There's Room for You at Foothill But You Need to Plan & Act Now

Early Is the Key to Hassle-Free Experience in Tight Economic Times

Even though economic times are tough, there's still a place for you at Foothill College, but to take advantage of this, you must plan ahead and act early to ensure that your Fall Quarter gets off to a smooth start.

With statewide budget cuts and other economic pressures, college officials expect more students at Foothill this fall. Because more students will be registering for Foothill classes, you'll need to act early. Use July, August and September to review the online schedule; take placement tests, if necessary; schedule a meeting with a Foothill counselor after you've completed the application process; register for your classes; and take Foothill's one-unit *CNSL 50: Introduction to College* course this summer. Also, be certain to pay your fees within five days of registering to avoid being dropped from classes.

You'll be disappointed if you show up the day before school starts or on day one of classes and expect to get into your first choice of classes, especially those that meet during peak morning hours, and in core classes like math, English, and other courses with traditionally high enrollment.

Start Smart: Take *Introduction to College* Class This Summer

The *CNSL 50* course gives you an orientation to the programs and services that are available to you at Foothill College. You'll also review academic policies and get an overview of California's higher education system, including UC, CSU and private universities. In addition to exploring career programs, university transfer options and guaranteed university admission programs, you'll work with a counselor to design your educational plan so that you take the classes you need to achieve your college and career goals.

Many summer *CNSL 50* classes, which meet for just one week, are offered in late July, throughout August and in early September. Most fall *CNSL 50* courses are self-paced and some are offered entirely online. To review course times, access the online schedule. You may be exempt from the course if you have verifiable proof that you've completed an orientation course at another college, or completed 12 or more college units. For registration instructions, call **(650) 949-7325** or access **www.foothill.edu.**

Follow These Steps to Apply & Register for *CNSL 50*:
1. Complete the free *Application for Admission* at **www.foothill.edu**;
2. Take placement tests for math and English or ESL. Learn more at **www.foothill.edu/placement**;
3. Access the online searchable class schedule at **www.foothill.edu** and register for the *CNSL 50: Orientation to College* class; and
4. Pay your fees within five days of registration or you'll be dropped from classes.

FOOTHILL COLLEGE

The HEIGHTS

Fall Quarter Starts Sept. 21—An Overview of Fall Quarter 2009

Hot Topic, Cool Science
GIS Adds Value to Your Resume

Google Earth, global warming and the latest in-car navigation systems are just a few of the hot topics that maximize the wealth of information that can be mined using geographic information systems (GIS). Now in its 10th year, Foothill's popular GIS Certificate Program has been updated to meet the changing needs of local employers. The program now offers two tracks:
- Geographic Information Systems Career Certificate (21 units), and
- Geographic Information Systems Analyst Certificate of Achievement (36 units).

The career certificate track is ideal for those who want to use GIS as a tool to display and manage spatial data. The certificate of achievement track is specifically designed in response to employer requests for job candidates with a greater computer science and database management background, as well as employee requests for the instruction and skills to build and manage GIS projects.

To begin the program, register for the four-unit *GEOG 12: Introduction to GIS* course. For GIS Program information, access **www.foothill.edu/fac/klenkeit/gis/**. For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Parent & Student Orientation— You're Invited!

New Student Orientation Is Wednesday, Sept. 16
9 a.m. to 1 p.m. in the Smithwick Theatre
- Campus Information
- Campus Life
- Entertainment
- Prizes
- Complimentary Lunch

For information, call **(650) 949-7282.**

Parent Orientation Is Wednesday, Sept. 16
5:30 to 7:30 p.m. in Room 1501

For Parents of New & Prospective Students
For information, call **(650) 949-7511.** *If you require special accommodations, call (650) 949-7038, voice; (650) 948-6025, TDD.*

Free Non-Credit Course
Bridge to College for Non-Native Speakers of English

Foothill College now offers a free class to support you as you transition from high-level English as a Second Language (ESL) classes taught at adult education centers into college-level ESL courses. Register for the *NCEL 400: Bridge to College* class, which meets **Tuesdays and Thursdays, Sept. 22 through Dec. 11, from 6 to 8:30 p.m.** at the Foothill College Middlefield Campus in Palo Alto.

You'll focus on assessment and communication skills, career exploration, basic digital literacy to access Internet information resources, and examine Foothill College student support services.

Prior to enrolling in *NCEL 400,* Foothill strongly recommends that you have completed an adult education ESL course sequence or scored above 247 on the CASAS Level C Reading Test.

For more information, call **(650) 949-6973.** For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Training for High-Wage, High-Demand Careers
Check Out Your Career Options at Free Health Career Programs Preview Night Oct. 21

If the economy and your wallet have you rethinking your career choices, check out the options Foothill offers you in our award-winning high-wage, high-demand health care career programs. With outstanding instruction, expert faculty and state-of-the-art facilities, Foothill's career training programs can be the start of a rewarding career for you and your family. See for yourself by attending our free **Health Career Programs Preview Night Wednesday, Oct. 21, from 5:30 to 7 p.m.** and learn more about these exciting programs:
- Biotechnology
- Dental Assisting
- Dental Hygiene
- Emergency Medical Technician
- Paramedic
- Pharmacy Technology
- Radiologic Technology
- Respiratory Therapy
- Veterinary Technology

Meet one to one with program faculty and students; tour our leading-edge facilities; learn more about program requirements, application process, admissions and financial aid; and get answers to your questions. Preview Night begins in the Library Quad.

For more information, e-mail **WestKerry@foothill.edu** or call **(650) 949-7538.**

Find Out at Foothill College
Is a Career in Biotechnology Right for You?

You're interested in science, like working with a team to solve problems and are good with your hands, so a career in the rapidly growing field of biotechnology might be right for you.

Biotechnology is the use of living organisms, their products or processes to benefit medicine, agriculture and the environment. Its impact is diverse, far-reaching and is a major growth industry in California.

Foothill College has been a leader in biotechnology education and training for more than 15 years. Our lab-intensive curriculum offers you the hands-on experience necessary to master the skills and techniques required to work in any lab setting. Foothill's new laboratory space is equipped with the same instruments you'll find in a professional laboratory, which gives you the confidence required to succeed in the industry. Our new and improved set of certificate offerings expands on this expertise and provides you with more flexibility in reaching your career goals. Whether you have three months, nine months, or two years, Foothill has a certificate program for you.

Learn more about Foothill's biotechnology certificates at **www.foothill.edu/bio/programs/biotech** or call **(650) 949-7538.** For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Professions Helping People
Adaptive Fitness Therapy & Special Education Programs

Find a rewarding career working with persons with disabilities or older adults when you complete the fundamental training you'll need as a qualified provider in the adaptive fitness therapy or special education professions. Foothill offers both of these training programs, which include the comprehensive study of working with people with disabilities and with older adults.

Foothill's Adaptive Fitness Therapy associate degree and certificate programs are designed for individuals who are planning a career in education, rehabilitation, and health and fitness settings.

The Special Education Program allows you to develop the skills for a rewarding career as a paraprofessional in work settings such as rehabilitation facilities, schools, human service organizations, community centers, after-school programs or care-giving facilities. You can choose to earn the program's associate in arts degree, paraprofessional certificate or continuing education credits.

For more program information, access **www.foothill.edu/al**. For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Thank You Rotary Club of Palo Alto & Palo Alto Weekly Holiday Fund
Visionary Donors Make College More Affordable for Foothill Students

The more than 500 students who participate in Extended Opportunity Programs & Services (EOPS) at Foothill College have had one of the most expensive costs of a college education—course textbooks—funded by two visionary community groups.

Foothill's EOPS Book Service Program recently received $15,000 from the **Rotary Club of Palo Alto** and $7,500 from the **Palo Alto Weekly** Holiday Fund. The contributions have been used to purchase college textbooks for students who are enrolled in Foothill classes, and who would otherwise be unable to afford the textbooks that are required for college

courses. Many donors were surprised to learn that a single book for just one class can cost as much as $175.

EOPS is a state-funded student support program that serves a highly diverse population of financially and educationally disadvantaged college students. The program's goal is to provide eligible students access to the support services required to successfully complete a program of higher education. Learn more about the variety of donor opportunities available at Foothill College by calling the Foothill-De Anza Foundation at **(650) 949-6232** or accessing **foundation.fhda.edu**.

Convenient Locations, Days & Times
Child Development Program Offers You a Variety of Choices

Applauded for its outstanding instruction and comprehensive professional degrees and certificates, Foothill's Child Development Program is a community favorite for offering a variety of courses at convenient locations, days and times.

This fall, the popular program will offer a total of 17 courses at the Foothill Main Campus in Los Altos Hills, Middlefield Campus in Palo Alto, and Stratford School in Palo Alto. All of the classes will help you fulfill California's requirements for working with young children in a preschool or child-care setting.

In addition to its in-person courses, the program will present its first online course this fall. The four-unit *CHLD 68Z: Building a Collaborative Learning Community* online course will help you develop a deeper understanding of the power of learning collaboratively with children, families and colleagues.

In addition to offering the Associate in Arts Degree in Child Development, Foothill's program includes several professional certificates, including Infant Toddler Development, Early Childhood Education, School-Age Child Care, and Inclusion and Children with Special Needs certificates of achievement; Child Development Teacher Certificate of Proficiency; and Program Supervision & Mentoring Certificate.

For more program information, access **www.foothill.edu/bss/childdevelopment**. For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Public Invited; Conference Fee Is Just $50
Foothill Hosts Regional Child Development Conference Oct. 24

The Foothill College Child Development Department presents the third annual Painting the Future: Building Community in Early Child Care & Education Conference **Saturday, Oct. 24, from 8 a.m. to 4:30 p.m.** at Foothill College in Los Altos Hills. Designed especially for early childhood educators and parents, registration for the all-day event is $50, which includes the general session presentation by "The Ooey Gooey Lady" **Lisa Murphy,** your choice of three workshops, lunch, snack and parking.

The conference features more than 35 workshops on topics such as guiding children toward healthy expressions of needs and emotions; the role of parents and teachers as effective educators; non-violent communication, active communication and conflict resolution; music and movement activities; special needs referral process; starting a home-based preschool; and many others.

For conference information and registration procedures, access **www.foothill.fhda.edu/bss/childdevelopment/** or call **(650) 949-6962**. You can also register for the conference at **www.ticketweb.com**.

FASTtech

Invest a Saturday & Get a Solid Return

Give us six hours on a Satuday this fall, and we'll give you a variety of benefits, including technology skills for your career; college credits; experienced, professional instructors; access to the latest technology; a comfortable place to learn; and low-cost, hands-on training with an educational focus.

FastTech Fall Courses

LINC 58A01W	ePortfolios—create a body of work in an online environment

Examine the Influence on American Society
New Popular Culture Certificate Program

Foothill College debuts its Certificate of Completion in Popular Culture this fall. Designed as an interdisciplinary program that affords you the opportunity to explore both the context and influence of popular culture on American society, the 16-unit program includes the *FA 1: Introduction to Popular Culture; FA 2: Popular Culture in the 20th & 21st Century American History; SOC 8: Popular Culture;* and a final choice from 10 other exciting Foothill classes. The certificate is an excellent opportunity for professional development and program courses are transferable to UC and CSU campus.

Artifacts of popular culture such as advertising, technology, music, film, television and sports will be critically examined from multiple perspectives.

For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Fall Fitness
Work Out When You Want

Swim, hike, run, walk, golf, dance, play tennis, stretch in Pilates and yoga, weight train or find another fun-filled physical activity among the many 12-week courses offered at Foothill College.

You're sure to find a Foothill class that's fun, healthy and right for you by reviewing the diverse course listings of physical education and dance classes in the online schedule.

Foothill also offers you the opportunity to work out in the Foothill Fitness Center at your own pace under the supervision of an instructor who will help you achieve your fitness goals when you enroll in the one-unit *PHED 45: Lifetime Wellness* course. The center is open **Mondays through Thursdays, from 6:30 a.m. to 7:30 p.m.; Fridays, from 8 a.m. to 7:30 p.m.;** and **Saturdays, 8 a.m. to 2 p.m.**

For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

A Variety of Classes for Every Interest
Foothill Means Business

Whether you're completing a degree, building your resume or looking to advance to the next level in your career, Foothill offers you a variety of business classes to keep you current and competitive. Business courses are ideal for full- and part-time working adults as well as college students. The following courses featuring hot topics will be offered this fall:

- *BUSI 18: Business Law* is an introduction to legal regulations that apply to business and professionals. Examine California law applicable to contracts, negligence and the Uniform Commercial Code.
- *BUSI 22: Principles of Business* examines the functions and strategies of business objectives and operations. You'll study corporate and small business managerial decision-making processes and their relationship to consumers and shareholders.
- The *BUSI 53: Survey of International Business* and *BUSI 95E: Small Business Start-Up Import-Export* courses are designed to help you compete in the international business environment.
- *BUSI 59: Principles of Marketing* can increase your business by helping you take advantage of cost-effective advertising products. Learn how to incorporate Google AdWords and other Internet analytics into your business portfolio.
- Taught by successful venture capitalist and Instructor **Ben Dubin, M.B.A.,** of Harvard University, the *BUSI 95: Entrepreneurship—Small Business Management* class gives you the tools and instruction you need to write an effective business plan and manage a small business.

For more information, access **www.foothill.edu/bss**. For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Day & Evening Classes
Be Your Own Guitar Hero

Be your own guitar hero by enrolling in the two-unit *MUS 15A: Beginning Folk Guitar* course offered at both the Main Campus in Los Altos Hills and Middlefield Campus in Palo Alto this fall.

You'll use contemporary folk-rock and traditional songs to develop right- and left-hand techniques. You can also play popular vocal or instrumental selections as you learn standard music notation, tablature and chord symbols.

For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

New Course
CCNA Security Class Broadens Your Skill Sets

Learn to use and apply information communication technology in Foothill's *CNET 54E: Cisco Certified Network Associate (CCNA) Security* course, which debuts this fall. The new five-unit course is designed for students who are pursuing entry-level security specialist skills.

In addition to classroom assignments, you'll get hands-on laboratory experience, all of which are designed to help you develop an understanding of and the skills necessary to design and support network security. Significant hands-on interaction with information technology equipment in lab assignments will help prepare you for certification exams and job opportunities.

For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

Culture Matters
Get Started on a Socially Responsible Profession

You can make a difference in your community and earn a living in a socially responsible profession by pursuing a career in anthropology. This fall, Foothill College offers new courses in medical anthropology and physical anthropology laboratory practices with a strong forensic component, and opens its new Center for Applied Anthropology, a facility that links students who are studying anthropology with the professional world.

By taking advantage of the center's unique job-shadowing program, you'll have the opportunity to apply lectures and lab assignments to real-world, hands-on experiences. You'll also be introduced to practical anthropology, including technical survey methods and laboratory equipment; field classes in archaeology methods at local sites in the region; survey classes working with ground-penetrating radar as well as basic computer mapping; and lab classes working with the latest in forensics and analytical technology, including a new mass spectrometer donated to Foothill College by **Agilent Technologies.**

In addition to participating in a professional internship, Foothill's program gives you the opportunity to earn certificates in archaeology, medical anthropology, cultural anthropology and physical anthropology as well as an associate degree in anthropology.

Learn more at **www.foothill.edu/bss/anthropology**. For registration instructions, call **(650) 949-7325** or access **www.foothill.edu**.

foothillglobalaccess.org

Foothill Offers More Online Classes Than Any Other Bay Area Community College

New Course
Information Storage Management

Get a comprehensive introduction to storage technology, including storage area networks, by enrolling in Foothill's five-unit *CNET 53F: Information Storage Management* class this fall.

By studying the architectures, features and benefits of intelligent storage systems, you'll learn how to make informed decisions for the selection and implementation of storage systems in a complex IT environment. You'll also examine networked storage technologies, long-term archiving solutions, information security, and the emerging field of storage virtualization technologies.

For registration instructions, call **(650) 949-7325** or access **www.foothill.edu.**
