foothill College, visit foothill.edu/news/construction.php.

Student Success & Support Program
The Student Success & Support Program (3SP) is a state-mandated agreement between you and Foothill College to help you achieve your educational goals. Our responsibility is to provide:

- an admission process;
- orientation to college programs, services and procedures;
- pre-enrollment placement testing;
- counseling for educational planning and course selection;
- continuous follow up of your progress; and
- referrals to support services.

Your responsibility is to:

- choose an educational major at entrance;
- declare a specific educational objective within a reasonable period of enrollment;
- be diligent about class attendance and completing assigned coursework; and
- strive to complete courses and progress toward an educational goal according to Foothill and California standards.

Orientation
Orientation allows all students to learn important information about Foothill College. It satisfies one of the five required components to be eligible for priority registration (orientation, assessment, declared major, declared qualifying educational goal and a completed educational plan). There are several ways to complete orientation: on-campus Student Orientation Assessment and Registration (SOAR) event, GO2 Online Orientation in your MyPortal account, CNSL 5: Introduction to College or SPED 8: Introduction to College & Accommodations.

Students should enroll in CNSL 5 as it is taught by a counselor who will help you develop a one-year educational plan to meet your educational goal of earning a certificate, associate degree, or transfer to a four-year university. The class provides valuable information about Foothill College services, programs and academic policies. CNSL 5 is offered each quarter and during summer session. For more information, visit foothill.edu/counseling.

Counseling
Foothill counselors can help you:

- set academic and career goals;
- prepare an education plan with course selections;
- resolve personal concerns that may interfere with your ability to succeed; and
- make appropriate referrals as needed.

Counseling appointment services are available to Foothill College students with current and active campuswide identification numbers (CWID). To schedule an appointment, visit foothill.edu/counseling/counselappt.

Transfer Center
The Transfer Center offers services to help students navigate and understand the transfer process. Services offered include university-transfer resources, transfer workshops, counseling appointments, and visits with university admissions representatives.

Transfer resources include a resource of library books, publications and videos, college catalogs, access to EUREKA (transfer-guidance software), job binders and Internet access for transfer/career-related research.

Transfer Center workshops include transfer admission guarantees (TAG), essay writing for college applications, applying to colleges/universities, understanding the associate degree for transfer (ADT), and preparing for transfer to a private/out-of-state university.

Throughout the year, the Transfer Center hosts admissions representatives from the University of California, California State University, and numerous private colleges and universities.
Each quarter, a calendar of workshops, events and university tours is posted on the transfer website. For more information, visit the Transfer Center in Room 8329 or visit foothill.edu/transfer. To schedule a transfer-counseling appointment, call 650.949.7821.

Foothill College offers internships for students in majors such as psychology, business, engineering, computer science, graphic arts, physical and biological sciences, office administration, multimedia and many others. Internships can be arranged with Bay Area employers and educational institutions. Proof of U.S. citizenship is required at some internship sites. Internships may be paid or unpaid. **Placement Testing at the Testing Assessment Center**

A placement test is required for students to begin the chemistry, math, English and ESLL course sequences. Placement tests are given by appointment only. To schedule an appointment, visit foothill.edu/placement. Placement scores are valid for one year. Students are permitted one retest in math, English and ESLL within a six-month period from the initial placement date. However, students cannot retest in a subject if they have earned a transcriptable grade (passing, D, F, W, NP, or I) in the subject/course sequence in which they are seeking a new placement. Chemistry 1A placement test scores are valid for one year and retests are not permitted. You may enroll in NCBS 401A, MATH 235, ENGL 209, any NCEL course and ESLL 226 and 227 without a placement test.

Be prepared! Your placement test results determine the starting point of your academic career. Free study guides and practice tests are available online at foothill.edu/placement/testprep.

If you would like to submit college-level coursework in chemistry, math, English, or ESLL that you completed at another institution to fulfill your placement testing requirements, you may do so by completing the Admissions and Records’ prerequisite clearance process or by meeting with a counselor. For more information, visit foothill.edu/reg/prereqs or schedule a counseling appointment online at foothill.edu/counseling/counselappt.
Foothill College also offers ability-to-benefit placement testing for the student who lacks a high school diploma and is requesting federal financial aid.

For more information, visit foothill.edu/fga.

**International Programs**
Establishing an international presence is a Foothill College priority. The college has a long history of educating international students since its opening in 1957, and its graduates hail from many diverse corners of the world, from Tonga and Ivory Coast to Kyrgyzstan, Nepal and Latvia.
The International Programs Office caters specifically to international students on F-1 visas. We provide counseling and assistance to more than 1,200 F-1 students from more than 90 different countries. F-1 status is available to foreign citizens who commit to study full time in the United States in programs leading to an associate degree or bachelor’s degree at a four-year university through Foothill’s transfer pathways. Admission to Foothill is flexible, convenient and personalized. Applications are accepted three times a year for Fall, Winter and Spring quarters. For admissions requirements and application procedures, access the admissions section at foothill.edu/international.

Foothill also hosts international students on other visa types, such as J-1, H-1B, H-4, L-2 or F-2. The college has approximately 1,500 international students on all visa types, earning Foothill a #11 spot in the U.S. on the Institute of International Education’s Open Doors Report ranking associate degree institutions with the largest and most diverse international student populations. Important: Applicants who do not hold or intend to apply for F-1 status are considered domestic students for application purposes and should apply as non-residents by completing the Domestic Student Application Form at foothill.edu/admissions.

The International Programs Office features a team of caring multilingual professionals who ensure that students have an outstanding educational experience at Foothill and in the U.S. Our services include a new student orientation program with comprehensive academic, immigration and cultural counseling; regular immigration advising and seminars by a dedicated advisor regarding regulations that affect F-1 student status from passports, visas, employment, travel and academic issues; Glacier tax-filing assistance program; and medical insurance program.

Additionally, the office creates programs and initiatives that support international students as they adjust to the campus and community, expand their horizons and share their unique heritage and cultural backgrounds. Special activities include monthly coffee hours, tickets to the Celebrity Forum, field trips to Bay Area attractions, Thanksgiving dinner, ice-skating trip and International Student Connection Club. The office also coordinates large-scale programming initiatives aimed at internationalizing the Foothill campus, such as the annual International Education Week and Lunar New Year celebrations.

For information about admissions, e-mail foothillinternational@fhda.edu. For information about international marketing and activities, e-mail fhinternational@fhda.edu.

Honors Institute

For more than 30 years, Foothill College has provided an honors program that offers an enriched academic, cultural and social experience to intellectually inquisitive and motivated students. The Honors Institute offers students an academic environment that promotes critical thinking, analytical writing, and research skills with an innovative and challenging curriculum. Opportunities for participation at cultural events, conferences and unique honors seminars provide students an intellectual community that encourages and supports them in achieving their goals. The Honors Institute offers stimulating academic opportunities to a previously underserved population, prepares talented and ambitious students for the challenges of higher education, and supports successful transfer to either baccalaureate-granting colleges and universities or expanded career opportunities.

A fundamental goal of the program is to promote self-confidence and increase self-esteem in students who need the encouragement to excel, as well as the courage to continue their education and fulfill their goals. Rather than presenting itself as a selective entity, the Honors Institute welcomes all students and especially encourages students remediating through basic skills courses to strive toward participation in the honors program.

The Honors Institute is flexible, allowing honors students to simply take a few honors courses or choose to complete the honors scholar program. To complete the program, students must complete a minimum of 23 honors units (5 honors courses and 2 honors
semesters) and maintain a minimum 3.3 cumulative college GPA. Upon completion, students are awarded with the permanent notation of “honors scholar” which ultimately increases their chances of transfer admission, scholarship opportunities and gives them eligibility to participate in the UCLA Transfer Alliance Program, UC Irvine Honors to Honors Program and other transfer partnerships.

Foothill College is one of a handful of community colleges in Northern California that is approved for the UCLA Transfer Alliance Program (TAP), which offers students preferred admission to the UCLA College of Letters & Science (80-percent or higher admission rate). UC Irvine also offers guaranteed admission for students who complete the honors scholar program and maintain a minimum 3.7 GPA.

Regardless of their interest in transferring to UCLA, all honors students are encouraged to complete the honors scholar program, which awards students with the permanent transcript notation of “honors scholar” and offers additional transfer admission and scholarship opportunities.

Foothill College honors students are typically leaders at the annual Bay Area Community College Honors Research Symposium (held at Stanford University and UC Berkeley). Foothill honors faculty work closely with honors students to mentor students in their research. Here, honors students present their research to hundreds of other honors students. Other honors program benefits include specialized honors counseling, early registration, specialized workshops, free tickets to local lectures with internationally renowned writers, scientists, artists and politicians, transfer admission guarantees (TAGs), and more.

Students who intend to enter the Honors Institute program must meet both of the following two requirements:

Writing proficiency: to meet this requirement, a student must:

- Have completed ENGL 1A or the ENGL 1S and 1T series with a grade of a B or better; OR
- Be eligible for ENGL 1AL Honors English Composition via the Foothill English Assessment Test.

Academic requirement: to meet this requirement, a student must have:

- A cumulative college GPA of 3.3 in at least 10 transferable units; or
- A cumulative high school GPA of 3.5.

Students who are not yet eligible for the program based upon the GPA requirements may participate in the Try an Honors Course Program, which offers students who have completed ENGL 1A or ESLL 26 or ENGL 1S and 1T series with a grade of B or better, an opportunity to enroll in an honors course (pending space availability). Students who are placed in Foothill’s MATH 1A: Calculus course via Foothill College placement tests are eligible to enroll in MATH 1AH: Honors Calculus before fulfilling the writing proficiency requirements through our trial program. For more information, visit foothill.edu/hon or call 650.949.7638.

Middle College: The High School Alternative
Foothill Middle College Program coordinators understand that not all students fit the mold of the traditional high school student. This alternative program works with at-risk students to rekindle the enthusiasm for learning.

The program offers a serious learning environment in which students must take control of their own learning, explore individual interests through more diversified course offerings, and complete high school graduation requirements. Middle College is based at the Main Campus in Room 2152. For an application or more information, visit foothill.edu/programs/middle.

Occupational Training Institute
The Foothill-De Anza Occupational Training Institute (OTI) offers career and occupational training for students who are eligible through assistance programs, including CalWORKs (TANF/Welfare to Work), Workforce Innovation & Opportunity Act (WIOA), Trade Adjustment Assistance (TAA) and Computer Technical Support (CompTechS).

OTI supports intensive career and occupational training, internships and job placement for eligible students who are also economically disadvantaged or dislocated workers. Instructional and related activities are designed to prepare students with the specific skill needs of the job market, as well as to enhance the employability of the students. OTI supports Foothill College’s career training programs such as medical, technical, business and administrative occupations.

Students who participate in CalWORKs (TANF) or who are referred by a WIOA or EDD office, may be eligible to receive OTI help to achieve academic and career goals; access academic, career and personal advisement/counseling; develop an individual education plan; purchase required textbooks for classes (limited); pay for child care (limited); receive priority registration (CalWORKs); obtain a paid work-study job or internship; search for employment; access medical care through MediCal, Healthier Kids and Covered California; seek
mental health assessments and assistance; obtain referrals to various community services; and receive a computer for school work at no charge through CompTechS.

If a student is referred to OTI by a contracting agency (e.g., Workforce Board), the contracting agency is responsible for paying the OTI administrative fee of $718.03 per quarter, subject to change by state and/or district action. If the student is not referred by a contracting agency, he/she may be personally responsible for paying administrative fees. All referred students may be responsible for textbooks, supplies and parking fees, depending on funds available through the referring contracting agency.

An internship program for students who are interested in careers in information technology, OTI’s CompTechS Program features donated and refurbished computers that are then made available to Foothill students.

For more information, visit the OTI Office (Room 5004), call 650.949.7465 or visit deanza.edu/oti.

- Air Force ROTC
  San Jose State University, 408.554.4034
- Army ROTC
  Santa Clara University, 408.554.4781
- Navy ROTC

Workforce Development
Foothill College realizes that its commitment to serve the workforce must extend beyond the classroom curriculum, and degree and certificate programs. The reality of global competition and increasing job complexity means that organizations have a continuing need for their employees to learn new skills and fill in knowledge gaps to ensure high-quality job performance.

Employers find timely and cost-effective solutions outside traditional college credit offerings in working with the Foothill College Workforce Development Office. The office offers employers a variety of customized training solutions—on-site instructor-led classes, Web-based training, coaching, on-the-job training, skills acquisition, consultations, needs assessments and other services. Community Education
The Foothill College Community Education Program offers fee-based courses each quarter for children and adults, as well as working professionals who are interested in career development and personal enrichment. Community members may submit proposals for future community education classes. Community education offerings are ideal for participants who are interested in taking classes without the formality of college units and those who have maxed out repeatability of select classes. Community education classes do not have repeatability restrictions. In accordance with the Civic Center Act, the college is only designated as a place for community groups when there is no interference with the regular educational program.

For registration instructions or to submit a proposal for a community education class, visit foothill.edu/communityeducation.

Student Fees

All students pay $31 per unit (fees are subject to change by California legislative action). In addition, the non-resident student tuition fee and the foreign student tuition fee is $156 per unit, for a total of $187 per unit.

Foothill charges additional fees for Campus Center use, on-campus parking, lab courses, student-body activities (voluntary) and health services. International F-1 Visa students are required to purchase comprehensive health insurance for $484 each quarter.

All fees, which are posted online at foothill.edu, are subject to change. Tuition and fees may be refunded under certain circumstances; the specific refund policy is posted online at foothill.edu/reg/refunds. Direct questions about tuition and fees to the Admissions & Records Office in Building 8100 or call 650.949.7325.

Instructional Materials Fees

In some courses, there may be an instructional materials fee. These fees, detailed in the online class schedule, reflect the actual cost for materials, meaning that the cost is usually lower than if you were to purchase the same items separately. Unless there’s an issue of health or safety, you can either pay the fees to the college or provide your own materials of equal quality. Your instructor will provide a list of required materials.

Estimated Annual Cost of Attending Foothill College

It’s important for you to financially plan your education. The following cost estimates are calculated for a student attending Foothill College full time (enrolled in 15 units) for nine months.

Examples of Additional Costs

For students enrolled in allied health programs (primary care associate, dental hygiene, etc.), special fees, lab fees, tooling, and other related costs may be added to the normal cost of attendance. Expenses for dependent care, disability-related costs and campus abroad costs may also be considered with documentation.

Refunds

The college maintains a refund policy for tuition and fees at the Admissions & Records Office and book purchases at the Bookstore. A community college district shall not refund any enrollment fee paid by a student for program changes made after the first two weeks of instruction for a primary term-length course, or after the 10-percent point of length of the course for a short-term course, unless the program changes are a result of action by the district to cancel or reschedule a course or to drop a student pursuant to Section 58106(g) where the student fails to meet a prerequisite. A student can request a refund for quarter-length class(es) that are dropped by the deadline. In most cases, the deadline is the second Friday of the quarter or the first Friday of Summer Session. However, this date varies by course and term. Exact drop deadline dates for each course are posted in MyPortal.fhda.edu. The student is responsible for reviewing exact drop dates. The Admissions & Records Office and Bookstore can provide the most current policies for obtaining a refund.

Repayment

The student who withdraws from the college on or before 60 percent of the quarter is completed, may be required to repay Title IV funds. The funds are repaid to the Cashier’s Office and the student will be notified of any debt within 30 days after the college’s determination that the student has withdrawn.

Financial Aid

Are You Eligible?

Financial aid eligibility is based on need—the difference between what you and your family can provide and the cost of attendance.

Your financial need is determined by the information you and your family provide through the Free Application for Federal Student Aid (FAFSA) or the California Dream Application and any Foothill College additional paperwork. Regardless as to whether the application shows unmet need or not, we may be able to help. The total amount offered cannot exceed your documented financial need, and the monies must be used solely to meet cost of attendance at Foothill (refer to chart at left).

If you are in default on a loan, or owe an overpayment on a grant or loan, you will not be eligible for financial aid until the situation is satisfactorily resolved.

Eligibility requirements are generally established once you've shown, through a completed application, that you:

• have applied for admission
• have enrolled in a financial aid-eligible academic program that requires 24 units or more to complete
• maintain satisfactory academic progress
• demonstrate verifiable financial need. Some exceptions may apply. Consult the Financial Aid Office for details
• show academic major/goals and units of enrollment that can be applied to an educational plan
• have a high school diploma, GED or the equivalent. If you do not have one of these, see the Financial Aid Office
• are a U.S. citizen, permanent resident or other eligible non-citizen (for federal aid)
• have a valid Social Security Number (for federal aid)
• register with Selective Service if required

Federal Pell Grant

Federal Pell Grants are awarded to undergraduates based on financial need. This is free grant aid that ranges
up to $5,815. Maximum and minimum amounts are subject to change by federal legislative action.

**Federal Supplemental Educational Opportunity Grant (FSEOG)**
This federal program may be an option if you have exceptional financial need and apply early. You must also be eligible for a Pell Grant. The FSEOG Award is up to $600 per academic year at Foothill College.

**Federal Work Study (FWS)**
If you have financial need and want to earn a part of your educational expenses through employment, Federal Work Study (FWS) may be an option. You can work up to 19 hours per week. However, you must be enrolled in a minimum of six units to be eligible for FWS. If you receive an FWS award offer, it is your responsibility to schedule an interview with the Financial Aid Office for FWS placement assistance.

**Federal Direct Subsidized & Unsubsidized Student Loan**
Federal Direct Loans are made by the U.S. Department of Education. As a first-year undergraduate, you may be able to borrow up to $3,500 subsidized per year. As a second-year undergraduate, up to $4,500 subsidized per year. Additional Unsubsidized Direct Loans may also be available annually. For details, visit the Financial Aid Office (Room 8103).

Federal Direct Loan totals may not exceed $31,000 for dependent undergraduates and $57,500 for independent undergraduates (no more than $23,000 can be subsidized). You begin repayment six months after you graduate or drop below half-time enrollment. During the repayment period, and upon receipt of funds for unsubsidized loans, you will be charged a fixed interest rate that will not exceed 8.5 percent on the unpaid balance and adjusted for new loans each July 1. For the 2015–2016 academic year, the interest rate was 4.29 percent.

**Federal Direct PLUS Loan for Parents**
Federal Direct PLUS Loans are made by the U.S. Department of Education. Parents of dependent undergraduate students may borrow up to the maximum of the amount determined to be unmet educational expenses.

A determination of need must be made through the FAFSA application, but Federal Direct PLUS eligibility is based on unmet educational expenses. Interest charges begin upon receipt of the loan.

### State Aid

**Cal Grants**
To be eligible, in addition to federal aid requirements, a student must:

- be a California resident or classified as AB540, and
- not have a bachelor’s or professional degree (except extended Cal Grant A or B awards for a teaching program or other five-year program), and
- file a completed FAFSA or California Dream Application and Cal Grant GPA Verification Form by the annual March 2 deadline.

Cal Grant A: Covers fees at the UCs, CSUs, and private institutions in California. This award may not be used to pay for community college fees. Funding for students who are enrolled at community colleges may be held in reserve for up to three years.

Cal Grant B: Is for high-potential students from disadvantaged or low-income families who otherwise would not be able to pursue a higher education. California community college awards are up to $1,656 per year.

Entitlement Award: Every graduating high school senior who has a grade-point average of at least 2.0, meets the Cal Grant financial and eligibility requirements and applies by March 2 within one year of graduation is guaranteed this award.

Competitive Award: The student who will enroll at a California community college and file a FAFSA, although strongly encouraged to apply by March 2, has a second annual deadline of September 2. Other students who meet the basic Cal Grant eligibility requirements and who have at least a 2.0 grade-point average may compete for this award.

Cal Grant C: Helps vocationally oriented students acquire marketable job skills within a short time. Full- or half-time training must be for at least four months and lead to a recognized occupational goal—diploma, associate degree, license qualification or certificate. Funding is available for up to two years, depending on the length of the program, as long as academic progress is acceptable. Awards for California community college students are limited up to $576 in training-related costs.

**California Chafee Grant**
This federal program, administered by the California Student Aid Commission, offers college and vocational school financial aid to youth aging out of a foster care program. For up to $5,000, the student must
demonstrate financial need, meet basic eligibility requirements, complete the FAFSA and the Chafee Grant Application available at csac.ca.gov.

**Board of Governors Fee Waiver (BOGW)**

While state law requires that students attending California community colleges pay an enrollment fee, the California Community Colleges offer the BOGW. This grant program waives enrollment fees for the academic year.

If you are a California resident or are classified as AB540, you qualify for a BOGW if any one of the following statements applies to your current status:

- You have qualified for financial aid and your calculated unmet need exceeds $1,103;
- You or your family are receiving TANF/CalWORKS, Supplemental Security Income (SSI) or General Assistance/General Relief;
- You have received certification from the California Department of Veterans Affairs or the California National Guard Adjutant General that you are eligible for a dependent’s fee waiver;
- You meet year-specific income standards;
- You have documentation that you are a recipient or the child of a recipient of the Congressional Medal of Honor;
- You have documentation that you are a surviving dependent of any individual killed in the Sept. 11, 2001 terrorist attack; or
- You have documentation that you are a dependent of a deceased law enforcement/fire suppression personnel killed in the line of duty.

**Applying for BOGW**

- You are required to apply for a BOGW each academic year.
- The majority of BOGW recipients obtain eligibility by completing the FAFSA (.ed.gov) or California Dream Application (caldreamact.org) each academic year.
- Alternatively, some recipients obtain eligibility by completing an online application through Open CCC Apply (cccapply.org).
- Only one application is required per year (July 1–June 30).
- You do not have to be enrolled in a specific number of units to be eligible for the BOGW.

**Extended Opportunity Program & Services (EOPS)**

After applying for federal and state aid, you should visit the EOPS Department in Room 8202.

If you are a BOGW recipient, you may qualify for EOPS services. This state-funded program has been established to encourage the enrollment, retention and graduation/university transfer of students affected by language, social, economic and educational disadvantages who otherwise might not attend college. Full-time enrollment is required. Foothill’s EOPS Department offers textbook assistance, counseling, tutoring, campus tours of four-year universities, computer lab, and transfer assistance to facilitate the successful completion of academic, career and/or personal goals. EOPS faculty and staff assist participant-students as they work to achieve their goals.

**Cooperative Agencies Resources for Education (CARE)**

An EOPS supplemental program, Cooperative Agencies Resources for Education (CARE) assists EOPS participants who are single, heads of household, and Temporary Aid to Needy Family (TANF) recipients with young children. In addition to EOPS-provided services, CARE students receive additional support and services.

For program entry requirements or more information, call 650.949.7207 or visit foothill.edu/services/eops.

**Other Aid**

**Emergency Loans**

If you face an unexpected educational emergency, Foothill offers short-term loans up to $400. To qualify, you must be enrolled full time (9 units), purchase a Foothill College OwlCard and meet satisfactory academic progress requirements. These 30-day loans are interest-free. An overdue loan may be subject to additional late fees, registration holds, and assignment to collection services. Emergency loans are administered through the Financial Aid Office. For information, call 650.949.7245.

**Employment**

If you’re interested in working to help defray the cost of attending college, consider a part-time, on-campus position. Most of these jobs pay from $9 to $14/hour. Jobs that are not based on financial need are called “district” employment, and you must be enrolled in a minimum of 12 units to be eligible for these jobs. For information, call 650.949.7245.

**Scholarships**

Nearly $300,000 in campus and local scholarships are awarded annually to Foothill students. Scholarships, which vary in amount, are considered academic gifts
and need not be repaid. They’re generally based on academic standing, financial need, potential progress in major fields of study, and college or community activities. Scholarships are computed as resources for students receiving financial assistance. A listing of current scholarships is available at foothill.edu/aid.

Textbook Assistance
If you’re eligible for Extended Opportunity Program & Services (EOPS), you may also qualify for the Textbook Assistance Program. For more information, call the EOPS Office at 650.949.7207.

General Education

Completion of general education coursework is required for students to earn a Foothill College associate degree. For information on the Foothill College General Education pattern, refer to pages 78–79. For information on the Intersegmental General Education Transfer Curriculum (IGETC) pattern, refer to page 80. For information on the CSU General Education Breadth pattern, refer to page 81.

Students are strongly advised to meet early and often with a Foothill counselor to determine which pattern will best meet their goals.

Select a Major
Selecting a college major is an important step—one that establishes your career goals and determines where you should direct your academic efforts.

Majors within career and transfer programs are described within the following pages. The chart on pages 36–38 summarizes degrees and certificates available as of Summer Session 2016. Consult curriculum sheets located on the website for the most current degree and certificate information. You can also consult with a Foothill counselor to develop a strategy for selecting your college major. To schedule an appointment, call 650.949.7423.

Certificate Programs
Foothill offers the following types of certificate programs:

• Certificate of Achievement
• Certificate of Completion (non-credit)
• Other Division Certificates
  - Career Certificate (non-transcriptable)
  - Certificate of Proficiency (non-transcriptable)
  - Certificate of Specialization (non-transcriptable)
  - Skill Certificate (non-transcriptable)

For information about certificates, contact the division office for unit requirements, course sequences and major requirements. Foothill awards these certificates when you satisfactorily complete certain specialized programs requiring fewer than two years of full-time study. Certificate programs comprise (1) a complete curriculum pattern or (2) major and related courses selected from an associate in arts or associate in science degree curriculum at the recommendation of an advisory committee.

Certificate of achievement programs require:

• a minimum GPA of 2.0; and
• Fifty percent of the program courses must be completed in residence for most certificates.

In addition, when noted on the curriculum sheet, some certificates may require a minimum English and/or math proficiency. For more information, schedule an appointment with a counselor.

Some Foothill College divisions also offer certificates of completion, proficiency, specialization, career and skill. These certificates will not appear on the student’s transcript. General requirements include the prescribed coursework and a GPA of at least 2.0 in these courses. Non-transcriptable certificates are maintained and awarded by individual academic departments, and are not recorded on student transcripts. To apply for the certificate, contact the department chairperson within one academic year after completing the last course for the certificate.

Types of Degrees Offered at Foothill College

While many students complete an associate degree in preparation for immediate entry into the job market, earning an associate degree may also serve as excellent preparation for transfer to a four-year college or university. By earning an associate degree, you indicate to potential employers, transfer institutions and society
that you not only have specialized knowledge in a particular area of study. Rather, degree completion also signals that you have gained critical and analytical thinking ability, written and oral communication skills, and are able to consider issues with ethical and global perspective.

You are strongly advised to meet with a Foothill counselor early to decide which degree best suits your academic needs and for assistance in planning your course of study. Requirements for all Foothill College associate degrees include completion of (1) a minimum of 90 quarter units in a defined set of courses; (2) a minimum of 18 units successfully completed at Foothill College; (3) a grade-point average of 2.0 or better in all college courses including Foothill courses; (4) a major or area of emphasis of at least 27 units in a curriculum approved by the Foothill College Curriculum Committee; and (5) general education coursework.

There are significant differences in the general education requirements depending upon the degree you are pursuing; consequently, you are again urged to meet with a Foothill counselor to determine which general education pattern is most appropriate. The four types of associate degrees offered are:

**Associate in Science Degree (A.S. Degree)**
The A.S. degree is awarded to students who complete all of the requirements in a major or area of emphasis in the areas of science, technology, engineering or mathematics. This degree also requires completion of the Foothill College General Education requirements or Intersegmental General Education Transfer Curriculum (IGETC) or CSU GE Breadth. Students who plan to complete this degree and who also intend to transfer to a four-year college or university are advised to meet early and often with a Foothill counselor for assistance in developing an educational plan that satisfies both sets of requirements.

**Associate in Arts Degree (A.A. Degree)**
The A.A. degree is awarded to students who complete all of the requirements in a major or area of emphasis in the liberal arts, social sciences and fields other than science, technology, engineering or mathematics. This degree also requires completion of the Foothill College General Education requirements or IGETC or CSU GE Breadth. Students who plan to complete this degree and who also intend to transfer to a four-year college or university are advised to meet early and often with a Foothill counselor for assistance in developing an educational plan that satisfies both sets of requirements.

**Transfer Associate Degrees**
The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746–66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an associate degree for transfer, a newly established variation of the associate degrees traditionally awarded by the California community colleges.

The Associate in Arts for Transfer (A.A.–T) or the Associate in Science for Transfer (A.S.–T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (A.A.–T or A.S.–T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn an A.A.–T or A.S.–T degree, students must complete a minimum of 90 required quarter units or 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. While a minimum GPA of 2.0 is required for admission, some majors may require a higher GPA. Students transferring to a CSU campus that does accept the A.A.–T or A.S.–T will be required to complete no more than 90 required quarter units or 60 required semester units after transfer to earn a bachelor’s degree (unless the major is a designated high-unit major). This degree may not be the best option for the student who intends to transfer to a particular CSU campus or to a university or college that is not part
of the CSU system. The student should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

**Associate in Science-Transfer Degree (A.S.–T Degree)**
Similar to the A.S. degree, the A.S.–T degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in the areas of science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the CSU General Education Breadth Requirements or the Intersegmental General Education Breadth Requirements (IGETC). Students who plan to complete this degree and who intend to transfer to a non-local CSU, UC or other college or university are advised to meet early and often with a Foothill counselor for assistance in developing their educational plan.

For 2016–2017, Foothill offers the following A.S.–T degrees: business administration for transfer, computer science for transfer, early childhood education for transfer, mathematics for transfer and physics for transfer.

**Associate in Arts-Transfer Degree (A.A.–T Degree)**
Similar to the A.A. degree, the A.A.–T degree is awarded to students who complete all of the lower-division major preparation requirements for a related major in academic areas such as the liberal arts, social sciences and related fields other than science, technology, engineering or mathematics for one or more local CSU campuses. This degree also requires completion of either the CSU General Education Breadth Requirements or the Intersegmental General Education Breadth Requirements (IGETC). Students who plan to complete this degree and who intend to transfer to a non-local CSU, UC or other college or university are advised to meet early and often with a Foothill counselor for assistance in developing their educational plan.

For 2016–2017, Foothill offers the following A.A.–T degrees: anthropology for transfer, art history for transfer, communication studies for transfer, economics for transfer, English for transfer, geography for transfer, history for transfer, kinesiology for transfer, philosophy for transfer, political science for transfer, psychology for transfer, sociology for transfer, Spanish for transfer, studio arts for transfer and theatre arts for transfer.

**Bachelor in Science (B.S. Degree)**
The Dental Hygiene Program is a Bachelor in Science degree program, under the pilot program (SB 850), authorized by the State Chancellor’s Office. The program is highly academic, with an emphasis on evidence based practice and clinical skills to prepare students to assess the medical/dental status of patients, develop a dental hygiene care plan, implement appropriate dental hygiene care, and evaluate outcomes. The Commission on Dental Accreditation accredits the Foothill College Dental Hygiene Program. Graduates are eligible to take the National Dental Hygiene Board Examination and qualify for the State or Regional Registered Dental Hygiene licensure examination.

**Program Advisory Boards**
At Foothill, we strive to ensure that our career education curriculum meets the needs of business, industry and government. This is why we invite a number of occupational leaders to advise us on:

- new courses and course content;
- facilities and equipment;
- nature and extent of employment needs;
- how to evaluate the appropriateness of contents of existing courses; and
- how to evaluate student performance.

We continually implement the recommendations of more than 30 occupational advisory committees. A campus advisory committee for vocational education also meets periodically to review and make recommendations for career education. For information on specific courses, consult your counselor or review the program’s curriculum sheet online at foothill.edu.

Any policy adopted by the college administration shall supersede any ruling on the same subject that appears in this catalog or in other official publications once the revised regulation is posted on a campus bulletin board or included in the online class schedule.

Academic Freedom

Academic freedom encompasses the freedom to study, teach and express ideas and viewpoints, including unpopular and controversial ones, without censorship, political restraint or retribution. Academic freedom allows for the free exchange of ideas in the conscientious pursuit of truth. This freedom exists in all service areas, including but not limited to teaching, librarianship, counseling, coordinating and all faculty-student interactions. Academic freedom is the bedrock principle of all institutions of learning and must be extended to all faculty regardless of their status as full time, part time or probationary.

Faculty members have the principal right and responsibility to determine the content, pedagogy, methods of instruction, selection, planning and presentation of course materials, and the fair and equitable methods of assessment in their assignment in accordance with the approved curriculum and course outline and the educational mission of the Foothill-De Anza Community College District, and in accordance with state laws and regulations. These rights and responsibilities include, but are not limited to, the faculty member’s choice of textbooks and other course materials, assignments and assessment methods, teaching practices, grading and evaluation of student work, and teaching methods and practices.

Approved April 20, 1960; amended Nov. 18, 1996; approved by Foothill College Academic Senate June 1, 2009; approved by De Anza College Academic Senate June 8, 2009; approved by Foothill-De Anza Community College District Board of Trustees Jan. 5, 2010.

Admission & Enrollment Policies

Academic Prerequisites, Credit & Placement

Many courses require that you complete prerequisites in order to enroll. These prerequisites are listed under each course description in this catalog and the online class schedule.

All courses listed with a prerequisite have a registration block. If you have completed a course to fulfill the prerequisite requirement at another college, you must first provide a transcript and a course description. To clear a prerequisite, download the Prerequisite Clearance Form at foothill.edu/reg/forms. Submit the completed form and required documentation either by fax, mail or in person to the Admissions Office. Allow approximately three business days for processing.

The college has the authority to drop you from any course if you have not met the necessary prerequisites. For refund policies, visit the Admissions & Records Office in Room 8101.

If you submit written or performance evidence showing you have sufficient competence in the area of study due to previous training or experience, you may be able to enroll in a course without completing the listed prerequisites. You can only do this, however, if your counselor, instructor or division dean provides authorization.

Admission Guidelines

Foothill has an open-door admission policy for all high school graduates and non-graduates who are 18 years of age or older. Students currently enrolled in high school (freshman, sophomore, junior or senior) may enroll in up to 10 units per Fall, Winter and Spring quarters, as well as a maximum of six units during Summer Session with high school transcripts, and written parental and school permission. Permission forms are available in the Admissions & Records Office (Room 8101) and at foothill.edu.

Special admission procedures such as additional testing, application forms and counseling sessions are required for admission to a number of career programs. Some of these programs begin only in the Fall Quarter. You must complete all special admission requirements in the preceding Spring Quarter. Programs in this category include dental assisting, dental hygiene, primary care associate, diagnostic medical sonography (ultrasound), radiologic technology, respiratory therapy and veterinary technology.

Prequisites, Corequisites & Advisories

Prerequisites, corequisites and advisories are intended to guide the student into courses in which he/she will have the greatest chance for academic success.

- Prerequisite means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.
- Corequisite means a condition of enrollment consisting of a course that a student is required to
simultaneously take in order to enroll in a course or educational program.

- Advisory of recommended preparation means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

**Challenging Prerequisites**
You may challenge prerequisites and corequisites if you can demonstrate that:

- You have the knowledge or ability to succeed in the course without the prerequisite or corequisite.
- You will be subject to undue delay in attaining your educational goal because the prerequisite or corequisite has not been made reasonably available.
- The prerequisite or corequisite is unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
- The prerequisite or corequisite has been established in an arbitrary manner.

**Clearing Prerequisites**
The student may clear a prerequisite or corequisite by providing any of the following:

- Proof of coursework taken at another U.S. college or institution,
- AP test score of 3 or higher,
- Proof of coursework taken at a college outside the U.S. (send to division dean), or
- Other/Challenge: if you do not meet any of the above, a prerequisite clearance requires dean or director approval.

To challenge a prerequisite or corequisite, complete the Prerequisite Clearance Form, available online at foothill.edu/reg/forms/hold_release_agreement.pdf. Complete the form and attach the required documentation as stated on the form. Fax, mail, e-mail or drop off the complete form and documentation to the Admissions Office prior to the first day of the quarter. Allow three business days for the form to be processed before attempting to register. You will only be notified by e-mail if the petition is denied.

**Open Course Policy**
It is the policy of the Foothill-De Anza Community College District that, unless specifically exempted by statute or regulation, every course, course section or class reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets such prerequisites as may be established pursuant to regulations contained in California Code of Regulations Title 5 commencing with Section 55000.

**Enrolled Student Classifications**
You are a matriculated student if you have filed an Application for Admission, enrolled at Foothill and have done one of the following:

- Submitted high school and other transcripts;
- Met with a Foothill College counselor, counseling associate or career advisor to examine educational opportunities;
- Announced an intention to study for a degree or certificate;
- Begun a series of introductory, general education or special courses; or
- Begun a series of special courses leading to a certificate or degree.

**Exceptions to Admissions & Registration Policies**
To request an exception to a published policy, you must file an exception petition. Forms are available in the Admissions & Records Office in Room 8101 and online at foothill.edu.

**General Program Requirements**
All beginning freshmen are strongly encouraged to enroll in the CNSL 5: Introduction to College course, or demonstrate proof that they have completed an equivalent course. If you are eligible for ENGL 1A, you should complete this course by the end of the third quarter of enrollment; you may take a communication course first. If you are eligible for ENGL 110 or 209, you should complete these courses during the first or second quarter.
You may receive up to 10 quarter units of credit for each score of 5, 4 or 3 on College Entrance Board Advanced Placement Tests. Your Foothill transcript will show units but will not indicate grades. The Evaluation Office, located in the Admissions & Records Office, Room 8101, provides information that explains how advanced placement scores are marked on transcripts and the equivalencies for the University of California and California State University systems.

Foothill College will accept a score of 60 or better on the college algebra CLEP examination as equivalent to MATH 105. The college is currently reviewing additional CLEP examinations to determine if they, too, may be used for course credit for other Foothill College courses.

If you want to transfer credit from an armed services school or other special institution, you may apply through a counselor. It’s possible these credits will be accepted toward the associate in arts or associate in science degree once you have successfully completed a minimum of 15 units at Foothill.

**General Registration Information**

If you are a new or former student, you must submit the Application for Admission by the quarterly deadline posted at foothill.edu. We encourage you to complete the application, complete the placement testing process and submit necessary transcripts as early as possible.

Students planning to transfer to Foothill are advised to submit transcripts from high schools and colleges previously attended.

If you plan to receive veterans benefits, apply for financial aid or earn a degree or certificate, you must submit official transcripts. Request previous institutions to send your transcripts directly to the Foothill College Admissions & Records Office, 12345 El Monte Road, Los Altos Hills, CA, 94022-4599.

International students on F-1 visas must follow specific admissions requirements. For more information, review foothill.edu/international.

To register for Foothill College classes, follow the online registration instructions published in the online class schedule and on the college website at foothill.edu. The class schedule for the current academic term is posted online. Online information is subject to change. We encourage you to review the website frequently. For more information, call the Admissions & Records Office at 650.949.7325.

**Residency Requirements**

Foothill College generally serves the communities of Palo Alto, Mountain View, Los Altos and Los Altos Hills, and our sister school, De Anza College, generally serves the cities of Cupertino and Sunnyvale. Both colleges, however, accept students from outside these cities.

If you are an out-of-state student, you are considered a non-resident until you have satisfied current California residency requirements. This rule applies to visa-holding, non-citizens eligible to establish residency. Non-resident tuition is required of all students in this category. If you are an international student with an F-1 visa, you are not eligible for California residency.

**Unit Limitation**

An average class load is 15 units per quarter. The maximum number of allowable units per quarter without a counselor’s approval is 21.5 units. If you intend to enroll in more than 21.5 units, you must obtain a counselor’s approval and submit a petition to the Academic Council (no exceptions). The maximum number of allowable units for Summer Session is 15 units. To complete the petition process, schedule a consultation with a Foothill counselor by calling 650.949.7423.

**Probation & Dismissal**

In accordance with California Code of Regulations, Title 5, the following probation and dismissal policy has been established. The purpose of this policy is to support students in identifying barriers to academic success, employing strategies for improvement, and helping them make progress toward their educational objectives. There are five levels of probation: basic, moderate, severe, pre-dismissal, and dismissal. The college shall make a reasonable effort to notify students who have been placed on academic and/or progress probation with clear instructions on how to clear their probation status. Students on dismissal status are notified via e-mail and certified mail of their status. For more information, call or visit the Counseling Center at 650.949.7423, Room 8302.

**Placement on Probation**

- **Academic Probation:** A student who has attempted at least 18 quarter units as shown by the official academic record shall be placed on academic probation if the student has earned a grade-point average below 2.0 in all units which were taken at the college.

- **Progress Probation:** A student who has enrolled in a total of at least 18 quarter units as shown by the official academic record shall be placed on progress probation when the percentage of all units in which a student has enrolled and for which entries of W, I, NP
and NC are recorded reaches or exceeds 50 percent.

**Removal from Probation**
- A student on academic probation for a grade-point deficiency shall be removed from probation when the student’s cumulative grade point average is 2.0 or higher.
- A student on progress probation because of an excess of units for which entries of W, I, NP and NC recorded shall be removed from probation when the percentage of units in this category drops below 50 percent.

**Probation at Foothill & De Anza Colleges**
The Foothill College probation/dismissal reporting system might not accurately reflect the correct academic probation status for students who have enrolled at both Foothill and De Anza colleges. Students who are enrolled within the current quarter at both colleges or have an academic history with both colleges should contact the Counseling Center at Foothill College for assistance regarding their probation/dismissal status at Foothill.

If at any time students attend both Foothill College and De Anza College in the Foothill-De Anza Community College District, it is the students’ responsibility to keep track of their grades to ensure that they remain in good standing at each college. Although students may be in good standing at De Anza College, if at Foothill College they fall below the minimum required level of academic performance, the above probation and dismissal procedure will apply to them at Foothill College.

**Standards for Dismissal**
- A student who is on academic probation shall be subject to dismissal if the student earned a cumulative grade-point average of less than 2.0 in all units attempted in each of the five consecutive quarters which were graded on the basis of the grading system.
- A student who has been placed on progress probation shall be subject to dismissal if the percentage of units in which the student has been enrolled for which entries of W, I, NP and NC are recorded in at least five consecutive quarters, excluding summers, reaches or exceeds 50 percent.

Scholastic dismissal will be noted permanently on a student’s transcript. Students dismissed from the college may not enroll in any courses for one regular quarter (excluding summer). The maximum number of times a student may be dismissed from Foothill College is three. A third dismissal will result in permanent expulsion from the college.

**Re-Admission After Disqualification**
A student who has been dismissed due to failure to make academic achievement and/or progress may be considered for re-admission on a conditional basis. The student must file an Admission After Disqualification Petition with a counselor. After the Academic Council reviews the petition, the student will be notified via e-mail of the decision, and their next steps.

**Registration and Attendance**
If you have academic complaints, including treatment in a course or program, you should seek to resolve the problem by speaking with these people, in this order:
- Course instructor;
- Division dean (make an appointment through the division administrative assistant);
- Division dean’s supervisor;
- Vice president, Student Services; Room 8104; 650.949.7524.

**Academic Regulations**
The Academic Council is responsible for academic regulation evaluation, enforcement, interpretation and exceptions. You can obtain petitions in the Admissions Office (Room 8101), Counseling Center (Room 8302) or visit foothill.edu/reg/forms.php.

**Academic Renewal**
The academic renewal process permits students the opportunity to request the exclusion of entire quarters of coursework from the Foothill College grade-point average up to a maximum of 45 units. Eligibility for academic renewal requires that you meet specific criteria. Consult your counselor for more information.

**Add/Drop Dates**
The deadline to add and drop classes may vary per course. Generally, the deadline to add or drop a course without a W-mark is prior to 20 percent of class meetings or prior to the end of the second week of instruction for a 12-week course. To determine the exact drop date for your course, consult MyPortal.fhda.edu. You are responsible for initiating the official add/drop process and for notifying both the instructor and Admissions & Records Office (Room 8101). Do not rely on an instructor to add you to a course or to drop you if you stop attending. To ensure that you are properly registered or dropped from a class and do not receive a substandard grade, you are responsible for dropping the class by the appropriate deadline. Verify your current enrollment status by accessing your MyPortal.fhda.edu account.
The maximum number of withdrawals (W-marks) from the same course is three, which are counted toward the overall enrollment limit of three. If you have questions or concerns about W-marks, schedule a meeting with a Foothill counselor at 650.949.7423 or foothill.edu/counseling. You cannot drop after the eighth week. You may receive no more than two W-marks in any one course. For Summer Session class drop dates, consult the current class schedule or online college calendar at foothill.edu.

Courses & Grades

Academic Integrity at Foothill College
Academic integrity means honesty and responsibility in scholarship. Unless collaboration is explicitly authorized, all academic work should result from an individual’s own efforts. Intellectual contributions from others must be consistently and responsibly acknowledged. Students accused of violating Foothill’s academic integrity policy will face judicial action, up to the possibility of suspension from the college. For more information about Foothill’s academic integrity policy, visit foothill.edu/services/studentright or stop by the Dean of Students office in Room 2002.

Attendance
Regular and punctual attendance is an integral part of the learning process. As a Foothill student, you are expected to attend all scheduled classes in which you are enrolled. An instructor has the authority to drop a student who violates written attendance policies. Instructors are not obligated to hold seats for students who are enrolled but do not attend the first class meeting.

Audit Request Procedures
A number of Foothill classes are available for audit. To be eligible, you must have already taken and completed the class at Foothill the number of times permitted, and received a grade of C or better. Audit requests must have the signature of the instructor before you submit the request to the Admissions & Records Office. Auditors are admitted on a space-available basis.

Cancellation of Classes
Classes may be canceled when enrollments are lower than planned. Foothill College has the authority to change or cancel courses and programs as circumstances require.

Class Preparation/Progress
After prior notification, an instructor may drop a student who demonstrates insufficient preparation/prerequisites.

Class Size & Frequency
Minimum class-size guidelines apply to all lecture, lecture/lab and laboratory classes at Foothill. While a minimum class size is generally required, special circumstances may necessitate continuing a class that does not meet these guidelines.

Exceptions are based on program needs such as second-quarter, third-quarter or second-year sequential courses; courses required for an identified major or career; combined courses meeting at the same hour with the same instructor; and one-of-a-kind offerings needed for graduation or transfer. Exceptions may also be based on the following:

- Limited classroom or laboratory facilities; or
- Statutory and state regulations mandating class size, independent study, and special projects.
- Other circumstances that warrant exception are made by the Finance & Administrative Services Office.

Transfer Credit from Another Institution
Foothill College accepts credit for lower-division coursework previously completed at a college accredited by one of the six regional accrediting associations in the U.S. Students must have official transcripts sent to the Foothill College Admissions & Records Office. To be official, transcripts must be sent from college to college or hand-delivered in a sealed, unopened college envelope.

- Foreign Colleges: Students who want to use coursework completed at foreign institution must have their transcripts evaluated by a foreign evaluation service. Students should meet with their counselors to petition to use any of this coursework toward an associate degree. Coursework from a foreign institution cannot be used for certification to a four-year institution. Students should contact the school to which they want to transfer to determine if any credit will be awarded from the foreign institution.

- Non-Regionally Accredited Colleges: Students may petition for individual courses taken at a non-regionally accredited college to be accepted for major requirements. The credit is non-transferable toward a bachelor’s degree. Students must have official transcripts sent to the Foothill College Admissions & Records Office. To be official, transcripts must be sent from college to college or hand-delivered in a sealed, unopened college envelope.
Final Examinations
Foothill gives final examinations in all courses. Final examinations will not normally be given in advance of the scheduled time. At Foothill, we strive to minimize student activities during the week before final exams. However, classes and instruction continue as usual. During this period, instructors may assign coursework or have students complete part of the final examination.

*In the plus/minus grading system, the A+ grade is calculated the same as the A grade.

**In the plus/minus grading system, the C- grade is not permitted under Title 5 law.

P and NP are assigned to those courses in which student achievement is evaluated on a pass/no pass basis rather than a letter grade (A, B, C, etc.). Pass/No Pass courses are so designated in the announcement of courses section of the catalog.

Course Grading Categories
Foothill offers course grades in these five categories:

- Courses in which all students are graded on a 4.0 scale of A, B, C, D, F.
- Courses in which all students are graded on a Pass/No Pass (P/NP) basis.
- If you enroll in a class with a Pass/No Pass option instead of a letter grade must submit a Pass/No Pass Card signed by the student within the first four weeks of the quarter. The form must be submitted to the Admissions Office. You may choose to apply

Incomplete
For a justifiable, approved reason (serious illness, emergency, etc.), you may ask your instructor for more time to complete coursework. After the end of the eighth week and before the end of the quarter, you must request that the instructor assign a grade of Incomplete (I). The instructor files an Incomplete Contract that explains the reason and precisely outlines the work due, procedure required, and due date for you to complete the work. You should sign and keep a copy of the contract.

The college does not assign an incomplete because a student is slow or negligent in submitting required work. If you meet the course requirements within one calendar year, the I grade may be changed; otherwise it may be listed as F.

Withdraw from College
To withdraw from college after the eighth week, you must consult with a counselor and petition the dean of Enrollment Services to obtain an approved dismissal. This is for your protection, since you may receive an F in all classes after the eighth week if you do not follow these guidelines. The petition must have the instructor’s approval signature for each class.

Transcripts
The Admissions & Records Office forwards transcripts at your request. Transcripts to educational institutions will be sent directly to those institutions. Transcripts given directly to you may be classified as unofficial. Transcript costs and procedures for requesting transcripts are published at foothill.edu.

Foothill reserves the right to withhold official transcripts from students under certain circumstances, such as defaulting on a loan, outstanding balance due on an account or until all obligations to the college are cleared.

Transcript/Grade Changes
Section 76224 of the California State Education Code states, “The determination of the student’s grade by the
instructor shall be final in the absence of mistake, fraud, bad faith or incompetency.” By law, instructors are the only people who can change grades.

If you believe corrections should be made within the above restriction, you should first talk to your instructor. Corrections must be initiated within two years after the grade was earned. If an error has been made, and a correction is necessary prior to the two-year period, you may request a review of the records at the Admissions & Records Office.

Grades received prior to 1983 may not be changed. Exceptions to this policy include a bona fide error in grading, and a course in which an unsatisfactory grade was given is repeated for a satisfactory grade.

**Petition to Replace Substandard Grade for Foothill College GPA Calculation**

When a substandard grade (D+, D, D-, F, NC or NP) was recorded at Foothill, an equivalent course may subsequently be completed at another accredited college or university. The student’s academic transcript shall then be annotated to reflect exclusion of the previously recorded coursework with the substandard grade for purposes of grade-point calculation and for all considerations associated with the awarding of certificates and degrees. Replacement with a grade of Pass/No Pass is not permitted, as it does not improve the student’s grade-point average (GPA). It is important to note that all grades remain on the academic transcript, and that some transfer institutions may require recalculation of the GPA to include both the substandard grade and the subsequent grade.

When submitting this petition, the student must attach:

- a copy of his/her transcript, and
- either the course outline of record or the course catalog description to confirm course equivalency. (It is strongly recommended that the student consult with the appropriate Foothill division dean to confirm equivalency with discipline faculty before repeating the course.)
- Be aware that official (sealed) transcripts from other regionally accredited institution must be submitted to Foothill College Records Office before submitting this petition.

The complete petition form must include student’s identification number (SID), name, date, Foothill College course identifier, the date that the Foothill course was completed and initial grade, equivalent course identifier, date repeated and grade earned upon repetition, as well as the valid signatures of the student, discipline faculty member and division dean.

**High School Credits at Foothill**

Although Foothill College cannot grant a high school diploma, many local high schools recommend that students who are age 19 or older complete high school requirements by taking college courses. If you choose to earn a high school diploma this way, you should obtain a statement from your high school principal or counselor indicating:

- The subjects necessary to complete graduation requirements, and the number of quarter credits in each;
- Suggestions for Foothill courses to satisfy these requirements;
- The total number of quarter credits required, including electives; and
- Acceptance of credit for courses taken at Foothill.

When you complete the college courses, request that the Foothill College registrar send a college transcript to your high school. The diploma will be issued in accordance with your school’s procedures.

All credit courses taken at Foothill count as college credit, whether or not they count toward high school requirements.

**Off-Campus Trips & Activities**

Some programs require off-campus field trips and activities. Transportation is usually the responsibility of the individual student or a travel agency. The district is not liable for occurrences when participants are not under a faculty or staff member’s direct, scheduled supervision.

**Open-Entry/Open-Exit Classes**

Foothill offers several open-entry/open-exit courses, allowing you to work at your own pace. You may generally enroll in these courses at any time, through the end of the seventh week of the quarter. Many of these courses are offered in off-campus centers, fine arts and language arts laboratories and STEM Center. Lists of courses with unusual start times are available in these facilities and in the class schedule.

Independent/flexible study classes are not open-entry/open-exit classes. You must enroll in these classes by the end of the second week of instruction.

**Scholastic Honors**

Foothill commends students who earn the associate degree, complete a minimum of 24 Foothill units and meet the following criteria by awarding:

- Highest Honors: 4.0 GPA in all Foothill College coursework.
• High Honors: at least 3.5 GPA in all Foothill College coursework.
• Honors: at least 3.3 GPA in all Foothill College coursework.

Additional scholastic honors are awarded to eligible students on the following basis:

• Dean’s List: Awarded on a quarterly basis to full-time students completing 12 or more Foothill units in one quarter with at least a 3.5 GPA; and part-time students completing a minimum of 12 cumulative units at Foothill College with an overall and quarter Foothill GPA of at least 3.5.

• President’s Medal: Awarded at the annual commencement ceremony to first-time degree recipients with a 4.0 GPA in all college coursework, including 60 resident units at Foothill College. To qualify for this award students must petition for graduation by June 1.

**Course Repetition**

Unless exceptions are specifically indicated in course descriptions in this catalog, you cannot repeat a course that you completed with a grade of C or better. State law allows you to repeat a class no more than twice that you completed with a grade of D, F, NP or W. There is no limit on the number of times you may enroll in courses designed to meet a legally mandated training requirement as a condition of continued paid or volunteer employment.

If you successfully repeat and pass a course at Foothill or De Anza colleges in which a substandard grade had previously been recorded, the substandard grade(s) will be excluded for the purposes of calculating GPA and for all considerations associated with the awarding of certificates and degrees. It is important to note that all grade notations (including withdrawals) remain on your academic transcript, and that some transfer institutions may require recalculation of the GPA to include both the substandard grade and the subsequent grade. You may petition to replace a substandard grade earned at Foothill College with a passing grade subsequently earned at another accredited college or university. See “Petition to Replace Substandard Grade for Foothill College GPA Calculation” on page 46.

**Active Participation Course Limitation (Course Families)**

Pursuant to the California Community College Board of Governors, a student may not have more than six enrollments in any active participatory courses that are related in content. This limitation also applies to the student who receives a substandard grade (D, F, NP or NC) or withdrew from a course with a W-mark for one or more of the enrollments (CCR § 55000).

Active participatory courses included in this restriction are courses in physical education, visual arts and performing arts offered within the Foothill-De Anza Community College District. Foothill College and De Anza College have created course families within the district to address this limitation. These families include courses from Foothill and De Anza that contain related or similar content, and therefore, can only be taken in any combination for no more that six enrollments.

Prior to Fall 2013, the student was able to repeat active participatory courses. However, as of Fall 2013, all active participatory courses are non-repeatable and can only be taken one time subject to the limitation set forth in Title 5 (CCR §55040(c)).

This limitation does not contain a grandfather clause. Therefore, if the student has reached the maximum times of enrollment within a family, then he/she cannot enroll in any course within the family again within the Foothill-De Anza Community College District.

Additionally, if the student enrolls in a Foothill course that is equivalent to a De Anza course, within a course family, he/she may not take the De Anza course at any time and vice versa. For example: ART 4B at Foothill is equivalent to ARTS 4B at De Anza. If you have completed or plan to enroll in ART 4B at Foothill, then you cannot have completed or plan to enroll in ARTS 4B at De Anza.

**Credit by Examination (Challenge)**

As an enrolled Foothill student, you may be able to obtain credit by examination in subject matters or fields for which you are especially qualified through training or experience, but for which you have not already received college course credit or advanced placement credit.

The Petition for Credit by Examination Form is available online at foothill.edu/reg/forms.php. You may also obtain petitions from the division office of the course that you want to challenge during the first week of the quarter. The chart on pages 49–52 identifies those courses for which credit by examination is currently available. You may not challenge other courses. Prior to submitting a Petition for Credit by Examination, you are required to obtain approval from either the appropriate academic division dean or course instructor to verify your eligibility.

Examinations will normally be completed by the end of the second week. Units earned through credit by examination will be identified on your transcript. No course may be challenged during a term after which the class has met for two weeks. Credit by examination
is not available during the summer term. If you have previously failed a course, you are not eligible to petition for credit by examination in that course. Units of credit received through this procedure may not apply toward the minimum of 18 resident units required at Foothill College for the associate degree. A maximum of 30 units may be earned via credit by examination in the Foothill-De Anza Community College District. Units earned through credit by exam are not considered for financial aid, scholarship or veteran services eligibility and payments.

There are special limitations for challenging foreign language courses, courses that depend on laboratory or activity experiences, or sequential courses. You may not challenge a course at a lower level than one you have successfully completed in the same department. The examination may include written, oral or skill tests, or a combination of all three. This examination will determine whether you have demonstrated essentially the same knowledge and skills as students who successfully complete the traditional course. To obtain credit by examination, you are required to be enrolled in the course. The instructor will inform you about the requirements for successful completion. The examination grade will be entered as the course grade on your permanent record.

Although the University of California and California State University systems accept, within certain limitations, appropriate credits obtained by examination, Foothill College cannot guarantee that other institutions will do so. If you are pursuing credit by examination, you are encouraged to discuss the transfer and graduation implications with a counselor. The following courses are available for credit by examination: GEOG 12, 58, 101A, 101B, 101C and 101D.

Student Access to Education Records
The Family Education Rights & Privacy Act, also called FERPA (Section 438, Public Law 93380), requires educational institutions to provide student access to official education records directly related to the student. The act also says you have the right to challenge such records on the grounds that they are inaccurate, misleading or otherwise inappropriate.

Your written consent is required before the college will release personal information from your records to other than a specified list of persons and agencies. These rights extend to present and former Foothill students.

- The registrar is the college's designated records officer.
- Personal education records will be made available for inspection and review during normal business hours to currently and formerly enrolled students, within 45 days following completion and filing of a written request with the records officer.
- The college may release certain types of directory information unless you notify the records officer that certain or all information cannot be released without personal consent. Directory information may include (1) student name and city of residence, (2) date and place of birth, (3) participation in recognized activities and sports, (4) dates of attendance, (5) degrees and awards received, and (6) the most recent previous educational agency or institution attended, and (7) height and weight of members of athletic teams, which may be released only by the appropriate athletic staff member or athletic director. Objection to the release of this information must be made in writing to the Admissions & Records Office prior to the first day of instruction of any quarter or Summer Session.
College Credit for Advanced Placement (AP) Exams

- The student may earn credit for AP tests with scores of 3, 4 or 5. AP credit can be used to meet IGETC, CSU GE and Foothill A.A. or A.S. general education (GE) and/or major requirements.

- The student is responsible for formally requesting that the College Board send AP exam results to the Foothill College Evaluations Office (12345 El Monte Road, Los Altos Hills, CA 94022-4599) for use on the A.A., A.S. or GE patterns.

- Course credit and units granted at Foothill College may differ from course credit and units granted by a transfer institution.

- Programs noted with an asterisk (*) are not offered at Foothill College.

**A.A./A.S. Degrees**

Be aware that if an AP exam credit is evaluated as being equivalent to a Foothill course, e.g. HIST 4A, the student who receives AP credit and then completes the equivalent Foothill course will have the unit credit for such duplication deducted prior to being awarded the A.A./A.S. degree. Credit by AP exam is noted and listed first on the student’s transcript, with units assigned and no grade.

**CSU GE**

AP exams may be incorporated into the certification of CSU General Education–Breath requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated CSU General Education–Breath area if the exam is included as part of a full or subject-area certification. Be aware that individual CSU campuses may choose to grant more units than those specified toward completion of CSU General Education–Breath requirements.

**IGETC**

AP exams must be used in the IGETC area indicated regardless of where the certifying California Community College’s discipline is located.
International Baccalaureate Exam Policy

A student may earn credit for successful completion of International Baccalaureate (IB) higher-level subject exams with scores of 5, 6 or 7. IB credit can be used to meet IGETC, CSU GE and Foothill College A.A. or A.S. general education (GE) and/or major requirements as specified in the tables below. The student is responsible for formally requesting that the international baccalaureate organization send exam results to the Foothill College Evaluations Office (12345 El Monte Road, Los Altos Hills, CA 94022-4599 USA). Course units and credits granted at Foothill College may differ from course credit and units granted by a transfer institution.

Academic Honor Code

As a student at Foothill College, you join a community of scholars who are committed to excellence in the teaching and learning process.

We expect that students will pursue their studies with integrity and honesty and all students should know that incidents of academic dishonesty are taken very seriously.

What Is Academic Dishonesty?
The two most common kinds of academic dishonesty are cheating and plagiarism.

- Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of dishonest, deceptive or fraudulent means.
- Plagiarism is representing the work of someone else as your own and submitting it for any purpose.

It is your responsibility to know what constitutes academic dishonesty. Interpretations of academic dishonesty may differ among individuals and groups. However, as a student at Foothill, you are expected to refrain from the behavior outlined herein. If you are unclear about a specific situation, speak to your instructor.

The following list exemplifies some of the activities defined as academic dishonesty:

Cheating

- Copying, in part or in whole, from someone else’s test;
- Submitting work presented previously in another course, if contrary to the rules of either course;
- Altering or interfering with grading;
- Using or consulting, during an examination, any sources, consulting others, use of electronic equipment, including cell phones and PDAs, or use of materials not authorized by the instructor; or
- Committing other acts that defraud or misrepresent.

Plagiarism

- Incorporating the ideas, words, sentences, paragraphs or parts of another person’s writings, without giving appropriate credit, and representing the product as your own;
- Representing another’s artistic or scholarly works...
such as musical compositions, computer programs, photographs, paintings, drawings or sculptures as your own;

• Submitting a paper purchased from a research or term paper service, including the Internet; or

• Undocumented Web source usage.

Other Specific Examples of Academic Dishonesty

• Purposely allowing another student to copy from your paper during a test;

• Giving your homework, term paper or other academic work to another student to plagiarize;

• Having another person submit any work in your name;

• Lying to an instructor or college official to improve your grade;

• Altering a graded work after it has been returned, then submitting the work for re-grading;

• Stealing tests;

• Forging signatures on drop/add cards or other college documents; or

• Collaboration without permission of instructor.

Consequences of Academic Dishonesty

Academic and/or administrative sanctions may be applied when students are found responsible for violating our academic integrity process.

Academic consequences may include:

• Receive a failing grade on the test, paper or exam;

• Have your course grade lowered;

• Receive a grade of F in the course;

Administrative consequences may include:

• Written warning;

• Disciplinary probation;

• Suspension; or

• Expulsion

The Student Affairs & Activities Office maintains a record of students who have engaged in academic dishonesty. This information is used to identify and discipline students reported for academic dishonesty more than once. A copy of the Foothill College Student Conduct, Discipline & Due Process Procedure is printed in the handbook for each of these groups, and copies are available in the Student Affairs & Activities Office in Room 2002.

ACADEMIC POLICIES

Student Conduct & Due Process

I. Overview
In developing responsible student conduct, disciplinary proceedings play a role substantially secondary to example, counseling, guidance and admonition. At the same time, educational institutions have a duty and the corollary disciplinary powers to protect their educational purpose through the settings of standards of scholarship and conduct for the students who attend them and through the regulation of the use of institutional facilities. The purpose of these procedures is to provide a prompt and equitable means to address violations of the Student Code of Conduct, as set forth in FHDA Administrative Procedures (AP) 5510 and 5520, which guarantees the student or students involved the due process rights entitled to them by state and federal constitutional protections. These procedures will be used in a fair and equitable manner, and not for purposes of retaliation. They are not intended to substitute for criminal or civil proceeds that may be initiated by other agencies.

Foothill and De Anza colleges consider the following principles essential to their educational missions and community life:

• Mutual respect between students, faculty and staff;
• Pursuit of studies with honesty and integrity;
• Respect for college and personal property; and
• Compliance with all rules and regulations.

These standards are intended to promote responsible student conduct and fair play.

23. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

IV. Types of Disciplinary Action

The following are the usual types of discipline the college imposes for violations of its rule or California laws. The following topics are listed in alphabetical order.

   • Admonition: An administrative, verbal warning to the student to cease and desist from conduct determined to violate the Student Code of Conduct.
   • Day: Day(s) during which the district is in session and regular classes are held, excluding Saturdays and Sundays.
   • Disciplinary Probation: Exclusion from participation in privileges or extracurricular activities set forth in the notice of disciplinary probation for a specified period of time.
   • Expulsion: Exclusion of the student by action of the FHDA Community College District Board of Trustees from all colleges in the district for one or more terms, or permanently.
   • Removal from Class: Exclusion of the student by an instructor for the day of the removal and the next class meeting.
   • Restitution: Financial liability for damage to or misappropriation of property. Restitution may take the form of appropriate service to repair or otherwise compensate for damages.
   • Summary Suspension: Any student who has willfully disrupted the orderly operation of the campus may be promptly suspended pending a hearing, where such immediate suspension is required in
order to protect lives or property and to ensure the maintenance of order, provided, however, that a reasonable opportunity must be afforded the suspended person for hearing within 10 days. In all other cases, where disciplinary action is to be taken in response to willful disruption of the orderly operation of the campus, discipline shall be imposed only after a prompt hearing by a campus body resulting in a finding that the student willfully disrupted the orderly operation of the campus.

- Suspension: Exclusion of the student for good cause from one or more classes for a period of up to 10 days of instruction, or the remainder of the school term, or from all classes and activities for one or more terms. The suspended student is prohibited from being enrolled in any other college in the district for the period of suspension.

- Withdrawal of Consent to Remain on Campus: Withdrawal of consent by the student discipline officer for any person to remain on campus in accordance with California Penal Code Section 626.4 where the student discipline officer has reasonable cause to believe that such person has willfully disrupted the orderly operation of the campus.

- Written Warning: Written notice to the student that continuation or repetition of specific conduct found wrongful within a period of time stated in the warning, may be cause for more severe disciplinary action. Written reprimands may become part of a student’s permanent record at the college.

V. Discipline & Due Process Procedures at Foothill College

Except in cases where immediate discipline pending a hearing is authorized, the following procedures will apply before disciplinary action is taken to suspend or expel a student. The student discipline officer will determine if there are sufficient grounds to warrant discipline. If the student discipline officer determines sufficient grounds exist to warrant discipline, the student will be provided with written notice of that determination. The written notice will include the following:

- The specific section of the Student Code of Conduct that the student is charged with violating;
- A short statement of the facts supporting the accusation; and
- The nature of the discipline that is being considered.

The following topics are listed in chronological order.

- Time Limits: The notice must be provided to the student within 10 days of the date on which the conduct took place; in the case of continuous, repeated or ongoing conduct, the notice must be provided within 10 days of the date on which conduct occurred which led to the decision to take disciplinary action.

- Pre-Hearing Meeting: If the student chooses to meet with the student discipline officer, the meeting must occur no sooner than 10 days after the notice is provided. At the meeting, the student must again be told the facts leading to the accusation, and must be given an opportunity to respond verbally or in writing to the accusation.

- Schedule of Hearing: The formal hearing shall be scheduled within 10 days after the pre-hearing meeting with the student discipline officer.

- Campus Disciplinary Hearing Board: This board shall be comprised of members of the faculty and administration. The student discipline officer and the president of the Academic Senate shall each, at the beginning of the academic year, establish a list of persons who will serve on student disciplinary hearing panels. The student discipline officer shall appoint the hearing panel from the names on these lists. The administrator on the hearing panel shall serve as chair. However, no administrator or faculty member who has any personal involvement in the matter to be decided, who is a necessary witness, or who could not otherwise act in a neutral manner shall serve on a hearing panel.

- Conduct of the Hearing: The members of the hearing panel shall be provided with a copy of the accusation against the student and any written response provided by the student before the hearing begins. The student discipline officer shall present the facts supporting the accusation. The student discipline officer and the student may call witnesses and introduce oral and written testimony relevant to the issues of the matter. Formal rules of evidence shall not apply. Any relevant evidence shall be admitted. Unless the hearing panel determines to proceed otherwise, the student discipline officer and the student shall each be permitted to make an opening statement. Thereafter, the student discipline officer shall make the first presentation, followed by the student. The student discipline officer may present rebuttal evidence after the student completes his or her evidence. The burden shall be on the student discipline officer to prove by substantial evidence that the facts alleged are true. The student may represent himself or herself, and may also have the right to be represented by a person of his or her choice. An attorney shall not represent the student unless, in the judgment of the hearing panel, complex legal issues are involved. If the student
wishes to be represented by an attorney, a request must be presented not less than five days prior to the date of the hearing. If the student is permitted to be represented by an attorney, the student discipline officer may request legal assistance. The hearing panel may also request legal assistance; any legal advisor provided to the panel may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it. Hearings shall be closed and confidential unless the student requests that it be open to the public. Any such request must be made no less than five days prior to the date of the hearing. In a closed hearing, witnesses shall not be present when not testifying, unless all parties and the panel agree to the contrary. The district shall record the hearing either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the hearing panel chair shall, at the beginning of the hearing, ask people present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. Tape recordings shall remain in the custody of the district at all times, unless released to a professional transcribing service. The student may request a copy of the tape recording. All testimony shall be taken under oath; the hearing panel chair shall administer the oath. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape-recorded is considered unavailable. Within 10 days following the close of the hearing, the hearing panel shall prepare and forward to the student discipline officer a written recommendation. The recommendation shall include specific factual findings regarding the accusation, and shall include specific conclusions regarding whether any specific section of the standards of student conduct were violated. The decision shall also include a specific recommendation regarding the disciplinary action to be imposed, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original accusation, the written response, if any, of the student, and the oral and written evidence produced at the hearing. The student discipline officer will forward the recommendation to the president.

• **Immediate Summary Suspension:** The president may order immediate interim suspension pending a hearing of a student where he/she concludes that immediate suspension is required to protect lives or property and to ensure the maintenance of order, provided that a reasonable opportunity is afforded the suspended person for a hearing within 10 days. This procedure complies with *Education Code Section 66017.*

• **Removal from Class:** Any instructor may order a student removed from his/her class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the student discipline officer. The student discipline officer shall arrange for a conference between the student and the instructor regarding the removal. If the instructor or the student requests, the student discipline officer shall attend the conference. The student shall not be returned to the class during the period of the removal without the concurrence of the instructor. Nothing herein will prevent the student discipline officer from recommending further disciplinary procedures in accordance with these procedures based on the facts that led to the removal. This procedure complies with *Education Code Section 76032.*

• **Withdrawal of Consent to Remain on Campus:** Also review *Penal Code Section 626.4.* The student discipline officer may notify any person for whom there is a reasonable belief that the person has willfully disrupted the orderly operation of the campus and that consent to remain on campus has been withdrawn. If the person is on campus at the time, he/she must promptly leave or be escorted off campus. If the student discipline officer withdraws consent, a written report must be promptly made to the college president and the district police. The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the period of the withdrawal. The request shall be granted not later than 10 days from the date of receipt of the request. The hearing will be conducted in accordance with the provisions of this procedure relating to interim suspensions. In no case shall consent be withdrawn for longer than 10 days from the date upon which consent was initially withdrawn. Any person as to whom consent to remain on campus has been withdrawn who knowingly re-enters the campus during the period in which consent has been withdrawn, except to come for a meeting or hearing, is subject to arrest.

• **President’s Decision for Suspension:** Within 10 days following receipt of the hearing panel’s recommended decision, the college president shall render a written decision. The college president may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the president modifies or rejects the hearing panel’s decision, the college president shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. Written notice of the college president’s decision shall be provided to
the student. The notice will include the right of the student to request an appeal of the decision within 30 days of receipt of the decision. The college president will review the appeal and any additional information provided by the student, and render a decision on the appeal. The decision of the college president shall be final. The college president shall notify the district chancellor of the decision to suspend a student.

- President’s Decision for Expulsion: Within 10 days following receipt of the hearing panel’s recommended decision, the college president shall render a written recommended decision to the FHDA board of trustees. The college president may accept, modify or reject the findings, decisions and recommendations of the hearing panel. If the college president modifies or rejects the hearing panel’s decision, the college president shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. The college president’s recommendation shall be forwarded to the FHDA board of trustees.

- Board of Trustees’ Decision: Once received, the college president’s recommendation will be placed on the agenda of the next regularly scheduled district board meeting. The district board of trustees shall determine whether to expel a student for cause following hearing before the board. The board shall consider an expulsion recommendation in closed session, unless the student has requested that the matter be considered in a public meeting in accordance with these procedures (Education Code Section 72122). The student shall be notified in writing, by registered or certified mail or by personal service, at least three days prior to the meeting, of the date, time and place of the board’s meeting. The student may, within 48 hours after receipt of the notice, request that the hearing be held as a public meeting. Even if a student has requested that the board consider an expulsion recommendation in a public meeting, the board will hold any discussion that might be in conflict with the right to privacy of any student other than the student requesting the public meeting in closed session. The board may accept, modify or reject the findings, decisions and recommendations of the college president and/or the hearing panel. If the board modifies or rejects the decision, the board shall review the record of the hearing, and shall prepare a new written decision that contains specific factual findings and conclusions. The decision of the board shall be final. The final action of the board on the expulsion shall be taken at a public meeting, and the result of the action shall be a public record of the district.

So that you are fully aware of student rights and responsibilities, you should also review the Foothill College Student Conduct & Due Process Booklet. The administrative and board policies referred to in this section are also available online at fhda.edu. Printed versions of both booklets are available in the Student Affairs & Activities Office in Room 2002 and the Foothill-De Anza Community College District Chancellor’s Office located on the Foothill College campus.

Purpose
The purpose of this procedure is to provide a prompt and equitable means of resolving student grievances. This procedure is for student grievances only. Faculty and staff with complaints regarding students should refer to Administrative Procedure 5510: Student Code of Conduct and Administrative Procedure 5520: Student Due Process & Discipline. The student grievance procedures shall be available to any student who reasonably believes a college decision or action has adversely affected his or her status, rights or privileges as a student. The procedures shall include grievances regarding:

- Course grades, to the extent permitted by Education Code Section 76224(a), which provides: “When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final.”

- Act or threat of intimidation or harassment. These procedures do not apply to sexual harassment or illegal discrimination. Sexual harassment or complaints on the basis of race, color, national or ethnic origin, age, gender, sexual orientation, marital status, or physical or mental disability should be directed to the dean of Student Affairs & Activities at Foothill College or the dean of Student Development & EOPS at De Anza College.

- Arbitrary action or imposition of sanctions without proper regard to academic due process specified in the college procedures, unrelated to disciplinary actions.

- The exercise of rights of free expression protected by state and federal constitutions and Education Code Section 76120.

This procedure does not apply to:

- Student disciplinary actions, which are covered under separate board policies and administrative procedures. (See Administrative Procedure 5520: Student Due Process & Discipline.)

- Police citations (i.e. “tickets”). Complaints about citations must be directed to the Santa Clara County Superior Court Parking Violations Office in the same way as any traffic violation.

- Sexual harassment. Complaints of sexual harassment should be directed to the dean of Student Affairs & Activities at Foothill College or the dean of Student Development & EOPS at De Anza College.

- Illegal discrimination. Complaints of discrimination on the basis of race, color, national or ethnic origin, age, gender, sexual orientation, marital status, or physical or mental disability filed against an employee of the district should be directed to the dean of Student Affairs & Activities at Foothill College or the dean of Student Development & EOPS at De Anza College.

- Residence determination. Student should contact the associate registrar at Foothill College or the director of Admissions & Records at De Anza College.

- Dismissal from college for academic reasons. Student should consult a Foothill counselor. If there are extenuating circumstances, the student may appeal the dismissal to the Academic Council after consulting a Foothill counselor.

Definitions

- Grievant: A student alleging that a college decision or action has adversely affected his or her status, rights or privileges as a student, or alleges that another student has violated the student’s rights.

- Party: The student, or any persons claimed to have been responsible for the student’s alleged grievance, together with their representatives. “Party” shall not include the grievance hearing committee or the college grievance officer.

- President: The college president or a designated representative of the college president.

- Student: A currently enrolled student, a person who has filed an Application for Admission to the college, or a former student. A grievance by an applicant shall be limited to a complaint regarding denial of admission.

- Respondent: Any person claimed by a grievant to be
responsible for the alleged grievance.

• Work Day: A work day shall mean days during which the district is in session and regular classes are held, excluding Saturdays and Sundays. All time deadlines shall be measured by work day, unless otherwise specified as calendar days.

Informal Resolution of Grievances
Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person’s immediate supervisor, or the vice president who oversees that division.

1. The college president has appointed an employee who shall assist students in seeking resolution by informal means. This person shall be called the grievance officer.

2. Informal meetings and discussion between persons directly involved in a grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought before persons directly involved in the case have stated official or public positions that might tend to polarize the dispute and render a solution more difficult. At no time shall any of the persons directly or indirectly involved in the case use the fact of such informal discussion, the fact that a grievance has been filed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute or for any purpose other than the settlement of the grievance.

3. Any student who believes he or she has a grievance shall file a Statement of Grievance Form with the grievance officer within 30 calendar days of the incident on which the grievance is based, or 30 calendar days after the student could have reasonably discovered the basis for the grievance, whichever is later. The Statement of Grievance Form must be filed within the above time frame whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official. Within two work days following receipt of the Statement of Grievance Form, the grievance officer shall advise the student of his or her rights and responsibilities under these procedures, and assist the student, if necessary, in the final preparation of the Statement of Grievance Form.

• If at the end of 10 work days following the student’s first meeting with the grievance officer, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a grievance hearing.

Steps in the Informal Process Involving College Employees

• The student shall confer with the faculty member, administrator or classified staff person directly involved in the facts giving rise to the grievance.

• If unresolved after Step 1, the student shall confer with the faculty member’s division dean, or the supervisor of the administrator or classified staff person.

• If unresolved after Step 2, the student shall confer with the vice president of that dean’s or supervisor’s division.

• Within the 30-calendar-day time limit as previously outlined, if the student does not feel that the matter can be resolved after completing Steps 1, 2 and 3, an official Statement of Grievance Form may be filed with the grievance officer. The grievance officer will advise the student of his/her rights and assist the student, if necessary, in the final preparation of the Statement of Grievance Form.

• If after 10 work days from the first meeting with the grievance officer there is no informal resolution, the student may request a grievance hearing.

• If the complaint involves a grievance against another student, grievant shall confer directly with the grievance officer, who will advise the grievant of his/her rights and assist the grievant in preparing the Statement of Grievance Form.

Formal Grievance Process

Grievance Hearing Committee

• The college president or his/her designee shall at the beginning of each quarter, including any summer session, establish a standing panel of members of the college community, including faculty members and administrators, from which one or more grievance hearing committees may be appointed. The panel will be established with the advice and assistance of the Academic Senate, who shall submit names to the president or his/her designee for inclusion on the panel. A grievance hearing committee shall include three members from the panel described above. The administrator on the hearing panel shall serve as chair.

• No person shall serve as a member of a grievance hearing committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at
issue, or could otherwise not act in a neutral manner.

• The grievance officer shall sit with the grievance hearing committee but shall not serve as a member nor vote. The grievance officer shall coordinate all scheduling of hearings, shall serve to assist all parties and the hearing committee to facilitate a full, fair and efficient resolution of the grievance, and shall avoid an adversary role.

Request for Grievance Hearing

Any request for a grievance hearing shall be filed on a Request for a Grievance Hearing Form in writing within 30 calendar days after discovery of the grievable action and after completing steps 1–3 of the informal process previously outlined.

• Within 10 work days following receipt of the Request for Grievance Hearing Form, the grievance officer shall convene a grievance hearing committee as described above, and the grievance hearing committee shall meet in private and without the parties present to determine on the basis of the Statement of Grievance whether it presents sufficient grounds for a hearing.

• The determination that the Statement of Grievance presents sufficient grounds for a hearing shall be made if the following are found to be true:
  • The statement contains facts, which, if true, would constitute a grievance under these procedures;
  • The grievant is a student as defined in these procedures, which include applicants and former students;
  • The grievant is personally and directly affected by the alleged grievance;
  • The grievance was filed in a timely manner; and
  • The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.

• If the grievance does not meet each of the requirements, the hearing committee chair shall notify the student in writing of the rejection of the Request for a Grievance Hearing, together with the specific reasons for the rejection and the procedures for appeal. This notice will be provided within seven work days of the date the decision is made by the grievance hearing committee.

• If the Request for Grievance Hearing satisfies each of the requirements, the college grievance officer shall schedule a grievance hearing. The hearing will begin within 30 calendar days following the decision to grant a grievance hearing. All parties to the grievance shall be given not less than 10 work days notice of the date, time and place of the hearing.

Hearing Procedure

The grievance hearing committee chair is responsible for ensuring that administrative procedures are followed and for maintaining decorum at the hearing.

• The members of the grievance hearing committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins.

• Each party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.

• Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.

• Unless the grievance hearing committee determines to proceed otherwise, each party to the grievance shall be permitted to make an opening statement. Thereafter, the grievant or grievants shall make the first presentation, followed by the respondent or respondents. The grievant(s) may present rebuttal evidence after the respondent(s’) evidence. The burden shall be on the grievant or grievants to prove by substantial evidence that the facts alleged are true and that a grievance has been established as specified above.

• Each party to the grievance may represent himself or herself, and may also have the right to be represented by a person of his or her choice; except that a party shall not be represented by an attorney unless, in the judgment of the grievance hearing committee, complex legal issues are involved. If a party wishes to be represented by an attorney, a request must be presented not less than 10 work days prior to the date of the hearing. If one party is permitted to be represented by an attorney, any other party shall have the right to be represented by an attorney. The hearing committee may also request legal assistance; any legal advisor provided to the hearing committee may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.

• Hearings shall be closed and confidential unless all parties request that it be open to the public. Any such request must be made no less than five work days prior to the date of the hearing. In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the committee agree to the contrary.

• The hearing shall be recorded by the grievance
officer either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the grievance hearing committee chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. The tape recording shall remain in the custody of the district, either at the college or the district office, at all times, unless released to a professional transcribing service. Any party may request a copy of the tape recording.

- All testimony shall be taken under oath; the oath shall be administered by the grievance hearing committee chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape-recorded shall be considered to be unavailable.

- The grievance hearing committee shall prepare and send a decision to the grievance officer. The decision will be forwarded by the grievance officer to the grievant within 14 work days. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined. The decision shall also include a specific recommendation regarding the relief to be afforded the grievant, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing.

**Appeal & President’s Decision**

A student prejudiced by a decision of the grievance hearing committee shall be entitled to appeal that decision to the college president. The appeal shall be made in writing to the college president within 30 calendar days of receipt of the grievance hearing committee’s decision. The college president shall review the appeal and the grievance hearing committee’s findings and conclusions, and will render a decision. Within seven work days following the receipt of the request for appeal, the college president shall prepare and send a decision to the grievant. The decision of the college president shall be final.

**Time Limits**

Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

**Illegal Distribution of Copyrighted Materials**

Foothill College students are prohibited from using the Foothill-De Anza (FHDA) Community College District information network to illegally download or share music, video and all other copyrighted intellectual property. Foothill College supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the FHDA information network who have violated the law.

Be aware that illegal forms of downloading and file sharing, as well as the unauthorized distribution of copyrighted materials are violations of the law and may subject you to academic sanctions from the college as well as criminal and civil penalties, including a lawsuit against you by the Recording Industry Association of America (RIAA). Learn more at riaa.com/resources-learning-for-students-education.

In addition to being illegal, file sharing drains the FHDA network’s bandwidth, which slows computer connections for students and employees who are using the network for legitimate academic purposes and ultimately costs the college money.

The college has developed policies and consequences to ensure that students respect music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies at foothill.edu/services/studentright.php#misuse.

There are numerous ways to download music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners that offer a range of legal downloading options, including download and subscription services, legitimate peer-to-peer services, video-on-demand and podcasts. For a list of sources that offer legal downloading sites, visit whymusicmatters.com.

**Summary of Civil & Criminal Penalties for Violation of Federal Copyright Laws**

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under the Copyright Act. These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading and/or uploading substantial parts of a copyrighted work without authority constitutes an infringement. For details, review U.S. Code Title 17; Section 106.

Civil and criminal penalties are applicable for copyright infringement. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than $750 and not more than $30,000 per work
infringed. For willful infringement, a court may award up to $150,000 per work infringed. A court can also assess related costs and attorneys’ fees. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. For details, review U.S. Code Title 17; Sections 504–505.

Likewise, the district will not purposefully monitor or punish reasonable use of the network for union business-related communication between employees and their unions. Associate in Arts & Associate in Science Degree Graduation Requirements

Requirements for the associate in arts (A.A.) and associate in science (A.S.) degrees are listed on pages 78–79 and include completion of all the following:

• A minimum of 90 units in prescribed courses;
• A minimum of 18 units completed at Foothill College;
• A GPA of 2.0 or better in all college courses including Foothill courses;
• A major of at least 27 units in a curriculum approved by the Foothill College Curriculum Committee;
• The general education requirements are listed on pages 78–79. If you plan to transfer to a four-year college or university, you should also review the specific requirements of those institutions;
• English Proficiency: ENGL 1A or 1AH or 1S and 1T or ESLL 26;
• Math Proficiency: MATH 17, 105 or 108; and
• The student may apply only one English or ESLL course below transferable freshman composition toward the associate degree.

One course is required from Area I through Area VI. Two courses (a minimum of four units from two disciplines) are required in Area VII. Courses may only be used in one area.

Note that completion of the IGETC or CSU GE Breadth pattern may also be used to satisfy the general education requirements for the Foothill A.A./A.S. degree. Because there are significant differences between the three patterns, you are strongly advised to meet early and often with a counselor to determine which pattern will best meet your goals.

General Education Reciprocity

The Foothill-De Anza Community College District has entered into a mutual General Education (GE) Reciprocity Agreement with other community colleges to accept the general education courses of these colleges “as completed.” In addition to Foothill, participating institutions include Chabot, De Anza, Evergreen Valley, Gavilan, Las Positas, Mission, Ohlone, San Jose City and West Valley colleges.

The reciprocity agreement allows students who obtain a certification of completion of associate degree GE requirements at one of the participating colleges to transfer both the GE coursework and graduation proficiencies to any of the other participating colleges.

Additional GE coursework will not be required if the official certification is presented. Students will still be required to complete all courses or prerequisites needed for a major. The agreement also means that the other participating colleges will accept the Foothill GE pattern when presented with official certification.

In addition to the General Education Reciprocity Agreement, Foothill College will exempt students who have already earned an associate degree from another California community college or who submit general education certification from another California community college (other than the nine colleges previously identified) from having to complete any additional general education or additional English/mathematics proficiency coursework to earn the Foothill A.A./A.S. Local general education requirements may also be met by completion of the IGETC or CSU General Education Breadth Requirements. For more information, schedule an appointment with a counselor.

Students seeking an official general education certification for use by a reciprocity institution are encouraged to review their records with a counselor prior to submitting the General Education Certification Request. Students who have completed courses at other colleges and universities must have official transcripts on file prior to submitting the request. Requests for A.A./A.S. general education certification may be submitted to the Evaluations Office in Room 8301.

Petition for Graduation

Upon completion of required coursework, you may request to receive an associate degree (A.A./A.A.-T/ A.S./A.S.-T) from Foothill College. You must complete a 30-minute petition for graduation consultation with a Foothill counselor and all transcripts of your college coursework at Foothill and/or other schools must be on file at Foothill College. The petition should be filed no later than the beginning of the quarter during which you plan to complete graduation requirements. Foothill confers degrees every quarter, and the annual commencement ceremony is presented in June. For more information, schedule a consultation with a counselor by visiting foothill.edu/counseling.

Catalog Rights/Requirements for Graduation

The Course Catalog serves as an agreement between the student and the college to identify courses that the student must complete in order to qualify for a degree or certificate. The student has the right to select the course requirements for a degree or certificate from any catalog as long as continuous enrollment has been maintained.

Allied health programs reserve the right to change catalog rights by modifying program requirements based upon state and federal accreditation standards.
Continuous Enrollment
Continuous enrollment is important in deciding which catalog a student may select to determine degree or certificate requirements. A continuously enrolled student is defined as one who attended Foothill or De Anza colleges at least two quarters each academic year, excluding Summer Session. A single W-mark in a term qualifies as an attended term.

Currency of Major/Certificate Requirements
In certain Foothill College programs, currency of course content is essential. The Foothill College Curriculum Committee reserves the right to determine an acceptable level of currency of any course in any major or certificate. This means that a course may only be used toward fulfilling a certificate or degree for a prescribed number of years. Students should check certificate and major requirements for courses that are noted as having currency levels.

Online Degrees
The Foothill Online Learning Program offers online educational opportunities and services comparable to those available to on-site students. The program offers students a variety of online learning courses that meet the same high academic standards as traditional classes.

The program also offers several associate degree programs entirely online, including accounting, anthropology, art history, economics, general studies/social science, graphic and interactive design, history, humanities, music general, music technology, psychology, sociology and women’s studies, as well as general education requirements. These degrees are fully transferable and can be completed online. A few courses, such as communication, English and math, may require occasional meetings or proctored exams.

Foothill College may be required to receive state authorization to enroll students who do not reside in California. Many states have either given the college this authorization or do not require authorization. However, some states require significant fees to receive state authorization. Due to the significant and/or recurring fees for state authorization, Foothill College no longer permits a student to enroll if he/she resides in any of the following states: Alabama, Arkansas, Maryland, Minnesota, Utah or Wisconsin. For more information, visit foothill.edu/fga.

Discontinued Degrees
A discontinued degree is one that was once offered by Foothill College but which is no longer offered. To be considered for an associate degree in a discontinued program, the student who has maintained continuous enrollment may file to graduate from Foothill College within seven years of the time that a program is discontinued.

Non-Transcriptable Certificates
Per Title 5 regulations, certificates of achievement are noted on the student’s transcript. However, certificates of completion, proficiency, specialization, skill, and career are not reflected on the student’s transcript.

Course Numbering System
Most Foothill courses are baccalaureate in level and can be transferred to four-year institutions. For complete course numbering guidelines, refer to page 128.

Certification of General Education for Transfer
Foothill College will certify completion of up to 58 units of the 72-unit general education requirement for graduation from the CSU (page 81). IGETC Certification for CSU or UC requires full certification of Areas 1 through 5 (page 80). You may request certification by completing the official certification form or transcript request form available from the Admissions & Records Office in Room 8101 or Evaluations Office in Room 8301.

You are encouraged to consult with a counselor for help in selecting courses. We encourage all students to consult with a counselor each quarter for new course requirements.

Four-Year Institution Requirements
Articulation Agreements
Articulation is the process of negotiating and approving Foothill courses with other institutions. Foothill has course-to-course and major-preparation articulation agreements with every UC and most CSU campuses, as well as many four-year colleges and universities. This information is available to you through your counselor or via the Internet. To review online information, visit these websites:

- foothill.edu
- assist.org
- Website of the specific college of interest

Assist Web Page
As the official statewide repository for articulation information, Assist (assist.org) is the primary site for students to find specific Foothill College courses that fulfill general education and/or major preparation requirements at UC and CSU campuses. Listings of course equivalencies assist students in selecting appropriate courses to prepare for transfer. Information about exploring majors, selection criteria for impacted and selective programs/majors, transfer credit limitations and important links to UC and CSU websites are also available at assist.org. Although Assist is an excellent tool, it is recommended that students...
apply Assist information to their education plan in conjunction with a Foothill counselor.

**Transfer Admission Guarantees**
If you complete a Transfer Admission Guarantee (TAG), you'll receive first consideration for admission to selected colleges and universities. You must complete agreed-upon general education courses, as well as major courses, with a specified minimum grade-point average. Consult with a counselor to develop a TAG. The TAG must be prepared before transfer. The TAG ensures acceptance and smooth transfer to the chosen college or university. The Transfer Center, Room 8329, has additional information regarding deadlines for TAGs. The following institutions offer Transfer Admission Guarantees for Foothill students:

- American University, Paris
- Arizona State University
- California State University System*
- Cogswell College
- Cornell University**
- Golden Gate University
- Menlo College
- Notre Dame de Namur University
- Palo Alto University
- UC Davis
- UC Irvine
- UC Merced
- UC Riverside
- UC Santa Barbara
- UC Santa Cruz
- University of the Pacific

*Applies to associate degrees for transfer.
**Applies to School of Civil & Environmental Engineering.

Verify current TAG availability in the Transfer Center. Additional transfer agreements are available through the Foothill Honors Institute, including the Transfer Alliance Program with the UCLA. To verify current honors agreements, visit the Honors Institute (Room 1961).

**Course Identification Numbering System**
The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. C-ID approval signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Students should always review assist.org to confirm how each college’s course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for the student who is attending more than one community college and is applied to many of the transferable courses the student will need as preparation for transfer. Because these course requirements may change or be modified and qualified for or deleted from the C-ID database, the student should always check with a counselor to determine how C-ID-designated courses fit into his/her educational plans for transfer.

The student may consult the Assist database at assist.org for specific information on C-ID course designations. For assistance interpreting or explaining this information, schedule an appointment with a counselor.

**University of California (UC) Breadth General Education Requirements**
The UC has campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara and Santa Cruz.

UC campuses have uniform basic eligibility requirements. Each campus is distinct, however, and not all majors are offered at every campus. Each school and college at a specific UC campus has outlined major requirements that prepare you for the academic discipline.

Foothill’s counselors and Transfer Center staff can advise you regarding the courses acceptable for credit at UC campuses, as well as those that meet the breadth requirements for specific UC colleges and schools. You can also review this information at assist.org. The Foothill College website at foothill.edu includes the Transfer Course Agreement Listing for all Foothill courses that are transferable to all UC campuses. You should explore all undergraduate colleges, schools and majors to determine which campuses will best satisfy your educational needs. We encourage you to discuss the advantages of each major and campus with a counselor.

**Preparation for Transfer to Four-Year Colleges & Universities**
Each year, hundreds of Foothill College students transfer to four-year colleges or universities after completing lower-division major preparatory and general education requirements. The secret of our students’ success is that they understand which courses are required for the following three transfer elements:

- Minimum admission eligibility/requirements;
- Requirements in preparation for the identified major; and
- Completion of general education/breadth
requirements.

- Depending upon the transfer institution, the requirements may differ.

Counselors are an excellent resource for transfer information. Understanding the minimum requirements ensures that students can transfer in a timely manner to earn their bachelor’s degree without delay.

These requirements are subject to change annually; therefore, the student should meet with a counselor every year. Many of the courses offered at Foothill College are similar to courses offered in the lower division, or first two years, at four-year colleges and universities. Because there is a wide variation between requirements at different universities, it is recommended that you decide on your major and transfer institution as soon as possible. In addition to offering counselors to help you with this decision, Foothill College offers counseling (CNSL) and Career Life Planning (CRLP) courses to help you explore and evaluate options.

Transfer to the California State University (CSU)
For students interested in transfer to one of the 23 campuses of the CSU, admission eligibility is based on transferable units completed. You are considered a transfer student if you complete college units after the summer following graduation from high school. Admission offices at the 23 CSU campuses use a common set of factors to make admission decisions for both classes of transfer students. All campuses have higher standards for out-of-state students and international students. Some campuses have higher standards for particular majors. Finally, some campuses give preference in admission to students who reside or have completed an identified number of units at institutions in their local area. For detailed information, visit calstate.edu/sas/publications.

Associate Degrees for Transfer to the CSU System
The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an associate degree for transfer, which is a newly established variation of the associate degree traditionally awarded by the California Community Colleges. The associate in arts for transfer (A.A.–T.) and associate in science for transfer (A.S.–T.) degrees are intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing the A.A.–T. or A.S.–T. degree program are guaranteed admission to the CSU system, but not to a particular campus or major.

In order to earn an A.A.–T. or A.S.–T. degree, students must complete a minimum of 90 required quarter units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus in a major that accepts the A.A.–T. or A.S.–T. degree will be required to complete no more than 60 semester/90 quarter units after transfer to earn the bachelor’s degree (unless the major is a designated to be a high-unit major). Note: The A.A.–T. or A.S.–T. degree may not be the best option for students who intend to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students who plan to complete the A.A.–T. or A.S.–T. degree are strongly encouraged to meet early and often with a counselor for more information on university admission and transfer requirements. Consult a counselor for more information.

Lower-Division Transfer Admission
Many CSU campuses do not accept lower-division transfers. Be sure to check with the campus if you are considering transfer as a lower-division student. Students who have completed fewer than 60 transferable semester units (90 quarter units) are considered lower-division transfer students. You are eligible for admissions consideration as a lower-division transfer if you:

- Have a college grade-point average of 2.0 or better in all transferable college units completed;
- Are in good standing at the last college or university attended; i.e., you are eligible to re-enroll;
- Meet the admission requirements for a first-time freshman or have successfully completed the necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects; and
- Meet the eligibility index required of a freshman.

Upper-Division Transfer Admission
Students who have completed 60 or more transferable semester units (90 quarter units) are considered upper-division transfer students. You are eligible for admission if you:

- Have an overall college grade-point average of 2.0 or better (2.4 for California nonresidents) in all transferable college units attempted;
- Are in good standing at the last college or university attended; i.e., you are eligible to re-enroll; and
- Prior to transfer, you complete at least 30 semester units (45 quarter units) of general education coursework with a grade of C or better. The 30 (45) units must include all of the general
education requirements in English composition, oral communication, critical thinking and at least one course of 3 semester units (4 quarter units) in college-level mathematics.

**Major Requirements**

Students are encouraged to complete as many lower-division major preparatory requirements as possible prior to transfer. Many majors, especially in highly selective programs, have supplemental requirements that must be met prior to transfer. Consult with a counselor for additional information. These requirements may also be viewed at assist.org. Some oversubscribed programs may require supplemental courses or information for admission.

**Transfer to the University of California (UC)**

The UC campuses at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara and Santa Cruz all share the same minimum admission requirements; however, each campus is unique. The academic programs offered, the size of the student body and the location are just a few of the factors that contribute to the individual character of each campus. Entrance requirements may vary, as well. Although some campuses are able to admit all eligible transfer applicants, others can accommodate only a limited number of transfer students. Academic preparation and grade-point average (GPA) are used by the competitive campuses and programs in the selection process. Criteria vary from year to year and from campus to campus according to the number and qualifications of applicants to each campus and program. For more information about campuses, consult the university general catalogs available online or in the Foothill College Transfer Center (Room 8329). Complete information on the UC may be found at universityofcalifornia.edu/admissions.

The UC will award graduation credit for up to 105 lower-division quarter units of transferable coursework from a community college. Courses in excess of 105 quarter units will receive subject credit and may be used to satisfy university subject requirements. There is no limit, however, on the number of units used to determine a student’s GPA, so all UC-transferable units will apply.

**Minimum Admission Requirements for Transfer Applicants Who Are California Residents**

The UC considers you a transfer applicant if you enrolled in a regular session at a college or university after high school, not including summer session. (You can’t disregard your college record and apply as a freshman.) There are three ways to meet the university’s minimum admission requirements for transfer students. The path you use depends on the degree to which you satisfied UC’s minimum eligibility requirements for freshmen at the time you graduated from high school.

- If you were eligible for admission to the university when you graduated from high school—meaning you satisfied the subject, scholarship and examination requirements, or were identified by the university during your senior year in high school as eligible in the local context—you are eligible to transfer if you have a 2.0 GPA in your transferable college coursework.

- If you met the scholarship requirements in high school but did not satisfy the 15-course subject requirement, you must take transferable college courses in the missing subjects, earn a grade of C or better in each required course, and maintain a 2.0 GPA in all transferable coursework to be eligible for transfer.

- If you were not eligible for admission to the university when you graduated from high school because you did not meet the scholarship requirement, you must:

1. Complete 90 quarter units/60 semester units of transferable college credit with at least a 2.4 GPA (2.8 for nonresidents). No more than 21 quarter/14 semester units may be taken as Pass/No Pass, and

2. Complete the following seven transferable college courses, earning a grade of C or better in each course:

   - Two courses in English composition;
   - One course in mathematical concepts and quantitative reasoning;
   - Four courses chosen from at least two of these subject areas: arts and humanities, social and behavioral sciences, and physical and biological sciences; and
   - Each course must be worth at least 4–5 quarter/3 semester units.
For a list of UC-transferable courses and those that specifically meet the seven-course pattern described above, visit assist.org.

Eligibility for transfer does not guarantee admission. To present a competitive application, students are encouraged to exceed minimum requirements.

**Nonresidents**
The minimum admission requirements for nonresidents are very similar to those for residents. If you are not a California resident, consult with the admissions office at the university campus(es) that you’re interested in for specific admission requirements. In all cases, however, nonresidents must have a grade-point average of 2.8 or higher in all transferable college coursework.

Be aware that many campuses use criteria that exceed these minimum requirements to select students for admission. For nonresident admission information, you are advised to consult frequently with a counselor and/or read university catalog and university websites or contact the admissions office at the appropriate university.

**Priority Application Filing Period**
Students are encouraged to apply during the following application periods:

<table>

While all campuses accept students for fall admission, many do not accept for spring or winter. Consult a counselor for details about a specific campus.
2016–2017 Foothill College General Education & Graduation Requirements

The Foothill College general education (GE) pattern is designed to ensure that the student meets the four institutional/general education student learning outcomes:

1. **Communication:** Demonstrate analytical reading and writing skills, including evaluation, synthesis and research; deliver focused and coherent presentations; and demonstrate active, discerning listening and speaking skills in lectures and discussions.

2. **Computation:** Demonstrate complex problem-solving skills, technology skills, computer proficiency and decision analysis through synthesis and evaluation; apply mathematical concepts and reasoning; and analyze and use numerical data.

3. **Creative, Critical & Analytical Thinking:** Demonstrate judgment, decision-making skills and intellectual curiosity; demonstrate problem-solving skills through analysis, synthesis and evaluation; develop creativity and aesthetic awareness; conduct research methodology; and identify and respond to a variety of learning styles and strategies.

4. **Community/Global Consciousness & Responsibility:** Demonstrate social perceptiveness, including citizenship, community service, cultural awareness, empathy, ethics, interpersonal skills, personal integrity, respect, self-esteem and sensitivity; and exhibit interest in and pursuit of lifelong learning.

Completion of the Foothill College general education pattern requires that students successfully earn a minimum of 30 units from the courses listed on pages 78-79 with at least one course in humanities, English, natural sciences (with laboratory), social and behavioral sciences, communication and analytical thinking, United States cultures and communities, and two courses in lifelong learning from two different academic departments. Courses may only be used in one area.

It is imperative to note that the Foothill College general education pattern is only appropriate for students pursuing the Foothill College associate in arts or associate in science degree. However, it is not appropriate for students pursuing an A.A.–T or A.S.–T degree. Students planning to earn an A.A.–T or A.S.–T must complete either the IGETC or CSU GE Breadth general education pattern. Note that completion of the IGETC or CSU GE Breadth pattern may also be used to satisfy the general education requirements for the Foothill A.A./A.S. degree. Because there are significant differences between the three patterns, the student is strongly advised to meet with a counselor to determine which pattern will best meet the student’s goals.
VII. LIFELONG LEARNING

The student must successfully complete a total of four units or more in lifelong learning from two different academic departments. For the purpose of this area, ATHL, DANC, PHDA and PHED will be considered one academic department.

Minimum proficiency: ENGL 1A or 1AH or 1S and 1T or ESLL 26; MATH 17 or 105 or 108 completed with a letter grade of C or better.

*Intermediate algebra or equivalent means MATH 105 or mathematics placement test score indicating eligibility for a mathematics course beyond the level of MATH 105, or completion of a higher-level course with a grade of C or better, or completion of a bachelor’s degree or higher from an accredited U.S. college or university.

Effective Summer Session 2016
IGETC is a pattern of Foothill College courses that fulfills lower-division general education requirements for transfer to California State University (CSU) and University of California (UC). IGETC is an alternative to the CSU and local UC General Education Breadth Requirements. Many private universities also recognize IGETC for fulfillment of general education requirements. IGETC is a good option for the student who intends to transfer but is undecided about a major and/or unsure about attending CSU or UC. Some majors require extensive lower-division preparation, therefore, IGETC may not be the best choice for general education. Some universities do not accept IGETC. Always consult a counselor when developing an educational plan.

Course requirements for all areas of IGETC must be completed with a grade of C or better and certified by Foothill College for university credit. Submit a request for IGETC certification at the Counseling Center or Admissions Office. For updated information, consult your counselor or visit assist.org. Completion of IGETC requirements also qualifies students for a Foothill College Certificate of Achievement in Transfer Studies.

Course Numbering System

Course Listings
The following course numbering system provides a detailed explanation regarding course number designations. When in doubt about the transferability of a course, always consult a counselor. Students are responsible for reviewing prerequisites and repeatability as noted in course descriptions. Where there is a conflict between the catalog statements and published curriculum sheets, the latter will take precedence. New courses and programs may be added throughout the year. For more information, access the online catalog at foothill.edu.

A degree-applicable credit course is a course that has been designated as appropriate to Foothill College degrees, which has been recommended by the College Curriculum Committee and approved by the district governing board as a collegiate course meeting the needs of students.

- Courses numbered 1–49 are typically approved for transfer to the University of California (UC)*.
- Courses numbered 1–99 are typically transferable to the California State University (CSU)*.
- Courses numbered 100 and above are typically not transferable*.
- Courses numbered 200–299 are non-degree-applicable and include prerequisites for required courses that lead to the associate degree.
- Courses numbered 300–399 are upper division courses for the Foothill baccalaureate degree program**.
- Courses numbered 400–499 are non-credit, adaptive learning, or other areas that do not apply to the associate degree.
- Community services courses are fee-based, and are scheduled and publicized separately from the state-supported courses identified in this catalog.

* There are some exceptions to this rule; therefore, students should consult with a counselor and/or access ASSIST.org to verify course transferability.

**Prior to the 2016-17 academic year, courses numbered 300–399 were workshop, review and other courses offered to meet special collegiate needs of a community nature.

Parking Regulations

The Foothill-De Anza District Police Department supervises on-campus parking and traffic. The following rules and regulations apply to all students, staff and public. You can find a complete list of college parking and traffic regulations in the Admissions & Records Office (Room 8101) and District Police Department, (Room 2013).

- The speed limit in campus parking lots and access ways is 5 miles per hour. The speed limit of 20 miles per hour is posted on all roadways and is strictly enforced.
- Except in areas with 30-minute parking meters, all vehicles must display a valid parking permit to park on campus. Failure to display a permit will result in a citation.
- A parking permit is required from 7 a.m. to 10 p.m. seven days a week at the Foothill College Main Campus. This requirement is enforced.
- Overnight parking is prohibited.
- Day-use parking permits are $3 and are valid for the date of purchase only. Purchase from permit dispensers in all student parking lots. Purchase quarterly or annual permits from the Admissions & Records Office.
- All vehicles must properly display a valid parking permit. Students are authorized to park in marked stalls in student lots only. Students may not park in stalls marked for disabled, staff, vendors, official vehicles or park in roadways, dirt areas or along parking lot curbing. People with disabilities are required to display state-issued identification on their vehicles or, in the event of temporary disabilities, obtain permits from the Disability Resource Center, Room 5401; or call 650.949.7017.
- Staff parking permits are required for all spaces. Staff permits are issued by the District Police Department.
- Special permits will be issued only by the District Police Department. The permit must be displayed on the dashboard or hang on the interior mirror so it can be read from the outside. Special permits are valid only when used within the areas and dates designated on the permit.
- Motor vehicles, bicycles and skateboards are not permitted on the interior portion of campus.
- All vehicles remaining for more than 20 minutes in areas posted for 20-minute maximum will be cited.
- Parking or loitering on campus after 11 p.m. and/or after special activities is prohibited.
- Alcoholic beverages are prohibited on campus.
- For more information, call the District Police Department at 650.949.7313.
