### Popular Summer Classes for High School Grads, University Students & Career-Training Professionals

*See Foothill's Summer Schedule Inside*

Get a college class or two completed in between vacations and beach trips. Foothill's

Summer Session is *the* place to be for recent high school graduates, university students returning home for the break, and career professionals looking to upgrade their skills.

You can choose from a variety of general education, career development and personal enrichment courses. Our faculty is outstanding and our Summer Session is short—most classes last just six to eight weeks.

Inside this edition of *The Heights*, you'll find a convenient listing of Foothill's summer classes. Select the class that interests you, then access [www.foothill.edu](http://www.foothill.edu) for registration instructions and other important information.

Recent high school graduates can jump start their college experience by enrolling in Foothill's one-unit *CNSL 50: Introduction to College* course. Most *CNSL 50* courses run just one week, and are offered mornings, afternoons, evenings and online.

Also, university students who are on break can enroll in popular general education classes at Foothill that can be difficult to get into at the university, such as chemistry,

accounting, business, math, political science, speech and many others.

If you're focused on upgrading your career skills, summer is an excellent time to improve your résumé by upgrading your skills in a variety of areas, including business, computer programming, software and Internet technologies, graphic design and art.

Foothill classes offer all the quality of a four-year university at a fraction of the cost. Our classes are \$17 per unit for California residents. To register, access [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7325.

#### **High School Juniors & Seniors** **Start Taking Foothill Classes**

As a high school junior or senior, you're eligible to enroll in Foothill classes.

Foothill has created a new Web site for high school students, with recommended classes and all the information high school students need to enroll at Foothill. Go to [www.foothill.edu/hs](http://www.foothill.edu/hs).

Restrictions do apply. You can enroll in Foothill classes when your parent and high school principal complete a required permission form. Download the form now at [www.foothill.edu/hs](http://www.foothill.edu/hs).

For more information about high school students enrolling in Foothill classes, call (650) 949-7423. To register, access [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7325.

# FOOTHILL COLLEGE

# THE HEIGHTS

Classes Start July 3—An Overview of Summer Session 2006

**MCSA, CCNA, CCNP & CCSP**

## Foothill Is Your Specialty Certification Headquarters

If you're employed in the high-tech industry, you know that having specialty certifications is critical for your paycheck and résumé. Foothill College offers you the classes that are designed to help you complete industry certificates.

Choose from 13 industry certificates at Foothill, including Cisco Networking CCNA, CCNP and CCSP; Microsoft Network Administration MCSA and MCSE; wireless networking CWNA and CWNP; Oracle administration and developer OCP; CompTIA A+ and Security +; Security CISSP; and UNIX and Linux. On average, it takes nine months to complete these certificate programs.

Foothill offers the best technology courses, and the college is a VUE Testing Center. Many certification exams are offered by appointment and at substantial discounts to Foothill students. Learn more about the certificate classes offered at Foothill at [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7221.

## Foothill Student Receives UCSC's Pister Scholarship & \$20,000

Sociology major **Joann Collier**, of San Jose, is the Foothill College recipient of the 2006 Karl S. Pister Leadership Opportunity

Program Award presented by the University of California, Santa Cruz (UCSC). The award includes \$20,000 for tuition and expenses, and qualifies her to participate in the prestigious UCSC Leadership Opportunity Program.

"It was extremely important for me to receive the Pister Scholarship," Collier says. "My family will not be able to help pay for my education, and with my major of sociology—a field of study which does not necessarily guarantee a stable job directly out of university—I could not afford to go into debt during college due to student loans."

Upon completion of a bachelor's degree from UC Santa Cruz, she intends to work for a non-profit, humanitarian aide organization in a developing country.

## Experience Plein Air Landscape Painting Be Inspired by Summer, Surf & Sand

Summer, surf and sand are your inspiration when you register for Foothill's **ART 19AS: Plein Air Landscape Painting** class.

Taught by award-winning artist, landscape painter and designer **Joe Ragey**, the class gives you the opportunity to experience the sensation of painting outdoors in California sunlight. The 1.5-unit class is ideal for artists of all ability levels.

You'll meet on campus and take trips to serene locales. You'll also study works

by *plein air* masters from California's rich heritage of open air and impressionist paintings. To register, access [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7325.

## Developing & Designing Computer Games

### Foothill Offers New Gaming Certificate & DigiPen Workshop

As part of the rollout of Foothill's new 26-unit Video Gaming Skills Certificate Program, the college will host a video game programming workshop presented by the DigiPen Institute of Technology—the leader in interactive simulation software development, computer engineering and production animation.

Workshop participants will receive hands-on experience that underscores the relevance of math, art and computer science in this growing industry. The workshop is \$700 and runs **Aug. 7-18** at Foothill College. To make a reservation, e-mail [Lmobrand@digipen.edu](mailto:Lmobrand@digipen.edu) or call (425) 895-4414.

Foothill will then debut its new 26-unit Video Gaming Skills Certificate Program this fall when classes get underway **Sept. 25**. California residents pay \$17 per unit for Foothill classes.

Designed to prepare you for entry into a rigorous gaming development program at a four-year university, the required courses for the Foothill program include *CIS 55A: Introduction to Games*; *CIS 15A: Computer Science I: C++*; *CIS 15B: Computer Science II: C++*; *CIS 55B: Introduction to Game Design*; *CAST 70D: Three-Dimensional Modeling & Animation*; and *CAST 92A: Introduction to Adobe Photoshop*.

Upon completion of the program, you'll have a comprehensive background of the gaming industry as well as a solid foundation in C++ programming.

For more information about Foothill's Video Gaming Skills Certificate Program, access [www.foothill.edu/ctis](http://www.foothill.edu/ctis) or call (650) 949-7236.

### Foothill President, President Bush & Governor Schwarzenegger Discuss American Competitiveness Initiative

Foothill College President **Bernadine Chuck Fong, Ph.D.**, participated in the American Competitiveness Initiative panel discussion along with **President George W. Bush**, California **Governor Arnold Schwarzenegger** and Cisco Systems CEO **John Chambers** April 20. The group discussed the vital role U.S. community colleges fill in training more students for high-wage, high-demand careers in science and technology.

Dr. Fong was invited to the panel because Foothill College is a powerhouse among community colleges in preparing students for science and technology careers. Under the leadership of Computer Networking Instructor **Mike Murphy**, Foothill also has the largest Cisco Network Technology Academy in the Bay Area—more than 520 students have enrolled in the innovative program. Foothill faculty and college leaders see improving students' science and math success rates as a top priority for Silicon Valley.

"The community college system is one of America's greatest treasures, and I appreciate you, Dr. Fong, for being here," President Bush said. "Added value in education can come in all different ways. And one such place is in our community college system. You've got a great community college system here in California."

During the discussion, President Bush asked Dr. Fong to explain how the Cisco Academy works at Foothill College. "The Cisco Academy is basically a degree program. Students earn Foothill's associate degree in network enterprise, and they earn a Cisco certificate," Dr. Fong said.

"What's interesting about the community colleges is that they're about as market oriented as you can get," President Bush said. "Community colleges are available, they're flexible. The curricula can adjust depending upon local needs. They're innovative. They're willing to take a Cisco program, implement it in the community college. They're practical and they train people for jobs which actually exist."

Gov. Schwarzenegger, himself a product of the California community colleges who attended courses at Santa Monica College, said "California's community colleges are doing an extraordinary job with career and vocational education. We want to stress four-year college, and yes, we want to inspire students of all ages to pursue higher education."

From left Foothill College President Bernadine Chuck Fong, Ph.D., California Gov. Arnold Schwarzenegger and President George W. Bush discuss the American Competitiveness Initiative at a panel discussion hosted by Cisco Systems CEO John Chambers in San Jose April 20. Photo: Paul Sakuma, Associated Press

## For Authors of All Ability Levels

### 30<sup>th</sup> Annual Foothill Writers Conference

Authors of all ability levels can read, write and review poems and prose, fiction and non-fiction by registering for the 30<sup>th</sup> Annual Foothill College Writers Conference. The event is **July 7-11** and features intensive daily workshops, lectures and seminars.

Small group interaction is emphasized in the popular manuscript workshops, and gives participants the rare opportunity to have their creative pieces critiqued by professional and amateur authors. Also, prose and poetry readings are presented daily at **noon and 7 p.m.** Conference seminars cover a range of topics such as *Looking into the Story to Find the Story*, *Great Poems Imitating the Masters*, *Autobiography of the Soul*, *Ten Tips to Double Your Writing Power*, *Navigating the Imagination through the Interior Monologue*, and *Finding Voice & Point of View*.

Guest presenters include Bay Area literati **Samina Ali, Ellen Bass, Dan Bellm, Denny Berthiaume, Alan Cheuse, Steve Correll, James Cushing, Sharon Doubiago, Michael C. Ford, Uri Hertz, Jack Hirschman, L.D. Janakos, Dorianne Laux, Carol Lem, Leo Litwak, Joseph Millar, Valerie Miner, Tom Parker, Ralph Salisbury, Ingrid Wendts and Cecilia Wolloch** as well as Foothill College creative writing faculty members **Lesley Dauer, Linda Janakos, Doren Robbins, Floyd Salas, Marianne Villanueva and Kim Silveira Wolterbeek**.

The conference is offered as a one-unit course. California residents pay \$17 per unit plus applicable fees for Foothill courses. Participants are encouraged to register online in advance for the *CRWR 120A: Creative Writers Conference* course at [www.foothill.edu/la/conference.php](http://www.foothill.edu/la/conference.php). Conference seats fill quickly, so register early. On-site registration will also be offered.

For more information, e-mail Conference Coordinator **Doren Robbins** at [robbinsdoren@foothill.edu](mailto:robbinsdoren@foothill.edu) or call **(650) 949-7678**.

## There's Still Time to Apply

### High-Wage, High-Demand Pharmacy Technician Program

Get the training you need to go after a career as a pharmacy technician by applying for Foothill's popular Pharmacy Technician Program. The nine-month certificate program begins in September, and you can use the summer months to take refresher classes in biology, math, communication or technology skills.

"The demand for pharmacy technicians with the right training is strong in the Bay Area and throughout the U.S.," says Foothill Biological & Health Sciences Division Dean **Shirley Treanor Barker**. "This is a career that offers challenging work, competitive salaries, attractive benefits, professional growth and advancement opportunities."

Upon completion of the program, you'll have the training you need to work in a variety of settings, including retail pharmacies, hospitals, home health care, veterinary pharmacies and nursing homes. Foothill also offers an expanded two-year option to earn an associate degree. Foothill's Pharmacy Technician Program is accredited by the American Society of Health System Pharmacists.

To request the program application packet or more information, call **(650) 949-6955** or access [www.foothill.edu](http://www.foothill.edu).

## Accelerated Summer Program

### Earn Foothill's Certificate for Travel Sales Reservationist—Basic

Complete Foothill's Career Certificate for Travel Sales Reservationist—Basic by enrolling in our accelerated summer program. The popular five-week program enables you to complete three airline computer classes. Upon completion of the program, you'll be eligible for the specialty certificate. Courses meet **Monday through Thursday, July 5 through Aug. 3**, and include three consecutive courses.

First, you'll study *TC 64: Air Ticketing—North America* and meet **July 5, 6, 10, 11, 12 and 13 from 9 a.m. to 3 p.m.** Next, you'll review *TC 62A: Creating Travel Reservations—Basic* and meet **July 17, 18, 19, 20, 24 and 25 from 9 a.m. to 5 p.m.** You'll end with *TC 62B: Creating Travel Reservations—Advanced* and meet **July 26, 27, 31, Aug. 1, 2 and 3 from 9 a.m. to 5 p.m.**

Or choose the evening offering of the *TC 64: Air Ticketing* course which meets **Mondays and Wednesdays, July 5–Aug. 5, from 6 to 9:50 p.m.**

For registration information, access [www.foothill.edu](http://www.foothill.edu) or call **(650) 949-7325**.

## Spend Fall in London

Immerse yourself in the history and culture of England and earn 12 college units by participating in the Foothill-De Anza Campus Abroad Program to London, England, this fall. The approximate cost of the program excluding airfare is \$3,500.

As the seat of the British government and the longest surviving monarchy, London is an exciting place in which to live and study. The city is alive with art and culture at its many concert halls, theaters and museums.

Foothill-De Anza faculty will lead the eight-week trip and teach a British life and culture program that focuses on historical, political, economic and cultural aspects of contemporary Britain, including weekly lectures and local field trips. The trip includes excursions to Stratford, Stonehenge, Salisbury and Greenwich.

For an application and brochure, call **(650) 949-7614** or e-mail [TurmelleArt@foothill.edu](mailto:TurmelleArt@foothill.edu).

## Reflect on the Meaning of Life

Philosophy courses help you in your life's journey—and when you transfer to a four-year university. This summer, Foothill offers several philosophy courses, including *PHIL 1: Critical Thinking*, *PHIL 4: Introduction to Philosophy* and *PHIL 8: Ethics*. Or you can take a philosophy course online by enrolling in the four-unit *PHIL 25: Comparative World Religions: West* course.

For registration instructions, access [www.foothill.edu](http://www.foothill.edu) or call **(650) 949-7325**.

## The Knowledge & Skills You Need to Be a Veterinary Assistant Now Available Online

This summer, Foothill debuts its new online Veterinary Assistant Program, a two-quarter certificate program that will prepare you for an entry-level job in animal care-related businesses, including veterinary hospitals.

Enroll in the five-unit *VT 52A: Veterinary Assisting I* course this summer and you'll receive an orientation to the veterinary profession and workplace. You'll study medical terminology; basic animal husbandry, nutrition and behavior; professional communication and ethics;

veterinary receptionist and office practices; and principles of disinfection and sterilization. The course emphasizes working as part of the veterinary health care team, basic animal care, and basic aspects of patient management under direct supervision.

If you're interested in continuing your studies and becoming a registered veterinary technician, the new online program is also excellent preparation for Foothill's two-year Veterinary Technology Associate Degree Program.

The *VT 52A* course is offered online and may be taken as a stand-alone class or combined with the five-unit *VT 52B: Veterinary Assisting II* and the clinical preceptorship courses to earn the Foothill Veterinary Assisting Program Certificate of Completion.

For registration instructions, access [www.foothill.edu](http://www.foothill.edu) or call **(650) 949-7325**.

**Foothill College Commission presents the**  
**6<sup>th</sup> Annual Summer Musical Gala**  
 Featuring  
 Foothill Musical Theatre's Production  
 of  
**"Annie Get Your Gun"**  
**& A Happy Trails Tribute to**  
**Dr. Bernadine Chuck Fong**  
**Sunday, July 30, 2006**

**\$150 per ticket – Sponsorship tables available**

**1:30 pm – Registration & director's notes at Smithwick Theater**  
**2:00 pm – Matinee performance**  
**4:30 pm – Wine tasting & silent auction**  
**6:00 pm – Alfresco dinner, tribute & live auction**

Including an exciting silent and live auction, and a tribute to Foothill College's president who is retiring after 36 years of exemplary service to the college. Proceeds from the Gala will support the Bernadine Chuck Fong Innovation Fund to continue Bernadine's legacy of excellence and innovation at Foothill College.

Please call the Foothill-De Anza Foundation at **(650) 949-6230** or visit the website at [www.foundation.fhda.edu](http://www.foundation.fhda.edu) to purchase tickets and learn about sponsorship opportunities.

foothillglobalaccess.org

## Foothill Offers More Online Classes Than Any Other Bay Area Community College

Delivered via the Web, Foothill's popular online classes give you innovative and convenient instruction. All Foothill online classes offer college credit and most are transferable to four-year universities.

You can now also complete an entire associate degree online. Earn your Foothill degree in anthropology, economics, e-commerce, general studies/social science, geography, history, psychology or Web programming. Foothill also partners with the University of Illinois and Franklin University to offer you online bachelor's degree programs.

For more online class and degree information, access [www.foothillglobalaccess.org](http://www.foothillglobalaccess.org). For registration instructions, access [www.foothill.edu](http://www.foothill.edu) or call (650) 949-7325.

- Understanding Photographic Expression**  
Develop a solid understanding of this form of expression by enrolling in the three-unit online *PHOT 5: Introduction to Photographic Expression* course. Learn the elements of photographic image-making, including use of light, color and compositional elements.
- Is a Health Care Career Right for You?**  
Enroll in the online three-unit *AHS 200: Orientation to Health Care Careers* course and learn about the health care training programs offered at Foothill, and get an overview of the American health care system.
- Master the Images You Use for the Web**  
Learn to make images for the Web that download fast and maintain sharpness in the three-unit online *COIN 82: Images for the Web* course. Improving digital camera images, basic color correction and enhancing your images by working with leading software applications are emphasized.
- You Can Teach Online**  
If you're an educator considering expanding your skills to teach online enroll in the online two-unit *EDUC 100: Cyber Teachers Institute*. You'll review online learning pedagogy, tools and resources, and teaching and learning strategies for online or hybrid courses.
- Maximize Word Processing Programs**  
Use word processing, spreadsheet, presentation graphics, database and communications software applications in the online four-unit *BUSI 9: Introduction to Business Information Processing* course.

## Krause Center for Innovation Kicks Off \$7.5 Million Endowment Campaign

With the recent gift of \$500,000 from **Bill and Gay Krause**, Foothill College launched a \$7.5 million endowment campaign for its Krause Center for Innovation, to solidify Foothill's future as a regional center for training educators and students in the latest technology.

Gay and Bill Krause

With the goal of keeping Silicon Valley teachers and students technologically competitive in the global marketplace, the KCI trains educators and community members through programs such as FastTech, Learning in New Media Classrooms (LINC) and Earn While You Learn, a summer technology institute for Bay Area K-12 teachers.

"By building a \$7.5 million endowment, we will secure the future of the KCI for generations as a critical resource for technology instruction and integrating technology into the K-12 curriculum," says Gay Krause, KCI executive director. The endowed funds will be used for training grants for teachers, ensuring the KCI has the latest hardware and software and supporting an endowed instructor with leadership in technology training.

Recently, Silicon Valley leaders such as Morgan Family Foundation President **Becky Morgan** and **Ned and Jimi Barnholt**, met at the KCI to learn more about its innovative programs such as the California Multimedia Festival and the Rambus/KCI Technology Innovation Award. During the meeting, Gay and Bill Krause announced their pledge of \$500,000, which brings the total in hand to \$1.5 million. They encouraged area philanthropists to join them in transforming classroom teaching to better prepare students for careers in technology and the sciences. "We recognize our educators are the key to building a better future for Silicon Valley" Krause says. "We also know that visionary donors understand the crucial role the KCI plays in helping teachers and students stay current with technology."

To contribute to the KCI Endowment Campaign or for more information on the KCI and its programs, call Gay Krause at (650) 949-7113 or access [www.foothill.edu/kci](http://www.foothill.edu/kci).

FastTech offers high-quality and affordable software and computer training in short, intensive classes. Use a weekday afternoon or Saturday morning to learn new software applications by registering for FastTech classes that meet at the Krause Center for Innovation at Foothill College. FastTech offers a variety of summer courses, including:

Class Name	Class Meets
Photoshop Elements: Beginning	Sat., June 10
Bioinformatics	Sat., June 10
Photoshop Intermediate	Sat. June 17
Podcasting	Sat., June 17 & 24
Intermediate Flash	Sat., June 17 & 24
iLife	Tues. & Wed., June 20 & 21
Photoshop Advanced	Sat., June 24

As a Foothill student, you can also take advantage of the KCI's technology classrooms, digital art gallery, cyber café and the college's largest open-access PC and Mac computer labs.

For registration instructions, access [www.foothill.edu/kci](http://www.foothill.edu/kci) or call (650) 949-7498.

## Foothill Students & Community Members Dive into Aegean Sea to Explore Ancient Volcano with Famed Oceanographer Robert Ballard

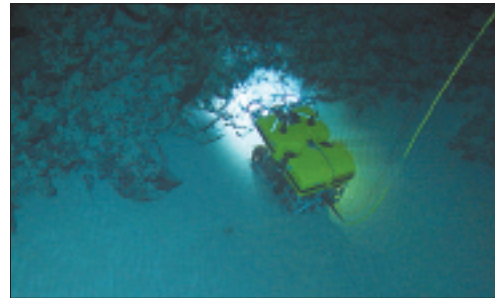

Foothill College recently hosted live broadcasts from the Aegean Sea floor and Thera volcano as one of the sites selected to present **Robert Ballard's** Ancient Eruptions project, which is organized by Immersion Presents. For five days, Foothill students and community members had front row seats as Ballard and other scientists explored the volcano's origins on the Greek island of Thera (Santorini) using an underwater robot equipped with high-definition cameras and "arms" delicate enough to pick up geologic samples.

Using ground-breaking robotic and communication technologies, Foothill audiences participated in the expedition virtually—seeing everything the expedition scientists saw in real time, broadcast from unmanned submarines. Students enrolled in Foothill's geology and

oceanography classes viewed the expedition and had voice contact to ask questions of the researchers. This innovative method of instruction will be an ongoing addition to Foothill's *GEO 10:*

*Introductory Geoscience* and *OCEAN 10: General Oceanography* classes.
