# Monday, June 7 | 8am–3pm | Library Quad

Come to check people out and get checked out at

Foothill College's second annual Human Library!

At the Human Library, instead of checking out books, you check out people and chat with them about their stories, one to one, breaking down prejudice and stereotypes. Find out more at [humanlibrary.org](http://humanlibrary.org).

Come for the  
event, stay for the  
food trucks!

Bacon Bacon SF

## Featured Speaker

At noon, our featured book celebrated queer photographer, JoSon, will lead us through his life in pictures, touching on his intersecting identities--queer, community college grad of African-American and Vietnamese descent.

## Be a Book

What's the story you want to tell? Are you ready to be a book? For the event to succeed, we need readers, but more importantly we need "books" to share their stories. This is where you come in. We are looking for people with interesting stories and diverse experiences to sign up for one or more hour-long slots as human books. Just follow the link, answer a few questions and you're in!
